

November 30, 1970

Mr. J. J. Kocian
Manager of Pipelines
Union Carbide Corporation
1200 Travis, Suite 912
Houston, Texas 77002

Dear Mr. Kocian:

This is in reply to your letter of November 5, 1970, regarding applicability of 49 CFR, Part 192 to pipelines carrying ethylene.

It is our interpretation based on the information provided in your letter that the pipelines concerned are governed by the liquid line regulation, 49 CFR, Part 195, a copy of which is enclosed for your information. There are no requirements for odorization in this regulation.

If, after you consider the applicable provisions of 49 CFR, Part 195, you have further questions do not hesitate to ask.

Sincerely,

Joseph C. Caldwell
Director, Acting
Office of Pipeline Safety

Enclosure
