APR 29 1991

DOT-E 10584

1. National Compressed Steel Corporation, Kansas City, Kansas is hereby granted an emergency exemption from certain provisions of this Department's Hazardous Materials Regulations to offer for transportation in commerce a package prescribed herein containing the hazardous material described in paragraph 3 below subject to the limitations and special requirements specified herein. This exemption authorizes the one-time-only transportation of a shipment of scrap steel, contaminated with a small amount of radioactive material, contained in a gondola rail car without regard to specification packaging, marking, labeling, placarding and certain shipping paper requirements, and provides no relief from any regulations other than as specifically stated.
2. BASIS. This emergency exemption is based on National Compressed Steel Corporation's application of April 23, 1991, submitted in accordance with 49 CFR 107.113, and a determination that it is necessary for protection of life and property.
3. HAZARDOUS MATERIALS (Descriptor and class). Scrap metal with a small quantity of unknown radioactive material, classed as radioactive material.
4. PROPER SHIPPING NAME (49 CFR 172.101). Radioactive material, n.o.s.
5. REGULATION AFFECTED. 49 CFR Part 107, Appendix B to Subpart B, Paragraph (1); 49 CFR 172.203(d), Subparts D, E, F, and G of Part 172.
6. MODES OF TRANSPORTATION AUTHORIZED. Rail freight.
7. SAFETY CONTROL MEASURES.
 - a. Packaging prescribed is a gondola rail car (KCS 802557).
 - b. The radioactive material is not readily dispersable, eliminating the need for additional containment.
 - c. The State of Kansas Division of Radiological Health (913-296-1561) shall be notified in advance to allow for monitoring of the shipment while being off-loaded at destination.

8. SPECIAL PROVISIONS.

a. Shipment must be between the Armco facility in Kansas City, Missouri, and National Compressed Steel Corporation, Kansas City, Kansas using the most direct route available via the Kansas City Southern Railway Company, a distance of approximately 8 miles.

b. The marking, labeling, placarding, and emergency communication requirements of Subparts D, E, F, and G of 49 CFR Part 172 are waived.

c. The additional shipping paper requirements for radioactive materials in 49 CFR 172.203 (d) are waived except for the hazardous material descriptive entry, "Radioactive material, n.o.s., UN 2982, scrap metal with a small amount of radioactive material, DOT-E 10584. The radiation levels outside the gondola car are of no radiological concern as determined by officials of the State of Missouri and the United States Department of Transportation."

d. The package marking requirement specified in Appendix B to Subpart B of 49 CFR Part 107, paragraph (1) is waived. The other provisions of this Appendix must be met.

e. The Federal Railroad Administration (FRA) is to be notified if any unusual incident occurs, such as a derailment, during the movement by contacting the:

Federal Railroad Administration
Office of Safety, RRS-12
400 Seventh Street S.W.
Washington D.C. 20590
(202) 366-9178 or 366-0549

9. REPORTING REQUIREMENTS. In addition to the reporting requirements of 49 CFR 171.15, any abnormal occurrence in transportation must be reported to the Associate Administrator for Hazardous Materials Safety as soon as practicable.

10. EXPIRATION DATE. June 30, 1991.

Issued at Washington, D.C.

Alan L. Roberts
Associate Administrator
for Hazardous Materials Safety
