of Transportation

**Pipeline and Hazardous
Materials Safety Administration**

July 31, 2019

East Building, PHH-30
1200 New Jersey Avenue S.E.
Washington, D.C. 20590

DOT-SP 20426
(FIRST REVISION)

EXPIRATION DATE: 2023-07-31

(FOR RENEWAL, SEE 49 CFR § 107.109)

1. GRANTEE: Energysys Advanced Systems Inc.
Horsham, PA
2. PURPOSE AND LIMITATION:
 - a. This special permit authorizes the transportation in commerce of lithium metal cells that are of a type not proven to meet the requirements of the UN Manual of Tests and Criteria. This special permit provides no relief from the Hazardous Materials Regulations (HMR) other than as specifically stated herein. The most recent revision supersedes all previous revisions.
 - b. The safety analyses performed in the development of this special permit only considered the hazards and risks associated with the transportation in commerce.
 - c. No party status will be granted to this special permit.
 - d. This special permit serves as an "approval" as defined in 49 CFR 171.8, and as an "exemption" as defined in 1;3.1.1 of the ICAO TI. The most recent revision supersedes all previous revisions.
3. REGULATORY SYSTEM AFFECTED: 49 CFR Parts 106, 107 and 171-180.
4. REGULATIONS FROM WHICH EXEMPTED: 49 CFR § 173.185(a)(1) in that the cells are not of a type tested in accordance with the UN Manual of Tests and Criteria.

Tracking Number: 2019074302

July 31, 2019

5. BASIS: This special permit is based on the application of Enersys Advanced Systems, Inc. dated July 3, 2019, submitted in accordance with § 107.109.
6. HAZARDOUS MATERIALS (49 CFR 172.101):

Hazardous Materials Description			
Proper Shipping Name	Hazard Class/ Division	Identi- fication Number	Packing Group
Lithium metal batteries	9	UN3090	N/A

7. SAFETY CONTROL MEASURES:

- a. Safety Controls:

(1) The G3207A1 lithium metal (reserve) cell, used for military applications for the Department of Defense (DOD) and Allied Governments, is a hermetically sealed, stainless steel container with no voltage, due to the fact that the lithium metal and electrolyte are stored separately inside the same housing, therefore not all of the UN tests are appropriate for this type of cell. The cell is designed to generate the following capacity when activated by external means (i.e., mechanical, g force or electrical power) at user location.

(i) Voltage (V): 2.0 to 3.8

(ii) Current (mA): 50

(iii) Capacity (mAh): 5.2

(2) This Special Permit is only valid for transportation of reserve cells which contain lithium metal and electrolyte in separate chambers in the non-activated state.

July 31, 2019

b. Testing: All G3207A1 lithium metal (reserve) cells must have successfully passed the requirements specified in MIL-STD-331 (Vibration, Extreme Temperature Storage and Drop Tests) as specified in the application dated February 27, 2017 and on file with the Office of Hazardous Materials Safety Approvals and Permits Division.

c. Packaging: The prescribed packaging for transporting the G3207A1 lithium metal (reserve) cells are described below:

(1) Inner Packaging: Tray containing not more than 100 cells

(2) Intermediate Packaging: UN 4G fiberboard box containing not more than ten (10) inner packagings.

(3) Outer Packaging: UN 4G corrugated fiberboard box that meets the Packing Group II performance criteria and contains not more than one (1) intermediate packaging surrounded by cushioning material and sealed with reinforced tape.

(4) The gross weight of the package may not exceed 35 kg.

d. Marking Requirements: Each package, and overpack if used, prepared under the provisions of this Special Permit must be plainly marked with the permit number: DOT-SP 20426.

8. SPECIAL PROVISIONS:

a. Under the terms of this special permit, the holder may only offer hazardous materials (i.e., the approval holder is not authorized as a carrier).

b. A person who is not a holder of this special permit who receives a package covered by this special permit may reoffer it for transportation provided no modification or change is made to the package or its contents and it is reoffered for transportation in conformance with this special permit and the HMR.

c. A current copy of this special permit must be maintained and made available at each facility where the package is offered or reoffered for transportation.

July 31, 2019

- d. This special permit in no way affects the need to obtain any required authorizations from other agencies of the United States Government or from the competent authorities of countries of origin, transit and destination.
- e. The special permit holder must maintain a record of all activity conducted under the authority granted in this special permit.
- f. The record must contain a complete listing and number of shipments made to include:
- (1) Dates of Shipment.
 - (2) Description of each type of shipment (to include origination/destination).
- g. All of the above information must be made available upon request to a DOT representative or an enforcement Official.
9. MODES OF TRANSPORTATION AUTHORIZED: Motor vehicle and cargo-only aircraft.
10. MODAL REQUIREMENTS: A current copy of this special permit must be carried aboard each aircraft, or motor vehicle used to transport packages covered by this special permit. The shipper must furnish a copy of this special permit to the air carrier before or at the time the shipment is tendered.
11. COMPLIANCE: Failure by a person to comply with any of the following may result in suspension or revocation of this special permit and penalties prescribed by the Federal hazardous materials transportation law, 49 U.S.C. 5101 et seq:
- o All terms and conditions prescribed in this special permit and the Hazardous Materials Regulations, 49 CFR Parts 171-180.
 - o Persons operating under the terms of this special permit must comply with the security plan requirement in Subpart I of Part 172 of the HMR, when applicable.
 - o Registration required by § 107.601 et seq., when applicable.

July 31, 2019

Each "Hazmat employee", as defined in § 171.8, who performs a function subject to this special permit must receive training on the requirements and conditions of this special permit in addition to the training required by §§ 172.700 through 172.704.

No person may use or apply this special permit, including display of its number, when this special permit has expired or is otherwise no longer in effect.

Under Title VII of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) – "The Hazardous Materials Safety and Security Reauthorization Act of 2005" (Pub. L. 109-59), 119 Stat. 1144 (August 10, 2005), amended the Federal hazardous materials transportation law by changing the term "exemption" to "special permit" and authorizes a special permit to be granted up to two years for new special permits and up to four years for renewals.

12. REPORTING REQUIREMENTS: Shipments or operations conducted under this special permit are subject to the Hazardous Materials Incident Reporting requirements specified in 49 CFR §§ 171.15 – Immediate notice of certain hazardous materials incidents, and 171.16 – Detailed hazardous materials incident reports. In addition, the grantee(s) of this special permit must notify the Associate Administrator for Hazardous Materials Safety, in writing, of any incident involving a package, shipment or operation conducted under terms of this special permit.

Issued in Washington, D.C.:

for William Schoonover

Associate Administrator for Hazardous Materials Safety

Address all inquiries to: Associate Administrator for Hazardous Materials Safety, Pipeline and Hazardous Material Safety Administration, U.S. Department of Transportation, East Building PHH-30, 1200 New Jersey Avenue, Southeast, Washington, D.C. 20590.
