1. **GRANTEE**: Ford Motor Company  
   Dearborn, MI

2. **PURPOSE AND LIMITATION:**
   
   a. This special permit authorizes the transportation in commerce of lithium ion batteries exceeding 35 kg aboard cargo-only aircraft. This special permit provides no relief from the Hazardous Materials Regulations (HMR) or the International Civil Aviation Organization’s Technical Instructions for the Safe Transport of Dangerous Goods by Air (ICAO TI) other than as specifically stated herein. The most recent revision supersedes all previous revisions.

   b. The safety analyses performed in the development of this special permit only considered the hazards and risks associated with the transportation in commerce.

   c. No party status will be granted to this special permit.

   d. This special permit serves as an approval under Special Provision A99 of the ICAO TI and as a “Competent Authority Approval” as defined under 49 CFR 107.1

4. **REGULATIONS FROM WHICH EXEMPTED**: 49 CFR § 172.101 Hazardous Materials Table Column (9B) in that a lithium ion battery may exceed 35 kg when transported by aircraft.

5. **BASIS**: This special permit is based on the application of Ford Motor Company dated June 13, 2023, submitted in accordance with § 107.105 and the public proceeding thereon.
6. **HAZARDOUS MATERIALS (49 CFR 172.101):**

7. **SAFETY CONTROL MEASURES:**

a. **SAFETY CONTROLS:**

(1) Only batteries identified as 3P RWD Battery (Part Number: PJ98-10B759) and 3P AWD Battery (Part Number: PZ98-10B759), which are comprised of cells identified as 10B759 manufactured by Sichuan Contemporary Amperex Technology as outlined in the application dated June 13, 2023, and on file with the Office of Hazardous Materials Safety, may be offered for transportation under the terms of this special permit.

(2) Each battery has a nominal voltage of 347.8 V and a nominal energy rating of 78.2 kWh.

(3) All batteries must be offered for transportation at a state of charge not exceeding 30 percent.

(4) The batteries must be equipped with an effective means of preventing dangerous reverse current flow for cells that are connected in parallel.

(5) Cells and batteries must be protected against short circuiting.

(6) Lithium ion batteries must be packed to prevent accidental activation of the battery.

(7) Cells or batteries that are leaking or liable to rapidly disassemble, dangerously react, produce a flame or a dangerous evolution of heat or a dangerous emission of toxic, corrosive, or flammable gases, or vapors under normal conditions of transport may not be transported under this special permit.

(8) Any changes to the battery or cell from the ones listed above invalidates this special permit.
b. TESTING:

(1) Each cell within the battery must be of a type tested in accordance with the UN Manual of Tests and Criteria, 7th Revised Edition.

(2) Each battery must be of a type tested in accordance with the UN Manual of Tests and Criteria, 7th Revised Edition.

c. PACKAGING:

(1) Inner Packaging: Each battery must be placed in a non-metallic inner packaging that completely encloses the module.

(2) Outer Packaging: Each inner packaging must be placed in a UN 50F reconstituted wood large packaging meeting the performance criteria for Packing Group I; and packed as described in the application on file.

(3) Packages offered for transportation must be in accordance with the requirements in Packing Instruction 974 of the Supplement to the ICAO TI. Additionally, waste lithium battery assemblies and lithium battery assemblies being shipped for recycling or disposal are forbidden from air transport, and lithium battery assemblies must not be packed in the same outer packaging with substances and articles of Class 1 (explosives) other than Division 1.4S, Division 2.1 (flammable gases), Class 3 (flammable liquids), Division 4.1 (flammable solids), or Division 5.1 (oxidizers).

(4) No more than one battery is allowed per package;

(5) The net weight of the battery may not exceed 597.5 kg (1317.262 pounds).

d. MARKING: Each package must be marked with the special permit number DOT-SP 21588 in accordance with § 172.301(c).

8. SPECIAL PROVISIONS:

a. A person who is not a holder of this special permit who receives a package covered by this special permit may reoffer it for transportation provided no modification or change is made to the package or its contents and it is reoffered for transportation in conformance with this special permit, the HMR, and ICAO TI.

b. A current copy of this special permit must be maintained at each facility where the package is offered or reoffered for transportation.
c. This special permit in no way affects the need to obtain any required authorizations from other agencies of the United States Government or from the competent authorities of countries of origin, transit, destination, and the State of the Operator.

d. The grantee must maintain a record of all activity conducted under the authority granted in this special permit and upon request make this information available to DOT representatives or enforcement officials. The record must contain a listing and number of shipments made to include:

   (1) Dates of shipment; and
   (2) Description of each type of shipment.

9. **MODES OF TRANSPORTATION AUTHORIZED**: Cargo-only aircraft.

10. **MODAL REQUIREMENTS**: A current copy of this special permit must be carried aboard each aircraft used to transport packages covered by this special permit. The shipper must furnish a copy of this special permit to the air carrier before or at the time the shipment is tendered.

11. **COMPLIANCE**: Failure by a person to comply with any of the following may result in suspension or revocation of this special permit and penalties prescribed by the Federal hazardous materials transportation law, 49 U.S.C. 5101 et seq:

   o All terms and conditions prescribed in this special permit and the Hazardous Materials Regulations, 49 CFR Parts 171-180.
   
   o Persons operating under the terms of this special permit must comply with the security plan requirement in Subpart I of Part 172 of the HMR, when applicable.
   
   o Registration required by § 107.601 et seq., when applicable.

Each "Hazmat employee", as defined in § 171.8, who performs a function subject to this special permit must receive training on the requirements and conditions of this special permit in addition to the training required by §§ 172.700 through 172.704.

No person may use or apply this special permit, including display of its number, when this special permit has expired or is otherwise no longer in effect.

“exemption” to “special permit” and authorizes a special permit to be granted up to two years for new special permits and up to four years for renewals.

12. REPORTING REQUIREMENTS: Shipments or operations conducted under this special permit are subject to the Hazardous Materials Incident Reporting requirements specified in 49 CFR §§ 171.15 - Immediate notice of certain hazardous materials incidents, and 171.16 - Detailed hazardous materials incident reports. In addition, the grantee(s) of this special permit must notify the Associate Administrator for Hazardous Materials Safety, in writing, of any incident involving a package, shipment or operation conducted under terms of this special permit.

Issued in Washington, D.C.:
