May 7, 1992
DOT-E 7096
(SECOND REVISION)

1. Fike Corporation, Blue Springs, Missouri, is hereby granted an exemption from certain provisions of this Department's Hazardous Materials Regulations to offer packages prescribed herein of a certain nonflammable liquefied compressed gas for transportation in commerce subject to the limitations and special requirements specified herein. This exemption authorizes shipment of named compressed gas in non-DOT specification cylinders, and provides no relief from any regulation other than as specifically stated.

2. BASIS. This exemption is based on Fike Corporation's application dated March 29, 1990 submitted in accordance with 49 CFR 107.105 and the public proceeding thereon.

3. HAZARDOUS MATERIALS (Descriptor and class). Bromotrifluormethane (Freon 1301), classed as nonflammable gas.

6. MODES OF TRANSPORTATION AUTHORIZED. Motor vehicle, rail freight and cargo vessel.

7. SAFETY CONTROL MEASURES.

   a. Packaging prescribed is a non-DOT specification cylinder fabricated in accordance with DOT Specification 48240ET and Fike Metal Products Drawing No. M4153-535 Rev. 0, except as follows:

   § 178.55-2(a) - Welded types only. Brazed constructed not authorized.

   § 178.55-2(c) - Outside diameter must not exceed 5-1/2 inches, length not to exceed 19 inches.
§ 178.55-2(d) - Service pressure must not exceed 450 psig.

§ 178.55-5(a) - Steel must be limited to ASTM A513 Type 5 bearing a heat lot number of T0136.

§ 178.55-8 - Attachments of heads and bottoms by welding only. Circumferential seams may be repaired by welding. Repairs to longitudinal electric resistance weld are not permitted.

§ 178.55-14(e) - Lot size must be 500 cylinders or less.

§ 178.55-18(a) - Leakage test not required. In lieu thereof, test of welds in accordance with § 178.61-17 must be performed.

§ 178.55-19 - Rejected cylinders may be repaired by welding; acceptable cylinders must pass all prescribed tests.

§ 178.55-20(a)(1) - Cylinder must not be marked "DOT-4B240ET" but instead must be marked "DOT-E 7096."

b. The requirements of § 173.301(k) apply.

c. Periodic retest at twice service pressure and reinspection must be performed in accordance with the requirements prescribed for DOT 4B-240ET cylinders in § 173.34.

8. SPECIAL PROVISIONS. A copy of this exemption must be carried ahoard each vessel when transporting the above hazardous material.

9. REPORTING REQUIREMENTS. Any incident involving loss of contents of the package or packaging failure must be reported to the Office of Hazardous Materials Transportation as soon as practicable.

Issued at Washington, D.C.:
