DOT-E 7640 (EXTENSION)
SECOND REVISION April 4, 1990

In accordance with 49 CFR 107.105 of the Department of Transportation (DOT) Hazardous Materials Regulations DOT-E 7640 is hereby extended for the party(ies) listed below by changing the expiration date in paragraph 10 to January 31, 1994. This change is effective from the issue date of this extension. All other terms of the exemption remain unchanged.

This extension applies only to party(ies) listed below based on the application(s) received in accordance with 49 CFR 107.105. This extension constitutes a necessary part of this exemption and must be attached to it.

DOT-E 7640
(SECOND REVISION)

APR 4 1990

1. Mauser Packaging Ltd., New York, New York, is hereby granted an exemption from certain provisions of this Department's Hazardous Materials Regulations to manufacture, mark, and sell the packaging described in paragraph 7 below for use in the transportation of the oxidizer described in paragraph 3 below in commerce subject to the requirements specified herein. This exemption authorizes use of a DOT-34 polyethylene container of 15-gallon capacity for shipment of hydrogen peroxide, 60%, and provides no relief from any regulation other than as specifically stated.

2. BASIS. This exemption is based on Mauser packaging Ltd's application dated February 26, 1990, submitted in accordance with 49 CFR 107.105 and the public proceeding thereon.

3. HAZARDOUS MATERIALS (Descriptor and class). Hydrogen peroxide solution in water, containing not more than 60% hydrogen peroxide by weight and classified as an oxidizer.

4. PROPER SHIPPING NAME (49 CFR 172.101). Hydrogen peroxide solution (over 52% peroxide).

5. REGULATION AFFECTED. 49 CFR 173.266(a); 178.19.

6. MODES OF TRANSPORTATION AUTHORIZED. Motor vehicle, rail freight and cargo vessel.

7. SAFETY CONTROL MEASURES. Packaging prescribed is a DOT Specification 34 reusable molded polyethylene container of 15 U.S. gallons (60 liters) marked (rated) capacity, for use without overpack. Removable head not authorized. Also;

a. In addition to the specification markings required by 49 CFR 178.19-6, containers must be permanently marked "DOT-E 7640."

b. Containers must possess the chemical and physical properties included in letters, dated January 12, 1977 and July 29, 1977, and the test reports and drawings (AM-940.1) submitted to the Office of Hazardous Materials Transportation (OHMT). Any change in design, resin or process methods must be approved by the OHMT.

- c. Containers must have a vented closure (Drawing AM-1076) to prevent accumulation of internal pressure. Head with this closure must be marked "Keep This End Up."
 - d. Reuse of containers must be in accordance with the application requirements of 49 CFR 173.28.
8. SPECIAL PROVISIONS.
- a. Shippers may use the packaging covered by this exemption pursuant to 49 CFR 173.22a.
 - b. A copy of this exemption must be carried aboard each vessel used to transport packages covered by this exemption.
 - c. A copy of this exemption, in its current status, must be maintained at each manufacturing facility at which this packaging is manufactured and must be made available to a DOT representative upon request.
 - d. Each packaging manufactured in accordance with the requirements of this exemption must be marked in a manner which identifies the physical location (city and state) of the facility at which it is manufactured.
9. REPORTING REQUIREMENTS. Any incident involving loss of contents of the package or packaging failure must be reported to the Office of Hazardous Materials as soon as practicable.
10. EXPIRATION DATE. March 31, 1992.
