Mr. Wayne Christian  
Chairman/Railroad Commissioner  
Railroad Commission of Texas  
1701 N. Congress  
Austin, TX 78701

Dear Chairman Christian:

On December 2, 2019, a representative of the U.S. Department of Transportation's Pipeline and Hazardous Materials Safety Administration (PHMSA) conducted an evaluation of Texas' enforcement of its excavation damage prevention law. PHMSA conducted this evaluation pursuant to 49 United States Code § 60114 and 49 Code of Federal Regulations Part 198, Subpart D -- State Damage Prevention Enforcement Programs. Based on this evaluation, PHMSA has determined that the enforcement of Texas' excavation damage prevention law is "adequate."

As you may be aware, excavation damage continues to be a leading cause of pipeline failures, some of which have resulted in fatalities, serious injuries, and environmental damage. Nationwide statistics show that effective enforcement of state damage prevention laws reduces excavation damage and pipeline incidents, resulting in enhanced public safety.

In closing, PHMSA appreciates your dedication to safety and encourages the Railroad Commission of Texas to continue to support several damage prevention outreach initiatives. Should you have any questions regarding this letter, please contact Dr. Christie Murray, our Director of Outreach and Engagement, at (202) 366-4996 or by email at [Christie.Murray@dot.gov](mailto:Christie.Murray@dot.gov).

Sincerely,

Alan K. Mayberry  
Associate Administrator for Pipeline Safety

cc: Ms. Stephanie Weidman, Pipeline Safety Director,  
Railroad Commission of Texas  
Mr. Jamie Renard, Pipeline Damage Prevention Program,  
Railroad Commission of Texas
