Philip L. Bartlett II
Chairman
Maine Public Utilities Commission
18 State House Station
Augusta, ME 04333

Dear Chairman Bartlett:

On August 6, 2020, a representative of the U.S. Department of Transportation's Pipeline and Hazardous Materials Safety Administration (PHMSA) conducted an evaluation of the Maine Public Utilities Commission's enforcement of the Maine State excavation damage prevention law. PHMSA conducted this evaluation pursuant to 49 United States Code § 60114 and 49 Code of Federal Regulations Part 198, Subpart D -- State Damage Prevention Enforcement Programs. Based on this evaluation, PHMSA has determined that the enforcement of the Maine excavation damage prevention law is "adequate."

PHMSA appreciates your dedication to safety. As you are aware, excavation damage continues to be a leading cause of pipeline failures, some of which have resulted in fatalities, serious injuries, and environmental damage. Nationwide statistics show that effective enforcement of state damage prevention laws reduces excavation damage and pipeline incidents, resulting in enhanced public safety.

Should you or your staff have any questions regarding this letter, please contact Mr. David Appelbaum, PHMSA State Evaluator, at (202) 617-6329 or by email at atDavid.Appelbaum@dot.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Massoud Tahamtani", with a long, sweeping underline.

Massoud Tahamtani
Deputy Associate Administrator, Policy and Programs
Office of Pipeline Safety
