Joseph Fiordaliso
President
New Jersey Board of Public Utilities
44 South Clinton Ave
Trenton NJ 08625

Dear President Fiordaliso:

On August 12, 2020, a representative of the U.S. Department of Transportation's Pipeline and Hazardous Materials Safety Administration (PHMSA) conducted an evaluation of the New Jersey Board of Public Utilities' enforcement of the New Jersey State excavation damage prevention law. PHMSA conducted this evaluation pursuant to 49 United States Code § 60114 and 49 Code of Federal Regulations Part 198, Subpart D—State Damage Prevention Enforcement Programs. Based on this evaluation, PHMSA has determined that the enforcement of the New Jersey excavation damage prevention law is “adequate.”

PHMSA appreciates your dedication to safety. As you are aware, excavation damage continues to be a leading cause of pipeline failures, some of which have resulted in fatalities, serious injuries, and environmental damage. Nationwide statistics show that effective enforcement of state damage prevention laws reduces excavation damage and pipeline incidents, resulting in enhanced public safety.

Should you or your staff have any questions regarding this letter, please contact Mr. David Appelbaum, PHMSA State Evaluator, at (202) 617-6329 or by email at David.Appelbaum@dot.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Massoud Tahamtani', with a long, sweeping underline that extends across the width of the signature.

Massoud Tahamtani
Deputy Associate Administrator, Policy and Programs
Office of Pipeline Safety

cc: Mr. Juan Urena, Acting Bureau Chief, Pipeline Safety,
Division of Reliability and Security,
New Jersey Board of Public Utilities
