Ms. June E. Tierney
Commissioner
Vermont Department of Public Service
112 State St., 2nd floor
Montpelier, VT 05620

Dear Commissioner Tierney:

On May 19, 2020, a representative of the U.S. Department of Transportation's Pipeline and Hazardous Materials Safety Administration (PHMSA) conducted an evaluation of Vermont's enforcement of its excavation damage prevention law. PHMSA conducted this evaluation pursuant to 49 United States Code § 60114 and 49 Code of Federal Regulations Part 198, Subpart D -- State Damage Prevention Enforcement Programs. Based on this evaluation, PHMSA has determined that the enforcement of Vermont's excavation damage prevention law is "adequate."

As I am sure you are aware, excavation damage continues to be one of the leading causes of pipeline failures, a number of which result in fatalities, serious injuries, and environmental damage. Nationwide statistics show that effective enforcement of state damage prevention laws reduces excavation damage and pipeline incidents, resulting in enhanced public safety.

In closing, PHMSA appreciates your dedication to pipeline safety. Should you or your staff have any questions regarding this letter, please contact Mr. David Appelbaum, PHMSA State Evaluator, at (202) 617-6329 or by email at David.Appelbaum@dot.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Massoud Tahamtani", with a long, sweeping underline.

Massoud Tahamtani
Deputy Associate Administrator, Policy and Programs
Office of Pipeline Safety
