2020 Gas State Program Evaluation -- CY 2020

Gas

State Agency: Montana		Rating:		
Agency Status:		60105(a): Yes	60106(a): No	Interstate Agent: No
Date of Visit: 05/24/2021	- 05/28/2021			
Agency Representative:	Joel Tierney			
PHMSA Representative:	Michael Thompson			
Commission Chairman to	o whom follow up letter is to be	sent:		
Name/Title:	James Brown, Chairman			
Agency:	Montana Public Service Commis	ssion		
Address:	1701 Prospect Ave, Vista Square	e Bldg. / P.O. Bo	ox 202601	
City/State/Zip:	Helena, Montana 59620-2601			

INSTRUCTIONS:

Complete this evaluation in accordance with the Evaluator Guidance for conducting state pipeline safety program evaluations. The evaluation should generally reflect state program performance during CY 2020 (not the status of performance at the time of the evaluation). A deficiency in any one part of a multiple-part question should be scored as "Needs Improvement." Determine the answer to the question then select the appropriate point value. If a state receives less than the maximum points, include a brief explanation in the appropriate notes/comments section. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and they OBJECTIVELY reflect the state's program performance for the question being evaluated. Increasing emphasis is being placed on how the state pipeline safety programs conduct and execute their pipeline safety responsibilities (their performance). This evaluation, together with selected factors reported in the state's annual progress report attachments, provide the basis for determining the state's pipeline safety grant allocation.

Scoring Summary

PARTS		Possible Points	Possible Points Points Scored		
А	Progress Report and Program Documentation Review	0	0		
В	Program Inspection Procedures	15	15		
С	State Qualifications	10	10

State Rating		100.0			

PART A - Progress Report and Program Documentation Review

1 Were the following Progress Report Items accurate? (*items not scored on progress Info Only Info Only report)

Info Only = No Points

- a. Stats On Operators Data Progress Report Attachment 1
- b. State Inspection Activity Data Progress Report Attachment 2
- c. List of Operators Data Progress Report Attachment 3*
- d. Incidents/Accidents Data Progress Report Attachment 4*
- e. Stats of Compliance Actions Data Progress Report Attachment 5*
- f. List of Records Kept Data Progress Report Attachment 6 *
- g. Staff and TQ Training Data Progress Report Attachment 7
- h. Compliance with Federal Regulations Data Progress Report Attachment 8
- i. Performance and Damage Prevention Question Data Progress Report
- Attachment 10*

Evaluator Notes:

After review, the Montana 2020 Progress Report scored 50 of 50. Exceeding their estimated number of inspection days and hitting 20 percent on construction inspections.

Total points scored for this section: 0 Total possible points for this section: 0

1	Do written procedures address pre-inspection, inspection and post inspection activities for each of the following inspection types: Chapter 5.1	5	5				
	Yes = $5 \text{ No} = 0 \text{ Needs Improvement} = 1-4$						
	a. Standard Inspections, which include Drug/Alcohol, CRM and Public Awareness Effectiveness Inspections						
	b. TIMP and DIMP Inspections (reviewing largest operator(s) plans annually)						
	c. OQ Inspections						
	d. Damage Prevention Inspections						
	e. On-Site Operator Training						
	f. Construction Inspections (annual efforts)						
	g. LNG Inspections						
Evaluato							
Yes	Procedures for all types of inspections are found in Section IV of the MTPSC procedures ma	nual.					
2	Do written procedures address inspection priorities of each operator, and if necessary each unit, based on the following elements and time frames established in its procedures? Chapter 5.1 Yes = $4 \text{ No} = 0 \text{ Needs Improvement} = 1-3$	4	4				
	a. Length of time since last inspection						
	b. Operating history of operator/unit and/or location (includes leakage, incident						
	and compliance activities)						
	c. Type of activity being undertaken by operators (i.e. construction)						
	d. Locations of operator's inspection units being inspected - (HCA's, Geographic area, Population Centers, etc.)						
	e. Process to identify high-risk inspection units that includes all threats -						
	(Excavation Damage, Corrosion, Natural Forces, Outside Forces, Material and Welds,						
	Equipment, Operators and any Other Factors)						
	f. Are inspection units broken down appropriately?						
Evaluato		~ ~					
Yes,	All aspects of inspection scheduling is found in Section III (Inspection Planning) of the MTP	SC proce	dures manual.				
3	(Compliance Procedures) Does the state have written procedures to identify steps to be taken from the discovery to resolution of a probable violation? Chapter 5.1 $Yes = 3 No = 0 Needs Improvement = 1-2$	3	3				
	a. Procedures to notify an operator (company officer) when a noncompliance is identified						
	b. Procedures to routinely review progress of compliance actions to prevent						
	delays or breakdowns						
Evaluato	c. Procedures regarding closing outstanding probable violations						
	The Commission Rules 38.5.2205-2209 ARM which address Notification, Review, & Closin	g of Proh	able Violations				
	Yound in Appendix C? Administrative Rules of Montana (ARM), and Pipeline Procedures Sect						
	vities.		1				
4	(Incident/Accident Investigations) Does the state have written procedures to address state	3	3				
•	actions in the event of an incident/accident?	5	5				
	Yes = $3 \text{ No} = 0$ Needs Improvement = $1-2$						
	a. Mechanism to receive, record, and respond to operator reports of incidents,						
	including after-hours reports b. If onsite investigation was not made, do procedures require on-call staff to						
	obtain sufficient information to determine the facts to support the decision not to go						
	on-site.						
Evaluato	r Notes:						
	the procedures are found in Section V (Investigation of Incidents) This includes a procedure r dent Investigation Checklist in V.F	requiring	the use of their

	iew of 2020 Random Operator List and several other operators inspection activities. Only a fer		
	bection dates that were longer than what is listed in their plan. These were related to the effects nin the state. Inspections for these operators are scheduled for 2021.	of the Cov	1d-19 lock down
witt	in the state. Inspections for these operators are scheduled for 2021.		
2	Did inspection form(s) cover all applicable code requirements addressed on Federal	10	10
2	Inspection form(s)? Did State complete all applicable portions of inspection forms?	10	10
	Chapter 5.1. Do inspection records indicate that adequate reviews of procedures, records		
	and field activities, including notes and the appropriate level of inspection person-days		
	for each inspection, were performed?		
	Yes = $10 \text{ No} = 0 \text{ Needs Improvement} = 1-9$		
	a. Standard (General Code Compliance)		
	b. Public Awareness Effectiveness Reviews		
	c. Drug and Alcohol		
	d. Control Room Management		
	e. Part 193 LNG Inspections		
	f. Construction		
	g. OQ (see Question 3 for additional requirements)		
	h. IMP/DIMP (see Question 4 for additional requirements)		
Evaluato			
	, the MPSC uses the Inspector Assistant (IA) to do all of it's inspections and has a supplementa		
	er all PHMSA requirements. Inspections that were reviewed showed all forms were completed ew of each operator.	fully for a	n adequate
	ew of each operator.		
2		2	2
3	Is state verifying monitoring (Protocol 9/Form15) of operators OQ programs? This should include verification of any plan updates and that persons performing covered tasks	2	2
	(including contractors) are properly qualified and requalified at intervals established in		
	the operator's plan. 49 CFR 192 Part N		
	Yes = 2 No = 0 Needs Improvement = 1		
Evaluato			
Yes	, the state uses the form on each construction and field inspection.		
4	Is state verifying operator's integrity management Programs (IMP and DIMP)? This	2	2
	should include a review of plans, along with monitoring progress. In addition, the review		
	should take in to account program review and updates of operator's plan(s). 49 CFR 192		
	Subpart P Yes = $2 \text{ No} = 0 \text{ Needs Improvement} = 1$		
	a. Are the state's largest operator(s) plans being reviewed annually to ensure they		
	are completing the full cycle of the DIMP/IMP process?		
	b. Are states verifying with operators any plastic pipe and components that have		
	shown a record of defects/leaks and mitigating those through DIMP plan?		

c. Are the states verifying operators are including low pressure distribution

systems in their threat analysis?

Evaluator Notes:

Yes, the MPSC meets with their largest operators on and ongoing basis and is tracking the implementation and conduct of planned mitigation efforts. They also verified that MDU has 6 low pressure systems, that are monitored as a threat due to having old vintage steel, and have enhanced monitoring through their DIMP Plan.

5	Did the state review the following (these items are NTSB recommendations to PHMSA that have been deemed acceptable response based on PHMSA reviewing these items during the evaluation process): Chapter 5.1 Yes = $2 \text{ No} = 0 \text{ Needs Improvement} = 1$	2	2
	 a. Operator procedures for determining if exposed cast iron pipe was examined for evidence of graphitization and if necessary remedial action was taken; b. Operator procedures for surveillance of cast iron pipelines, including appropriate action resulting from tracking circumferential cracking failures, study of leakage history, or other unusual operating maintenance condition? (Note: See GPTC Appendix G-18 for guidance); 		
	c. Operator emergency response procedures for leaks caused by excavation damage near buildings and determine whether the procedures adequately address the possibility of multiple leaks and underground migration of gas into nearby buildings Refer to 4/12/01 letter from PHMSA in response to NTSB recommendation P-00-20		
	 and P-00-21; d. Operator records of previous accidents and failures including reported third-party damage and leak response to ensure appropriate operator response as required by 192.617; 		
	 e. Directional drilling/boring procedures of each pipeline operator or its contractor to determine if they include actions to protect their facilities from the dangers posed by drilling and other trench less technologies; f. Operator procedures for considering low pressure distribution systems in threat 		
	analysis? g. Operator compliance with state and federal regulations for regulators located		
Evaluato Yes, folde	they cover all items a supplemental inspection sheet that is tied to every Standard Inspection.	It is kept	t in an inspection
6	Did the State verify Operators took appropriate action regarding advisory bulletins issued since the last evaluation? (Advisory Bulletins Current Year) Yes = 1 No = 0 Needs Improvement = .5	1	1
Evaluato			
	they are doing what they can thru the inspection process and in meetings with operators.		
	nentioned before, MDU has low pressure systems listed as threats in their DIMP plan. are also working with operators to move inside meter sets outside.		
7	(Compliance Activities) Did the state follow compliance procedures (from discovery to resolution) and adequately document all probable violations, including what resolution or further course of action is needed to gain compliance? Chapter 5.1	10	10
	Yes = 10 No = 0 Needs Improvement = 1-9 a. Were compliance actions sent to company officer or manager/board member if		
	a. Were compliance actions sent to company officer or manager/board member if municipal/government system?		
	b. Were probable violations documented properly?		
	c. Resolve probable violations		
	d. Routinely review progress of probable violations		
	e. Did state issue compliance actions for all probable violations discovered?		
	f. Can state demonstrate fining authority for pipeline safety violations?g. Does Program Manager review, approve and monitor all compliance actions?(note: Program Manager or Senior Official should sign any NOPV or related		
	enforcement action)		

h. Did state compliance actions give reasonable due process to all parties? Including "show cause" hearing, if necessary.

i. Within 30 days, conduct a post-inspection briefing with the owner or operator outlining any concerns

j. Within 90 days, to the extent practicable, provide the owner or operator with written preliminary findings of the inspection. (Incident investigations do not need to meet 30/90-day requirement)

Evaluator Notes:

Yes, after review of several compliance actions from 2020 the MPSC has a good process and procedures in place and they meet the requirements of this question set.

8 10 (Incident Investigations) Were all federally reportable incidents investigated, thoroughly 10 documented, with conclusions and recommendations? Yes = 10 No = 0 Needs Improvement = 1-9 Does state have adequate mechanism to receive and respond to operator reports a. of incidents, including after-hours reports? b. Did state keep adequate records of Incident/Accident notifications received? If onsite investigation was not made, did the state obtain sufficient information c. from the operator and/or by means to determine the facts to support the decision not to go on site? Were onsite observations documented? d. e. Were contributing factors documented? f. Were recommendations to prevent recurrences, where appropriate, documented? Did state initiate compliance action for any violations found during any g. incident/accident investigation? h. Did state assist Region Office or Accident Investigation Division (AID) by taking appropriate follow-up actions related to the operator incident reports to ensure accuracy and final report has been received by PHMSA? Does state share any lessons learned from incidents/accidents? i. Evaluator Notes: There were no incidents reported in 2020, but past records indicate that the MPSC meets all of the requirements of this question set. 9 1 Did state respond to Chairman's letter on previous evaluation within 60 days and correct 1 or address any noted deficiencies? (If necessary) Chapter 8.1 Yes = 1 No = 0 Needs Improvement = .5Evaluator Notes: Yes, the Chairman's Letter was E-mailed to the MPSC on 10/27/2020 and they responded on 10/30/2020. A copy was posted on share point. 10 Did State conduct or participate in pipeline safety training session or seminar in Past 3 Info Only Info Only Years? Chapter 8.5 Info Only = No Points Evaluator Notes: Yes, the MPSC hosted a seminar for all operators in February 2019 that include participation from PHMSA TQ (Wayne StGermain). They plan to conduct another one in 2022. 11 Has state confirmed transmission operators have submitted information into NPMS Info Only Info Only database along with changes made after original submission? Info Only = No Points Evaluator Notes: Yes. this topic is covered during Standard Inspections and during the Annual Report review. 12 Does the state have a mechanism for communicating with stakeholders - other than state 1 1 pipeline safety seminar? (This should include making enforcement cases available to

public). Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Yes, they have a web site and have used the Pipeline Safety Trust to review and provide suggestions for improving it.

13	Did state execute appropriate follow-up actions to Safety Related Condition (SRC) Reports? Chapter 6.3 Yes = 1 No = 0 Needs Improvement = .5	1	1
Evaluato	-		
Yes.	But no SRC in 2020.		
14		1	1
14	Was the State responsive to:	1	1
	Yes = 1 No = 0 Needs Improvement = .5		
	a. Surveys or information requests from NAPSR or PHMSA; and		
F 1 (b. PHMSA Work Management system tasks?		
Evaluato	r Notes: , a review of surveys sponsored by NAPSR showed the MPSC was very active in providing	input and in	formation on a
	ety of topics and issues.	; input and in	ioiiiatioii oii a
15	If the State has issued any waivers/special permits for any operator, has the state verifie conditions of those waivers/special permits are being met? This should include having t operator amend procedures where appropriate. Yes = $1 \text{ No} = 0 \text{ Needs Improvement} = .5$		1
Evaluato			. 1 1 751
	, the state has waivers in place for the use of PA-12 pipe that must remain due to the vintag		
	have a couple that are for the time intervals for atmospheric corrosion surveys and leak su	veys. Setting	them both on 4
year	cycles.		
16	Were pipeline program files well-organized and accessible? Info Only = No Points	Info Only I	nfo Only
Evaluato	r Notes:		
Yes,	from what we were able to review virtually		
17	Discussion with State on accuracy of inspection day information submitted into State Inspection Day Calculation Tool (SICT). Has the state updated SICT data? Yes = 3 No = 0 Needs Improvement = 1-2	3	3
	r Notes: MSPSC estimated and was required to complete 171 days of inspections. They were able t ing. They completed 35 days of construction inspections for a 20% of all inspection days b	-	-
18	Discussion on State Program Performance Metrics found on Stakeholder Communication site.\ http://primis.phmsa.dot.gov/comm/states.htm?nocache=4805 Info Only = No Points	n Info Only I	nfo Only

Info Only = No Points Evaluator Notes: Info Only Info Only

Total points scored for this section: 15 Total possible points for this section: 15

- 1 Has the state reviewed Operator Annual reports, along with Incident/Accident reports, for 2 2 accuracy and analyzed data for trends and operator issues. Yes = 2 No = 0 Needs Improvement = 1Evaluator Notes: Yes, They have created a data base with annual report information and additional information to help track and analyze for trends. 2 2 2 Has the state verified that the operators analyze excavation damages for the purpose of determining root causes and minimizing the possibility of a recurrence? (192.617) Has the state verified that the operators have appropriately identified excavators who have repeatedly violated one-call laws and damaged their facilities. Have the operators taken steps to mitigate that risks? (192.1007) Yes = 2 No = 0 Needs Improvement = 1 Evaluator Notes: Yes, they have been checking with operators to find out who is doing the damages and what is being done about it. ** NOTE: the authority for enforcing the Montana One Call Law is with the Department of Labor, and they handle all aspects of enforcement. 3 Has the state reviewed the operator's annual report pertaining to Part D - Excavation 4 4 Damage? Yes = 4 No = 0 Needs Improvement = 1-3Is the information complete and accurate with root cause numbers? a. Has the state evaluated the causes for the damages listed under "One-Call b. Notification Practices Not Sufficient" (Part D.1.a.)? Has the state evaluated the causes for the damages listed under "Locating C. Practices Not Sufficient" (Part D.1.b)? For each operator, does the state review the following? Is the operator or its locating contractor(s) qualified and following written d procedures for locating and marking facilities? Is the operator appropriately requalifying locators to address performance e. deficiencies? What is the number of damages resulting from mismarks? f. What is the number of damages resulting from not locating within time g. requirements (no-shows)? Is the operator appropriately addressing discovered mapping errors resulting in h. excavation damages? i. Are mapping corrections timely and according to written procedures? Has the state evaluated the causes for the damages listed under "Excavation j. Practices Not Sufficient" (Part D.1.c.)? Evaluator Notes: Yes, These topics and questions are part of the annual review and input into their newly developed data base. They plan to continue to develop and improve the information gathered. 4 Has the agency or another organization within the state collected data and evaluated 2 2 trends on the number of pipeline damages per 1,000 locate requests? Yes = 2 No = 0 Needs Improvement = 1What stakeholder group is causing the highest number of damages to the a. pipelines? Operator, contractor, locating company or public. Has the state verified the operator is appropriately focusing damage prevention h education and training to stakeholders causing the most damages? Has the state evaluated which of the following best describes the reason for the c.
 - excavation damages; i.e., operator or contractor not following written procedures, failure to maintain marks, failure to support exposed facilities, failure to use hand tools were required, failure to test-hole (pot hole), improper backfilling practices, failure to maintain clearance or insufficient excavation practices.

d. Has the state verified the operator is appropriately focusing damage prevention education and training to address the causes of excavation damages?

Evaluator Notes:

Yes, with their data base information and reviews with operators they are developing the information to address these issues.
