PHMSA-2006-25735

Dear Mr. Teague:

The Pipeline and Hazardous Materials Safety Administration (PHMSA) has begun an effort to update and consolidate our records concerning issued special permits. Late last year, PHMSA staff contacted Sabine Pass LNG (Sabine Pass) concerning its current and future plans regarding special permits that have been issued to your company.

During our telephone call, Sabine Pass noted that special permit PHMSA-2006-25735, issued on April 2, 2007, was no longer needed. Accordingly, the special permit will be terminated effective 60 days from the date of receipt of this letter unless you contact PHMSA to object.

If you have any questions, please contact, John Gale, Director, Division of Standards and Rulemaking, by email at john.gale@dot.gov or by phone at 202-366-4046.

Sincerely,

Jeffrey D. Wiese
Associate Administrator for Pipeline Safety
