Re: Docket No. PHMSA-2020-0001
Special Permit from June 24, 2022 to March 31, 2032

Dear Mr. Shellhouse:

On March 31, 2022, the Pipeline and Hazardous Materials Safety Administration (PHMSA) issued a special permit for Docket No. PHMSA-2020-0001. The attached special permit has been updated to rectify an error in a survey station number for special permit segment 170717, which was discovered by the company and communicated to PHMSA. The station was updated from Survey Station 60+17 to 24+75 and the overall special permit segment length of 3,668 feet was correct and remains unchanged in the special permit.

My staff would be pleased to discuss this special permit or any other regulatory matter with you. Senth White, Director of PHMSA Engineering and Research Division, may be contacted at (202) 366-2415, on technical matters; and Mary McDaniel, Director, Office of Pipeline Safety, Southwest Region, may be contacted at (713) 272-2847, for operational matters specific to this special permit.

Sincerely,

Alan K. Mayberry
Associate Administrator for Pipeline Safety

Enclosure: Special Permit – PHMSA-2020-0001
