Mr. Gregory Ochs  
Director, Central Region  
Office of Pipeline Safety  
Pipeline and Hazardous Materials Safety Administration  
901 Locust Street, Suite 480  
Kansas City, MO 64106

**RE: CPF 3-2022-074-CAO - ITEM 2 - OPERATING PRESSURE RESTRICTION**

Mr. Ochs,

TC Energy, on behalf of its subsidiary, TC Oil Pipeline Operations, Inc., has received the Corrective Action Order CPF 3-2022-0074-CAO dated December 8th, 2022. In accordance with the CAO Item 2(b) Operating Pressure Restriction, requires that within 15 days of receipt of the CAO, TC Oil must provide the Director the actual operating pressures of each pump station on the Affected Segment at the time of failure and the reduced pressure restriction set-points at these same locations. In response, the operating pressure at Steele City Pump Station at the time of the failure was 1153 psig. The reduced pressure setting at Steele City Pump Station is now 923 psig. **TC Energy's Redactions**

Please let me know if you have any questions or concerns. I can be reached via email or at **TC Energy's Redactions**.
