

2021 Annual Civil Penalty Report

The Pipeline and Hazardous Materials Safety Administration (PHMSA) Office of Hazardous Materials Safety (OHMS) collected payment for and closed 83 enforcement cases and 314 tickets in calendar year 2021. Summaries of the enforcement cases and tickets closed in 2021 are provided in the table below. These enforcement actions resulted in the collection of \$1,245,830.05 in civil penalties.

OHMS investigators inspect companies and individuals that offer or carry hazardous materials for transportation, or manufacture, maintain, repair, recondition, or test packages authorized for transporting hazardous materials. PHMSA's Field Operations directly impact public safety by identifying and acting when compliance violations are found in the nation's transportation system. Violations found during inspection and investigation activities are communicated to the regulated entity to ensure future compliance with Hazardous Materials Regulations (HMR) and the safe transportation of hazardous materials.
