2022 Hazardous Liquid State Program Evaluation -- CY 2022 Hazardous Liquid

State Agency: Indiana Agency Status:		Rating: 60105(a): Yes	60106(a): No	Interstate Agent: No
Date of Visit: 05/01/2023	- 05/12/2023			
Agency Representative:	Miranda Erich, Director, Pipelin	e Safety Division	1	
	Michael Hummel, Pipeline Safet	ty Engineer		
	Dan Novak, Pipeline Safety Eng	ineer		
PHMSA Representative:	Glynn Blanton, US DOT/PHMS	A State Evaluato	or	
Commission Chairman t	o whom follow up letter is to be	sent:		
Name/Title:	Jim Huston, Chairman			
Agency:	Indiana Utility Regulatory Com	nission		
Address:	101 West Washington Street, Su	ite 1500 E		
City/State/Zip:	Indianapolis, Indiiana 46204			

INSTRUCTIONS:

Complete this evaluation in accordance with the Evaluator Guidance for conducting state pipeline safety program evaluations. The evaluation should generally reflect state program performance during CY 2022 (not the status of performance at the time of the evaluation). A deficiency in any one part of a multiple-part question should be scored as "Needs Improvement." Determine the answer to the question then select the appropriate point value. If a state receives less than the maximum points, include a brief explanation in the appropriate notes/comments section. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and they OBJECTIVELY reflect the state's program performance for the question being evaluated. Increasing emphasis is being placed on how the state pipeline safety programs conduct and execute their pipeline safety responsibilities (their performance). This evaluation, together with selected factors reported in the state's annual progress report attachments, provide the basis for determining the state's pipeline safety grant allocation.

Scoring Summary

PART	S	Possible Points	Points Scored
А	Progress Report and Program Documentation Review	0	0
В	Program Inspection Procedures	15	15
С	State Qualifications	10	9
D	Program Performance	50	50
Е	Field Inspections	15	15
F	Damage prevention and Annual report analysis	6	6
G	Interstate Agent/Agreement States	0	0
ТОТА	LS	96	95
State 1	Rating		99.0

1 Were the following Progress Report Items accurate? (*items not scored on progress Info Only Info Only report)

Info Only = No Points

- a. Stats On Operators Data Progress Report Attachment 1
- b. State Inspection Activity Data Progress Report Attachment 2
- c. List of Operators Data Progress Report Attachment 3*
- d. Incidents/Accidents Data Progress Report Attachment 4*
- e. Stats of Compliance Actions Data Progress Report Attachment 5*
- f. List of Records Kept Data Progress Report Attachment 6 *
- g. Staff and TQ Training Data Progress Report Attachment 7
- h. Compliance with Federal Regulations Data Progress Report Attachment 8
- i. Performance and Damage Prevention Question Data Progress Report
- Attachment 10*

Evaluator Notes:

- a. Jurisdictional authority is two operators. CITGO was added in July of 2022.
- b. Number of inspection person days were met. Total inspection person days performed was 45.
- c. Operator name and ID number matched Attachment 1 & 3.
- d. No incident reported for CY2022.
- e. No violations cited, nor compliance action taken in CY2022.
- f. Records appears to be correct.

g. Reviewed TQ training records and verified 4 inspectors have attended classes. Inspector categories are as follows: 1-Cat I, 2-Cat II & 1-Cat 111. h. They have not adopted civil penalty amount of \$100,000 to \$1 Million.

Total points scored for this section: 0 Total possible points for this section: 0

Do written procedures address pre-inspection, inspection and post inspection activities

4 (Incident/Accident Investigations) Does the state have written procedures to address state actions in the event of an incident/accident? Yes = 3 No = 0 Needs Improvement = 1-2

a. Mechanism to receive, record, and respond to operator reports of incidents, including after-hours reports

b. If onsite investigation was not made, do procedures require on-call staff to

obtain sufficient information to determine the facts to support the decision not to go on-site.

Evaluator Notes:

a. Yes, listed on pages 1-7 of IURC/PSPM Section F, Investigation of Incidents.

b. Yes, found on pages 3-4 of IURC/PSPM Section F, Investigation of Incidents. The reason to "not go to an incident" is listed in the telephonic report form.

5 General Comments:

Info Only = No Points

Evaluator Notes:

No loss of points occurred in this section of the review.

Info Only Info Only

Total points scored for this section: 15 Total possible points for this section: 15

3

1 Has each inspector and program manager fulfilled training requirements? (See Guidelines 5 Appendix C for requirements) Chapter 4.3

Yes = 5 No = 0 Needs Improvement = 1-4

- a. Completion of Required OQ Training before conducting inspection as lead
- b. Completion of Required IMP Training before conducting inspection as lead
- c. Root Cause Training by at least one inspector/program manager
- d. Note any outside training completed
- e. Verify inspector has obtained minimum qualifications to lead any applicable
- standard inspection as the lead inspector (Reference State Guidelines Section 4.3.1)

Evaluator Notes:

a. A review of TQ records found the following individuals are qualified active hazardous liquid inspectors and completed all required courses: Charles Weindorf, Rich Medcalf & Michael Hummel.

- b. The following individuals have completed the courses to be lead on Gas IM: Dan Novak and Charles Weindorf.
- c. The following inspectors have completed the Root Cause course: Miranda Erich, Michael Hummel & Charles Weindorf.
- d. Yes, three inspectors attended the Underground Corrosion Short Course in Fort Wayne, IN last year.
- e. The following individuals have completed the courses to be lead on OQ & IM: Rich Medcalf and Charles Weindorf.

2 Did state records and discussions with state pipeline safety program manager indicate 5 4 adequate knowledge of PHMSA program and regulations? Yes = 5 No = 0 Needs Improvement = 1-4

Evaluator Notes:

Miranda Erich was appointed Interim Director on December 30, 2022. She has been with IURC for four years and completed courses to be a Gas Safety Inspector. On April 20, 2023, she accepted the Director, Pipeline Safety Division position. She has been in the job four months and demonstrates a good working knowledge on the duties of the program manager. However, since being in this position for less than four months, one-point deduction.

3 General Comments:

Info Only Info Only

Evaluator Notes:

A loss of one point occurred in this section of the review.

Total points scored for this section: 9 Total possible points for this section: 10

5

1	Did state inspect all types of operators and inspection units in accordance with time	5
	intervals established in written procedures? Chapter 5.1	
	Ves = 5 No = 0 Needs Improvement = 1.4	

es = 5 No = 0 Needs Improvement = 1-4

- a. Standard (General Code Compliance)
- b. Public Awareness Effectiveness Reviews
- c. Drug and Alcohol
- d. Control Room Management
- e. Construction (did state achieve 20% of total inspection person-days?)
- f. OQ (see Question 3 for additional requirements)
- g. IMP (see Question 4 for additional requirements)

Evaluator Notes:

Yes, the one hazardous liquid operator was inspected during CY2022. A review of the Program Manager's "Operator Spreadsheet Type Inspections for PHMSA Records Audit 2022" was used to access the inspection reports, letters sent to operator and their response to violations cited and corrected action taken. The following operator was reviewed: Country Mark Refining and Logistics. All inspections were found to be conducted and completed in accordance with IURC schedule cycle. No issues.

- 2 Did inspection form(s) cover all applicable code requirements addressed on Federal 10 10 Inspection form(s)? Did State complete all applicable portions of inspection forms? Chapter 5.1. Do inspection records indicate that adequate reviews of procedures, records and field activities, including notes and the appropriate level of inspection person-days for each inspection, were performed? Yes = 10 No = 0 Needs Improvement = 1-9
 - a. Standard (General Code Compliance)
 - b. Public Awareness Effectiveness Reviews
 - c. Drug and Alcohol
 - d. Control Room Management
 - e. Construction
 - f. OQ (see Question 3 for additional requirements)
 - g. IMP (see Question 4 for additional requirements)

Evaluator Notes:

Yes, IURC continues to use the federal forms. A review of inspection forms located on the agency's share point confirm the forms cover all applicable code requirements. A review of inspection reports performed found an adequate review was performed and the length of the inspections meet the person day requirements.

3	Is state verifying monitoring (Protocol 9/Form15) of operators OQ programs? This should include verification of any plan updates and that persons performing covered tasks (including contractors) are properly qualified and requalified at intervals established in the operator's plan. 49 CFR Part 195 Subpart G	2	2
	Yes = 2 No = 0 Needs Improvement = 1		

Evaluator Notes:

Yes, a review of files found Country Mark Refining confirm the agency inspectors are reviewing the company OQ program. The last inspection was performed on 4-26-2022.

- 4 Is state verifying operator's integrity management Programs (IMP and DIMP)? This 2 2 2 should include a review of plans, along with monitoring progress. In addition, the review should take in to account program review and updates of operator's plan(s). 49 CFR Part 195 Subpart F & G
 - Yes = 2 No = 0 Needs Improvement = 1
 - a. Are the implementation plans of the state's large/largest operators(s) being
 - reviewed annually to ensure they are completing full cycle of the IMP process?

Evaluator Notes:

Yes, the integrity management program was reviewed on Country Mark dated June 10-18, 2019. This inspection was performed within the required time schedule established by IURC. No issues.

	Did the state review the following (these items are NTSB recommendations to PHMSA that have been deemed acceptable response based on PHMSA reviewing these items during the evaluation process): Chapter 5.1 Yes = 2 No = 0 Needs Improvement = 1 a. Operator records of previous accidents and failures including reported third-party damage and leak response to ensure appropriate operator response as required by 195.402; and b. Directional drilling/boring procedures of each pipeline operator or its contractor to determine if they include actions to protect their facilities from the dangers posed by drilling and other trench less technologies;	2	2
	se items continue to be covered in the IURC Standard Inspection Form. Additionally, IURC as vide information on NTSB recommendations.		ter to all operators
6	Did the State verify Operators took appropriate action regarding advisory bulletins issued since the last evaluation? (Advisory Bulletins Current Year) Yes = 1 No = 0 Needs Improvement = .5	1	1
Yes	or Notes: , this item continues to be provided to the operator in the annual communication letter send to tember 28,2022. The letter contains information on PHMSA advisory items.	all opera	ators from IURC on
7	 (Compliance Activities) Did the state follow compliance procedures (from discovery to resolution) and adequately document all probable violations, including what resolution or further course of action is needed to gain compliance? Chapter 5.1 Yes = 10 No = 0 Needs Improvement = 1-9 a. Were compliance actions sent to company officer or manager/board member if municipal/government system? b. Were probable violations documented properly? c. Resolve probable violations d. Routinely review progress of probable violations e. Did state issue compliance actions for all probable violations discovered? f. Can state demonstrate fining authority for pipeline safety violations? g. Does Program Manager review, approve and monitor all compliance actions? (note: Program Manager or Senior Official should sign any NOPV or related enforcement action) h. Did state compliance actions give reasonable due process to all parties? 	10	10
	Including "show cause" hearing, if necessary.i. Within 30 days, conduct a post-inspection briefing with the owner or operator outlining any concerns		
	j. Within 90 days, to the extent practicable, provide the owner or operator with written preliminary findings of the inspection. (Incident investigations do not need to meet 30/90-day requirement)		
a. Y b. N c. N f. Y no j g. Y Ada h. Y i. Y	or Notes: Yes, a review of correspondence to Country Mark confirm the letter was sent to Kimberly Smoo No violations issued in CY2022. WA d. N/A e. N/A es, the three civil penalties issued in CY2020 in the total amount of \$1.769 Million against gas benalties issued against HL operators. Yes, this item is listed in the procedure manual. Inspectors routinely review the inspection repo litionally, the program manager and administrative assistant review the reports before they are Yes, this is addressed in the Commission's rules and regulations. es, a review of letters and inspection reports reflect the post inspection was conducted via eman n operator representatives.	distributes distributes for for for released	ition systems and llow-up action.

8 (Accident Investigations) Were all federally reportable incidents investigated, thoroughly 10 10 documented, with conclusions and recommendations?

Yes = 10 No = 0 Needs Improvement = 1-9

a. Does state have adequate mechanism to receive and respond to operator reports of incidents, including after-hours reports?

b. Did state keep adequate records of Incident/Accident notifications received?

c. If onsite investigation was not made, did the state obtain sufficient information from the operator and/or by means to determine the facts to support the decision not to go on site?

d. Were onsite observations documented?

e. Were contributing factors documented?

f. Were recommendations to prevent recurrences, where appropriate, documented?

g. Did state initiate compliance action for any violations found during any incident/accident investigation?

h. Did state assist Region Office or Accident Investigation Division (AID) by

taking appropriate follow-up actions related to the operator incident reports to ensure accuracy and final report has been received by PHMSA?

i. Does state share any lessons learned from incidents/accidents?

Evaluator Notes:

a. Yes, IURC Procedures Manual, Section F, Investigation of Incidents on page 3 address this item.

b. thru f. Yes

g. No compliance action was issued in CY2022.

h. N/A

i. Yes.

9 Did state respond to Chairman's letter on previous evaluation within 60 days and correct 1 1 1 or address any noted deficiencies? (If necessary) Chapter 8.1 Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Yes, Chairman Huston responded to Mr. Zach Barrett's letter was received on August 18, 2022, and within the 60-day time requirement.

10 Did State conduct or participate in pipeline safety training session or seminar in Past 3 Info Only Info Only Years? Chapter 8.5 Info Only = No Points

Evaluator Notes:

Yes, during the pipeline safety seminar conducted in French Lick, IN on April 19-21, 2022, the agenda included updates and information for HL operators.

 11
 Has state confirmed transmission operators have submitted information into NPMS
 Info Only Info Only

 database along with changes made after original submission?
 Info Only = No Points
 Info Only

Evaluator Notes:

Yes, this item is located in IRUC Standard Transmission Inspection Form 01, page 27, question R5.

12 Does the state have a mechanism for communicating with stakeholders - other than state 1 1 pipeline safety seminar? (This should include making enforcement cases available to public).

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Yes, this is addressed in IURC website and annual letter to operators on changes within the regulations and other related items.

 13
 Did state execute appropriate follow-up actions to Safety Related Condition (SRC)
 1
 1

 Reports? Chapter 6.7
 Yes = 1 No = 0 Needs Improvement = .5
 1
 1

Evaluator Notes:

No safety related condition reports in CY2022.

 a. Surveys or information requests from NAPSR or PHMSA; and b. PHMSA Work Management system tasks? Evaluator Notes: Yes, they responded to 11 out of 16 NAPSR survey request. 15 If the State has issued any waivers/special permits for any operator, has the state verified 1 1 1 conditions of those waivers/special permits are being met? This should include having the operator amend procedures where appropriate. Evaluato	r Notes:		

Yes, an exit interview was conducted immediately at the end of the inspection day. No areas of concerns or violations found during the inspection.

- 6 Was inspection performed in a safe, positive, and constructive manner ? Info Only Info Only Info Only Info Only
 a. No unsafe acts should be performed during inspection by the state inspector
 - b. What did the inspector observe in the field? (Narrative description of field

observations and how inspector performed)

c. Best Practices to Share with Other States - (Field - could be from operator visited or state inspector practices)

d. Other

Evaluator Notes:

Yes, excellent safety practices were observed during the field activities performed by the operator. In this regard, PPE clothing, shoes, eye protection glasses and hard hats were required to enter the construction site.

7 General Comments:

Info Only = No Points

Info Only Info Only

Evaluator Notes:

No loss of points occurred in this section of the review.

Total points scored for this section: 15 Total possible points for this section: 15 Has the state reviewed Operator Annual reports, along with Incident/Accident reports, for 2 accuracy and analyzed data for trends and operator issues. Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

Yes, this is accomplished by Program Manger reviewing the data along with each inspector conducting a review of the operator's annual reports prior to performing their inspection. This item is listed in Section B of IURC procedures manual. Additionally, the inspector will use the Distribution Operator's F7100 Annual Review Check list form to verify data on the operator's report and analyze trends or potential risk areas, (leakage, corrosion, damages) prior to conducting the inspection.

2 Has the state verified that the operators analyze excavation damages for the purpose of 2 determining root causes and minimizing the possibility of a recurrence? (192.617) Has the state verified that the operators have appropriately identified excavators who have repeatedly violated one-call laws and damaged their facilities. Have the operators taken steps to mitigate that risks? (192.1007) Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

Yes, IURC investigates excavation damages that occur on all HL & Gas company facilities. Each operator is required to submit a report of damages to the agency in determining the root cause of the damage. IRUC reviews and investigate the damage report and makes a recommendation to the Underground Plant Protection Advisory Committee (UPPAC) on who caused the damage(s). The UPPAC reviews the investigation reports and renders a decision to issue a "Warning Letter", "Re-Training" or civil penalty to the contractor or operator. Excavators who have repeatedly violated the one-call law is addressed in IC 8-1-26.

3 Has the state reviewed the operator's annual report pertaining to Part D - Excavation Info Only Info Only Damage?

Info Only = No Points

- a. Is the information complete and accurate with root cause numbers?
- b. Has the state evaluated the causes for the damages listed under "One-Call Notification Practices Not Sufficient" (Part D.1.a.)?
- c. Has the state evaluated the causes for the damages listed under "Locating Practices Not Sufficient" (Part D.1.b)? For each operator, does the state review the following?

d. Is the operator or its locating contractor(s) qualified and following written procedures for locating and marking facilities?

e. Is the operator appropriately requalifying locators to address performance deficiencies?

f. What is the number of damages resulting from mismarks?

g. What is the number of damages resulting from not locating within time requirements (no-shows)?

h. Is the operator appropriately addressing discovered mapping errors resulting in excavation damages?

- i. Are mapping corrections timely and according to written procedures?
- j. Has the state evaluated the causes for the damages listed under "Excavation

Practices Not Sufficient" (Part D.1.c.)?

Evaluator Notes:

a. Yes this is accomplished by comparing the CRM Data program to the operator's individual reports on damages that occurred on the system.

b. Yes, IURC staff reviews the operator's investigation reports and other data to confirm the cause of damages.

c. Yes, IURC staff continue to review these items during a review of the operator's investigation reports and other data in the annual report. Part of the review includes those items listed in Part D of the operator's annual report.

d thru j. Yes, the operator or their contractor locators are OQ qualified. This item is checked on each inspection and reviewed when a damage report is submitted to their agency for review. Yes, operators are continually requalifying locators who have failed to locate correctly. Mapping issues are corrected when found and included in written procedures. Yes, the main cause of damages is due to notification to dig.

2

4 Has the agency or another organization within the state collected data and evaluated trends on the number of pipeline damages per 1,000 locate requests? Yes = 2 No = 0 Needs Improvement = 1

a. What stakeholder group is causing the highest number of damages to the pipelines? Operator, contractor, locating company or public.

b. Has the state verified the operator is appropriately focusing damage prevention education and training to stakeholders causing the most damages?

c. Has the state evaluated which of the following best describes the reason for the excavation damages; i.e., operator or contractor not following written procedures, failure to maintain marks, failure to support exposed facilities, failure to use hand tools were required, failure to test-hole (pot hole), improper backfilling practices, failure to maintain clearance or insufficient excavation practices.

d. Has the state verified the operator is appropriately focusing damage prevention

education and training to address the causes of excavation damages?

Evaluator Notes:

a. Contractors continue to be the stakeholder group causing the highest number of damages in the State of Indiana.

b. The monthly Damage Prevention Council Meetings address this issue and share information on causes of damages.

c. Yes, failure to secure proper locate ticket. The number of damages has increased due to housing construction projects, water & sewer line and broad ban installation projects.

d. Yes, the Damage Prevention Counsel and public awareness outreach meetings has focused on causes of damages. This information is shared with all stakeholder groups.
