of Transportation
**Pipeline and Hazardous
Materials Safety
Administration**

Deputy Administrator

1200 New Jersey Avenue, SE
Washington, DC 20590

January 13, 2025

The Honorable Maria Cantwell
Ranking Member
Committee on Commerce, Science,
and Transportation
United States Senate
Washington, DC 20510

Dear Ranking Member Cantwell:

Enclosed is the Hazardous Materials Grant Program Annual Report to Congress. Pursuant to 49 U.S.C. § 5116(k), the Secretary of Transportation is required to submit an annual report to Congress covering the planning and training grants program administered by the Pipeline and Hazardous Materials Safety Administration (PHMSA). This report covers applicable grant programs administered from Fiscal Years 2019 through 2023.

Ensuring the safe transportation of hazardous materials is one of the U.S. Department of Transportation's top priorities. PHMSA's Hazardous Materials Grant Program provides assistance for states, territories, federally recognized tribes, and non-profit organizations to enhance hazardous materials planning and training throughout the nation.

A similar letter has been sent to the Chair of the Senate Committee on Commerce, Science, and Transportation and the Chairman and Ranking Member of the House Committee on Transportation and Infrastructure.

Sincerely,

A handwritten signature in black ink that reads "Tristan H. Brown".

Tristan H. Brown
Deputy Administrator

January 13, 2025

The Honorable Ted Cruz
Chairman
Committee on Commerce, Science,
and Transportation
United States Senate
Washington, DC 20510

Dear Chairman Cruz:

Enclosed is the Hazardous Materials Grant Program Annual Report to Congress. Pursuant to 49 U.S.C. § 5116(k), the Secretary of Transportation is required to submit an Annual Report to Congress covering the planning and training grants program administered by the Pipeline and Hazardous Materials Safety Administration (PHMSA). This report covers applicable grant programs administered from Fiscal Year 2019 through 2023.

Ensuring the safe transportation of hazardous materials is one of the U.S. Department of Transportation's top priorities. PHMSA's Hazardous Materials Grant Program provides assistance for states, territories, federally recognized tribes, and non-profit organizations to enhance hazardous materials planning and training throughout the nation.

A similar letter has been sent to the Ranking Member of the Senate Committee on Commerce, Science, and Transportation and the Chairman and Ranking Member of the House Committee on Transportation and Infrastructure.

Sincerely,

A handwritten signature in black ink, reading "Tristan H. Brown". The signature is written in a cursive, flowing style.

Tristan H. Brown

SPST	Supplemental Public Sector Training Grant

Definitions

- Awareness Level Training: HMEP funded training that involves witnessing or discovering HAZMAT releases and notifying the appropriate personnel and/or authorities.
- Operations Level Training: HMEP funded training that involves responding to HAZMAT releases or potential releases by protecting nearby persons, property, and the environment.
- Technician Level Training: HMEP funded training that involves responding to HAZMAT releases or potential releases for the purpose of stopping the release.
- Specialist Level Training: HMEP funded training that parallels that of Technician Level, but also includes specific knowledge of various HAZMAT and acts as liaison with government authorities.
- “Other” Trainings Activities: HMEP funded trainings that do not fall under awareness, operation, technician, or specialist (e.g., Incident Command System, TRANSCAER, Chemistry for Emergency Responders, and Radiological sources in transportation).
- Commodity Flow Study: A study that identifies HAZMAT trends in communities. Results are used for various reasons, including the development of HAZMAT response plans specific to local needs.
- Hazard Analysis: A study or analysis that identifies the hazards that can arise from the transportation of HAZMAT. It can also include the identification of consequences and underlying causes of HAZMAT incidents.
- Needs/Capabilities Assessment: An assessment that identifies the needs, gaps, capabilities, and resources in the event of a HAZMAT emergency response incident.
- Emergency Response Plan: Plans that contain emergency response information that community officials can use to respond to chemical incidents or accidents (EPCRA, Section 303).
- Emergency Response Exercises: Simulated emergency response scenarios that help validate emergency response plans and training and identify areas for improvement.
- “Other” Planning Activities: HMEP planning activities that do not fall under commodity flow studies; hazardous risk analyses; emergency plans written, updated, and exercised; and needs/capabilities assessments (e.g., HAZMAT conferences attendance).

This page is intentionally left blank.

INTRODUCTION

The Hazardous Materials Grant Program was created in 1993 to provide financial assistance to states, tribes, territories, and nonprofit organizations to plan for risks and remediate harm resulting from hazardous materials (HAZMAT) transportation incidents. Through Emergency Preparedness (EP) and HAZMAT safety grants, the Pipeline and Hazardous Materials Safety Administration (PHMSA) prepares the public and first responders to reduce consequences if an incident occurs.

As mandated by 49 U.S.C. § 5116(k), the Secretary of Transportation (Secretary) must submit an annual report to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate, and make the report available to the public. The report submitted under this subsection includes information on the allocation (**Grant Allocations**) and uses of the planning and training grants under subsection (a), and grants under subsections (i) and (j) of this section and under subsections (e) and (i) of Section 5107. The report submitted under this subsection identifies the recipients of such grants and includes a detailed accounting and description of each grant expenditure (**Summary of Grant Expenditure by Program**) by each grant recipient, including the amount of, and purpose for, each expenditure; the number of persons trained under the grant program (**Summary of Trainings Provided by Program**), by training level; an evaluation of the efficacy of such planning and training programs; and any recommendations the Secretary may have for improving such grant programs.

GRANT ALLOCATIONS

Table 1 shows the grant allocations, or awards, by fiscal year through the reporting year of FY 2023.

Table 1: Fiscal Year Funds Obligated for EP and HAZMAT Grant Programs					
Grant	FY19	FY20	FY21	FY22	FY23
HMEP	\$20,476,506	\$19,959,613	\$21,443,448	\$24,195,519	\$21,988,000
SPST	\$1,938,000	\$941,000	\$1,286,687	\$1,724,667	\$1,300,000
ALERT	\$1,300,000	0	\$1,600,209	\$782,140	\$1,217,860
HMIT	\$3,094,290	\$3,445,229	\$3,516,940	\$3,841,225	\$4,738,061
CSG	\$800,000	\$750,000	\$1,250,000	\$1,000,000	\$1,000,000
TOTAL	\$27,608,796	\$25,095,842	\$29,097,284	\$31,543,551	\$30,243,921

The ultimate recipients of these grants are identified in the subsequent sections.

SUMMARY OF GRANT EXPENDITURE BY PROGRAM

Table 2 shows the grant expenditures, or outlays, by fiscal year through the reporting year of FY 2023.

Table 2: Fiscal Year Funds Expended for EP and HAZMAT Grant Programs					
Grant	FY19	FY20	FY21	FY22	FY23
HMEP	\$17,012,006	\$21,056,633	\$15,465,506	\$16,635,674	\$21,729,735
SPST	\$878,454	\$1,319,240	\$1,104,137	\$1,409,764	\$1,496,427
ALERT	\$1,375,353	\$623,180	\$565,026	\$837,289	\$1,157,788
HMIT	\$2,371,209	\$3,152,283	\$3,055,226	\$3,565,194	\$3,981,030
CSG	\$924,431	\$1,110,309	\$838,037	\$1,246,776	\$982,406
TOTAL	\$22,561,453	\$27,261,645	\$21,027,932	\$23,694,697	\$29,347,386

SUMMARY OF TRAININGS PROVIDED BY PROGRAM

Table 3 shows the trainings by fiscal year through the reporting year of FY 2023.

Table 3: Trainings Completed for EP and HAZMAT Grant Programs					
Grant	FY19 ¹	FY20	FY21	FY22	FY23
HMEP	81,076	61,153	61,356	66,291	61,809
SPST	368	1,856	575	1,611	875
ALERT	0	4,897	0	4,896	2,052
HMIT	2,771	1,928	3,133	3,127	4,875
CSG	4,982	1,754	2,279	1,972	13,682
TOTAL	100,248	71,588	67,343	77,897	83,293

OVERVIEW OF EFFICACY OF TRAINING PROVIDED

PHMSA continues to monitor the efficacy of the HAZMAT Grant Program through a variety of stakeholder forums and grantee feedback. For example, in April 2023, PHMSA completed a [Hazardous Materials Emergency Preparedness \(HMEP\) Gap Analysis](#) to capture the impact of the HMEP Grant Program along with opportunities for improvement. The evidence gathered during assessment validated that the HMEP grant provides essential funds to state, local, tribal, and territorial grantees to support preparedness and training to ensure responders can safely and efficiently respond to HAZMAT transportation incidents.

Additionally, a May 2023 [PHMSA report](#) on considerations for ensuring the effectiveness of U.S. railroad HAZMAT training, preparedness, and community outreach programs found that

¹ The FY 2019 completed trainings were previously reported in the published [Annual Report to Congress, Hazardous Materials Grant Program for Fiscal Years 2016–2021](#).

continuous and effective training, preparedness, and community outreach to maintain relevant response skills, particularly for HAZMAT incidents, are crucial to keeping emergency responders prepared. However, this outcome is complicated by the complexities of railroad incidents, the large number of responders needing training, and high turnover rates among firefighters, which average 10–20 percent annually. Firefighters are already burdened with multiple types of training, and finding backup personnel during training periods can add further strain.

PHMSA will continue its efforts to collect recipient report data and challenges to evaluate the program’s impact and will also seek opportunities to better assess the efficacy of the training received under each grant.

RECOMMENDATIONS

The National Fire Protection Association (NFPA) reports that there are approximately 1.04 million firefighters in the United States, with approximately 35 percent career (paid) firefighters and 65 percent serving as volunteers. While the HMEP grant currently supports training 60,000–80,000 emergency responders per year, PHMSA believes an increase in program funding along with added flexibilities in how the grant is administered can lead to more responders being trained nationwide. PHMSA’s recommendations include:

- **Raising the annual registration fee limit for registrants.** Increasing the \$3,000 annual registration fee limit would enable PHMSA to meet the prescribed levels for the Emergency Preparedness Grant Programs authorized under the Infrastructure Investment and Jobs Act (Pub. L. No.117-58) and improve emergency responder readiness nationwide.
- **Allowing grant recipients to use grant funds to purchase HAZMAT operational equipment.** Under 49 U.S.C. § 5116, recipients are allowed to use funds to purchase equipment that must be used exclusively towards HAZMAT training programs. Expanding this to include HAZMAT operational equipment will allow states and local communities to purchase (within reason) operational equipment to improve emergency response capabilities.

HAZARDOUS MATERIALS EMERGENCY PREPAREDNESS (HMEP) GRANT

Congress first authorized the Hazardous Materials Emergency Preparedness (HMEP) grant program in 1990 under the Hazardous Materials Transportation Act (Pub. L. No. 101-615). The HMEP program is authorized under 49 U.S.C. § 5116 and is governed by program regulations in 49 CFR Part 110, and federal grants administration regulations at 2 CFR Part 200. On December 4, 2015, the Fixing America’s Surface Transportation (FAST) Act was signed into law (Pub. L. No. 114-94). The FAST Act reauthorized the HMEP Grant Program. Section 7203 of the FAST Act amended 49 U.S.C. § 5116 to combine planning and training grants into Section 5116 (a).

As mandated by 49 U.S.C. § 5101, *et seq.*, the HMEP grant provides federal financial and technical assistance to states, territories, and federally recognized tribes to respond safely and effectively to HAZMAT transportation incidents nationwide. The grant is designed to encourage a comprehensive approach to emergency planning and training by incorporating the unique challenges of responses to transportation situations, and to enhance the implementation of the Emergency Planning and Community Right-To-Know Act of 1986 (EPCRA, Section 303), 42 U.S.C. § 11001, *et seq.*

The HMEP grant program addresses the specific risks imposed on the nation’s communities resulting from the shipment of HAZMAT across jurisdictional boundaries. EPCRA ensures local planners have access to reliable and comprehensive data on the flow of HAZMAT within their local jurisdictions. The program provides grantees with flexibility to implement training and planning programs that address differing needs for each location based on demographics, emergency response capabilities, commodity flow studies, and hazard analyses. Grant recipients can target specific training needs and planning activities using these funds.

Table 4 shows a summary of the total HMEP award amounts for FY 2019 through FY 2023².

Table 4: HMEP Total Award Amounts for FY 2019–2023				
FY19	FY20	FY21	FY22	FY23
\$20,476,506	\$19,959,613	\$21,443,448	\$24,195,519	\$21,988,000

² The Emergency Preparedness Grants account has been subject to sequestration since FY 2014.

HMEP Recipients, Awards, and Expenditures for FY 2019–2023

Table 5 shows the HMEP Recipients, and the awards received between FY 2019 and FY 2023.

Table 5: FY 2019–2023 HMEP Awards

HMEP Performance Outputs for FY 2023

Under the HMEP Grant Program, recipients have trained more than 60,000 emergency responders and completed 312 planning activities for FY 2023. It is anticipated that for FY 2024, HMEP Grant recipients will train an additional 60,000 persons and complete another 200 planning activities. Tables 7 and 8 below show the performance outputs of the HMEP Grant for FY 2023. For performance outputs of FYs 2019–2022 and individual recipient performance, refer to Appendices A, B, and C.

Table 7 shows training numbers for HMEP Recipients for FY 2023.

Table 7: Total Training Numbers for HMEP FY 2023						
	Awareness Level	Operations Level	Technician Level	Specialist Level	Other	TOTALS

SUPPLEMENTAL PUBLIC SECTOR TRAINING (SPST) GRANT

The Supplemental Public Sector Training (SPST) grant program was authorized by Congress in the Hazardous Materials Transportation Authorization Act of 1994 (Pub. L. No.103–311), which amended 49 U.S.C. § 5116 and added a new subsection (i) concerning supplemental training grants. The SPST grant program is open to national nonprofit fire service organizations. The SPST grant is used to train instructors to conduct HAZMAT response training programs for individuals with statutory responsibility to respond to HAZMAT accidents and incidents. This program ensures that HAZMAT training is available in the most convenient, cost-effective locations by allowing graduating instructors to train new, local instructors and responders, while also guaranteeing continuity and efficiency.

Table 9 shows total SPST award amounts for FY 2019 through FY 2023.

Table 9: SPST Total Award Amounts for FY 2019–2023				
FY19	FY20	FY21	FY22	FY23
\$1,938,000	\$941,000	\$1,286,687	\$1,724,667	\$1,300,000

SPST Recipients, Awards, and Expenditures for FY 2023

The International Association of Firefighters (IAFF) had been the sole recipient of the SPST grant award since the inception of the program. However, in FY 2022 the National Volunteer Fire Council (NVFC) was awarded funds.

Table 10 shows the SPST Recipients and the awards received between FY 2019 and FY 2023.

Table 10: FY 2019–2023 SPST Awards					
RECIPIENT	FY19	FY20	FY21	FY22	FY23
IAFF	\$1,938,000	\$941,000	\$1,286,687	\$897,482	\$1,300,000
NVFC	0	0	0	\$827,185	0
TOTALS:	\$1,938,000	\$941,000	\$1,286,687	\$1,724,667	\$1,300,000

Table 11 shows the SPST Recipients and their expenditures for FY 2019 through FY 2023.

Expenditures can be from any open awards.

Table 11: FY 2019–2023 SPST Expenditures					
RECIPIENT	FY19	FY20	FY21	FY22	FY23
IAFF	\$878,454	\$1,319,240	\$1,104,137	\$1,409,764	\$1,452,439
NVFC	0	0	0	0	\$43,988
TOTALS:	\$878,454	\$1,319,240	\$1,104,137	\$1,409,764	\$1,496,427

SPST Performance Outputs for FY 2023

Under the SPST Grant Program, recipients have trained 875 emergency responders for FY 2023. For performance outputs of FYs 2019–2022 and individual recipient performance, refer to Appendix D.

ASSISTANCE FOR LOCAL EMERGENCY RESPONSE TRAINING (ALERT) GRANT

In FY 2015, the Consolidated and Further Continuing Appropriations Act, Pub. L. No. 113-235 authorized PHMSA to use recovered funds from prior year grant awards to fund the Assistance for Local Emergency Response Training (ALERT) grant program. Such funds derive from all remaining grants within the Hazardous Materials EP Grant Program. Additional funding for the program is sometimes appropriated and has been in some fiscal years under the Hazardous Materials Safety account. PHMSA created a competitive grant program whereby grantees will use funds to provide HAZMAT training for volunteer or remote emergency responders to incidents that involve shipments of crude oil, ethanol, and other flammable liquids by rail. The program was statutorily codified by Congress in the Infrastructure Investment and Jobs Act of 2021 (Pub. L. No. 117-58), which amended 49 U.S.C. § 5116 and redesignated subsection (j) to codify the grant program.

Table 12 shows total ALERT award amounts for FY 2019 through FY 2023.

Table 12: ALERT Total Award Amounts for FY 2019–2023				
FY19	FY20	FY21	FY22	FY23
\$1,300,000	--	\$1,600,209	\$782,140	\$1,217,860

ALERT Recipients, Awards, and Expenditures for FY 2023

In FY 2019 and 2021, the same three recipients received ALERT awards: The American Chemistry Council (ACC), the Center for Rural Development (CRD), and the International Association of Fire Chiefs (IAFC). In FY 2022, the Short Line Safety Institute (SLSI) received an ALERT award, and in FY 2023 two additional organizations received ALERT awards: the Texas A&M Engineering Extension Service (TEEX) and the Wisconsin Emergency Medical Services Association (WEMSA).

Table 13 shows award amounts for ALERT Recipients for FY 2019 through FY 2023.

Table 13: FY 2019–2023 ALERT Awards				
RECIPIENT	FY19	FY21	FY22	FY23

SLSI	0	0	0	0	\$182,140
TEEX	0	0	0	0	0
WEMSA	0	0	0	0	0
TOTALS:	\$889,853	\$521,072	\$175,833	\$837,289	\$1,157,788

ALERT Performance Outputs for FY 2023

Under the ALERT Grant Program, recipients have trained 2,052 emergency responders for FY 2023. For performance outputs of FYs 2019–2022 and individual recipient performance, refer to Appendix D.

HAZARDOUS MATERIALS INSTRUCTOR TRAINING (HMIT) GRANT

The Hazardous Materials Instructor Training (HMIT) grant program was initially authorized in the Hazardous Materials Transportation Safety and Security Reauthorization Act of 2005, Pub. L. No.109-59, and codified at 49 U.S.C. § 5107(e). This enabled the Secretary of Transportation, subject to the availability of funds, to make grants for training instructors to train HAZMAT employees and, to the extent determined appropriate, for such instructors to train HAZMAT employees.

PHMSA is the only Administration with a grant program dedicated solely to providing grant funding for training instructors to conduct HAZMAT transportation response training programs. The HMIT grant is a critical component of PHMSA's safety mission and strategic plan because it increases the number of instructors qualified to train HAZMAT employees. An increase in the number of HAZMAT employee instructors is vital because it exponentially increases the number of HAZMAT employees qualified to safely handle HAZMAT.

Table 15 shows HMIT award amounts and closeout status starting FY 2019 through FY 2023.³

Table 15: HMIT Total Award Amounts for FY 2019–2023				
FY19	FY20	FY21	FY22	FY23
\$3,094,290	\$3,445,229	\$3,516,940	\$3,841,225	\$4,738,061

HMIT Recipients, Awards, and Expenditures for FY 2023

In FY 2019, five HMIT recipients were awarded: the National Partnership for Environmental Technology Education (NPETE), the Short Line Safety Institute (SLSI), the Sustainable Workplace Alliance (SWA), the Texas A&M Engineering Extension Service (TEEX), and the International Chemical Workers Union Council (ICWUC). In FY 2020, two additional organizations received the HMIT award: the Commercial Vehicle Safety Association (CVSA) and Zender Environmental Health and Research (ZENDER). For FYs 2021 and 2022, three organizations received the HMIT award for the first time: Florida Southwestern State College (FSSC), the National Propane Gas Association (NPGA), and Nova Southeastern University (NSU). The International Association of Machinists Corporation for Re-Employment and Safety Training (IAMCREST) received an HMIT award in FY 2023 after a five-year absence.

³ The Emergency Preparedness Grants account has been subject to sequestration since FY 2014.

Table 16 shows award amounts for HMIT Recipients for FY 2019 through FY 2023.

HMIT Performance Outputs for FY 2023

Under the HMIT Grant Program, recipients have trained 4,875 HAZMAT trainers for FY 2023. For performance outputs of FYs 2019–2022 and individual recipient performance, refer to Appendix D.

COMMUNITY SAFETY GRANT (CSG)

The Community Safety Grant (CSG) program was authorized under the Fixing America's Surface Transportation (FAST) Act, (Pub. L. No. 114-94, codified at 49 U.S.C. § 5107(i)) and most recently reauthorized and amended under the Infrastructure Investment and Jobs Act, Public Law 117-58. Funds are appropriated annually under the Hazardous Materials Safety account. Funding supports training and outreach programs to help local communities prepare for transportation incidents involving HAZMAT, including crude oil and ethanol. This funding can also be used to improve training for state and local personnel who enforce HAZMAT regulations.

Approximately \$1 million per year is made available through PHMSA's Office of Hazardous Materials Safety (OHMS) operations budget for the CSG program.

Table 18 shows CSG award amounts and closeout status starting FY 2019 through FY 2023.

Table 18: CSG Total Award Amounts for FY 2019–2023				
FY19	FY20	FY21	FY22	FY23

ACC	0	0	\$34,602	\$164,568	\$98,711
GTI	0	0	0	\$194,143	\$177,970
TOTALS:	\$924,431	\$1,110,309	\$838,036	\$1,246,775	\$982,405

CSG Performance Outputs for FY 2023

Under the CSG Grant Program, recipients have trained 13,682 emergency personnel and community members for FY 2023. It is anticipated that for FY 2024, CSG Grant recipients will train at least an additional 3,000 persons. For performance outputs of FYs 2019–2022 and individual recipient performance, refer to Appendix D.

ADMINISTRATIVE AND OTHER PROGRAMMATIC ACTIVITIES

Under 49 U.S.C. § 5116(h) PHMSA is authorized to use the Hazardous Materials Emergency Preparedness Fund to monitor and provide technical assistance to grant recipients; to publish and distribute the Emergency Response Guidebook; and to pay administrative costs of carrying out all Hazardous Materials grant programs (not to exceed two percent of the amounts made available in the fund). Since 2016, PHMSA's annual appropriation has increased the amount that can be used on administrative costs to not more than four percent of the amounts made available from the Emergency Preparedness Fund.

Monitoring and Technical Assistance

PHMSA uses up to \$150,000 per year for Monitoring and Technical Assistance funds to conduct site visits and desk reviews with grant recipients to ensure grantees are following the necessary policies and procedures for the administration of grant awards. PHMSA collects information to evaluate the quality of projects, and the reasonableness and accountability of grant expenditures. When needed, PHMSA provides corrective actions and training to ensure compliance with program regulations and the Office of Management and Budget's (OMB) Uniform Administrative Requirements under 2 CFR Part 200.

Emergency Response Guidebook (ERG)

In April 2024, PHMSA released 1.8 million copies of the recently updated 2024 ERG. The publication and distribution of the ERG in hard copy, electronic media, and mobile application is funded by registration fees. The ERG is updated and redistributed to first responders throughout the country every four years.

First responders, including firefighters, police, and other emergency services personnel, rely on the ERG as a critical resource when approaching an accident scene involving HAZMAT. It is primarily a guide to aid first responders in quickly identifying the specific or generic classification of the material(s) involved in the incident and protecting themselves and the public during this initial emergency response.

The U.S. Department of Transportation's goal is to place an ERG in every public emergency service vehicle nationwide. Since its inception, nearly 18 million free copies of the ERG have been distributed to the emergency response community. Additionally, PHMSA developed a free, mobile web app of its 2024 ERG that has generated more than one million downloads.

Administrative Expenses – Hazardous Materials Roundtable

PHMSA utilizes administrative funds to administer the grant programs and to fund special projects/initiatives in support of the program and HAZMAT emergency response.

For example, the Hazardous Materials Emergency Response Roundtable (Roundtable) provides a forum to discuss challenges in HAZMAT preparedness, prevention, and response. Reestablished in 2019, Roundtable discussions aim to identify critical issues and suggested plans of action to strengthen HAZMAT response throughout the country, thereby protecting lives, property, and the environment. Roundtable members include representatives of federal, state, and local governments, fire and emergency service agencies, and subject matter experts from the HAZMAT response community.

The [2019](#), [2021](#), [2022](#), and [2023](#) Roundtable final reports are available on the PHMSA website and are widely promoted amongst the response community at national conferences and response forums.

APPENDIX A: U.S. STATE RECIPIENT PROFILES

Alabama Emergency Management Agency

Clanton, AL

Organization Overview

The Alabama Emergency Management Agency (AEMA) aims to support citizens, strengthen communities, and build a culture of preparedness through a comprehensive Emergency Management program. AEMA is responsible for coordinating the emergency activities of all state departments and agencies with local governments, private organizations, and the federal government. AEMA's goals are to increase the effectiveness of local response to HAZMAT-related transportation incidents; support regional HAZMAT response teams to ensure the inclusion of underserved communities; and develop, improve, and implement transportation emergency plans under EPCRA.

For more information about AEMA, please visit their website at <https://ema.alabama.gov>.

³ For FY 2023, the performance outputs are actual reported numbers.

⁴ Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

Arizona Department of Environmental Quality

Phoenix, AZ

Organization Overview

The Arizona Department of Environmental Quality (ADEQ) administers the state’s environmental laws and delegated federal programs to prevent air, water, and land pollution, and ensure cleanup. The Arizona State Legislature created ADEQ in 1987 as the state’s cabinet-level environmental agency, under the Environmental Quality Act of 1986. ADEQ is composed of three environmental programs: Air Quality, Water Quality, and Waste, with functional units responsible for technical, operational, and policy support. Its mission is to protect and enhance public health and the environment in Arizona.

For more information about ADEQ, please visit their website at <https://www.azdeq.gov>.

Arkansas Division of Emergency Management

North Little Rock, AR

Organization Overview

The Arkansas Division of Emergency Management (ADEM) is responsible for the planning, training, and response activities in the event of natural or manmade emergencies and disasters. ADEM's mission is to provide efficient state-level leadership, resources, and coordination for a comprehensive all-hazards approach to emergencies and disasters impacting Arkansas.

For more information about ADEM, please visit their website at <https://www.dps.arkansas.gov>.

California Governor’s Office of Emergency Services

Mather, CA

Organization Overview

The California Office of Emergency Services (Cal OES) serves as the state’s leadership hub during all major emergencies and disasters. Cal OES’ mission is to protect lives and property, build capabilities, and support communities for a resilient California. It takes a proactive approach to addressing risks, threats, and vulnerabilities that form the basis of the mission and have been tested through real events. Cal OES also conducts comprehensive exercises to help California maintain its state of readiness, and plan for and mitigate impacts.

For more information about Cal OES, please visit their website at <https://www.caloes.ca.gov>.

Colorado Division of Homeland Security and Emergency Management

Centennial, CO

Organization Overview

The mission of the Colorado Division of Homeland Security and Emergency Management (DHSEM) is to lead and support Colorado's effort to prevent, protect, mitigate, respond to, and recover from all-hazards events. DHSEM's Office of Emergency Management is responsible for the state's comprehensive emergency management program, which supports local and state agencies. Activities and services cover the five mission areas of emergency management: prevention, protection, mitigation, response, and recovery.

For more information about DHSEM, please visit their website at <https://dhsem.colorado.gov>.

⁴Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

Florida Division of Emergency Management

Tallahassee, FL

Organization Overview

The Florida Division of Emergency Management (FDEM) plans for and responds to both natural and man-made disasters. These range from floods and hurricanes to incidents involving hazardous materials or nuclear power. The Division prepares and implements a Statewide Comprehensive Emergency Management Plan, and routinely conducts extensive exercises to test state and county emergency response capabilities. FDEM's mission is to work together to ensure that Florida is prepared to respond to emergencies, recover from them, and mitigate against their impacts.

For more information about FDEM, please visit their website at <https://www.floridadisaster.org/dem>.

Georgia Emergency Management and Homeland Security Agency

Atlanta, GA

Organization Overview

The Georgia Emergency Management and Homeland Security Agency (GEMA) coordinates the state's preparedness, response, and recovery efforts to disasters. As part of the Office of the Governor, GEMA operates under the authority of the Emergency Management Act of 1981. GEMA works with local, state, and federal governments, and in partnership with the private sector and faith-based community, to prevent and respond to natural and man-made emergencies.

For more information about GEMA, please visit their website at <https://gema.georgia.gov>.

Idaho Office of Emergency Management

Boise, ID

Organization Overview

The Idaho Office of Emergency Management (IOEM) is a division of the Idaho Military Division. IOEM is the state's emergency management agency tasked by Idaho code to assist its 44 counties and four tribes in managing man-made and natural disasters in the state. Its mission is to guide the state of Idaho in effectively preparing for, protecting against, mitigating the effects of, responding to, and recovering from all hazards.

For more information about IOEM, please visit their website at <https://ioem.idaho.gov>.

Illinois Emergency Management Agency

Springfield, IL

Organization Overview

The primary responsibility of the Illinois Emergency Management Agency (IEMA) is to better prepare the state of Illinois for natural, man-made, or technological disasters, hazards, or acts of terrorism. Their goal is a "better prepared state." Their mission is to "Prepare, protect and assist the citizens of the State of Illinois through planning, prevention, training, mitigation, response, and recovery to all hazards, natural or man-made."

For more information about IEMA, please visit their website at <https://iema.illinois.gov>.

Indiana Department of Homeland Security

Indianapolis, IN

Organization Overview

The Indiana Department of Homeland Security (IDHS) leads Indiana's emergency planning and operations, first responder training, and fire and building safety. IDHS also supports the state Emergency Operations Center (EOC), which leads response and coordination efforts for large-magnitude incidents. The primary role of IDHS is to support first responders and their communities as they prepare for and respond to disasters or large-scale emergencies.

For more information about IDHS, please visit their website at <https://www.in.gov/dhs>.

Kansas Division of Emergency Management

Topeka, KS

Organization Overview:

The Kansas Division of Emergency Management (KDEM) is the arm of the Adjutant General's Department that provides mitigation advocacy, planning requirements and guidance, response coordination, and administration of recovery programs for the civil sector of the state, regardless of the type of hazards. There are three branches of KDEM: the Response and Recovery Branch, the Planning and Mitigation Branch, and the Preparedness Branch. The Technological Hazards Program under the Response and Recovery Branch provides aid concerning potential accidents involving hazardous substances, such as toxic chemicals, radioactive substances, and potential releases from nuclear power plants. The program also assists counties with implementing the Emergency Planning and Community Right-To-Know Act, and protecting Kansans from all hazards by providing and coordinating resources, expertise, leadership, and advocacy.

For more information about KDEM, please visit their website at <https://www.kansastag.gov>.

² For FYs 2020, 2021, and 2022, the performance outputs are averages over the three-year performance cycle.

³ For FY 2023, the performance outputs are actual reported numbers.

⁴Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

Kentucky Division of Emergency Management

Frankfort, KY

Organization Overview:

The Kentucky Division of Emergency Management (KYEM) is a division of the Kentucky Department of Military Affairs, and its role and function are governed by legislative action as dictated in Chapter 39A-F of the Kentucky Revised Statutes. KYEM's vision is to have a resilient commonwealth that is safe, secure, and prepared for emergencies and disasters because of its programs and the efforts of a superior emergency management team that is staffed and lead by professional managers and administrators. The KYEM Hazardous Materials Program is focused on raising the level of awareness of HAZMAT in the commonwealth, and continuing to grow, develop, and expand the knowledge base and skill level of all first responders with regards to HAZMAT responses.

For more information about KYEM, please visit their website at <https://kyem.ky.gov>.

Louisiana State Police Emergency Services Unit

Zachary, LA

Organization Overview:

The Louisiana State Police (LSP) Emergency Services Unit is the primary agency in the state of Louisiana with both the regulatory and statutory authority for HAZMAT and explosives. Each unit conducts enforcement activities that are supported by either administrative or criminal provisions within each set of regulations. Technicians assigned to ESU respond, mitigate, and often remediate HAZMAT and explosive incidents throughout Louisiana on a 24-hour basis, 365 days a year.

For more information about LSP, please visit their website at <https://www.lsp.org>.

Maine Emergency Management Agency

Augusta, ME

Organization Overview:

The Maine Emergency Management Agency (MEMA) coordinates the mitigation, preparedness, and response and recovery from emergencies and disasters such as floods, hurricanes, earthquakes, and HAZMAT spills. MEMA also provides guidance and assistance to county and local governments, businesses, and nonprofit organizations in their efforts to protect citizens and property, and increase resiliency in the face of disaster. MEMA seeks to promote safer, less vulnerable communities with the capacity to cope with hazards and disasters.

For more information about MEMA, please visit their website at www.maine.gov/mema.

Maryland Department of Emergency Management

Reisterstown, MD

Organization Overview:

The Maryland Department of Emergency Management (MDEM) provides Maryland residents, organizations, and emergency management partners with expert information, programmatic activities, and leadership in the delivery of financial, technical, and physical resources. MDEM's mission is to proactively reduce disaster risks and reliably manage consequences through collaborative work with Maryland's communities and partners. It consistently improves the state's emergency preparedness by augmenting the efforts and skills of partners and providing resources that all stakeholders need to better prepare for, mitigate against, respond to, and recover from disasters.

For more information about MDEM, please visit their website at <https://mdem.maryland.gov>.

Michigan State Police, Emergency Management & Homeland Security Division

Dimondale, MI

Organization Overview:

The vision of the Michigan State Police, Emergency Management & Homeland Security Division (MSP/EMHSD) is to be a leader and partner in protecting our homeland from all threats and hazards. Its mission is to prevent, mitigate, prepare for, respond to, and recover from emergencies, disasters, and threats to our homeland. MSP/EMHSD provides HAZMAT training and planning assistance to local communities throughout the state of Michigan. MSP/EMHSD focuses on raising the professional standing of the HAZMAT planning, mitigation, and response field by providing leadership and coordination through instructional programs and other skill enhancement opportunities.

For more information about MSP/EMHSD, please visit their website at <https://www.michigan.gov/msp>.

Minnesota Department of Public Safety, State Fire Marshal Division

St. Paul, MN

Organization Overview:

The State Fire Marshal Division (SFMD) exists so that the fire service department is prepared, communities are supported, and Minnesotans are safer from fire. Its mission is to strengthen Minnesota fire-safe environments by providing statewide leadership and guidance in support of fire and life safety policies, enforcement, prevention, and education. SFMD supports local fire and law enforcement and the public with fire inspections and investigations, materials training and assistance, and the development of state fire codes.

For more information about MDPS/SFMD, please visit their website at <https://dps.mn.gov/divisions/sfm>.

Missouri State Emergency Management Agency

Jefferson City, MO

Organization Overview:

The mission of the Missouri State Emergency Management Agency (SEMA) is to help fellow Missourians prepare for, respond to, and recover from all emergencies. Every step in their mission is guided by five core values: respect, integrity, trust, honesty, and compassion. SEMA, a division of the Missouri Department of Public Safety, is the state's coordinating agency for disaster planning, response, and recovery. SEMA works with other state agencies, local governments, the federal government, and volunteer and faith-based organizations to ensure coordinated and efficient management during large-scale emergencies or disasters.

For more information about SEMA, please visit their website at <https://sema.dps.mo.gov>.

Nebraska Emergency Management Agency

Lincoln, NE

Organization Overview

The Nebraska Emergency Management Agency (NEMA) aims to reduce the vulnerabilities of the people and communities of Nebraska from damage, injury, and loss of life and property resulting from natural, technological, or man-made disasters and emergencies. NEMA serves as the state administrative agency for the State Emergency Response Commission (SERC) and for the HMEP grant. Working through NEMA, SERC coordinates HAZMAT planning through the implementation of the Emergency Planning and Community Right to Know Act (EPCRA). SERC works directly with Local Emergency Planning Commissions (LEPC) on HAZMAT planning, exercise, and training.

For more information about NEMA, please visit their website at <https://nema.nebraska.gov>.

Nevada State Emergency Response Commission

Carson City, NV

Organization Overview

The Nevada State Emergency Response Commission (NV SERC) is responsible for coordinating and supervising the activities of LEPCs. NV SERC ensures that each LEPC has an approved Hazardous Materials Emergency Response Plan; collects chemical inventory data from Nevada facilities; provides funds through grants; and processes requests from the public for information. NV SERC's mission is to protect the citizens of the state of Nevada against the effects of HAZMAT. One objective of NV SERC is to encourage a comprehensive planning and training approach for emergency response directly relating to HAZMAT.

For more information about NV SERC, please visit their website at <https://serc.nv.gov>.

New Hampshire Division of Homeland Security and Emergency Management

Concord, NH

Organization Overview

The New Hampshire Division of Homeland Security and Emergency Management (HSEM) is charged with overseeing state-level planning, preparation, response to, recovery from, and mitigation of all emergencies and disasters. This includes natural disasters such as hurricanes, floods, and severe winter storms, and man-made disasters such as nuclear power plant accidents or chemical spills. The mission of HSEM is to support the Department of Safety through the effective delivery of prevention, mitigation, preparedness, response, and recovery efforts for all hazards across the state of New Hampshire.

For more information about HSEM, please visit their website at <https://www.nh.gov/safety/divisions/hsem/>.

New Jersey Department of Law and Public Safety

Trenton, NJ

Organization Overview

Under the New Jersey Department of Law and Public Safety (NJ DLPS), the New Jersey State Police (NJSP) directs the Hazardous Materials Response Unit (HMRU). HMRU develops, delivers, and coordinates HAZMAT emergency response planning, training, and preparedness as mandated by state and federal policy. In addition, HMRU interacts with LEPCs in HAZMAT emergency response planning and training; addresses HAZMAT accidents and events safely and efficiently; and provides emergency response advice, direction, and guidance to all local responders and adjacent states.

For more information about NJ DLPS (HMRU), please visit their website at <https://www.nj.gov/njsp/division>.

New Mexico Department of Homeland Security and Emergency Management

Santa Fe, NM

Organization Overview

The New Mexico Department of Homeland Security and Emergency Management (DHSEM) works to protect the people of New Mexico and the nation through a comprehensive and coordinated program of mitigating hazards, preparing for emergencies, preventing attacks, and recovering from disasters regardless of cause. The DHSEM Hazardous Materials Program is focused on improving emergency planning, preparedness, mitigation, response, and recovery capabilities, with a focus on HAZMAT. The Program's objective is to ensure a comprehensive approach to planning and training for emergency response directly related to the impact of storage and transportation of HAZMAT.

For more information about New Mexico DHSEM, please visit their website at <https://www.nmdhsem.org>.

New York State Division of Homeland Security and Emergency Services

Albany, NY

Organization Overview

The mission of the New York State Division of Homeland Security and Emergency Services (NYS DHSES) is to provide leadership, coordination, and support for efforts to prevent, protect against, prepare for, respond to, recover, and mitigate disasters and other emergencies. The HMEP Grant will be administered by the Grants Program Administration (GPA) unit within DHSES as designated by the Governor. GPA staff members are specialists in the administration of federal and state grant programs, and will provide routine management and administration, and coordinate with the subject matter experts from the Office of Emergency Management and the Office of Fire Prevention and Control to implement HMEP planning and training activities.

For more information about NYS DHSES, please visit their website at <https://www.dhses.ny.gov>.

North Carolina Division of Emergency Management

Raleigh, NC

Organization Overview

The North Carolina Division of Emergency Management (NCEM) works to enhance the state’s resiliency by actively collaborating, communicating, and coordinating to prevent, mitigate, respond, and recover from disasters. The agency deploys state resources when needed, and coordinates with neighboring states and the federal government to augment staffing and resources. NCEM also administers state and federal grants; manages multi-agency response to disasters; oversees all hazards and threat risk management; coordinates regional hazard mitigation plans; facilitates trainings and exercises; and manages assets such as the regional HAZMAT response and search-and-rescue teams.

For more information about NCEM, please visit their website at <https://www.ncdps.gov>.

North Dakota Department of Emergency Services

Bismarck, ND

Organization Overview

The North Dakota Department of Emergency Services (NDDDES) provides 24/7 emergency communications and resource coordination with lead and support agencies, private enterprise, and voluntary organizations to assist local jurisdictions in disaster and emergency response activities. It administers federal disaster recovery programs and manages the Emergency Management Assistance Compact (EMAC), which serves as a national clearinghouse through which member states may request and provide mutual aid assistance. NDDDES supports response and recovery coordination with emergency managers in each county and tribal nation within North Dakota, including Bismarck and Fargo cities.

For more information about NDDDES, please visit their website at <https://www.des.nd.gov>.

³ For FY 2023, the performance outputs are actual reported numbers.

⁴ Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

Ohio Emergency Management Agency

Columbus, OH

Organization Overview

The primary mission of the Ohio Emergency Management Agency (OH EMA) is to coordinate activities to mitigate, prepare for, respond to, and recover from disasters. This mission is carried out by closely interfacing with local, state, and federal agencies to bring resources of recovery and support to Ohioans impacted by the disaster. In addition to disaster response and recovery, OH EMA activities include education, training, planning, and preparedness—strengthening Ohio's first responder capabilities and improving communication across the state.

For more information about OH EMA, please visit their website at <https://www.ema.ohio.gov>.

Oregon State Police/Office of State Fire Marshal

Salem, OR

Organization Overview

The Oregon State Police/Office of State Fire Marshal (OSFM) was established in 1917 to protect the lives and property of Oregon citizens from the dangers of fire. Over the years the mission has expanded to include protection from the dangers of HAZMAT; all-hazard life safety response; adult and youth fire safety education; and various levels of licensing, permitting, and inspection of propane, fireworks, and non-retail fueling. The office also manages state resources that include 13 HAZMAT response vehicles and equipment, and three incident management teams.

For more information about OSP/OSFM, please visit their website at <https://www.oregon.gov/osp>.

Pennsylvania Emergency Management Agency

Harrisburg, PA

Organization Overview

The Pennsylvania Emergency Management Agency (PEMA) maintains a Hazards Materials Division staffed by individuals trained and experienced in planning and responding to HAZMAT incidents. The mission of PEMA is to save lives, reduce suffering, and protect property and the environment by leading and coordinating commonwealth agencies and resources to prevent, protect, prepare, respond, and recover from any man-made or natural disaster. In addition, it assists county LEPCs and their associated organizations to prepare strategies for response to transportation-related HAZMAT emergency incidents.

For more information about PEMA, please visit their website at <http://www.pema.pa.gov>.

South Dakota Office of Emergency Management

Pierre, SD

Organization Overview

The purpose of the South Dakota Office of Emergency Management (SDOEM) is to protect South Dakotans and their property from the effects of natural, man-made, and technological disasters. To fulfill this charge, four phases of emergency management are recognized: preparedness, response, recovery, and mitigation. SDOEM encourages the development of comprehensive preparedness and disaster management plans, programs, capabilities, and organizations by the state and its local governments. Because disasters often disrupt the normal functioning of governments, communities, and families, SDOEM provides the organization necessary to expedite aid, rehabilitation, and the rapid acquisition and delivery of resources.

For more information about SDOEM, please visit their website at <https://dps.sd.gov/oem>.

Texas Division of Emergency Management

Austin, TX

Organization Overview

The Texas Division of Emergency Management (TDEM) coordinates the state emergency management program, which ensures the state and its local governments respond to and recover from emergencies and disasters, and implements plans and programs to help prevent or lessen the impact of emergencies and disasters. TDEM implements programs to increase public awareness about threats and hazards; coordinates emergency planning; provides an extensive array of specialized training for emergency responders and local officials; and administers disaster recovery and hazard mitigation programs in the state of Texas. The mission of TDEM is to execute a comprehensive all-hazard emergency management program for the state and for assisting cities, counties, and state agencies in planning and implementing their emergency management programs.

For more information about TDEM, please visit their website at <https://tdem.texas.gov>.

Utah Department of Public Safety

Taylorsville, UT

Organization Overview

The Utah Department of Public Safety (DPS) provides statewide public safety services for more than 1,500 employees, of which 520 are sworn state law enforcement officers. The State Fire Marshal's Office is a division of DPS. The office's Hazardous Materials Section is responsible for aiding with training for awareness; operations and technician level responders; requesting and directing HMEP grant funds; acting as a liaison to LEPCs; coordinating with the State Emergency Response Commission (SERC); and providing technical support to HAZMAT teams and response agencies.

For more information about Utah DPS, please visit their website at <https://firemarshal.utah.gov>.

Vermont Emergency Management Division

Waterbury, VT

Organization Overview

The statutory purpose of the Vermont Department of Public Safety (DPS) is to promote the detection and prevention of crime; participate in searches for lost and missing persons; and assist in cases of statewide or local disasters or emergencies. The Vermont Emergency Management (VEM) division within DPS provides aid and support to Vermont's Local Emergency Management Directors, LEPCs, Regional Planning Commissions, Community Emergency Response Teams, state agencies, and emergency response providers. The mission of VEM is to ensure the people and communities of Vermont have the capabilities to prevent, protect, mitigate, respond to, and recover from natural and man-made threats and hazards to enhance the safety, quality of life, and economic vitality of the state and its citizens.

For more information about Vermont DPS, please visit their website at <https://vem.vermont.gov>.

Virginia Department of Emergency Management

Chesterfield, VA

Organization Overview

The Virginia Department of Emergency Management (VDEM) works with local government, state and federal agencies, and voluntary organizations to provide resources and expertise through the five mission areas of emergency management. VDEM develops and maintains state emergency plans and assists communities in developing localized emergency operations plans. The agency works with local jurisdictions to assist in designing effective, long-range mitigation plans that address hazards specific to their communities. VDEM administers training courses in emergency management, HAZMAT response, and search and rescue to prepare local responders for disasters and their aftermath.

For more information about VDEM, please visit their website at <https://www.vaemergency.gov>.

Washington State Military Department, Emergency Management Division

Camp Murray, WA

Organization Overview

The mission of the Washington State Military Department is to minimize the impact of emergencies and disasters on people, property, the environment, and the economy of Washington state by providing trained and ready forces for state and federal missions. The Washington Emergency Management Division (WEMD) is one of five divisions within the Military Department. WEMD manages the State Emergency Operations Center and coordinates response to ensure help is provided quickly and effectively to those who need it. Additionally, WEMD provides mitigation advocacy, planning guidance, training and exercises, response coordination, and administration of recovery programs for the civil sector of the state.

For more information about the WEMD, please visit their website at <https://mil.wa.gov/emd>.

West Virginia Emergency Management Division

Charleston, WV

Organization Overview

The mission of the West Virginia Emergency Management Division (WVEMD) is to ensure the protection of life and property by providing coordination, guidance, support, and assistance to local emergency managers and first responders. Pursuant to West Virginia state code and the West Virginia Emergency Operations Plan, the agency manages disaster preparedness, mitigation, and response and recovery efforts throughout the state by coordinating with all responsible government agencies. During activation, WVEMD coordinates resources and support as requested by local emergency management agencies who administer direct assistance to citizens.

For more information about WVEMD, please visit their website at <https://emd.wv.gov>.

APPENDIX B: U.S. TERRITORY PROFILES

American Samoa Department of Homeland Security

Pago Pago, AS

Organization Overview

The American Samoa Department of Homeland Security (ASDHS) is tasked with creating, maintaining, and implementing planning and training activities that promote, educate, and prepare the response community and its stakeholders to respond to, mitigate, prepare for, and recover from all HAZMAT incidents within the territory of American Samoa. Established under ASDHS, the American Samoa Hazardous Material Program (ASHMP) coordinates support and maintains the DOT Hazardous Materials Emergency Preparedness (HMEP) Grant. The goal of ASHMP is to enhance, develop, and promote local response capabilities through planning, training, and exercises, which will reduce the potential for injuries, loss of life, negative effects on the environment, and damage to properties from HAZMAT incidents.

For more information about the American Samoa DHS, please visit their website at: <https://www.americansamoa.gov/>.

HMEP Grant Awards, Expenditures, and Performance Outputs

	FY 2019 ¹	FY 2020 ²	FY 2021 ²	FY 2022 ²	FY 2023 ³
Awards	\$67,148	\$67,148	\$67,148	\$67,148	\$133,844
Expenditures ⁴	\$66,943	\$71,620	\$87,474	\$53,110	\$95,467
Number Trained	238	1,365	1,365	1,364	1,021
Planning Activities	3	7	7	8	10

¹ For FY 2019, the performance outputs were reported in the previously published Annual Report to Congress, covering FYs 2016–2021.

² For FYs 2020, 2021, and 2022, the performance outputs are averages over the three-year performance cycle.

³ For FY 2023, the performance outputs are actual reported numbers.

⁴ Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

Guam Environmental Protection Agency

Barrigada, GU

Organization Overview

The mission and purpose of the Guam Environmental Protection Agency (GEPA) is to always maintain a high-quality environment to guarantee an enjoyable life for all people present and in the future; and to ensure that environmental degradation is minimized. The Green Parcel Program, under GEPA manages the State Response Program, which includes emergency response and preparedness.

The current capacity of the island's response to a HAZMAT emergency relies on the continued training and certification of first responders for operations and technical HAZMAT levels. Increases in training and certification will improve the capabilities to respond to and minimize emergencies involving HAZMAT and waste transportation through Guam.

For more information about GEPA, please visit their website at <https://epa.guam.gov>.

HMEP Grant Awards, Expenditures, and Performance Outputs

	FY 2019 ¹	FY 2020 ²	FY 2021 ²	FY 2022 ²	FY 2023 ³
Awards	\$69,580	\$69,580	\$69,580	\$69,580	\$69,580
Expenditures ⁴	0	0	\$106,952	\$61,719	\$73,900
Number Trained	18	33	33	33	24
Planning Activities	6	8	8	7	4

¹ For FY 2019, the performance outputs were reported in the previously published Annual Report to Congress, covering FYs 2016–2021.

² For FYs 2020, 2021, and 2022, the performance outputs are averages over the three-year performance cycle.

³ For FY 2023, the performance outputs are actual reported numbers.

⁴ Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

Puerto Rico Department of Natural & Environmental Resources

San Juan, PR

Organization Overview

The Puerto Rico Department of Natural and Environmental Resources (PR DNER) is the agency of the commonwealth with the main function of protecting and conserving the environment, wisely and judiciously using the necessary resources to prevent and eliminate damages that may affect it while maintaining a balance between economic development and the environment. DNER has promulgated regulations with the main purpose of establishing standards that minimize environmental damage and establish controls for activities that produce pollution.

For more information about PR DNER, please visit their website at <https://www.drna.pr.gov>.

HMEP Grant Awards, Expenditures, and Performance Outputs

	FY 2019 ^{1,2}	FY 2023
Awards	\$176,244	0
Expenditures ³	0	\$13,996
Number Trained	88	103
Planning Activities	4	1

¹ For FY 2019, the performance outputs were reported in the previously published Annual Report to Congress, covering FYs 2016–2021.

² For the FY 2019 award, Puerto Rico was granted an extension through December 2024. Performance outputs may be incomplete.

³ Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

U.S. Virgin Islands Department of Planning and Natural Resources

St. Thomas, VI

Organization Overview

The U.S. Virgin Islands Department of Planning and Natural Resources (USVI DPNR) encourages the development of a comprehensive planning and training approach to HAZMAT emergency response. This approach intends to increase the effectiveness of local responders; minimize the impact of incidents involving HAZMAT transportation; and ultimately protect residents and the environment. Partnering with LEPCs and assisting our first responder organizations allows USVI DPNR to succeed in meeting this objective.

For more information about USVI DPNR, please visit their website at <https://dpnr.vi.gov>.

APPENDIX C: U.S. TRIBAL PROFILES

Agua Caliente Band of Cahuilla Indians

Palm Springs, CA

Organization Overview

The Agua Caliente Band of Cahuilla Indians is a Palm Springs based, federally recognized Native American Tribe with more than 500 members. The tribe is steward to more than 31,500 acres of ancestral land. The cities of Palm Springs, Cathedral City, and Rancho Mirage, as well as portions of unincorporated Riverside County, span the boundaries of the Agua Caliente Indian Reservation.

Emergency management initiatives are typically led by the Planning & Natural Resources Committee, which includes grant administration, in collaboration with emergency services staff. These teams conduct comprehensive due diligence to ensure initiatives align with the tribe's mission; adhere to tribal government and other applicable regulations; and are financially feasible.

For more information about Agua Caliente Band of Cahuilla Indians, please visit their website at <https://www.aguacaliente.org>.

HMEP Grant Awards, Expenditures, and Performance Outputs

	FY 2019	FY 2020	FY 2022	FY 2023
Awards¹	\$14,250	--	\$11,000	--
Expenditures²	0	\$14,250	0	\$6,750
Number Trained	--	13	--	14
Planning Activities	--	0	--	0

¹ The Agua Caliente Band of Cahuilla Indians did not receive grants in FY 2020 and FY 2023.

² Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

Blue Lake Rancheria

Blue Lake, CA

Organization Overview

The Blue Lake Rancheria is a federally recognized Native American Tribe near the cities of Eureka and Arcata consisting of 100 acres of land in trust and thriving economic enterprises.

The Blue Lake Rancheria Office of Emergency Services (BLROES) was created in 2010 in response to identified capability gaps and ongoing emergency preparedness needs. BLROES leads emergency preparedness and disaster mitigation, response, and recovery across a wide array of planning, training, exercise, and certification efforts. The rural, geographically isolated north coast region of California has specific hazards, such as large earthquakes from the Cascadia Subduction Zone, tsunamis, severe storms, wildfire, drought, floods, landslides, and many others. Impacts from these hazards include air quality reductions and lengthy resource disruptions (e.g., fuels, electricity) that can last from hours, to weeks, to months.

For more information about Blue Lake Rancheria, please visit their website at <https://www.bluelakerancheria-nsn.gov>.

HMEP Grant Awards, Expenditures, and Performance Outputs

	FY 2020	FY 2021	FY 2022 ¹	FY 2023 ¹
Awards	\$234,382	\$235,978	\$196,727	--
Expenditures ²	0	\$77,550	\$96,700	\$191,548
Number Trained	--	122	200	360
Planning Activities	--	4	1	1

¹ For FY 2022 and 2023 performance outputs, the reported values are planned estimates. The Blue Lake Rancheria was granted extensions through FY 2025 for both awards.

² Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

Fallon Paiute-Shoshone Tribe

Fallon, NV

Organization Overview

The Fallon Paiute-Shoshone Tribe is a federally recognized Indian tribe in Nevada with a population of approximately 1,300 and has four areas of sovereign trust land within its jurisdiction.

The Emergency Management Department provides a comprehensive and integrated emergency management system that coordinates the tribe's resources to protect lives, property, and the environment through mitigation, preparedness, response, and recovery from natural and man-made hazards that may impact the Fallon Paiute-Shoshone Tribe.

For more information about Fallon Paiute-Shoshone Tribe, please visit their website at <https://www.fpst.org>.

HMEP Grant Awards, Expenditures, and Performance Outputs

	FY 2019 ^{1,2}	FY 2022 ³	FY 2023
Awards	\$64,532	\$52,846	--
Expenditures ⁴	\$43,380	\$26,144	\$20,498
Number Trained	43	0	28
Planning Activities	5	0	0

¹ For FY 2019, the performance outputs were reported in the previously published Annual Report to Congress, covering FYs 2016–2021.

² For the award received in FY 2019, the Fallon Paiute-Shoshone Tribe received an extension through FY 2022.

³ For the award received in FY 2022, the Fallon Paiute-Shoshone Tribe received an extension through FY 2024. Expenditures and performance outputs will be reported in FY2025.

⁴ Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

Inter-Tribal Council of Arizona, Inc.

Phoenix, AZ

Organization Overview

The Inter-Tribal Council of Arizona (ITCA) was established in 1952 to provide a united voice for tribal governments located in the state of Arizona to address common issues of concerns. The organization provides 21 federally recognized tribes in Arizona with ongoing technical assistance and training in program planning and development, resource development, management, and education.

Emergency preparedness and public safety are priorities of Tribal Council. The organization provides technical assistance and training for the tribes in pesticide enforcement and worker protection, solid waste planning, environmental education, and chemical emergency preparedness and response planning.

For more information about ITCA, please visit their website at <https://itcaonline.com>.

HMEP Grant Awards, Expenditures, and Performance Outputs

	FY 2019 ¹	FY 2020	FY 2021 ²	FY 2022	FY 2023
Awards	\$223,513	--	\$223,513	\$206,750	\$193,106
Expenditures³	\$154,314	\$194,000	\$96,407	\$68,058	\$162,531
Number Trained	399	194	--	234	113
Planning Activities	2	2	--	3	5

¹ For FY 2019, the performance outputs were reported in the previously published Annual Report to Congress, covering FYs 2016–2021.

² ITCA was not awarded funds for FY 2020, thus there are no performance outputs in FY 2021.

³ Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

Kawerak, Inc.

Nome, AK

Organization Overview

Kawerak, Inc. works as the regional non-profit corporation to provide services throughout the Bering Straits Region. Kawerak works to meet the needs of the people of the Bering Strait region through strong collaboration and cooperation with all 20 tribes. Kawerak is empowered by the unity of tribes to serve the people through facilitation and partnership.

Kawerak's organizational goal is to assist Alaska native people and their governing bodies to take control of their future. With programs ranging from education to transportation, and natural resource management to economic development, Kawerak seeks to improve the region's social, economic, educational, cultural, and political conditions by providing training that will help residents respond safely to hazardous materials incidents, and assisting the native villages to develop comprehensive emergency response plans.

For more information about Kawerak, please visit their website at <https://kawerak.org>.

Leech Lake Band of Ojibwe

Cass Lake, MN

Organization Overview

The Leech Lake Band of Ojibwe (LLBO) is a federally recognized Native American tribe that is committed to the responsible operation of government, preservation of heritage, promotion of sovereignty, and the protection of natural resources for elders and future generations, while enhancing the health, economic well-being, education, and inherent right to live as Ojibwe People.

The Leech Lake Division of Public Safety and Department of Emergency Management are charged with the safety of the constituents of Leech Lake Reservation. In the interest of making communities safer and better prepared in the event of an emergency, the Tribal Emergency Response Committee was created, which is comprised of representatives from each division of tribe.

For more information about LLBO, please visit their website at <https://www.llojibwe.org>.

Nez Perce Tribe

Lapwai, ID

Organization Overview

The Nez Perce Tribe is a federally recognized tribe in north central Idaho with more than 3,500 enrolled citizens. Headquartered in Lapwai, Idaho, the Nez Perce Reservation spans about 770,000 acres.

The Nez Perce Tribal Executive Committee is tasked with protecting and preserving treaty rights and tribal sovereignty, Nez Perce culture, and the general environment of the reservation. The Committee developed the Hazardous Emergency Response Team to respond to transportation related HAZMAT spills on two major transportation corridors. The purpose of the team is to respond to petroleum and chemical spills within the reservation boundaries and usual or accustomed places where treaty rights are observed.

For more information about Nez Perce, please visit their website at <https://nezperce.org>.

Northwest Tribal Emergency Management Council

Snohomish, WA

Organization Overview

The Northwest Tribal Emergency Management Council (NWTEMC) was developed to address the emergency response disadvantages of the tribes within that region. NWTEMC is non-profit organization that was initially formed in 2004 as a consortium of tribes in the northwest region of Washington state to help tribes participate in Homeland Security and Emergency Management preparedness efforts.

NWTEMC provides guidance for member tribes to develop sustainable and all-hazard comprehensive approaches to terrorism and homeland security initiatives, and an all-hazard emergency management approach that emphasizes both intra- and interjurisdictional cooperation to maximize resources in mutual aid, training, exercises, planning, and equipping. In addition, the council assists member tribes with regulatory requirements as mandated in various federal programs, without liability for compliance attached thereto.

For more information about NWTEMC, please visit their website at <http://nwtemc.org>.

Pueblo of Laguna

Laguna, NM

Organization Overview

The Pueblo of Laguna is a federally recognized Indian tribe that is located 45 miles west of Albuquerque and 30 miles east of Grants, New Mexico. The Pueblo covers 885 square miles, within four different counties. The reservation population including non-Indians is around 4,043. However, during major cultural traditional events and activities, more than 10,000 visitors converge on the Pueblo.

The mission of the Pueblo of Laguna Emergency Preparedness and Safety Compliance Program and Tribal Emergency Response Committee is to improve emergency planning, preparedness, mitigation, response, and recovery capabilities, with a focus on hazardous materials.

For more information about Pueblo of Laguna, please visit their website at <https://www.lagunapueblo-nsn.gov>.

HMEP Grant Awards, Expenditures, and Performance Outputs

	FY 2019 ¹	FY 2021	FY 2022 ²	FY 2023
Awards	\$94,011	--	\$80,746	\$108,041

² For the FY 2022 award, performance outputs are being reported under FY 2023.

³Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

Saint Regis Mohawk Tribe

Akwesasne, NY

Organization Overview

The Saint Regis Mohawk Tribe is a federally recognized Indian Tribe. The Saint Regis Mohawk Tribal Council is the duly elected and recognized government of the Mohawk people. The reservation is in northern New York state approximately 80 miles northeast of Lake Ontario. The reservation is approximately 16,640 square acres of land and has a population of approximately 12,400 members.

The mission of the Office of Emergency Management and Safety is to create a safe, secure, and “disaster-resilient” reservation through prevention, preparedness, response, and recovery, and it achieves this goal by working with local, state, and federal agencies. It aids in writing standard operating plans, training, and exercises for seniors, families, and youth. Emergency preparedness is promoted through wellness days, training and exercises for seniors, public service announcements, and the tribal newsletter.

For more information about Saint Regis Mohawk Tribe, please visit their website at <https://www.srmt-nsn.gov>.

HMEP Grant Awards, Expenditures, and Performance Outputs

	FY 2019 ^{1,2}	FY 2020	FY 2021	FY 2023
Awards	\$79,960	--	--	\$66,727

³ Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

San Manuel Band of Mission Indians

Highland, CA

Organization Overview

The San Manuel Band of Mission Indians is a federally recognized Indian tribe. The tribe has a reservation of approximately 980 acres at the base of the San Bernardino Mountains.

The San Manuel Fire Department is committed to providing emergency and non-emergency services to protect the lives and property of tribal citizens, employees, patrons, and guests of the San Manuel reservation, and safeguarding the tribe's environmental, cultural, and economic resources. They contribute to this commitment by doing things such as maintaining the highest departmental readiness to provide emergency medical, fire suppression, HAZMAT, and disaster service. In addition, they cultivate partnerships with other tribal departments and outside public safety agencies to allow for a more comprehensive and dynamic emergency response capability.

For more information about the San Manuel Band of Mission Indians, please visit their website at <https://sanmanuel-nsn.gov>.

HMEP Grant Awards, Expenditures, and Performance Outputs

² For the FY 2019 award, the San Manuel Band of Mission Indians received an extension through FY 2021. Performance outputs are being reported under FY 2021.

³Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

Seminole Tribe of Florida

Hollywood, FL

Organization Overview

The Seminole Tribe of Florida is a federally recognized Indian tribe and the largest non-contiguous tribe in the United States. The tribe operates six federally recognized reservations in the state of Florida, stretching several hundred miles from central to south Florida. The tribe has lived in Florida for thousands of years.

Department of Emergency Management serves as principal entity for emergency operations to assist the Chief Public Safety Officer in performing duties specified in the tribe's Emergency Management Plan. Seminole Tribe Fire Rescue is the most common first responder to an incident. It is a full-time fire rescue service that responds to tribal member, employee, and visitor emergencies on the reservations.

For more information about the Seminole Tribe, please visit their website at <https://www.semtribe.com>.

APPENDIX D: U.S. NONPROFIT ORGANIZATION PROFILES

American Chemistry Council

Washington, D.C.

Organization Overview

The American Chemistry Council (ACC) is a nonprofit organization that represents companies engaged in the business of chemistry. Established within ACC in 1986, the Transportation Community Awareness and Emergency Response (TRANSCAER) program is a voluntary national outreach program that focuses on assisting communities to prepare for and respond to a possible HAZMAT transportation incident. TRANSCAER's mission is to promote safe transportation and handling of HAZMAT; educate and assist communities near major transportation routes about HAZMAT; and aid community emergency response planning for HAZMAT transportation incidents. ACC/TRANSCAER is the recipient of ALERT and CS Grants.

For more information about ACC and TRANSCAER, please visit their website at <https://www.americanchemistry.com>.

ALERT Grant Awards, Expenditures, and Performance Outputs

	FY 2019 ¹	FY 2020	FY 2021	FY 2022 ²	FY 2023
Awards	\$100,000	--	\$300,000	\$100,000	\$100,000
Expenditures³	0	\$33,477	\$57,093	\$76,390	\$107,244
Number Trained	--	--	2,521	1,284	--

¹ For the FY 2019 award, ACC received an extension through FY 2021. Performance outputs are being reported under FY 2021.

² For the FY 2022 award, ACC used funds to build a transportation training trailer. The trailer is expected to train at least 2,500 first responders in communities that do not have direct rail or railyards nearby for training.

³ Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

American Chemistry Council

Washington, D.C.

CSG Grant Awards, Expenditures, and Performance Outputs

	FY 2020 ⁴	FY 2021	FY 2022	FY 2023

⁴ For the FY 2020 award, ACC received an extension through FY 2022. Performance outputs are being reported under FY 2022.

⁵ Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

The Center for Rural Development

Somerset, KY

Organization Overview

The Center for Rural Development (CRD) is a non-profit organization that was established in 1996 and is fueled by a mission to provide leadership that stimulates innovative and sustainable economic development solutions and a better way of life for the citizens they serve. CRD aspires to be the nationally recognized model for successful rural development. CRD's programs and services center around four focus areas: public safety, arts and culture, leadership, and technology. The vision of CRD is to help people feel safer through public safety initiatives; let people tap into their creative spirit through the arts; empower people through leadership education opportunities; and give people access through advanced technology. CRD is a recipient of the ALERT Grant.

For more information about CRD, please visit their website at <https://www.centertech.com>.

ALERT Grant Awards, Expenditures, and Performance Outputs

	FY 2019 ¹	FY 2020	FY 2021 ²	FY 2022	FY 2023
Awards	\$900,000	--	\$1,000,000	\$250,000	\$200,000

Number Trained	--	--	1,691	2,284	636

¹ For the FY 2019 award, CRD received an extension through FY 2021. Performance outputs are being reported under FY 2021.

² For the FY 2021 award, CRD received an extension through FY 2023. Performance outputs are being reported under FY 2022.

³ Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

Commercial Vehicle Safety Alliance

Greenbelt, MD

Organization Overview

The Commercial Vehicle Safety Alliance (CVSA) is a nonprofit association comprised of local, state, provincial, territorial, and federal commercial motor vehicle safety officials, and industry representatives. CVSA aims to prevent motor vehicle crashes, injuries, and fatalities, and believes that collaboration between government and industry improves road safety and saves lives. CVSA's mission is to improve commercial motor vehicle and enforcement by providing guidance, education, and advocacy for enforcement and industry across North America. CVSA is a recipient of the HMIT and CS Grants.

For more information about CVSA, please visit their website at <https://www.cvsa.org>.

HMIT Grant Awards, Expenditures, and Performance Outputs

	FY 2020 ¹	FY 2021	FY 2022	FY 2023

¹ For the FY 2021 award, FSSC received an extension through FY 2024. Performance outputs are being reported under FY 2023. The award is still active.

² The expenditures and performance outputs for the FY 2022 award will be reported in FY 2025.

³ Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

The Gas Technology Institute

Chicago, IL

Organization Overview

The Gas Technology Institute (GTI) is an independent technology organization, established as an Illinois nonprofit corporation. It is a research, development, and training organization that addresses energy and environmental challenges to enable a secure, abundant, and affordable energy future. GTI aims to solve important energy challenges worldwide, turning technology and insights into solutions that create exceptional value for stakeholders in natural gas and broader clean energy systems. GTI is a recipient of the CS Grant.

For more information about GTI, please visit their website at <https://www.gti.energy>.

² The performance outputs for the FY 2022 award will be reported in FY 2025.

³ Expenditure amounts reflect expenses from all open awards and may not align with the fiscal year award.

International Association of Fire Chiefs

Fairfax, VA

Organization Overview

The International Association of Fire Chiefs (IAFC) is a nonprofit association with more than 12,000 members, representing the leadership of firefighters and emergency responders worldwide. IAFC members are experts in firefighting, HAZMAT preparation, prevention and response, emergency medical services, terrorism response, natural disasters, search and rescue, and public safety legislation. Since 1873, the IAFC has provided a forum for its members to exchange ideas, develop professionally, and uncover the latest products and services available to first responders. IAFC is a recipient of the ALERT and CS Grants.

For more information about IAFC, please visit their website at <https://www.iafc.org>.

International Association of Fire Fighters

Washington, D.C.

Organization Overview

The International Association of Fire Fighters (IAFF) was established in 1918 and represents more than 344,000 full-time professional fire fighters and emergency medical responders who protect 85 percent of the nation’s population. More than 3,500 affiliates and their members protect communities in every state in the United States and in Canada. The IAFF is an advocate for providing firefighters and paramedics with the tools they need to perform their jobs. The IAFF provides a strong voice in the development and implementation of new training and equipment and works to ensure the proper staffing of fire and EMS departments. IAFF is a recipient of the SPST Grants.

For more information about IAFF, please visit their website at <https://www.iaff.org>.

International Association of Machinists

Washington, D.C.

Organization Overview

The International Association of Machinists and Aerospace Workers Corporation for Re-Employment and Safety Training (IAM CREST) is a nonprofit organization with the purpose of representing machinists and aerospace workers. The primary mission of IAM CREST is to work with workers and employers in developing site-specific proactive safety and health training, and return injured or ill workers to productive employment. IAM CREST provides training on topics such as HAZMAT safety, ergonomics, and emergency response to workers across the U.S., including Puerto Rico and the Virgin Islands. IAM CREST is a recipient of the HMIT Grant.

For more information about IAM CREST, please visit their website at <https://www.iamcrest.org>.

HMIT Grant Awards, Expenditures, and Performance Outputs

	FY 2023
Awards	\$872,207
Expenditures	0
Number Trained	--

IAM CREST intends to conduct outreach activities to participating airline and railroad organizations, which will assist in determining the carriers' needs. They anticipate training 140 instructors in 24-hour refresher and 40-hour train-the-trainer courses. It is projected that these instructors will have the capability of training 11,200 industry employees in HAZMAT transportation.

International Chemical Workers Union Council

Akron, OH

Organization Overview

The International Chemical Workers Union is a nonprofit organization that was formed in 1944 and became the International Chemical Workers Union Council (ICWUC) in 1996. Since the 1970s the ICWUC has had an active Health and Safety Department; investigates incidents and fatalities; assists local unions with OSHA and NIOSH inspections and OSHA citations; and works with other unions on national health and safety issues. ICWUC is a recipient of the HMIT Grant.

For more information about ICWUC, please visit their website at <https://www.hsed.icwuc.org>.

National Propane Gas Association

Washington, D.C.

Organization Overview

The National Propane Gas Association (NPGA) is a national trade association representing the U.S. propane industry, comprising approximately 2,400 members across all 50 states, 36 affiliated state and regional associations, and members in 19 foreign countries. A part of NPGA's mission is to advance propane safety and usage through robust public policy and comprehensive safety training. NPGA actively collaborates with affiliated state and regional associations to enhance HAZMAT safety training, aligning with regulations and standards from the U.S. Department of Transportation, the National Fire Protection Association, and other pertinent agencies. NPGA is a recipient of the HMIT Grant.

For more information about NPGA, please visit their website at <https://www.npga.org>.

Nova Southeastern University

Davie, FL

Organization Overview

Nova Southeastern University (NSU) is a co-educational, private, not-for-profit research institution accredited by the Southern Association of Colleges and Schools Commission on Colleges. For more than 50 years, NSU has been fostering groundbreaking research and a commitment to community. As a federally designated Hispanic-Serving Institution, NSU is making a diligent effort to expand research opportunities for all scholars and researchers, including those in under-represented ethnic and racial populations. The Institute for Disaster and Emergency Preparedness (IDEP) is a regional and national resource for the provision of educational services, trainings, and programs focused on all-hazards preparedness, disaster, and emergency preparedness, and acts of terrorism. NSU is the recipient of the HMIT Grant.

For more information about NSU, please visit their website at <https://www.nova.edu/idep>.

Short Line Safety Institute

Washington, D.C.

Organization Overview

The Short Line Safety Institute (SLSI) is a nonprofit organization that conducts safety culture assessments; provides hazardous material instructor and leadership development programs; and is the educational, training, and research source for short line and regional railroads concerning safety culture. SLSI's Hazardous Materials Instructor Training Program is responsible for training employees of small railroads. The organization is familiar with the regulations regarding the transport of HAZMAT and compliments a small railroad's existing training program. Many of the small railroads that participate in the SLSI HMIT Program are small businesses that operate in rural areas. SLSI is a recipient of the HMIT and ALERT Grants.

For more information about SLSI, please visit their website at <https://www.shortlinesafety.org>.

For FY 2023, TEEX proposes to provide 12 deliveries of the NFPA 472 Hazardous Materials Rail Specialist Training Course, which would train between 180 and 240 responders.

Wisconsin Emergency Medical Services Association

Waterford, WI

Organization Overview

The Wisconsin Emergency Medical Services Association (WEMSA) is a non-profit organization whose mission is “to serve those who serve others.” WEMSA is structured to provide support, resources, and training to EMS and fire professionals, departments, and emergency responders throughout Wisconsin. WEMSA is committed to educating emergency responders throughout Wisconsin through live webinar trainings, in-person trainings via our annual EMS conference, and on-demand continuing education. WEMSA is a nationally recognized and accredited organization for continuing education for EMS providers through the Commission on Accreditation of Pre-Hospital Continuing Education. WEMSA is a recipient of the ALERT Grant.

For more information about the WEMSA, please visit their website at <https://www.wisconsinems.com>.

ALERT Grant Awards, Expenditures, and Performance Outputs

	FY 2023
Awards	\$173,212
Expenditures	0
Number Trained	--

For FY 2023, WEMSA proposes to develop a comprehensive training program that includes the creation of virtual and in-person courses. These trainings will be primarily focused on enhancing emergency responders' abilities to recognize and respond effectively to hazardous materials incidents.

Zender Environmental Health & Research

Anchorage, AK

Organization Overview

The Zender Environmental Health and Research Group (ZENDER) is an Alaska-based nonprofit organization dedicated to improving environmental health by addressing the unique waste and water quality challenges that remote small communities and tribes face. They operate a state of Alaska qualified post-secondary training institution for a variety of solid waste management and emergency response certificates and skills. ZENDER is the recipient of the HMIT Grant.

For more information about the Zender Group, please visit their website at <https://zendergroup.org>.
