**FY 2024 One-Call Grant Projects Recommended for Award**

Priority	Applicant	State	Proposal Summary	Overall Rating	Funds Requested	Recommended Award	Basis for Recommendation
1	Connecticut Department of Energy and Environmental Protection	CT	Grant funding is requested to continue the state One-Call law damage prevention enforcement program, and will be used to investigate and review damages to underground facilities and to prosecute violators of the One-Call damage prevention program. One engineer will spend approximately 30 percent of his time enforcing the One-Call damage prevention program. Another engineer will spend 100 percent of his time enforcing the One-Call damage prevention program. The costs for this program are salaries, fringe benefits, and associated indirect costs for the two above-mentioned engineers. Grant funding will also be used to perform a detailed analysis of One-Call center statistics, compliance statistics, and cause and consequence analyses, and will include the submission of state-collected excavation damage data to the Common Ground Alliance's Damage Information Reporting Tool (DIRT).	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1 project – Compliance Enforcement and eligible for funding. The costs are within approved funding ranges and the project scope is clear. This grantee has prior One-Call Grant awards that were completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs of this project may not be included in program costs for State Base Grant reimbursement. Grantee may not use any One-Call grant funds in direct support of litigation.
2	Delaware Public Service Commission	DE	Grant funding is requested to continue radio ads and website banners to address the issue of excavators hitting marked lines. The grant recipient plans to place 811 banners on mobile and desktop websites that target certain demographic groups. The audience for website banners will be enhanced by targeting professional excavators working in specific areas of known growth. The recipient is also planning to run radio announcements in two of the three counties which have the majority of damages.	Highly Recommended	\$9,348	\$7,307	This activity was reviewed and found relevant to the established priority 3 project – Public Service Announcements and eligible for funding. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. It is required that the state provide any contract for this activity to PHMSA State Programs Division for notification and review.

Priority	Applicant	State	Proposal Summary	Overall Rating	Funds Requested	Recommended Award	Basis for Recommendation
3	Idaho Public Utilities Commission	ID	Grant funding is requested to assist with the priority 1 project of Compliance Enforcement – Cost of Enforcement and/or Complaint Investigations. The grant will be used to pay the salary, benefits, and travel expenses of an enforcement specialist.	Highly Recommended	\$28,461	\$22,247	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigation and eligible for funding. The costs are within approved funding ranges and project scope is clear. This grant funding is passed through to Idaho Division of Occupational and Professional license agency who has enforcement authority in the state.
4	Idaho Public Utilities Commission	ID	Funding is requested to assist with damage prevention campaigns and public awareness activities in Idaho. Funding is requested to support exhibition booths at various stakeholder meetings. Informational brochures and a learning management system for damage prevention education.	Highly Recommended	\$10,000	\$7,817	The activity was reviewed and found relevant across priority 3 projects relating to development and/or conduct of damage prevention campaigns. This grant funding is passed through to Idaho Division of Occupational and Professional License agency who has enforcement authority in the state.

Priority	Applicant	State	Proposal Summary	Overall Rating	Funds Requested	Recommended Award	Basis for Recommendation
5	Illinois Commerce Commission	IL	Grant funding is requested to assist with the priority 1 project of Compliance Enforcement – Cost of Enforcement and/or Complaint Investigations. The grant will be used to pay the salary and benefits expenses of the three full-time investigators, as well as indirect costs. Enforcement staff will focus efforts on locating compliance as the state's primary contract locators continuously fail to hire and retain an adequate level to meet market demand.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigation and eligible for funding. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs of this project may not be included in program costs for State Base Grant reimbursement. Grantee may not use any One-Call grant funds in direct support of litigation.
6	Indiana Utility Regulatory Commission (IURC)	IN	Grant funding is requested to offset administrative assistant personnel and fringe benefit costs incurred to enforce Indiana's One-Call law. This includes administering the excavation database and coordination of various mailings and responses for the damage investigation process, analysis and reporting of statistical trends with regard to enforcement data, and legal support and advice to the Underground Plant Protection Advisory Committee (UPPAC) and the IURC commissioners.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigation and eligible for funding. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in program costs for the State Base Grant Reimbursement. Grantee may not use any One-Call Grant funds in direct support of litigation.

7	Iowa Utilities Board (IUB) (Project 1 of 2)	IA	The project is to fund the personnel costs of the Iowa Utilities Board (IUB) and the Iowa Attorney General (IAG). Funds for this project will be used by IUB staff and IAG staff to review and process One-Call violation complaints and for legal proceedings to enforce civil penalties as appropriate.	Highly Recommended	\$58,052	\$45,376	This activity was reviewed and found relevant to the established priority 1.2 – Compliance Enforcement and eligible for funding. The costs are within approved funding ranges and the project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions.
8	Iowa Utilities Board (IUB) (Project 2 of 2)	IA	Funding for this project will be used by the Iowa Attorney General's office working on educational and informational activities regarding safe excavations. This will include continued participation in public and stakeholder events.	Highly Recommended	\$2,865	\$2,239	This activity was reviewed and found relevant to the established priority 3.9 – 811 Awareness. The costs are within approved funding ranges. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions.

9	Kansas Corporation Commission	KS	The Kansas Corporation Commission (KCC) is requesting continued funding of damage prevention enforcement activities in the Kansas City and Wichita area. The 2024 One-Call Grant will be used to fund a full-time position with the KCC. Natural gas damage investigations typically account for more than 90 percent of the workload for this position. As part of the enforcement effort, KCC staff will continue to recommend the Commission issue civil penalties to the at-fault party for excavating. KCC staff will continue to provide a strong presence in the field and damage prevention education to stakeholders at several weekly and monthly meetings. Damage prevention education will also continue to be provided on-site during damage investigations.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigation and eligible for funding. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in program costs for the State Base Grant Reimbursement. Grantee may not use any One-Call grant funds in direct support of litigation

Priority	Applicant	State	Proposal Summary	Overall Rating	Funds Requested	Recommended Award	Basis for Recommendation
10	Kentucky Public Service Commission	KY	Grant funding is requested to continue to partially fund one employee to ensure compliance/enforcement with the Kentucky Underground Facility Damage Prevention Act, regarding both operators and excavators. All cost incurred will be in relation to salary, fringe, and indirect costs associated with the one position. Responsibilities for this investigator will include monitoring the Commission's Damage Reporting System; confirming excavator information of the damaging party provided by the operator; contacting the alleged damaging party and entering relevant information into the Commission's Inspection Reporting System (IRS); preparing a Notice of Probable Violation (NOPV); determining if a violation of any provision of KRS 367 occurred and forwarding investigation to supervisor for review in the IRS; and managing all enforcement documents and preparing the associated Demand Letter and instructions for the party found to be responsible to close the investigation.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigation and eligible for funding. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in program costs for the State Base Grant Reimbursement.

Priority	Applicant	State	Proposal Summary	Overall Rating	Funds Requested	Recommended Award	Basis for Recommendation
11	Maine Public Utilities Commission	ME	Grant funding is requested for partial funding for two Damage Prevention Investigator positions. These positions enhanced the Maine Public Utilities Commission's ability to enforce their damage prevention law effectively, consistently, and fairly. These positions also allowed for better utilization of program personnel to perform training and education outreach, and to maintain the statistical data and performance metrics for the damage prevention program.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigation and eligible for funding. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in program costs for the State Base Grant Reimbursement.
12	Michigan Public Service Commission	MI	Grant funding is requested to partially fund the costs of the damage prevention enforcement staff. The full-time damage prevention enforcement staff member is responsible for statewide enforcement of Public Act 174, which was passed in 2013. The staff member's responsibilities include preparing documents for enforcement; meeting with excavators and operators regarding violations as requested; and providing testimony or support for enforcement proceedings, if necessary. Staff members have developed policies and procedures for the collection of data. The data is being shared with the MI One-Call notification system and subsequently with Common Ground Alliance.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigation and eligible for funding. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in program costs for the State Base Grant Reimbursement. Grantee may not use any One-Call grant funds in direct support of litigation.

**FY 2024 One-Call Grant Projects Recommended for Award**

Priority	Applicant	State	Proposal Summary	Overall Rating	Funds Requested	Recommended Award	Basis for Recommendation
13	Minnesota Office of Pipeline Safety (MNOPS)	MN	This grant will be used for MNOPS activities directly associated with the investigation and enforcement of excavation-related damages governed by the Minnesota One-Call laws (MS216D & Rules 7560). These activities include investigating excavation-related incidents; investigating complaints involving potential non-compliances with the One-Call law; applying appropriate enforcement actions to the violating party or parties; and supervising coordination. The grant may also be used for activities involving court proceedings in response to a contested One-Call violation.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to priority 1.2 – Cost of Enforcement and/or Complaint Investigation and eligible for funding. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in program costs for the State Base Grant. Grantee may not use One-Call grant funds in direct support of litigation.
14	Mississippi Public Service Commission (MPSC) (Project 1 of 2)	MS	The MPSC is requesting funds to hire an attorney who is knowledgeable regarding the damage prevention law and experiences in providing legal counsel to the Underground Facilities Damage Prevention Board (UFDPB). The attorney would prepare enforcement actions and represent the UFDPB. Counsel would continue to review allegations and evidence, conduct legal research of excavation laws and rules, provide correspondence, provide services at enforcement hearings, provide rulemaking assistance, and provide counsel to the UFDPB.	Highly Recommended	\$28,000	\$21,886	This activity was reviewed and found relevant to the established priorities 1.1 – Compliance Enforcement, 1.12 – Legislative and Rulemaking (input from affected interests), and 1.13 – Assistance in drafting language. The costs are within approved funding ranges and the project scope is within guidelines. This is the third year for this activity and the applicant provided success data on how the activities are generating compliance. It is required that the state provide any contract for this activity to PHMSA State Programs Division for notification and review.

**FY 2024 One-Call Grant Projects Recommended for Award**

<b>Priority</b>	<b>Applicant</b>	<b>State</b>	<b>Proposal Summary</b>	<b>Overall Rating</b>	<b>Funds Requested</b>	<b>Recommended Award</b>	<b>Basis for Recommendation</b>
<b>15</b>	Mississippi Public Service Commission (MPSC) (Project 2 of 2)	MS	Grant funds would be used to purchase educational items to promote "Call Before You Dig" message at Damage Prevention Council meetings, MS 811 Fun Run, Town Hall Meetings, Mississippi Natural Gas Association (MNGA), MPSC sponsored training, MNGA Scholarship Gold Tournament, locator training, and any events where an appropriate audience can be reached.	Highly Recommended	\$3,500	\$2,736	This activity was reviewed and found relevant to the established priority 3.3 – Distribution of Educational items. The costs are within approved funding ranges and appear to meet program intent.
<b>16</b>	Missouri Public Service Commission (MO PSC)	MO	The MO PSC is requesting One Call Grant Funds to again conduct a statewide Call Before You Dig (811) Damage Prevention Educational/Public Awareness Radio Campaign like the campaign that was conducted in previous years. The plan is to contract with Learfield Communications to run 30-second Call Before You Dig radio messages. These 30-second spots will be broadcast on 70 radio stations that comprise the statewide MissouriNet Radio Network. Learfield Communications helps the MO PSC develop the message and provides the facilities and staff to record the message at no cost.	Highly Recommended	\$10,000	\$7,817	This activity was reviewed and found relevant to the established priority 3.1 – Advertisements and eligible for funding. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. It is required that the state provide any contract for this activity to PHMSA State Programs Division for notification and review.

Priority	Applicant	State	Proposal Summary	Overall Rating	Funds Requested	Recommended Award	Basis for Recommendation
17	Nebraska Pipeline Safety Division (Project 1 of 4)	NE	Grant funds are requested for the Nebraska Attorney General's Office (NEAG), which is authorized by statute to enforce the One-Call Notification Act. One-Call Enforcement by the NEAG includes investigation of the complaints that are filed. If the matter warrants a civil penalty, the NEAG investigates and reviews factors determining civil penalties as outlined by statute; negotiates the amount of civil penalty; and drafts legal documents (Complaint, Voluntary Appearance, Consent Decree, etc.). The NEAG also monitors compliance and works closely with the State Fire Marshal's Office to offer damage prevention safety education training to One-Call offenders. The NEAG also litigates cases when agreements cannot be reached also issues warning letters. Additional funds are requested to meet the staffing needs of NEAG.	Highly Recommended	\$35,000	\$27,358	This activity was reviewed and found relevant to the established priority 1.1 – Legal Assistance with Enforcement Actions and eligible for funding. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Grant funds may not be used in direct support of litigation.
18	Nebraska Pipeline Safety Division (Project 2 of 4)	NE	Request for \$4,000 to be used to distribute a mailing to excavators, and \$8,400 for outreach meetings to stakeholders to stress the importance of safety and encourage all excavators to follow the Common Ground Alliance's Best Practices while working with and around facilities. The meetings will be held in conjunction with locator workshops.	Highly Recommended	\$12,400	\$9,692	The activity was reviewed and found relevant to priority 2.16 projects – Efforts to encourage operators, excavators, and others to contribute to data collection systems, such as Damage Information Reporting Tool: Damage Prevention Mailings. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions.

**FY 2024 One-Call Grant Projects Recommended for Award**

<b>Priority</b>	<b>Applicant</b>	<b>State</b>	<b>Proposal Summary</b>	<b>Overall Rating</b>	<b>Funds Requested</b>	<b>Recommended Award</b>	<b>Basis for Recommendation</b>
<b>19</b>	Nebraska Pipeline Safety Division (Project 3 of 4)	NE	Grant funds are being requested to conduct locator workshops in conjunction with stakeholder meetings. The workshops will address any insufficient locating practices and allow for consistent training across the State of Nebraska. The funding will allow for the workshops to be offered at little or no cost to the participating entities.	Highly Recommended	\$2,500	\$1,954	The activity was reviewed and found relevant to priority 2.16 Location Capabilities – Development and/or Conduct of Training for Locators. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions.
<b>20</b>	Nebraska Pipeline Safety Division (Project 4 of 4)	NE	The funds requested for dashboard calendars would purchase approximately 4,500 calendars that would be distributed via One-Call board members to excavators throughout the State of Nebraska. Distribution would also be possible through the Nebraska811 website as well as Nebraska811 staff, and State Fire Marshal Damage Prevention Deputies through their regular contact with the excavating community. We are requesting funds to order and distribute approximately 800 Excavators t-shirts with an educational message printed on both sides of the shirt.	Highly Recommended	\$10,000	\$7,817	The activity was reviewed and found relevant to priority 3.3 – Development and/or Distribution of Educational Items or Materials. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. It is required that the state provide any contract for this activity to PHMSA State Programs Division for notification and review.

21	Nevada Public Utilities Commission	NV	Grant funding is requested to cover a portion of the cost of performing on-site investigations of natural gas excavation damages and to take enforcement action when appropriate. The program uses a three-tiered approach with investigation, enforcement, and training. The estimated program costs exceed the maximum allowed amount for this grant.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigations and eligible for funding. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in State Base Grant. Grantee may not use any grant funds in direct support of litigation.
22	New Hampshire Department of Energy	NH	Grant funding is requested to fund personnel and fringe benefit costs associated with the department's Underground Damage Prevention Specialist position, which conducts compliance and enforcement activity. The estimated program costs exceed the maximum allowed for this grant.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Compliance Investigations and eligible for funding. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in State Base Grant.

Priority	Applicant	State	Proposal Summary	Overall Rating	Funds Requested	Recommended Award	Basis for Recommendation
23	New Jersey Board of Public Utilities (NJBPU)	NJ	The requested funds for FY2024 will be used to offset salary expenses for personnel performing damage prevention compliance enforcement and related program activities. This includes conducting investigations of probable non-compliance and complaints related to the New Jersey Underground Facility Protection Act (Act); issuing probable non-compliance enforcement actions; addressing responses to non-compliance enforcement actions; assisting with case preparation for proposed enforcement penalties for probable non-compliance with the Act; and tracking probable non-compliance and complaint investigations and actions through the NJBPU damage prevention program database. The staff will interact frequently with excavators, utilities, pipeline operators, and other stakeholders.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigations and eligible for funding. This grantee has prior grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in State Base Grant.
24	New Mexico Pipeline Safety Bureau (NPSB)	NM	Grant funding is requested to fund a portion of the salaries of six damage prevention investigators whose primary jobs are to investigate damage complaints and to enforce compliance with the NM State Excavation Laws and rules. The program manager and three administrative assistants also contribute time to the program. The NPSB investigators will continue to conduct periodic patrols of construction sites to verify excavators have valid locate requests. They also conduct statewide training on NM Excavation laws.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigations and eligible for funding. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in State Base Grant.

Priority	Applicant	State	Proposal Summary	Overall Rating	Funds Requested	Recommended Award	Basis for Recommendation
25	New York Department of Public Service (Project 1 of 2)	NY	Funding is requested for Pipeline Safety Staff who investigate damages and complaints, and issue citations when applicable. Supervisors, investigators, clerical staff, and legal counsel spend approximately 10 percent of their time on damage prevention activities. This time includes conducting onsite field investigations; following up to review One-Call center and/or utility locate and damage report records; interviewing parties involved; preparing reports with diagrams and photographic documentation; and preparing citation paperwork. Engineering staff also reviews citations and supporting evidence; reviews written responses and/or conducts informal conferences; prepares correspondences and Commission Orders; and maintains databases that track the status of cases and compile statistics. Grant funds would be used to offset personnel costs, including salary and benefits, for the conduct of the damage prevention enforcement program.	Highly Recommended	\$58,200	\$45,492	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigations and eligible for funding. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in State Base Grant. Grantee may not use any One-Call funds in direct support of litigation.
26	New York Department of Public Service (Project 2 of 2)	NY	Funds requested to print a minimum of 1,000 damage prevention information booklets in 2024. The estimated cost is \$1.80 per booklet and covers the cost of in-house labor, including salary, benefits, and supplies. The booklets are distributed during investigations and complaints, upon request, and are included in enforcement correspondence.	Highly Recommended	\$1,800	\$1,407	The activity was reviewed and found relevant to Priority 3.13. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions.

Priority	Applicant	State	Proposal Summary	Overall Rating	Funds Requested	Recommended Award	Basis for Recommendation
27	North Dakota Public Service Commission (Project 1 of 2)	ND	Funding is requested for the personnel, fringe benefits, and indirect costs categories. Commission employees are involved in the development and implementation of the Commission's damage prevention enforcement program and participate in the Commission's administrative proceedings regarding such enforcement. Commission Staff also participate in the North Dakota One-Call Board quarterly meetings and One-Call Stakeholder meetings to discuss improvements to One-Call law and enforcement activities.	Highly Recommended	\$50,000	\$39,083	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Compliance Investigations and eligible for funding. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in program costs for the State Base Grant Reimbursement.
28	North Dakota Public Service Commission (Project 2 of 2)	ND	Funding is requested for a statewide educational campaign promoting 811 and damage prevention. The campaign will include billboard advertising throughout the North Dakota, educational material items utilizing the 811 logo, and electronic media. The educational material items will assist in educating the public and other stakeholders about damage prevention and the importance of calling before you dig.	Highly Recommended	\$10,000	\$7,817	This activity was reviewed and found relevant to the established priority 3.6 – 811 Awareness. The costs are within approved funding ranges. PHMSA determined that the educational materials/items are sufficiently educational in nature per 2 CFR § 200.421. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. It is required that the state provide any contract for this activity to PHMSA State Programs Division for notification and review.

Priority	Applicant	State	Proposal Summary	Overall Rating	Funds Requested	Recommended Award	Basis for Recommendation
29	Pennsylvania Public Utility Commission (PUC)	PA	The requested funds would be used to offset some of the personnel costs incurred by the PUC. Specifically, the PUC has hired to full complement with five investigators and one supervisor to review and process incoming alleged violation reports received from facility owners, excavators, project managers, designers, and other enforcement authorities.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigations and eligible for funding. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in State Base Grant.
30	Rhode Island Division of Public Utilities and Carriers	RI	Grant funding was requested to pay for a portion of the salary and benefits of a One-Call engineer who enforces the Rhode Island One-Call Laws. The engineer spends a little more than 60 percent of time and effort enforcing Rhode Island One-Call laws. This individual performs 50 percent of the investigations and 100 percent of the enforcement actions. The Engineer is responsible for informal conferences, records, scheduling, and writing decisions with respect to law violations.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigations and eligible for funding. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in State Base Grant.

31	Tennessee Public Utility Commission (TPUC)	TN	Grant funding for the 2024 One-Call Grant is requested for the salary of one TPUC staff member to provide administrative and investigative support for the Enforcement Board. Administrative and investigative functions are expected to include database management; compiling data/reports; board and executive committee meeting preparation; generating documents such as citations and notices; investigating alleged violations of The Act; and performing compliance and enforcement activities, outreach activities, data analysis, and grant management.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigations and eligible for funding. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in State Base Grant.
32	Vermont Department of Public Service	VT	Grant funding is requested for compliance and enforcement activities during Calendar Year 2024. The funding will be used for the general administration of Vermont Underground Facility Damage Prevention Program Procedures and process cases. This includes receiving reports of damages and maintaining the permanent database; encouraging cases to be filed electronically; preparing initial event information; investigating damages and determining the cause; conducting field investigations; reporting data in the Damage Information Reporting Tool database; developing recommendations including fines, outreach, analyzing data; providing training; and any other necessary activity.	Highly Recommended	\$59,832	\$46,767	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigations and eligible for funding. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. It is required that the state provide any contract for this activity to PHMSA State Programs Division for notification and review. Pipeline personnel and other costs may not be included in State Base Grant.

Priority	Applicant	State	Proposal Summary	Overall Rating	Funds Requested	Recommended Award	Basis for Recommendation
33	Washington Utilities and Transportation Commission	WA	Grant funding is requested and will be used to pay for a portion of a damage prevention investigator's time for the period of this grant. The majority of the investigator's work will be investigating damage to jurisdictional assets due to the failure to call the One-Call Center for a locate ticket. This includes collecting information for the processing of enforcement cases. An increasing number of complaints have been filed against natural gas operators for failing to locate and these investigations are included in the program.	Highly Recommended	\$60,000	\$46,899	This activity was reviewed and found relevant to the established priority 1.2 – Cost of Enforcement and/or Complaint Investigations and eligible for funding. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. Pipeline personnel and other costs may not be included in State Base Grant.
34	Wyoming Public Service Commission (WPSC) (Project 1 of 2)	WY	Grant funding is requested to support the expenses incurred by the Wyoming Attorney General's Office (WYAG), which has enforcement responsibility for One-Call laws in the State of Wyoming. The agency will enter into a Memorandum of Understanding, which will allow damage prevention expenses incurred by the WYAG to be reimbursed. The WYAG is increasing its actions for One-Call violations and the funding is to support their efforts.	Highly Recommended	\$47,564	\$37,178	This activity was reviewed and found relevant to the established priority 1.1 – Legal Assistance with Enforcement Actions and eligible for funding. The costs are within approved funding ranges and the project scope is clear. This is the first year of support for this project. Grant funds may not be used in direct support of litigation.

Priority	Applicant	State	Proposal Summary	Overall Rating	Funds Requested	Recommended Award	Basis for Recommendation
35	Wyoming Public Service Commission (WPSC) (Project 2 of 2)		Grant funding requested for the WPSC and Wyoming Association of Broadcasters (WAB) will enter into a contract to run two months of Public Service Announcements (PSAs) throughout the state. The WAB, through its member radio stations, provides statewide coverage, and will run the PSAs throughout the state. The WPSC would like to run the PSAs in April and May to promote One-Call of Wyoming and remind excavators to utilize the One-Call system.	Highly Recommended	\$10,000	\$7,816	This activity was reviewed and found relevant to the established priority 3 project – Public Service Announcements and eligible for funding. The costs are within approved funding ranges and project scope is clear. This grantee has prior One-Call Grant awards that have been completed in a timely manner and in compliance with grant terms and conditions. It is required that the state provide any contract for this activity to PHMSA State Programs Division for notification and review.
