Dear Mr. Holeman:

The Pipeline and Hazardous Materials Safety Administration (PHMSA) has begun an effort to update and consolidate our records concerning issued special permits. Late last year, PHMSA staff contacted Texas Eastern Transmission (TET) concerning your current and future plans regarding special permits that have been issued to your company.

During our telephone call, TET noted that special permit MTB-77-3W, issued on December 1, 1978, was no longer needed. Accordingly, the special permit (copy enclosed) will be terminated effective 60 days from the date of receipt of this letter unless you contact PHMSA to object.

If you have any questions, please contact, John Gale, Director, Division of Standards and Rulemaking, by email at [john.gale@dot.gov](mailto:john.gale@dot.gov), or by phone at 202-366-4046.

Sincerely,

Jeffrey D. Wiese  
Associate Administrator for Pipeline Safety
