# 2023 Gas State Program Evaluation

for

Delaware PSC

## Document Legend

### PART:

- O -- Representative, Dates and Title Information
- A -- Progress Report and Program Documentation Review
- B -- Program Inspection Procedures
- C -- State Qualifications
- D -- Program Performance
- E -- Field Inspections
- F -- Damage prevention and Annual report analysis

# 2023 Gas State Program Evaluation -- CY 2023

Gas

**State Agency:** Delaware

**Agency Status:**

**Date of Visit:** 07/22/2024 - 07/26/2024

**Agency Representative:** Wayne Ericksen

**PHMSA Representative:** David Appelbaum

**Commission Chairman to whom follow up letter is to be sent:**

**Name/Title:** Dallas Winslow, Chairman

**Agency:** Delaware Public Service Commission

**Address:** 861 Silver Lake Blvd.,

**City/State/Zip:** Dover, DE 19904

**Rating:**

**60105(a):** Yes **60106(a):** No **Interstate Agent:** No

## INSTRUCTIONS:

Complete this evaluation in accordance with the Evaluator Guidance for conducting state pipeline safety program evaluations. The evaluation should generally reflect state program performance during CY 2023 (not the status of performance at the time of the evaluation). A deficiency in any one part of a multiple-part question should be scored as "Needs Improvement." Determine the answer to the question then select the appropriate point value. If a state receives less than the maximum points, include a brief explanation in the appropriate notes/comments section. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and they OBJECTIVELY reflect the state's program performance for the question being evaluated. Increasing emphasis is being placed on how the state pipeline safety programs conduct and execute their pipeline safety responsibilities (their performance). This evaluation, together with selected factors reported in the state's annual progress report attachments, provide the basis for determining the state's pipeline safety grant allocation.

## Scoring Summary

### PARTS

A	Progress Report and Program Documentation Review
B	Program Inspection Procedures
C	State Qualifications
D	Program Performance
E	Field Inspections
F	Damage prevention and Annual report analysis

### Possible Points Points Scored

0	0
15	14
10	10
50	42
15	15
10	9
<b>100</b>	<b>90</b>

### TOTALS

**State Rating** ..... **90.0**

## PART A - Progress Report and Program Documentation Review

Points(MAX)    Score

- 1    Were the following Progress Report Items accurate? (\*items not scored on progress report)    Info Only    Info Only
- Info Only = No Points
- a.    Stats On Operators Data - Progress Report Attachment 1
  - b.    State Inspection Activity Data - Progress Report Attachment 2
  - c.    List of Operators Data - Progress Report Attachment 3\*
  - d.    Incidents/Accidents Data - Progress Report Attachment 4\*
  - e.    Stats of Compliance Actions Data - Progress Report Attachment 5\*
  - f.    List of Records Kept Data - Progress Report Attachment 6 \*
  - g.    Staff and TQ Training Data - Progress Report Attachment 7
  - h.    Compliance with Federal Regulations Data - Progress Report Attachment 8
  - i.    Performance and Damage Prevention Question Data - Progress Report Attachment 10\*

### Evaluator Notes:

Attachment 5 has several errors. The carry over PV numbers, the number of PVs found in CY, and the number to be corrected at end of year are all wrong. The PM inappropriately carried numbers from CY 2021, and the errors cascaded. Also, the attachment reflects PVs assigned to a 60106 agreement. Delaware does not have a 60106 agreement.

Total points scored for this section: 0  
Total possible points for this section: 0

## PART B - Program Inspection Procedures

Points(MAX) Score

- |   |   |   |   |
|---|---|---|---|
| 1 | Do written procedures address pre-inspection, inspection and post inspection activities for each of the following inspection types: Chapter 5.1<br>Yes = 5 No = 0 Needs Improvement = 1-4   | 5 | 5 |
|   | <ul style="list-style-type: none"><li>a. Standard Inspections, which include Drug/Alcohol, CRM and Public Awareness Effectiveness Inspections</li><li>b. TIMP and DIMP Inspections (reviewing largest operator(s) plans annually)</li><li>c. OQ Inspections</li><li>d. Damage Prevention Inspections</li><li>e. On-Site Operator Training</li><li>f. Construction Inspections (annual efforts)</li><li>g. LNG Inspections</li></ul> |   |   |

Evaluator Notes:

Procedures for these requirements appear satisfactory.

- |   |   |   |   |
|---|---|---|---|
| 2 | Do written procedures address inspection priorities of each operator, and if necessary each unit, based on the following elements and time frames established in its procedures? Chapter 5.1<br>Yes = 4 No = 0 Needs Improvement = 1-3  | 4 | 4 |
|   | <ul style="list-style-type: none"><li>a. Length of time since last inspection</li><li>b. Operating history of operator/unit and/or location (includes leakage, incident and compliance activities)</li><li>c. Type of activity being undertaken by operators (i.e. construction)</li><li>d. Locations of operator's inspection units being inspected - (HCA's, Geographic area, Population Centers, etc.)</li><li>e. Process to identify high-risk inspection units that includes all threats - (Excavation Damage, Corrosion, Natural Forces, Outside Forces, Material and Welds, Equipment, Operators and any Other Factors)</li><li>f. Are inspection units broken down appropriately?</li></ul> |   |   |

Evaluator Notes:

Procedures for these requirements appear satisfactory.

- |   |   |   |   |
|---|---|---|---|
| 3 | (Compliance Procedures) Does the state have written procedures to identify steps to be taken from the discovery to resolution of a probable violation? Chapter 5.1<br>Yes = 3 No = 0 Needs Improvement = 1-2  | 3 | 2 |
|   | <ul style="list-style-type: none"><li>a. Procedures to notify an operator (company officer) when a noncompliance is identified</li><li>b. Procedures to routinely review progress of compliance actions to prevent delays or breakdowns</li><li>c. Procedures regarding closing outstanding probable violations</li></ul> |   |   |

Evaluator Notes:

Procedures for reviewing compliance actions and closing probable violations are vague and unclear. Deficiencies reflected in D-7 (compliance actions) can be tied to the deficiency with the related procedure - one point deduction.

- |   |  |   |   |
|---|--|---|---|
| 4 | (Incident/Accident Investigations) Does the state have written procedures to address state actions in the event of an incident/accident?<br>Yes = 3 No = 0 Needs Improvement = 1-2   | 3 | 3 |
|   | <ul style="list-style-type: none"><li>a. Mechanism to receive, record, and respond to operator reports of incidents, including after-hours reports</li><li>b. If onsite investigation was not made, do procedures require on-call staff to obtain sufficient information to determine the facts to support the decision not to go on-site.</li></ul> |   |   |

Evaluator Notes:

Procedures for these requirements appear satisfactory.

Total possible points for this section: 15

## PART C - State Qualifications

Points(MAX) Score

- |   |   |   |   |
|---|---|---|---|
| 1 | Has each inspector and program manager fulfilled training requirements? (See Guidelines Appendix C for requirements) Chapter 4.3<br>Yes = 5 No = 0 Needs Improvement = 1-4  | 5 | 5 |
|   | <ul style="list-style-type: none"><li>a. Completion of Required OQ Training before conducting inspection as lead</li><li>b. Completion of Required DIMP/IMP Training before conducting inspection as lead</li><li>c. Completion of Required LNG Training before conducting inspection as lead</li><li>d. Root Cause Training by at least one inspector/program manager</li><li>e. Note any outside training completed</li><li>f. Verify inspector has obtained minimum qualifications to lead any applicable standard inspection as the lead inspector (Reference State Guidelines Section 4.3.1)</li></ul> |   |   |

Evaluator Notes:

The requirements for this question appear to have been satisfied.

- |   |  |   |   |
|---|--|---|---|
| 2 | Did state records and discussions with state pipeline safety program manager indicate adequate knowledge of PHMSA program and regulations?<br>Yes = 5 No = 0 Needs Improvement = 1-4 | 5 | 5 |
|---|--|---|---|

Evaluator Notes:

The requirements for this question appear to have been satisfied.

- |   |  |           |           |
|---|--|-----------|-----------|
| 3 | General Comments:<br>Info Only = No Points | Info Only | Info Only |
|---|--|-----------|-----------|

Evaluator Notes:

Total points scored for this section: 10  
Total possible points for this section: 10

## PART D - Program Performance

Points(MAX) Score

- |   |   |   |   |
|---|---|---|---|
| 1 | Did state inspect all types of operators and inspection units in accordance with time intervals established in written procedures? Chapter 5.1<br>Yes = 5 No = 0 Needs Improvement = 1-4  | 5 | 5 |
|   | <ul style="list-style-type: none"><li>a. Standard (General Code Compliance)</li><li>b. Public Awareness Effectiveness Reviews</li><li>c. Drug and Alcohol</li><li>d. Control Room Management</li><li>e. Part 193 LNG Inspections</li><li>f. Construction (did state achieve 20% of total inspection person-days?)</li><li>g. OQ (see Question 3 for additional requirements)</li><li>h. IMP/DIMP (see Question 4 for additional requirements)</li></ul> |   |   |

Evaluator Notes:

The requirements for this question appear to have been satisfied.

- |   |   |    |    |
|---|---|----|----|
| 2 | Did inspection form(s) cover all applicable code requirements addressed on Federal Inspection form(s)? Did State complete all applicable portions of inspection forms? Chapter 5.1. Do inspection records indicate that adequate reviews of procedures, records and field activities, including notes and the appropriate level of inspection person-days for each inspection, were performed?<br>Yes = 10 No = 0 Needs Improvement = 1-9 | 10 | 10 |
|   | <ul style="list-style-type: none"><li>a. Standard (General Code Compliance)</li><li>b. Public Awareness Effectiveness Reviews</li><li>c. Drug and Alcohol</li><li>d. Control Room Management</li><li>e. Part 193 LNG Inspections</li><li>f. Construction</li><li>g. OQ (see Question 3 for additional requirements)</li><li>h. IMP/DIMP (see Question 4 for additional requirements)</li></ul>  |    |    |

Evaluator Notes:

The requirements for this question appear to have been satisfied.

- |   |  |   |   |
|---|--|---|---|
| 3 | Is state verifying monitoring (Protocol 9/Form15) of operators OQ programs? This should include verification of any plan updates and that persons performing covered tasks (including contractors) are properly qualified and requalified at intervals established in the operator's plan. 49 CFR 192 Part N<br>Yes = 2 No = 0 Needs Improvement = 1 | 2 | 2 |
|---|--|---|---|

Evaluator Notes:

The requirements for this question appear to have been satisfied.

- |   |   |   |   |
|---|---|---|---|
| 4 | Is state verifying operator's integrity management Programs (IMP and DIMP)? This should include a review of plans, along with monitoring progress. In addition, the review should take in to account program review and updates of operator's plan(s). 49 CFR 192 Subparts O and P<br>Yes = 2 No = 0 Needs Improvement = 1  | 2 | 2 |
|   | <ul style="list-style-type: none"><li>a. Are the implementation plans of the state's large/largest operators(s) being reviewed annually to ensure they are completing full cycle of the IMP process?</li><li>b. Are states verifying with operators any plastic pipe and components that have shown a record of defects/leaks and mitigating those through DIMP plan?</li><li>c. Are the states verifying operators are including low pressure distribution systems in their threat analysis?</li></ul> |   |   |

Evaluator Notes:

The requirements for this question appear to have been satisfied.

5	Did the state review the following (these items are NTSB recommendations to PHMSA that have been deemed acceptable response based on PHMSA reviewing these items during the evaluation process): Chapter 5.1 Yes = 2 No = 0 Needs Improvement = 1	2	2
	<ul style="list-style-type: none"> <li>a. Operator procedures for determining if exposed cast iron pipe was examined for evidence of graphitization and if necessary remedial action was taken;</li> <li>b. Operator procedures for surveillance of cast iron pipelines, including appropriate action resulting from tracking circumferential cracking failures, study of leakage history, or other unusual operating maintenance condition? (Note: See GPTC Appendix G-18 for guidance);</li> <li>c. Operator emergency response procedures for leaks caused by excavation damage near buildings and determine whether the procedures adequately address the possibility of multiple leaks and underground migration of gas into nearby buildings Refer to 4/12/01 letter from PHMSA in response to NTSB recommendation P-00-20 and P-00-21;</li> <li>d. Operator records of previous accidents and failures including reported third-party damage and leak response to ensure appropriate operator response as required by 192.617;</li> <li>e. Directional drilling/boring procedures of each pipeline operator or its contractor to determine if they include actions to protect their facilities from the dangers posed by drilling and other trench less technologies;</li> <li>f. Operator procedures for considering low pressure distribution systems in threat analysis?</li> <li>g. Operator compliance with state and federal regulations for regulators located inside buildings?</li> </ul>		

Evaluator Notes:

The requirements for this question appear to have been satisfied.

6	Did the State verify Operators took appropriate action regarding advisory bulletins issued since the last evaluation? (Advisory Bulletins Current Year) Yes = 1 No = 0 Needs Improvement = .5	1	1
---	--	---	---

Evaluator Notes:

The requirements for this question appear to have been satisfied.

7	(Compliance Activities) Did the state follow compliance procedures (from discovery to resolution) and adequately document all probable violations, including what resolution or further course of action is needed to gain compliance? Chapter 5.1 Yes = 10 No = 0 Needs Improvement = 1-9	10	2
	<ul style="list-style-type: none"> <li>a. Were compliance actions sent to company officer or manager/board member if municipal/government system?</li> <li>b. Were probable violations documented properly?</li> <li>c. Resolve probable violations</li> <li>d. Routinely review progress of probable violations</li> <li>e. Did state issue compliance actions for all probable violations discovered?</li> <li>f. Can state demonstrate fining authority for pipeline safety violations?</li> <li>g. Does Program Manager review, approve and monitor all compliance actions? (note: Program Manager or Senior Official should sign any NOPV or related enforcement action)</li> <li>h. Did state compliance actions give reasonable due process to all parties? Including "show cause" hearing, if necessary.</li> <li>i. Within 30 days, conduct a post-inspection briefing with the owner or operator outlining any concerns</li> <li>j. Within 90 days, to the extent practicable, provide the owner or operator with written preliminary findings of the inspection. (Incident investigations do not need to meet 30/90-day requirement)</li> </ul>		

Evaluator Notes:

In the CY 2022 evaluation, and again in last year's evaluation, PHMSA indicated that the PSC had inspections conducted in Q3 and Q4 of CY 2021 that had two NOPVs that had never been processed according to procedures or PHMSA guidelines.

In response to PHMSA's finding, PSC Chairman Winslow stated in his December 6, 2022, letter that the PSC would "commit to fully processing all NOPV initial notices within the next three months." These initial NOPV notices did not get processed in accordance with the commitment, and PHMSA's letter last year reflected that. The Chairman's October 3, 2023, response letter indicated that the NOPV letters in question have been issued to the respective operators. PHMSA has verified this occurred.

The operators responded to these NOPVs, but the cases otherwise went untouched until consent agreements were signed on 5/20/2024 (7 1/2 months later). As of 7/26/2024 these cases remain open and there's no evidence that the program had routinely reviewed their progress, or that the PM appropriately monitored the compliance action process.

The PSC acknowledges these cases should have been closed by now, but since the program is processing these NOPVs, two points are awarded.

---

8	(Incident Investigations) Were all federally reportable incidents investigated, thoroughly documented, with conclusions and recommendations? Yes = 10 No = 0 Needs Improvement = 1-9	10	10
	a. Does state have adequate mechanism to receive and respond to operator reports of incidents, including after-hours reports?		
	b. Did state keep adequate records of Incident/Accident notifications received?		
	c. If onsite investigation was not made, did the state obtain sufficient information from the operator and/or by means to determine the facts to support the decision not to go on site?		
	d. Were onsite observations documented?		
	e. Were contributing factors documented?		
	f. Were recommendations to prevent recurrences, where appropriate, documented?		
	g. Did state initiate compliance action for any violations found during any incident/accident investigation?		
	h. Did state assist Region Office or Accident Investigation Division (AID) by taking appropriate follow-up actions related to the operator incident reports to ensure accuracy and final report has been received by PHMSA?		
	i. Does state share any lessons learned from incidents/accidents?		

Evaluator Notes:

No reportable incidents in 2023

---

9	Did state respond to Chairman's letter on previous evaluation within 60 days and correct or address any noted deficiencies? (If necessary) Chapter 8.1 Yes = 1 No = 0 Needs Improvement = .5	1	1
---	---	---	---

Evaluator Notes:

Satisfactory

---

10	Did State conduct or participate in pipeline safety training session or seminar in Past 3 Years? Chapter 8.5 Info Only = No Points	Info Only	Info Only

## PART E - Field Inspections

Points(MAX) Score

- 1 Operator, Inspector, Location, Date and PHMSA Representative (enter specifics into the comments box below) Info Only Info Only

Info Only = No Points

- What type of inspection(s) did the state inspector conduct during the field portion of the state evaluation? (i.e. Standard, Construction, IMP, etc)
- When was the unit inspected last?
- Was pipeline operator or representative present during inspection?
- Effort should be made to observe newest state inspector with least experience

### Evaluator Notes:

On 7/23/24 Chavis Bianco conducted a valve inspection and Locate and Mark Inspections of Chesapeake Utilities. This occurred in Dover and in Middletown. Operator personnel were present and previous inspections happened within time intervals established in their procedures.

- 2 Did the inspector use an appropriate inspection form/checklist and was the form/checklist used as a guide for the inspection? (New regulations shall be incorporated) 2 2
- Yes = 2 No = 0 Needs Improvement = 1

### Evaluator Notes:

The requirements for this question appear to have been satisfied.

- 3 Did the inspector adequately review the following during the inspection 10 10
- Yes = 10 No = 0 Needs Improvement = 1-9

- Procedures (were the inspector's questions of the operator adequate to determine compliance?)
- Records (did the inspector adequately review trends and ask in-depth questions?)
- Field Activities/Facilities (did inspector ensure that procedures were being followed, including ensuring that properly calibrated equipment was used and OQ's were acceptable?)
- Other (please comment)
- Was the inspection of adequate length to properly perform the inspection?

### Evaluator Notes:

The requirements for this question appear to have been satisfied.

- 4 From your observation did the inspector have adequate knowledge of the pipeline safety program and regulations? (Evaluator will document reasons if unacceptable) 2 2
- Yes = 2 No = 0 Needs Improvement = 1

### Evaluator Notes:

The requirements for this question appear to have been satisfied. Inspector is very proficient at his job.

- 5 Did the inspector conduct an exit interview, including identifying probable violations? (If inspection is not totally completed the interview should be based on areas covered during time of field evaluation) 1 1
- Yes = 1 No = 0 Needs Improvement = .5

### Evaluator Notes:

The requirements for this question appear to have been satisfied.

- 6 Was inspection performed in a safe, positive, and constructive manner ? Info Only Info Only
- Info Only = No Points

- No unsafe acts should be performed during inspection by the state inspector
- What did the inspector observe in the field? (Narrative description of field observations and how inspector performed)
- Best Practices to Share with Other States - (Field - could be from operator visited or state inspector practices)

d. Other

Evaluator Notes:

The requirements for this question appear to have been satisfied.

Total points scored for this section: 15  
Total possible points for this section: 15

**PART F - Damage prevention and Annual report analysis****Points(MAX) Score**

- |   |  |   |   |
|---|--|---|---|
| 1 | Has the state reviewed Operator Annual reports, along with Incident/Accident reports, for accuracy and analyzed data for trends and operator issues.<br>Yes = 2 No = 0 Needs Improvement = 1 | 2 | 2 |
|---|--|---|---|

**Evaluator Notes:**

The requirements for this question appear to have been satisfied.

- |   |  |   |   |
|---|--|---|---|
| 2 | Has the state verified that the operators analyze excavation damages for the purpose of determining root causes and minimizing the possibility of a recurrence? (192.617)<br>Has the state verified that the operators have appropriately identified excavators who have repeatedly violated one-call laws and damaged their facilities. Have the operators taken steps to mitigate that risks? (192.1007)<br>Yes = 2 No = 0 Needs Improvement = 1 | 2 | 1 |
|---|--|---|---|

**Evaluator Notes:**

This is a repeat from the previous three years. In 2023, 16% of the 215 excavation damages were attributed to the apparent root cause "Other." Again, the Program could not identify what any of these "other" damages were for. Two-point deduction.

Data found that Delmarva Power was responsible for the vast majority of the entries misplaced in the "Other" category. During the evaluation week, PHMSA and the PSC had a conference call with Delmarva, wherein, the operator acknowledged they had misplaced damages in the "Other" category and had done so every year back to CY 2018. Delmarva was instructed to correct the impacted annual reports with a supplemental submission. PHMSA will need to verify this happens in next year's evaluation.

Supplemental Entry: After discussing with Rex Evans, PHMSA is crediting the program with one point since they have added questions to their inspection sheets, thus demonstrating some improvement since last year.

- |   |   |   |   |
|---|---|---|---|
| 3 | Has the state reviewed the operator's annual report pertaining to Part D - Excavation Damage?<br>Yes = 4 No = 0 Needs Improvement = 1-3 <ol style="list-style-type: none"><li>a. Is the information complete and accurate with root cause numbers?</li><li>b. Has the state evaluated the causes for the damages listed under "One-Call Notification Practices Not Sufficient" (Part D.1.a.)?</li><li>c. Has the state evaluated the causes for the damages listed under "Locating Practices Not Sufficient" (Part D.1.b)? For each operator, does the state review the following?</li><li>d. Is the operator or its locating contractor(s) qualified and following written procedures for locating and marking facilities?</li><li>e. Is the operator appropriately requalifying locators to address performance deficiencies?</li><li>f. What is the number of damages resulting from mismarks?</li><li>g. What is the number of damages resulting from not locating within time requirements (no-shows)?</li><li>h. Is the operator appropriately addressing discovered mapping errors resulting in excavation damages?</li><li>i. Are mapping corrections timely and according to written procedures?</li><li>j. Has the state evaluated the causes for the damages listed under "Excavation Practices Not Sufficient" (Part D.1.c.)?</li></ol> | 4 | 4 |
|---|---|---|---|

**Evaluator Notes:**

The requirements for this question appear to have been met.

- |   |   |   |   |
|---|---|---|---|
| 4 | Has the agency or another organization within the state collected data and evaluated trends on the number of pipeline damages per 1,000 locate requests?<br>Yes = 2 No = 0 Needs Improvement = 1 <ol style="list-style-type: none"><li>a. What stakeholder group is causing the highest number of damages to the pipelines? Operator, contractor, locating company or public.</li><li>b. Has the state verified the operator is appropriately focusing damage prevention education and training to stakeholders causing the most damages?</li></ol> | 2 | 2 |
|---|---|---|---|

- c. Has the state evaluated which of the following best describes the reason for the excavation damages; i.e., operator or contractor not following written procedures, failure to maintain marks, failure to support exposed facilities, failure to use hand tools were required, failure to test-hole (pot hole), improper backfilling practices, failure to maintain clearance or insufficient excavation practices.
- d. Has the state verified the operator is appropriately focusing damage prevention education and training to address the causes of excavation damages?

Evaluator Notes:

The requirements for this question appear to have been met.
