- F -- Damage prevention and Annual report analysis

2023 Gas State Program Evaluation -- CY 2023 Gas

State Agency: Idaho Rating:

Agency Status: 60105(a): Yes 60106(a): No Interstate Agent: No

Date of Visit: 04/02/2023 - 04/04/2023 **Agency Representative:** Jeff Brooks **PHMSA Representative:** Joe Subsits

Commission Chairman to whom follow up letter is to be sent:

Name/Title: Eric Anderson, President

Agency: Idaho Public Utilities Commission

Address: 11331 W Chinden Blvd. Bldg 8, Suite 201A

City/State/Zip: Boise, ID 83714

INSTRUCTIONS:

Complete this evaluation in accordance with the Evaluator Guidance for conducting state pipeline safety program evaluations. The evaluation should generally reflect state program performance during CY 2023 (not the status of performance at the time of the evaluation). A deficiency in any one part of a multiple-part question should be scored as "Needs Improvement." Determine the answer to the question then select the appropriate point value. If a state receives less than the maximum points, include a brief explanation in the appropriate notes/comments section. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and they OBJECTIVELY reflect the state's program performance for the question being evaluated. Increasing emphasis is being placed on how the state pipeline safety programs conduct and execute their pipeline safety responsibilities (their performance). This evaluation, together with selected factors reported in the state's annual progress report attachments, provide the basis for determining the state's pipeline safety grant allocation.

Scoring Summary

PARTS		Possible Points	Points Scored
A	Progress Report and Program Documentation Review	0	0
В	Program Inspection Procedures	15	15
C	State Qualifications	10	10
D	Program Performance	50	50
E	Field Inspections	15	15
F	Damage prevention and Annual report analysis	10	10
TOTAL	\mathbf{S}	100	100
State Ra	ating		100.0

PART A - Progress Report and Program Documentation Review

Points(MAX) Score

Were the following Progress Report Items accurate? (*items not scored on progress report)

- Is state verifying monitoring (Protocol 9/Form15) of operators OO programs? This 3 should include verification of any plan updates and that persons performing covered tasks (including contractors) are properly qualified and requalified at intervals established in the operator's plan. 49 CFR 192 Part N

Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

Satisfactory

2

Is state verifying operator's integrity management Programs (IMP and DIMP)? This should include a review of plans, along with monitoring progress. In addition, the review should take in to account program review and updates of operator's plan(s). 49 CFR 192 Subparts O and P

2

2

2

Yes = 2 No = 0 Needs Improvement = 1

- a. Are the implementation plans of the state's large/largest operators(s) being reviewed annually to ensure they are completing full cycle of the IMP process?
- b. Are states verifying with operators any plastic pipe and components that have shown a record of defects/leaks and mitigating those through DIMP plan?
- c. Are the states verifying operators are including low pressure distribution systems in their threat analysis?

Evaluator Notes:

- a. Idaho has several inspection days attributed IMP activities. I will suggest that a standardized process to review the full cycle of the IMP process be developed and performed.
- b. Satisfactory
- c. N/A, no low pressure systems in the state.
- Did the state review the following (these items are NTSB recommendations to PHMSA that have been deemed acceptable response based on PHMSA reviewing these items during the evaluation process): Chapter 5.1

Yes = 2 No = 0 Needs Improvement = 1

- a. Operator procedures for determining if exposed cast iron pipe was examined for evidence of graphitization and if necessary remedial action was taken;
- b. Operator procedures for surveillance of cast iron pipelines, including appropriate action resulting from tracking circumferential cracking failures, study of leakage history, or other unusual operating maintenance condition? (Note: See GPTC Appendix G-18 for guidance);
- c. Operator emergency response procedures for leaks caused by excavation damage near buildings and determine whether the procedures adequately address the possibility of multiple leaks and underground migration of gas into nearby buildings Refer to 4/12/01 letter from PHMSA in response to NTSB recommendation P-00-20 and P-00-21:
- d. Operator records of previous accidents and failures including reported thirdparty damage and leak response to ensure appropriate operator response as required by 192.617:
- e. Directional drilling/boring procedures of each pipeline operator or its contractor to determine if they include actions to protect their facilities from the dangers posed by drilling and other trench less technologies;
- f. Operator procedures for considering low pressure distribution systems in threat analysis?
- g. Operator compliance with state and federal regulations for regulators located inside buildings?

Evaluator Notes:

- a. Satisfactory
- b. Satisfactory
- c. Satisfactory
- d. Satisfactory
- e. Satisfactory
- f. Satisfactory
- g. Satisfactory
- 6 Did the State verify Operators took appropriate action regarding advisory bulletins issued 1 since the last evaluation? (Advisory Bulletins Current Year)

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

N/A, No advisory bulletins issues in 2023

10

Yes = 10 No = 0 Needs Improvement = 1-9

- a. Were compliance actions sent to company officer or manager/board member if municipal/government system?
- b. Were probable violations documented properly?
- c. Resolve probable violations
- d. Routinely review progress of probable violations
- e. Did state issue compliance actions for all probable violations discovered?
- f. Can state demonstrate fining authority for pipeline safety violations?
- g. Does Program Manager review, approve and monitor all compliance actions? (note: Program Manager or Senior Official should sign any NOPV or related enforcement action)
- h. Did state compliance actions give reasonable due process to all parties? Including "show cause" hearing, if necessary.
- i. Within 30 days, conduct a post-inspection briefing with the owner or operator outlining any concerns
- j. Within 90 days, to the extent practicable, provide the owner or operator with written preliminary findings of the inspection. (Incident investigations do not need to meet 30/90-day requirement)

Evaluator Notes:

- 8 (Incident Investigations) Were all federally reportable incidents investigated, thoroughly documented, with conclusions and recommendations?
 - Yes = 10 No = 0 Needs Improvement = 1-9
 - a. Does state have adequate mechanism to receive and respond to operator reports of incidents, including after-hours reports?
 - b. Did state keep adequate records of Incident/Accident notifications received?
 - c. If onsite investigation was not made, did the state obtain sufficient information from the operator and/or by means to determine the facts to support the decision not to go on site?
 - d. Were onsite observations documented?
 - e. Were contributing factors documented?
 - f. Were recommendations to prevent recurrences, where appropriate, documented?
 - g. Did state initiate compliance action for any violations found during any incident/accident investigation?
 - h. Did state assist Region Office or Accident Investigation Division (AID) by taking appropriate follow-up actions related to the operator incident reports to ensure accuracy and final report has been received by PHMSA?
 - i. Does state share any lessons learned from incidents/accidents?

Evaluator Notes:

There were no incidents in 2023. No NRC reports were submitted.

- a. Satisfactory
- b. N/A, No incidents ln 2023
- c. N/A, No incidents in 2023
- d. N/A, No incidents in 2023
- e. N/A, No incidents in 2023

Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

Satisfactory

2 Has the state verified that the operators analyze excavation damages for the purpose of determining root causes and minimizing the possibility of a recurrence? (192.617) Has the state verified that the operators have appropriately identified excavators who have repeatedly violated one-call laws and damaged their facilities. Have the operators taken steps to mitigate that risks? (192.1007)

2

Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

Satisfactory

3 Has the state reviewed the operator's annual report pertaining to Part D - Excavation Damage?

4

Yes = 4 No = 0 Needs Improvement = 1-3

- Is the information complete and accurate with root cause numbers?
- b. Has the state evaluated the causes for the damages listed under "One-Call Notification Practices Not Sufficient" (Part D.1.a.)?
- Has the state evaluated the causes for the damages listed under "Locating Practices Not Sufficient" (Part D.1.b)? For each operator, does the state review the following?
- Is the operator or its locating contractor(s) qualified and following written procedures for locating and marking facilities?
- Is the operator appropriately requalifying locators to address performance deficiencies?
- What is the number of damages resulting from mismarks?
- What is the number of damages resulting from not locating within time requirements (no-shows)?
- Is the operator appropriately addressing discovered mapping errors resulting in excavation damages?
- Are mapping corrections timely and according to written procedures?
- j. Has the state evaluated the causes for the damages listed under "Excavation Practices Not Sufficient" (Part D.1.c.)?

Evaluator Notes:

a-i. Satisfactory

4 Has the agency or another organization within the state collected data and evaluated trends on the number of pipeline damages per 1,000 locate requests?

2

2

Yes = 2 No = 0 Needs Improvement = 1

- What stakeholder group is causing the highest number of damages to the pipelines? Operator, contractor, locating company or public.
- Has the state verified the operator is appropriately focusing damage prevention education and training to stakeholders causing the most damages?
- Has the state evaluated which of the following best describes the reason for the excavation damages; i.e., operator or contractor not following written procedures, failure to maintain marks, failure to support exposed facilities, failure to use hand tools were required, failure to test-hole (pot hole), improper backfilling practices, failure to maintain clearance or insufficient excavation practices.
- Has the state verified the operator is appropriately focusing damage prevention education and training to address the causes of excavation damages?

Evaluator Notes:

- a. Excavators
- b. Satisfactory
