2023 Gas State Program Evaluation -- CY 2023

Gas

State Agency: Washingto Agency Status:		Rating: 60105(a): Yes	60106(a): No	Interstate Agent: Yes
Date of Visit: 10/01/2024				
Agency Representative:	Mr. Scott Rukke			
	Director of Pipeline Safety			
PHMSA Representative:	Mr. Clint Stephens			
	State Liaison			
Commission Chairman t	o whom follow up letter is to be	sent:		
Name/Title:	Mr. David W. Danner, Chairman	n		
Agency:	Washington Utilities and Transp	ortation Commi	ssion	
Address:	621 Woodland Square Loop SE			
City/State/Zip:	Lacey, Washington 98503			

INSTRUCTIONS:

Complete this evaluation in accordance with the Evaluator Guidance for conducting state pipeline safety program evaluations. The evaluation should generally reflect state program performance during CY 2023 (not the status of performance at the time of the evaluation). A deficiency in any one part of a multiple-part question should be scored as "Needs Improvement." Determine the answer to the question then select the appropriate point value. If a state receives less than the maximum points, include a brief explanation in the appropriate notes/comments section. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and they OBJECTIVELY reflect the state's program performance for the question being evaluated. Increasing emphasis is being placed on how the state pipeline safety programs conduct and execute their pipeline safety responsibilities (their performance). This evaluation, together with selected factors reported in the state's annual progress report attachments, provide the basis for determining the state's pipeline safety grant allocation.

Scoring Summary

PARTS		Possible Points	Points Scored
А	Progress Report and Program Documentation Review	0	0
В	Program Inspection Procedures	15	15
С	State Qualifications	10	10
D	Program Performance	50	50
Е	Field Inspections	15	15
F	Damage prevention and Annual report analysis	10	10
ΤΟΤΑ	LS	100	100
State Rating		100.0	

PART A - Progress Report and Program Documentation Review

1 Were the following Progress Report Items accurate? (*items not scored on progress Info Only Info Only report)

Info Only = No Points

- a. Stats On Operators Data Progress Report Attachment 1
- b. State Inspection Activity Data Progress Report Attachment 2
- c. List of Operators Data Progress Report Attachment 3*
- d. Incidents/Accidents Data Progress Report Attachment 4*
- e. Stats of Compliance Actions Data Progress Report Attachment 5*
- f. List of Records Kept Data Progress Report Attachment 6 *
- g. Staff and TQ Training Data Progress Report Attachment 7
- h. Compliance with Federal Regulations Data Progress Report Attachment 8
- i. Performance and Damage Prevention Question Data Progress Report
- Attachment 10*

Evaluator Notes:

There were no issues with Part A of the program evaluation.

Total points scored for this section: 0 Total possible points for this section: 0

1 Evaluato Satis	Do written procedures address pre-inspection, inspection and post inspection activities for each of the following inspection types: Chapter 5.1 Yes = 5 No = 0 Needs Improvement = 1-4 a. Standard Inspections, which include Drug/Alcohol, CRM and Public Awareness Effectiveness Inspections b. TIMP and DIMP Inspections (reviewing largest operator(s) plans annually) c. OQ Inspections d. Damage Prevention Inspections e. On-Site Operator Training f. Construction Inspections (annual efforts) g. LNG Inspections r Notes: sfactory	5	5
2 Evaluato Satis	Do written procedures address inspection priorities of each operator, and if necessary each unit, based on the following elements and time frames established in its procedures? Chapter 5.1 Yes = 4 No = 0 Needs Improvement = 1-3 a. Length of time since last inspection b. Operating history of operator/unit and/or location (includes leakage, incident and compliance activities) c. Type of activity being undertaken by operators (i.e. construction) d. Locations of operator's inspection units being inspected - (HCA's, Geographic area, Population Centers, etc.) e. Process to identify high-risk inspection units that includes all threats - (Excavation Damage, Corrosion, Natural Forces, Outside Forces, Material and Welds, Equipment, Operators and any Other Factors) f. Are inspection units broken down appropriately? r Notes: sfactory	4	4
3 Evaluato Satis	 (Compliance Procedures) Does the state have written procedures to identify steps to be taken from the discovery to resolution of a probable violation? Chapter 5.1 Yes = 3 No = 0 Needs Improvement = 1-2 a. Procedures to notify an operator (company officer) when a noncompliance is identified b. Procedures to routinely review progress of compliance actions to prevent delays or breakdowns c. Procedures regarding closing outstanding probable violations r Notes: 	3	3
4 Evaluato	 (Incident/Accident Investigations) Does the state have written procedures to address state actions in the event of an incident/accident? Yes = 3 No = 0 Needs Improvement = 1-2 a. Mechanism to receive, record, and respond to operator reports of incidents, including after-hours reports b. If onsite investigation was not made, do procedures require on-call staff to obtain sufficient information to determine the facts to support the decision not to go on-site. r Notes: 	3	3

5 General Comments:

1	Did state inspect all types of operators and inspection units in accordance with time intervals established in written procedures? Chapter 5.1 $Yes = 5 No = 0 Needs Improvement = 1.4$	5	5
	a. Standard (General Code Compliance)		
	b. Public Awareness Effectiveness Reviews		
	c. Drug and Alcohol		
	d. Control Room Management		
	e. Part 193 LNG Inspections		
	f. Construction (did state achieve 20% of total inspection person-days?)		
	g. OQ (see Question 3 for additional requirements)		
	h. IMP/DIMP (see Question 4 for additional requirements)		
Evaluato			
	factory. Need to verify jurisdiction of Valley View Motel by November 2024.		
2	Did inspection form(s) cover all applicable code requirements addressed on Federal Inspection form(s)? Did State complete all applicable portions of inspection forms? Chapter 5.1. Do inspection records indicate that adequate reviews of procedures, records and field activities, including notes and the appropriate level of inspection person-days for each inspection, were performed? Yes = 10 No = 0 Needs Improvement = 1-9	10	10
	a. Standard (General Code Compliance)		
	b. Public Awareness Effectiveness Reviews		
	c. Drug and Alcohol		
	d. Control Room Management		
	e. Part 193 LNG Inspections		
	f. Construction		
	g. OQ (see Question 3 for additional requirements)		
	h. IMP/DIMP (see Question 4 for additional requirements)		
Evaluator			
Satis	factory		
3	Is state verifying monitoring (Protocol 9/Form15) of operators OQ programs? This should include verification of any plan updates and that persons performing covered tasks (including contractors) are properly qualified and requalified at intervals established in the operator's plan. 49 CFR 192 Part N $Yes = 2 No = 0 Needs Improvement = 1$	2	2
Evaluator	-		
Satis	ifactory		
4	Is state verifying operator's integrity management Programs (IMP and DIMP)? This should include a review of plans, along with monitoring progress. In addition, the review should take in to account program review and updates of operator's plan(s). 49 CFR 192 Subparts O and P	2	2
	 Yes = 2 No = 0 Needs Improvement = 1 a. Are the implementation plans of the state's large/largest operators(s) being reviewed annually to ensure they are completing full cycle of the IMP process? b. Are states verifying with operators any plastic pipe and components that have shown a record of defects/leaks and mitigating those through DIMP plan? c. Are the states verifying operators are including low pressure distribution 		
Evaluato	systems in their threat analysis? r Notes:		
	sfactory		

5	Did the state review the following (these items are NTSB recommendations to PHMSA	2	2
	that have been deemed acceptable response based on PHMSA reviewing these items		
	during the evaluation process): Chapter 5.1 Yes = 2 No = 0 Needs Improvement = 1		
	a. Operator procedures for determining if exposed cast iron pipe was examined		
	for evidence of graphitization and if necessary remedial action was taken;		
	b. Operator procedures for surveillance of cast iron pipelines, including		
	appropriate action resulting from tracking circumferential cracking failures, study of		
	leakage history, or other unusual operating maintenance condition? (Note: See GPTC		
	Appendix G-18 for guidance);		
	c. Operator emergency response procedures for leaks caused by excavation damage near buildings and determine whether the procedures adequately address the		
	possibility of multiple leaks and underground migration of gas into nearby buildings		
	Refer to 4/12/01 letter from PHMSA in response to NTSB recommendation P-00-20		
	and P-00-21;		
	d. Operator records of previous accidents and failures including reported third-		
	party damage and leak response to ensure appropriate operator response as required		
	by 192.617;		
	e. Directional drilling/boring procedures of each pipeline operator or its		
	contractor to determine if they include actions to protect their facilities from the		
	dangers posed by drilling and other trench less technologies; f. Operator procedures for considering low pressure distribution systems in threat		
	analysis?		
	g. Operator compliance with state and federal regulations for regulators located		
	inside buildings?		
	or Notes:		
Sati	sfactory		
6	Did the State verify Operators took appropriate action regarding advisory bulletins issued	1	1
	since the last evaluation? (Advisory Bulletins Current Year)
