Re.: Withdrawal of Interpretation Letter PI-23-0014

Dear Mr. Murchison:

On June 10, 2024, PHMSA responded to your request for an interpretation of the Federal pipeline safety regulations relating to the applicability of 49 CFR Part 195 to certain facilities in the Green Bay area owned and operated by U.S. Venture, Inc. This letter is to inform you that PHMSA has withdrawn that response to further consider the matter. PHMSA will provide further information upon completion of its review. Until the review is complete, PHMSA does not intend to conduct Part 195 compliance inspections of the facilities in question.

If we can be of further assistance, please contact Joseph Berry at 720-601-3577.

Sincerely,

John A. Gale
Director, Office of
Standards and Rulemaking
