Emergency Waiver Order No. 2

Environmental Protection Agency, Region 4
61 Forsyth Street SW
Atlanta, GA 30303

Docket # PHMSA-2017-0101

United States Coast Guard Seventh District
Brickell Plaza Federal Building
909 SE 1st Avenue
Miami, FL 33131-3050

EMERGENCY WAIVER ORDER

In accordance with the provisions of 49 U.S.C. § 5103(c), the Administrator for the Pipeline and Hazardous Materials Safety Administration (PHMSA), hereby declares that an emergency exists that warrants issuance of a Waiver of the Hazardous Materials Regulations (HMR, 49 C.F.R. Parts 171-180) to persons conducting operations under the direction of Environmental Protection Agency (EPA) Regions 2 or 4 or United States Coast Guard (USCG) 7th District within the Hurricane Irma emergency and disaster areas of Florida, Puerto Rico, South Carolina, and the United States Virgin Islands. The Waiver is granted to support EPA and USCG in taking appropriate actions to prepare for, respond to, and recover from a threat to public health, welfare, or the environment caused by actual or potential oil and hazardous materials incidents resulting from Hurricane Irma.

On September 5, 2017, the President issued an Emergency Declaration for Hurricane Irma for all 67 Florida counties (EM-3385), and all 78 municipalities in the Commonwealth of Puerto Rico (EM-3384). On September 7, 2017, the President issued an Emergency Declaration for Hurricane Irma for all 46 South Carolina counties and the Catawba Indian Nation (EM-3386), and a Major Disaster Declaration for all of the United States Virgin Islands (DR-4335).

This Waiver Order covers all areas identified in the declarations, as amended. Pursuant to 49 U.S.C. § 5103(c), PHMSA has authority delegated by the Secretary (49 CFR § 1.97(b)(3)) to waive compliance with any part of the HMR provided that the grant of the waiver is: (1) in the public interest; (2) not inconsistent with the safety of transporting hazardous materials; and (3) necessary to facilitate the safe movement of hazardous materials into, from, and within an area of

a major disaster or emergency that has been declared under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. § 5121 et seq.).

Given the continuing impacts caused by Hurricane Irma, PHMSA's Acting Administrator has determined that regulatory relief is in the public interest and necessary to ensure the safe transportation in commerce of hazardous materials while EPA and USCG execute their recovery and cleanup efforts in Florida, Puerto Rico, South Carolina, and the United States Virgin Islands. Specifically, PHMSA's Acting Administrator finds that issuing this Waiver Order will allow EPA and USCG to conduct their emergency support function under the National Response Framework to safely remove, transport, and dispose of hazardous materials. By execution of this Waiver Order, persons conducting operations under the direction of EPA Regions 2 or 4 or USCG 7th District within the Hurricane Irma emergency and disaster areas of Florida, Puerto Rico, South Carolina, and the United States Virgin Islands are authorized to offer and transport non-radioactive hazardous materials under alternative safety requirements imposed by EPA Regions 2 or 4 or USCG 7th District when compliance with the HMR is not practicable. Under this Waiver Order, non-radioactive hazardous materials may be transported to staging areas within 50 miles of the point of origin. Further transportation of the hazardous materials from staging areas must be in full compliance with the HMR.

This Waiver Order is effective immediately and shall remain in effect for 30 days from the date of issuance.

Dated: 8 September 2017 

Drue Pearce,
Acting Administrator
Pipeline and Hazardous
Materials Safety Administration
