Emergency Waiver Order No. 1

Docket # PHMSA-2017-0100

EMERGENCY WAIVER ORDER

In accordance with the provisions of 49 U.S.C. § 5103(c), the Acting Administrator for the Pipeline and Hazardous Materials Safety Administration (PHMSA), hereby declares that an emergency exists that warrants issuance of a Waiver of the Hazardous Materials Regulations (HMR, 49 C.F.R. Parts 171-180) to persons conducting operations under the direction of EPA Region 6 within the Hurricane and Tropical Storm Harvey disaster and emergency areas of Texas and Louisiana. The Waiver is granted to support EPA in taking appropriate actions to prepare for, respond to, and recover from a threat to public health, welfare, or the environment caused by actual or potential oil and hazardous materials incidents resulting from Hurricane and Tropical Storm Harvey.

On August 25, 2017, the President issued a Major Disaster Declaration for Hurricane Harvey for affected counties in Texas (DR-4332); and an Emergency Declaration for Tropical Storm Harvey for affected counties in Louisiana (EM-3382) on August 28, 2017. This Waiver Order covers all counties identified in both declarations, as amended. Pursuant to 49 U.S.C. § 5103(c), PHMSA has authority delegated by the Secretary (49 CFR § 1.97(b)(3)) to waive compliance with any part of the HMR provided that the grant of the waiver is: (1) in the public interest; (2) not inconsistent with the safety of transporting hazardous materials; and (3) necessary to facilitate the safe movement of hazardous materials into, from, and within an area of a major disaster or emergency that has been declared under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. § 5121 et seq.).

Given the continuing impacts caused by Hurricane and Tropical Storm Harvey, PHMSA's Acting Administrator has determined that regulatory relief is in the public interest and necessary to ensure the safe transportation in commerce of hazardous materials while EPA executes its recovery and cleanup efforts in Texas and Louisiana. Specifically, PHMSA's Administrator finds that issuing this Waiver Order will allow EPA to conduct its emergency support function under the National Response Framework to safely remove, transport, and dispose of hazardous materials. By execution of this Waiver Order, persons conducting operations under the direction of EPA Region 6 within the Hurricane/Tropical Storm Harvey disaster and emergency areas of Texas and Louisiana are authorized to offer and transport non-radioactive hazardous materials under alternative safety requirements imposed by EPA Region 6 when compliance with the HMR is not practicable. Under this Waiver Order, non-radioactive hazardous materials may be

transported to staging areas within 50 miles of the point of origin. Further transportation of the hazardous materials from staging areas must in be full compliance with the HMR.

This Waiver Order is effective immediately and shall remain in effect for 30 days from the date of issuance.

Dated: 1 September 2017 
Drue Pearce,
Acting Administrator
Pipeline and Hazardous
Materials Safety Administration
