Government

Mr. Stephen J. Allen (G)

Director
Pipeline Safety Division
Indiana Utility Regulatory Commission
101 W Washington Street, Suite 1500E
Indianapolis, IN 46204

Stephen E. Allen is the director of the Pipeline Safety Division for the Indiana Utility Regulatory Commission. He is also the current chair of the National Association of State Pipeline Safety Representatives' (NAPSR) Risk Modeling Working Group. Mr. Allen directs the Pipeline Safety Program for the Indiana Utility Regulatory Commission, manages a staff of 11 pipeline safety professionals, and is responsible for ensuring compliance with Federal and State pipeline safety standards for Indiana's intrastate natural gas and hazardous liquid pipeline operators. In addition, he has more than 20 years of experience with a large natural gas local distribution company (LDC), and he was the president of one of the LDC's non-regulated subsidiaries. During his tenure with the LDC, Mr. Allen served in various director roles in internal audit, information technology, and receivables management. (Appointed 11/10/2016)

Ms. Diane X. Burman (G)

Commissioner
New York State Public Service Commission
Empire State Plaza
Agency Building 3
Albany, NY 12223-1350

Diane X. Burman is a commissioner of the New York State Public Service Commission. Her Governor-appointed term runs through February 2024. Prior to this appointment, Ms. Burman was a counsel to the New York State Senate and recently served as counsel to the New York State Senate Republican Conference. She was the chief legislative legal officer for the New York State Senate responsible for advising the temporary president of the Senate and for each member of the Republican Conference on every major legislative policy initiative confronting the State. Prior to working in the Senate, Ms. Burman served as special counsel to the New York State Public Service Commission. Ms. Burman serves as vice chair on the National Association of Regulatory Utility Commissioners' (NARUC) Gas Committee and as the chair of NARUC's Department of Energy Natural Gas Infrastructure Modernization Planning Initiative, on the Gas Technology Institute Public Interest Advisory Committee and on the Critical Infrastructure Committee and the Subcommittee on Pipeline Safety. Ms. Burman is also chair of the Department of Transportation's Voluntary Information-sharing Working Group. (Appointed 2/1/2017)

Mr. David W. Danner (G)

Chair

Washington Utilities and Transportation Commission

1300 S Evergreen Park Drive SW

Olympia, WA 98502

David W. Danner is the chair of the Washington Utilities and Transportation Commission since February 2013. Prior to this appointment, Mr. Danner was the agency's executive director and. Before joining the Washington Utilities and Transportation Commission, he worked as the executive policy advisor on energy, telecommunications, finance, and elections issues to Washington Governor Gary Locke. He also served on the State Pollution Control Hearings Board and the Shoreline Hearings Board. Mr. Danner has been a telecommunications attorney in private practice, counsel to the Washington Senate Energy and Utilities Committee, and senior policy advisor with the Washington State Department of Information Services. He currently serves on the International and Energy Resources and Environment Committees of the National Association of Regulatory Utility Commissioners. Mr. Danner is a member of the State Technology Services Board, the Board of Directors of the National Regulatory Research Institute, and the Advisory Council of the Center for Public Utilities at the New Mexico State University College of Business. (Appointed 11/10/2016)

Mr. Terry L. Turpin (G)

Deputy Director

Office of Energy Projects

Federal Energy Regulatory Commission

888 First Street NE

Washington, DC 20426

Terry L. Turpin is the director of the Office of Energy Projects at the Federal Energy Regulatory Commission (FERC), where he is responsible for processing applications for hydropower dams, natural gas pipelines, and liquefied natural gas (LNG) requiring the preparation of environmental documents. Mr. Turpin represents FERC's natural gas and hydropower policy before the public, regulated industries, and local, State, Federal, and foreign governments. Additionally, he is responsible for siting infrastructure projects (including authorization of interstate natural gas pipelines and storage facilities), authorization and operation of LNG terminals, and licensing, administration, and safety of non-Federal hydropower projects. Prior to working as FERC's deputy director, Mr. Turpin served as the director of the division of Gas-Environment and Engineering within the Office of Energy Projects. In this role, Mr. Turpin oversaw a multi-disciplinary staff in the preparation of environmental documents for proposed natural gas pipelines and LNG facilities. (Appointed 11/10/2016)

Public

Mr. Mark Brownstein (P)

Associate Vice President & Chief Counsel
U.S. Climate & Energy Program
Environmental Defense Fund
257 Park Avenue South
New York, NY 10010

Mark Brownstein is the associate vice president and chief counsel of the U.S. Energy and Climate Program at the Environmental Defense Fund (EDF), where he leads their natural gas efforts. He also specializes in utility-related issues, including transmission development, wholesale and retail electric market design, rate reform, and power plant siting and investment. Mr. Brownstein was one of two EDF staff leads on the United States Climate Action Partnership, a coalition of the Nation's leading corporations and environmental groups championing immediate action on Federal legislation to cap and substantially reduce greenhouse gas pollution across the United States economy. He is a co-author of the Carbon Principles, a set of enhanced due diligence principles for investment banks considering the financing of coal-fired power plants. Prior to joining the EDF, Mr. Brownstein was director of enterprise strategy for Public Service Enterprise Group (PSEG), where he worked directly with senior leadership on creating and implementing the corporation's business strategy. Over his nearly 10-year career with PSEG, he served in a variety of environmental management roles, including director of environmental strategy and policy. Mr. Brownstein was active in numerous environmental legislative and regulatory proceedings, including efforts to develop Federal legislation limiting emissions of sulfur dioxide, nitrogen oxides, mercury, and carbon dioxide from power plants, as well as the Environmental Council of States' 37-state Ozone Transport Assessment Group process. Mr. Brownstein was also an active member of New Jersey's Renewable Energy Task Force and the U.S. Environmental Protection Agency's Clean Air Act Advisory Committee. (Reappointed 10/12/2017)

Ms. Sara Rollet Gosman (P)

Assistant Professor
University of Arkansas School of Law
1045 West Maple Street
Fayetteville, AR 72701

Sara Rollet Gosman is an assistant professor at the University Of Arkansas School Of Law, where she teaches and writes in the areas of environmental and energy law. Her courses include environmental law, energy law and policy, and natural resources law, and her research explores the ways in which uncertainty about risk creates both challenges and opportunities for policy. Professor Gosman's recent work has focused on oil and gas topics, including risk-based regulation of oil and gas pipelines and chemical disclosure policies and hydraulic fracturing. Prior to joining the University Of Arkansas School Of Law, Professor Gosman served as a lecturer at the University of Michigan Law School, practiced as a water resources attorney at the National Wildlife Federation, and worked as an assistant attorney general in the environmental division of the Michigan Department of Attorney General. In addition to her position at the

University Of Arkansas School Of Law, Professor Gosman is currently the vice president of the Board of Directors for the Pipeline Safety Trust. (Appointed 11/10/2016)

Mr. Robert W. Hill (P)

County Development Director & Emergency Manager
Brookings County Zoning & Drainage
520 3rd Street, Suite 200
Brookings, SD 57006

Robert W. Hill is the planning, zoning, and drainage director for Brookings County, South Dakota, a position he has held since March 2003. His responsibilities include reviewing applications for building and drainage permits, administering the County zoning ordinances, and recommending granting or denying permits to the County Commission. He is also responsible for property rezoning, platting, site plan reviews, building inspections, modifications of county ordinances, review of concentrated animal feeding operations, investigating complaints and violations, and assisting with education programs. Mr. Hill provides updates to the County Commission and Planning, and Zoning Boards on current activities, trends, changes in law and policies.

Mr. Hill has served as a Brookings County Local Emergency Planning Committee (LEPC) since 1999 and the Brookings County LEPC chairperson since 2008. He also was a member of PHSMA's Technical Assistance Grant Review Team for 2009 to 2011, served on the Pipelines and Informed Planning Alliance Task Team from 2008 to 2009, and received a Demonstration Technical Assistance Grant to write a Transmission Pipeline Risk Reduction Overlay District section for the Brookings County Zoning Ordinance. Mr. Hill is a board member for the National Association of County Planners (an affiliate of the National Association of Counties), the American Planning Association, the South Dakota Planners Association, and the South Dakota Emergency Management Association. (Reappointed 10/12/2017)

Mr. Richard F. Pevarski (P)

President and Chief Executive Officer
Virginia Utility Protection Service, Inc.
1829 Blue Hills Circle NE
Roanoke, VA 24212

Richard F. Pevarski is the president and chief executive officer of the Virginia 811. Prior to joining the Virginia, 811, he held several positions with the Roanoke Gas Company, including vice president of operations & marketing, director of operations & engineering, and superintendent of operations and engineering. Mr. Pevarski is a member of the Southeastern Gas Association (SGA), where he serves as the chair of the Education Steering Committee. He is the former chair and vice-chair of the SGA Operating Committee, as well as a current member of the American Gas Association (AGA), the Virginia Gas Operators Association, and the Virginia Oil and Gas Association. Mr. Pevarski serves on the Virginia Underground Utility Protection Services' board of directors. (Reappointed 10/12/2017)

Industry

Mr. Ronald A. Bradley (I)

Vice President, Gas
PECO
2301 Market Street
Philadelphia, PA 19103

Ronald A. Bradley is vice president of gas operations for PECO since November 2009. He oversees PECO's gas business, responsible for employee and public safety, integrity management programs, compliance, system performance, reliability, customer satisfaction and overall gas strategy. Before, he held leadership roles as vice president of support services, director of safety, training and methods, plant manager, and director of the electric transmission power grid. His responsibilities included safety, human performance, engineering, operations, compliance, performance, reliability, risk based life cycle plans and customer improvement. Mr. Bradley testified in state and federal regulatory proceedings, and was instrumental in developing and implementing PECO's infrastructure replacement program from inception in 2011 to the current version. He also works with Exelon Utilities, sister companies of Baltimore Gas & Electric and Delmarva Power to ensure the safe and efficient distribution and transmission of natural gas to over 1.2 million customers. In 2016, he served as the chair of the American Gas Association (AGA) Operation Managing Committee and continues to serve on the Executive Committee. In prior years, he served as the chair of the AGA Operations Safety Regulatory Action Committee. Mr. Bradley is a member of the Pennsylvania Energy Association Gas Board. (Appointed 10/12/2017)

Ms. Cheryl F. Campbell (I)

Senior Vice President
Gas Engineering & Operations
Xcel Energy Incorporated
1800 Larimer Street, Suite 1400
Denver, CO 80202

Cheryl F. Campbell is senior vice president of gas engineering and operations for Xcel Energy. She currently oversees Xcel's gas business, and is responsible for employee and public safety, integrity management programs, compliance, system performance, reliability, and overall gas strategy. Ms. Campbell has worked at Xcel Energy since 2004, with prior roles as the vice president for the Colorado gas operating area and the director for gas asset management. Her responsibilities have included engineering, operations, compliance, performance, reliability, and risk-based asset life cycle plans. Ms. Campbell has written and testified in State regulatory proceedings, and was instrumental in developing and implementing the Xcel Energy integrity management plans (transmission as well as distribution) from inception to the current version. Prior to her current position, Ms. Campbell was with Coastal Corporation (subsequently merged with El Paso Corporation, then Kinder Morgan) for almost 20 years. Her responsibilities at Coastal included interstate pipelines, mid-stream services, gas marketing, and both regulated and unregulated divisions. Her experience includes engineering design, supply and storage management, operations, strategic planning, marketing, and rates and regulations. Ms. Campbell

also wrote and supported testimony in Federal Energy Regulatory Commission regulatory proceedings. She is a member of the Executive Committee for the Operations Managing Committee for the American Gas Association, and serves on the boards for the Colorado Oil and Gas Association and the Engineering Advisory Committee for the Engineering College at the University of Colorado at Boulder. (Reappointed 10/12/2017)

Mr. J. Andrew Drake (I)

Vice President, Asset Integrity and Technical Services
Enbridge Gas Transmission and Midstream
5400 Westheimer Court
Houston, TX 77056

J. Andrew “Andy” Drake is the vice president of Asset Integrity and Technical Services for Enbridge. Prior to joining Enbridge, Mr. Drake was vice president of operations and EHS for Spectra Energy. He joined Texas Eastern Transmission, a subsidiary of Spectra Energy, as an engineer in the Technical Services Department in 1982. He worked through various responsibilities across the Engineering and Operations Groups for Texas Eastern and its parent companies for 33 years. Mr. Drake is the former chair of the Interstate Natural Gas Association of America Pipeline Safety Committee, former chair of the American Society of Mechanical Engineers (ASME) Code Section B31.8 Committee for gas pipelines, and facilitated the development of ASME’s Gas Piping Integrity Management Program Standard (B31.8S). (Reappointed 10/12/2017)

Mr. Richard H. Worsinger (I)

Director of Energy Resources
City of Rocky Mount
331 South Franklin Street
Rocky Mount, NC 27802

Richard H. Worsinger is the director of energy resources for the City of Rocky Mount, North Carolina, where he has overall responsibility for the city’s electric and natural gas utilities, serving approximately 17,000 natural gas customers and 27,000 electric customers. He has more than 30 years’ experience in the natural gas distribution industry. Prior to working for the City of Rocky Mount, Mr. Worsinger served in various management positions at the Public Service Electric and Gas Company in areas including planning, design, construction, operation, and maintenance of their natural gas distribution system and their liquid natural gas and liquefied propane peak shaving plant. Mr. Worsinger is a past chair of the American Public Gas Association, a past chair of Carolina’s Public Gas Association, and the alternate commissioner for the North Carolina Eastern Municipal Power Agency. (Reappointed 10/12/2017)

Mr. Chad J. Zamarin (I)

Senior Vice President
Corporate Strategic Development
The Williams Companies, Inc.
One Williams Center, 49th Fl.
Tulsa, OK 74172

Chad J. Zamarin is senior vice president of Corporate Strategic Development for The Williams Companies, Inc. since June 2017 where he oversees enterprise-level strategy, business development, customer-relationship management, and has additional responsibility for government affairs and project analysis. Prior to joining Williams, he served as senior vice president and president for pipeline and midstream at Cheniere Energy, Inc. Before joining Cheniere Energy, Mr. Zamarin served in various executive roles at NiSource/Columbia Pipeline Group, including chief operating officer at NiSource Midstream, LLC and NiSource Energy Ventures, LLC, as well as president of Pennant Midstream, LLC. He earned a bachelor of science in materials engineering from Purdue University and a master's in business administration from the University of Houston. He also serves on the board of directors of the Interstate Natural Gas Association of America. (Reappointed 10/12/2017)
