

implement the program (as it did to implement oxygenated fuels during the 1992-3 CO season).

Conclusion

EPA is soliciting public comments on this notice and on issues relevant to EPA's proposed action. Comments will be considered before taking final action. Interested parties may participate in the federal rule making procedure by submitting written comments to the person and address listed in the ADDRESSES section at the beginning of this notice.

Proposed Action

In today's notice EPA proposes to approve the Onondaga County, New York CO maintenance plan because it meets the requirements of section 175A. In addition, EPA is proposing approval of New York's request to redesignate Onondaga County to attainment of the CO standard, subject to final approval of the maintenance plan. EPA is proposing approval because New York has demonstrated compliance with the requirements of section 107(d)(3)(E) for redesignation.

Nothing in this action should be construed as permitting or allowing or establishing a precedent for any future request for revision to any SIP or redesignation. Each request for revision to the SIP or redesignation shall be considered separately in light of specific technical, economic, and environmental factors and in relation to relevant statutory and regulatory requirements.

Under the Regulatory Flexibility Act, 5 U.S.C. 600 *et. seq.*, EPA must prepare a regulatory flexibility analysis assessing the impact of any proposed or final rule on small entities.

5 U.S.C. 603 and 604. Alternatively, EPA may certify that the rule will not have a significant impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and government entities with jurisdiction over populations of less than 50,000 people.

Redesignation of an area to attainment under section 107(d)(3)(E) of the Clean Air Act does not impose any new requirements on small entities. Redesignation is an action that affects the status of a geographical area and does not impose any regulatory requirements on sources. I certify that the approval of the redesignation request will not affect a substantial number of small entities.

This action has been classified as a Table 2 action by the Regional Administrator under the procedures published in the *Federal Register* on

January 19, 1989 (54 FR 2214-2225). On January 6, 1989, the Office of Management and Budget (OMB) waived Table 2 SIP revisions (54 FR 2222) from the requirements of section 3 of Executive Order 12291 for a period of two years. EPA has submitted a request for a permanent waiver for Table 2 SIP revisions from the requirements of section 3 of Executive Order 12291. OMB has agreed to continue the temporary waiver until such time as it rules on EPA's request.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[MM Docket No. 93-183, RM-8276]

Radio Broadcasting Services; Sun Valley, Idaho

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a petition by Sun Valley Fine Arts Broadcasting requesting the allotment of Channel 298C to Sun Valley, Idaho, as that community's third local aural service. Channel 298C can be allotted to Sun Valley in compliance with the Commission's minimum distance separation requirements without a site restriction. The coordinates for Channel 298C at Sun Valley are North Latitude 43-41-48 and West Longitude 114-21-00.

DATES: Comments must be filed on or before August 30, 1993, and reply comments on or before September 14, 1993.

ADDRESSES: Federal Communications Commission, Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, or its counsel or consultant,

as follows: John F. Garziglia, Pepper & Corazzini, 1776 K Street, NW, suite 200, Washington, DC 20006 (Attorney for petitioner).

FOR FURTHER INFORMATION CONTACT: Nancy J. Walls, Mass Media Bureau, (202) 634-6530.

SUPPLEMENTARY INFORMATION: This is a synopsis of the Commission's Notice of Proposed Rulemaking, MM Docket No. 93-183, adopted June 18, 1993, and released July 8, 1993. The full text of this Commission decision is available for inspection and copying during normal business hours in the FCC Reference Center (Room 239), 1919 M Street, NW., Washington, DC. The complete text of this decision may also be purchased from the Commission's copy contractors, International Transcription Service, Inc., (202) 857-3800, 1919 M Street, NW., room 246, or 2100 M Street, NW., Suite 140, Washington, DC 20037.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rulemaking is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contacts.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

Research and Special Programs Administration

49 CFR Part 171

[Docket HM-200; Notice No. 93-17]

RIN 2137-AB37

Hazardous Materials in Intrastate Commerce; Correction

AGENCY: Research and Special Programs Administration (RSPA), Department of Transportation (DOT).

ACTION: Notice of proposed rulemaking (NPRM); correction.

SUMMARY: This document makes certain corrections to a notice of proposed rulemaking proposing amendments to the Hazardous Materials Regulations (HMR) to require that all intrastate shippers and carriers comply with the HMR. This action is necessary to clarify that certain oils, that are subject to oil spill response plan requirements, are not governed by the HMR. This action also clarifies the scope of a delay in the applicability of the proposed rule to certain bulk packagings. These amendments are minor editorial changes that will not impose any new requirements on persons subject to the HMR.

FOR FURTHER INFORMATION CONTACT: Edward H. Bonekemper, III, (202) 366-4401, Assistant Chief Counsel for Hazardous Materials Safety, Office of the Chief Counsel, RSPA, or Jackie Smith, (202) 366-4488, Office of Hazardous Materials Standards, RSPA, 400 Seventh Street, SW., Washington, DC 20590-0001.

SUPPLEMENTARY INFORMATION:

Background

A notice of proposed rulemaking (NPRM) was published on July 9, 1993, under Docket HM-200 (58 FR 36920). In the NPRM, RSPA proposes to amend the Hazardous Materials Regulations (HMR) to require that all intrastate shippers and carriers comply with the HMR. This document corrects certain editorial errors in that NPRM.

RSPA inadvertently stated in the preamble that certain oils are regulated as hazardous materials under the HMR, when transported in intrastate commerce. The "oils" identified in the preamble refer to those oils that require spill prevention and response plans as implemented under the Federal Water Pollution Control Act (FWPCA), as amended by the Oil Pollution Act of 1990. This inadvertent reference to oil was based on RSPA's interim final rule issued under Docket HM-214 on February 2, 1993 (58 FR 6864), which incorporated oils as hazardous materials subject to the requirements of the HMR. Shortly before publication of the NPRM under Docket HM-200, RSPA issued an interim final rule under Dockets HM-214 and PC-1 (58 FR 33302) that removed the designation as "hazardous materials" of oils that, before February 2, 1993, had not been so designated. Dockets HM-214 and PC-1 established a new part 130 in title 49 CFR solely for implementation of the FWPCA.

RSPA, however, failed to remove the reference to "oil" in the Docket HM-200 preamble explanation of those materials that are currently subject to the HMR

when transported in intrastate commerce. Accordingly, the following editorial corrections in the preamble are made: (1) The words "and oil" are removed in the fifteenth and sixteenth lines of the first paragraph following the heading *ANPRM* in the second column on page 36920; (2) the word "oils" is removed from the ninth line of the first paragraph following the heading *State/Federal Relationship* in the first column on page 36921; (3) the word "and" is inserted between the words "flammable cryogenic liquids" and "marine pollutants" in the third line of the second paragraph under the heading *II. Proposed Rule* in the first column on page 36922; and (4) the words ", and oils" are removed from the fourth line of the second paragraph following the heading *II. Proposed Rule* in the first column on page 36922.

Additionally, in the proposed regulatory text under § 171.1(c), RSPA failed to include "marine pollutants" in the list of materials that are excepted from the proposed delay in application of the requirements to bulk packagings operated in intrastate commerce in a State where the non-specification bulk packaging is specifically authorized and the packaging is in compliance with all applicable State requirements.

In consideration of the foregoing, in Docket HM-200, Notice No. 93-17, published in the *Federal Register* on July 9, 1992 (58 FR 36920), make the following corrections:

§ 171.1 [Corrected]

1. On page 36923, in the third column, as proposed in item 3., in § 171.1(c) introductory text, third line, the words "a marine pollutant," are added following the words "a hazardous waste,".

Issued in Washington, DC on July 9, 1993 under authority delegated in 49 CFR part 106, appendix A.

Alan I. Roberts,
Associate Administrator for Hazardous
Materials Safety

BILLING CODE 4910-80-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 23

**Convention on International Trade in
Endangered Species of Wild Fauna
and Flora: Consideration of
Amendments**

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Request for information.

SUMMARY: The Convention on International Trade in Endangered Species of Wild Fauna and Flora (CITES) regulates particular international trade in animal and plant species, which are listed in appendices to this treaty. Any country that is a Party to CITES may propose amendments to Appendices I and II for consideration by the other Parties.

This notice announces plans by the U.S. Fish and Wildlife Service (Service) to consider proposals for submission by the United States to amend Appendices I and II. The Service invites information and comments from the public on animal and plant species that should be considered as candidates for U.S. proposals. Such proposals may concern the addition of species to Appendix I or II, the transfer of species from one appendix to another; or the removal of species from Appendix I or II; or registering operations with Appendix I animal species bred-in-captivity for commercial purposes.

DATES: The Service will consider all information and comments received by September 28, 1993.

ADDRESSES: Comments, information, and questions should be sent to Chief, Office of Scientific Authority; ArlSq room 725, U.S. Fish and Wildlife Service; Washington, DC 20240; fax number 703-385-2276. Express and messenger deliveries should be addressed to the U.S. Fish and Wildlife Service; Office of Scientific Authority; 4401 North Fairfax Drive, room 750; Arlington, Virginia 22203. Comments and other information received will be available for public inspection by appointment, from 8 a.m. to 4 p.m. Monday through Friday, at the above address in Arlington, Virginia.

FOR FURTHER INFORMATION CONTACT: Dr. Charles W. Dane, Chief, Office of Scientific Authority (telephone 703-358-1708).

SUPPLEMENTARY INFORMATION:

Background

This is the first in a series of *Federal Register* notices about proposals to amend CITES Appendices I and II to be considered at the ninth regular biennial meeting of the Conference of the Parties. The purpose of this notice is to solicit information that will help the Service to identify: (1) Species that are candidates for addition, removal, or reclassification in those appendices; (2) Ten-Year Review species for which there is no documented evidence of trade in the species; (3) Nomenclatural issues; and (4) Appendix I animal species having
