MATERIALS
REGULATIONS**

**Consolidation and Miscellaneous
Amendments**

RULES AND REGULATIONS

Title 49—Transportation

CHAPTER I—MATERIALS TRANSPORTATION BUREAU DEPARTMENT OF TRANSPORTATION

[Docket No. HM-103/112; Amdt. Nos. 171-32B, 172-29B, 173-94B, 174-26B, 175-1B, 176-1B]

HAZARDOUS MATERIALS REGULATIONS AND MISCELLANEOUS AMENDMENTS

Consolidation

On April 15, 1976, the Materials Transportation Bureau published a series of amendments identified as Docket HM-103/HM-112; Amdt. Nos. 171-32, 172-29, 173-94, 174-26, 175-1, 176-1, 177-35 (41 FR 15972). These amendments consolidated the air, water, and surface transportation hazardous materials regulations into one volume of the Code of Federal Regulations, 49 CFR Parts 100-189. In addition, basic changes were made to these regulations pertaining to shipping papers, package marking, package labeling, and transport vehicle placarding requirements. Subsequent to that time, additional changes were made to these regulations and published in the FEDERAL REGISTER as amendments under Docket HM-103/112 (41 FR 40614, September 20, 1976). These latest amendments were published as a result of docketed comments, suggestions, and petitions for reconsideration. As a result of further comments and petitions, this document has been prepared to handle the editorial and clarification aspects of this consolidation, plus address petitions for reconsideration.

The American Trucking Associations, Inc. (ATA) submitted comments contending that " * * * the Materials Transportation Bureau and its predecessor, the Hazardous Materials Regulations Board, have failed to give sufficient rationale for many of the final rules developed * * *." The Bureau disagrees. The amendments published under Docket HM-103/112 are justified and supported by adequate rationale. This rationale has been established from the information gathered in the nearly five years of careful analysis and study which included public hearings, and input by carriers and shippers prior to adopting final rules. The Bureau published an Advanced Notice of Proposed Rule Making on June 27, 1972, which first established the intent to propagate new requirements pertaining to the transportation of hazardous materials. In that document, five problem areas were identified which stated that the regulations:

- (1) Generally were not addressed to more than one hazard;
- (2) Did not in all instances require disclosure of the presence of hazardous materials in transport vehicles;
- (3) Were not addressed to the different hazard characteristics of a mixed load of hazardous materials;
- (4) Did not provide sufficient information whereby fire fighting and other emergency response personnel can acquire adequate immediate information to handle emergency situations; and

(5) Are inconsistent in their application to the different modes of transport.

The Bureau feels that the major problems identified nearly five years ago have in fact been solved by the amendments made under this docket.

A number of petitioners have urged that the Bureau reconsider its position relative to the use of abbreviations or codes on shipping papers. The Bureau believes, however, that sufficient and adequate information, for purposes of safety, must be conveyed on shipping papers in a uniform and readable manner. In addition, emergency response personnel must be able to quickly identify hazards of materials being transported in order that appropriate action can be initiated immediately. The use of codes and abbreviations in the past have not satisfied these requirements.

Several petitioners made comments concerning problems they envision relative to new requirements for dual labeling of certain materials. New requirements prescribe that a material classed as a flammable liquid that also meets the definition of a Class B poison must have both labels on the package. In the past, some materials having both hazards have been transported with foodstuff, but since the secondary hazard of a Poison B was not required to be identified, carriers unknowingly transported poisonous materials with foodstuffs. Now, however, these same materials should not be accepted by carriers transporting foodstuffs since the package is labeled "Poison" in addition to "Flammable Liquid." The Bureau does not believe any significant problems will be experienced due to the dual labeling requirements now prescribed.

Since all of the comments, suggestions, and petitions have now been addressed either through this preamble or by direct communication with the petitioner, this will be the final document dealing with the consolidation of the hazardous materials regulations.

LIST OF SECTIONS AFFECTED AND SUMMARY OF CHANGES MADE IN THIS PUBLICATION

PART 171

§ 171.8 Definition of "consumer commodity", changed to include materials suitable for retail sales even if not specifically so intended. This definition includes items packaged suitably for retail sale but which may in fact be used in some other fashion.

§ 171.15 Update of section references dealing with immediate notification of radioactive contamination.

PART 172

§ 172.100 Clarification of appropriate optional use of prefix "mono".

§ 172.101 Revisions to Hazardous Materials Table to correct errors and incorporate changes made by this docket publication.

§ 172.201 Contrast requirements for basic shipping paper descriptions clarified.

§ 172.203 Replacement of repetitive language in shipping paper requirements for empty tank cars by reference to § 174.25(c).

§ 172.204 Addition of "is" in fifth line.

§ 172.304 Clarification: "Requirements" changed to "specifications" in section heading.

§ 172.306 Clarification of section heading and alternate marking exceptions.

§ 172.312 Addition of limited quantity exception from closure orientation for liquids. Comments were received which objected to the requirements that packages of flammable liquids in limited quantities be shipped with closures upward and so marked. The MTR agrees and has revised the section to include the previous exception of certain limited quantities of flammable liquids since the record does not reveal any problems with the exception.

§ 172.328 Editorial reorganization of text on cargo tank marking size.

§ 172.330 Clarification of marking distinction between tank cars and multiunit DOT 104 and 110 tank car tanks; addition of marking exception for use of chlorine label.

§ 172.400 Editorial contraction of text on portable tank labeling exception.

§ 172.401 Spelling correction.

§ 172.504 (a): Clarification of applicability of general placarding requirements to freight containers. Table I: Clarification of placarding for Radioactive Yellow III label. Addition of exception for Corrosive placarding of uranium hexafluoride; shipment less than 1,000 lbs. excepted, paralleling § 172.504 (c). Table II: Reference to existing placarding exception for materials corrosive only to steel. (c): Freight containers containing less than 1,000 lbs. of hazardous materials excepted from highway placarding in same fashion as motor vehicles.

§ 172.508 Clarification of requirement that placarding of motor vehicles, transport containers and portable tanks on rail cars must be equivalent to rail car placarding to be acceptable in lieu of rail car placarding. An additional section reference is added to reflect this intent.

§ 172.512 (a): "Freight container placarding table" is deleted. This table is a graphic summary of placarding requirements, but has caused confusion. (b): Change in reference to clarify placarding exception for smaller freight containers which are properly labeled.

§ 172.514 Section reference correction, without substantive change.

Appendix B to Part 172—Amendment of list of Empty placards to include those for which the Flammable-empty placard specifications are representative.

PART 173

§ 173.6 Clarification of pressure integrity of packages containing liquids to be shipped by air. The higher of the two existing standards applies.

§ 173.8 Spelling correction.

§ 173.28 (a) and (b) consolidated. (c)—(g) redesignated (b)–(f). (b): Nonmandatory loading instruction deleted as unnecessary. (d): Reference to EMPTY labor corrected. (e): Same as (d). (f): No change.

§ 173.33 (c): Deleted. This paragraph addressed special permits for nonspecification cargo tanks. Exemption procedures are now set out in Part 107.

§ 173.116 (c): Deleted. Outage requirement for .150 proof spirits is adequately addressed in the more general paragraphs of this section.

§ 173.119 (a) and (m): Addition of prohibition against bulk shipment of organic peroxides in cargo tanks and tank cars. Organic peroxides were not a separate class before amendment of the regulations under HM-103/112 and were generally treated as oxidizing materials. In 1973 (38 FR 20887, August 3, 1973), paragraphs (m)(10) through (m)(16) were added to this section authorizing bulk rail and highway shipments of flammable liquids which are also oxidizing materials. That this change authorized shipment of organic peroxides was not fully realized until those substances were given a separate class under HM-

103/112. Although there may exist some liquid organic peroxides suitable for bulk shipment, a general authorization for such bulk shipments cannot be justified, was not intended, and is being withdrawn until such time as packaging specification for specifically identified organic peroxides can be published. (d): Correction of typographical error.

§ 173.124 (a)(6): Amendment of ethylene oxide tank car marking in favor of existing standard marking requirements of § 172.330.

§ 173.217 Correction of typographical error and section reference.

§ 173.232 Increase in allowable quantities of aluminum powder shipped in portable tanks. Increase from 5,000 to 6,500 pounds gross weight is justified by the shipping record and reflects package size used by shippers.

§ 173.244 Deletion of paragraph (c) which concerns packaging and exceptions for corrosive solids already substantially addressed in preceding paragraphs of this section.

§ 173.249 Clarification of packaging required for certain alkaline liquids presently authorized for shipment by passenger aircraft.

§ 173.263 Revision to authorize 15 percent hydrochloric acid to be shipped as ORM-D (see comment under § 173.1200).

§ 173.276 Deletion of reference to percentage concentration of hydrazine. "Hydrazine, aqueous solution" is an asterisk entry in § 172.101 and the shipper is responsible for determining whether the solution meets a hazard definition.

§ 173.288 Typographical correction.

§ 173.294 Clarification of packaging for monochloroacetic acid solution. This section is intended to address packaging for both anhydrous and solution forms.

§ 173.300 Correction of classification for flammable compressed gas as "flammable gas". "Flammable compressed gas" is not an authorized class.

§ 173.301 Clarification of paragraph (1), concerning testing of compressed gas cylinders in domestic use, to reference existing exception in paragraph (j).

§ 173.306 Correction of two inaccurate section references.

§ 173.315 Note 14: Typographical correction. Correction of section references concerning MC 330 and 331 cargo tank markings and shipping paper entries for anhydrous ammonia. Note 15: Section reference correction as above for anhydrous ammonia.

§ 173.332 Amendment of tank car marking requirement for hydrocyanic acid in favor of standard marking requirements of § 172.330.

§ 173.338 Deleted. See 41 FR 15985 (April 15, 1976).

§ 173.343 Clarification of Class B poison definition eliminating extraneous reference and excluding Irritating materials.

§ 173.345 (a): Addition of exception for limited quantities of Poison B liquids from placarding and from highway and rail requirements other than those relating to shipping papers and to prohibition against comingling with foodstuffs. This exception parallels similar exceptions for limited quantity shipments of other classes of hazardous materials. (d): Clarification of permissible ORM-D classification of certain medicines.

§ 173.354 Amendment of tank car marking requirement for motor fuel antiknock compound in favor of standard marking requirements of § 172.330.

§ 173.364 Clarification of permissible ORM-D classification of certain medicines otherwise subject to Poison B solid classification.

§ 173.384 Addition of provisions for shipment of monochloracetone stabilized. This same provision was deleted as proposed under HMR-103/112, based on erroneous information that the material was not being shipped.

§ 173.385 "Exceptions" substituted for "Exemptions", as the latter is properly used in reference to procedures under Part 107.

§ 173.392 Correction of section references relating to marking, labeling and placarding requirements for low specific activity radioactive material.

Appendix following § 173.432—deletion of appendix. This information already appears in Tables 1 and 2 of Appendix A to Part 173.

§ 173.800 Deletion of ORM-B classification of ammonium hydrogen fluoride. Several petitioners indicate that classification as a corrosive material may be more appropriate, and the classification consequently has been withdrawn pending further evaluation.

§ 173.1025 Provision for water shipment of non-ferrous metal shavings in compressed bales. This manner of shipment is common and was previously authorized under 46 CFR Part 146.

§ 173.1200 (a): Typographical corrections. (a)(2)(iii): Revision permitting shipment as ORM-D of corrosive liquids in concentrations of 15 percent or less in 1 qt. inside containers. This revision is based on the fact that 15 percent solutions are available through consumer retail outlets and upon the excellent safety record in commercial transportation of such liquids in 1 qt. containers.

The 15 percent limitation will be subject to further reevaluation in the future. (a)(8)(ii): Addition of requirement that metal containers be used to ship compressed gases in quantities between 7.22 and 50 cubic inches. The word "metal", appearing in (a)(8)(ii), was inadvertently omitted.

Appendix A—clarification of procedures used to test skin corrosion.

PART 174

§ 174.5 Deletion of requirement that railway fuses be carried in a metal box. Fuses are not explosives and may be carried by railway personnel for immediate use.

§ 174.8 Clarification of inspection requirements applicable to only those placarded cars that are loaded.

§ 174.10 (a): Deletion of roof inspection for cars laden with Explosives. Outside roof inspection is not practical. (c) Deletion of format requirement for freight bill placard endorsement. This provision already appears in § 174.26(a).

§ 174.12 Amendment of requirement that intermediate carrier maintain file copy of shipper's certificate. The MTB agrees with comments suggesting that the origin carrier rather than intermediate carrier is the proper party to retain shippers' certificates.

§ 174.24 Transfer of (b) to § 174.26. Clarification of nonapplicability of general operating instructions to ORM classes.

§ 174.25 (a)(2)(ii): Elimination of spacing requirement for placard endorsement on rail shipping papers to facilitate computer processing. (b): Clarification of initial switching order requirements as applying only to loaded rail cars; deletion of shipper certification thereon when carrier has certified bill of lading; and deletion of requirement for placard endorsement thereon. (c): Rearrangement of text, and repeat of EMPTY placard requirement of § 172.510(c).

§ 174.26 (b): Elimination of "separate document" requirement for train consist showing car location. Documents required in paragraphs (a) and (b) may be separate, but need not be. (c): Former § 174.24(b).

§ 174.63 Substitution of "freight container" for "portable container" in section con-

cerning lading requirements. "Freight container" is defined § 171.8 and includes "portable container", a term which is not defined.

§ 174.69 Revision to reflect existing requirements for removing, replacing or reversing placards on empty tank cars.

§ 174.84 Switching requirements clarified as applicable to flatcars carrying placarded freight containers.

§ 174.88 Placement of rail placarded "Explosives A" clarified with respect to occupied cabooses.

§ 174.89 Placement of rail car placarded "Radioactive" clarified as applying only to loaded cars.

§ 174.104 Textual reorganization without substantive change.

§ 174.112 Addition of section references to reflect existing exceptions to closed rail car transportation of Class A explosives.

§ 174.480 Text change to reflect section heading prohibiting comingling of poisonous flammable solids with foodstuffs.

§ 174.810 Authorization for wet electric storage batteries to be shipped in properly vented, refrigerator or "plug-door" cars. Venting is intended to eliminate chance accumulation of hydrogen gas.

PART 175

§ 175.10 "Part" changed to "subchapter" to clarify exception from Hazardous Materials Regulations of certain items carried by air.

§ 175.30 Prohibition against accepting damaged containers for air carriage clarified. This section is not intended to prohibit acceptance of containers bearing superficial dents not affecting package integrity.

PART 176

§ 176.11 Clarification of use of IMCO Code for foreign shipments. Compliance with DOT Hazardous Materials Regulations is required for materials not addressed by IMCO requirements.

§ 176.30 Clarification of dangerous cargo manifest. This document is not intended to include any material not subject to the Hazardous Materials Regulations or the IMCO Code.

§ 176.45 Substitution of "Captain of the Port" for "District Commander". Coast Guard response to notification of damaged package can be more expeditiously handled in this manner.

§ 176.48 Similar change for same reasons as above.

§ 176.52 Same.

§ 176.63 Elimination of requirement for on-deck sun protection for portable tanks. The tanks are of such size as to render erection of shade structures impractical.

§ 176.74 Relaxation of 50 percent total open deck stowage limitation. The intent of this section as published was to establish a practical limitation. However the provision was not sufficiently detailed to be used so it is being made advisory rather than mandatory.

§ 176.88 (d)(3): Clarification of alternative nature of segregation requirements for containers stowed on or under deck. Some confusion exists as to whether fore-and-aft and athwartships separation requirements are additive. They are not. As between two containers, either fore-and-aft or athwartships separation is required, but not both.

§ 176.905 (c): Editorial. (1): Addition of exception to stowage requirements for vehicles when stowed in space especially suited for vehicles. (1): Clarification of stowage of vehicular equipment with vehicles, formerly contained in (1)(2). Vehicular equipment may be stowed with vehicles.

RULES AND REGULATIONS**GRANDFATHER CLAUSE**

A number of commenters have requested an extension of the mandatory compliance dates. The bureau has reviewed the submitted comments and does not believe sufficient justification has been presented for an extension of the compliance dates. However, it has concern that there is a large package inventory and that shippers did not have sufficient time to make changes in their packaging, marking, and labeling of hazardous materials. To provide relief from this burden, the Bureau has decided to extend the grandfather clause to January 1, 1977. This will provide the time required to reduce large inventories of packagings that complied with regulations in effect before July 1, 1976.

The extension of the grandfather clause provides that a package which is filled, marked, or labeled before January 1, 1977, in accordance with regulations in effect on June 30, 1976, may be offered for transportation and transported before July 1, 1977, even though it may not

comply with the "package, marking, labeling" provision amendments listed in Docket HM-103/112 and effective on July 1, 1976.

In consideration of the foregoing, CFR Parts 171 through 176 are amended as follows:

PART 171—GENERAL INFORMATION, REGULATIONS, AND DEFINITIONS**§ 171.8 [Amended]**

1. § 171.8 is amended by changing the word "and" in the third line of the definition of "Consumer commodity" to "or."

2. In § 171.15 paragraph (a)(4) is revised to read as follows:

§ 171.15 Immediate notice of hazardous materials incidents.

(a) * * *

(4) Fire, breakage, spillage, or suspected radioactive contamination involving shipment of radioactive material. (See also §§ 174.45, 175.45, and 177.807 of this subchapter.)

RULES AND REGULATIONS

§172.101 Hazardous Materials Table

(1)	(2)	(3)	(4)	(5)		(6)		(7)		
				Packaging		Maximum net quantity in one package		Water shipments		
W/ A	Hazardous materials descriptions and proper shipping names	Hazard class	Label(s) required if not excepted	(a) Exceptions	(b) Specific requirements	(a) Passenger carrying aircraft or railcar	(b) Cargo only aircraft	(a) Cargo vessel	(b) Passenger vessel	(c) Other requirements
	Accumulator, pressurized (pneumatic or hydraulic), containing nonflammable gas	Nonflammable gas	Nonflammable gas	173.306		No limit	No limit	1,2	1,2	
	Acetal	Flammable liquid	Flammable liquid	173.118	173.119	1 quart	10 gallons	1,3	4	
	Acetaldehyde (ethyl aldehyde)	Flammable liquid	Flammable liquid	None	173.119	Forbidden	10 gallons	1,3	3	
A	Acetaldehyde ammonia	ORM-A	None	173.505	173.510	No limit	No limit			
	Acetic acid (aqueous solution)	Corrosive material	Corrosive	173.244	173.245	1 quart	10 gallons	1,2	1,2	Stow separate from nitric acid or oxidizing materials
	Acetic acid, glacial	Corrosive material	Corrosive	173.244	173.245	1 quart	10 gallons	1,2	1,2	Stow separate from nitric acid or oxidizing materials. Segregation same as for flammable liquids
	Acetic anhydride	Corrosive material	Corrosive	173.244	173.245	1 quart	1 gallon	1,2	1,2	
	Acetone	Flammable liquid	Flammable liquid	173.118	173.119	1 quart	10 gallons	1,3	4	
	Acetone cyanohydrin	Poison B	Poison	None	173.346	Forbidden	55 gallons	1	5	Shade from radiant heat. Stow away from corrosive materials
	Acetone oil	Flammable liquid	Flammable liquid	173.118	173.119	1 quart	10 gallons	1,2	1	
	Acetonitrile	Flammable liquid	Flammable liquid	173.118	173.119	1 quart	10 gallons	1	4	Shade from radiant heat
	Acetyl benzoyl peroxide, solid	Forbidden	Organic peroxide	None	173.322	Forbidden	1 quart	1,2	1	
	Acetyl benzoyl peroxide solution, not over 40% peroxide	Organic peroxide	Organic peroxide							
	Acetyl bromide	Corrosive material	Corrosive	173.244	173.247	1 quart	1 gallon	1	1	
	Acetyl chloride	Flammable liquid	Flammable liquid	173.244	173.247	1 quart	1 gallon	1	1	Keep dry. Glass carboys not permitted on passenger vessels
	Acetylene	Flammable gas	Flammable gas	None	173.303	Forbidden	300 pounds	1	1	Keep dry. Glass carboys not permitted on passenger vessels
A	Acetylene tetrabromide	ORM-A	None	173.505	173.510	10 gallons	55 gallons			
	Acetyl iodide	Corrosive material	Corrosive	173.244	173.247	1 quart	1 gallon	1	1	
	Acetyl peroxide solution, not over 25% peroxide	Organic peroxide	Organic peroxide	173.153	173.222	Forbidden	1 quart	1,2	1	
	Acid butyl phosphate	Corrosive material	Corrosive	173.244	173.245	1 quart	5 gallons	1,2	1,2	Glass carboys in hampers not permitted under deck
	Acid carboy empty. See Carboy, empty									
	Acid, liquid, n.o.s.	Corrosive material	Corrosive	173.244	173.245	1 quart	5 pints	1	4	Keep cool
	Acid, sludge	Corrosive material	Corrosive	None	173.248	Forbidden	1 quart	1,2	1	
	Acrolein, inhibited	Flammable liquid	Flammable liquid and Poison	None	173.122	Forbidden	1 quart	1,2	3	Keep cool. Stow away from living quarters
	Acrylic acid	Corrosive material	Corrosive	173.244	173.245	1 quart	5 pints	1	1	
	Acrylonitrile	Flammable liquid	Flammable liquid and Poison	None	173.119	Forbidden	1 quart	1,2	3	Keep cool
	Actuating cartridge, explosive (fire extinguisher, or valve)	Class C explosive	Explosive C	173.114		50 pounds	150 pounds	1,2	1,2	Keep cool and dry
	Adhesive, n.o.s. See Cement, liquid, n.o.s.									
	Aerosol product, each aerosol container exceeding 50 cubic inches capacity. See Compressed gas, n.o.s.									
	Air, compressed	Nonflammable gas	Nonflammable gas	173.306	173.302	150 pounds	300 pounds	1,2	1,2	
	Aircraft rocket engine (Commercial)	Flammable solid	Flammable solid	None	173.238	Forbidden	550 pounds	1,3	5	
	Aircraft rocket engine igniter (Commercial)	Flammable solid	Flammable solid	None	173.238	Forbidden	25 pounds	1,3	3	
	Airplane flare. See Fireworks, special									
	Alcohol, n.o.s.	Flammable liquid	Flammable liquid	173.118	173.125	1 quart	10 gallons	1,2	1	
	Alcohol, n.o.s.	Combustible liquid	Combustible liquid	None	173.118a	No limit	No limit	1,2	1,2	
	Aldrin	Poison B	Poison	173.364	173.376	50 pounds	200 pounds	1,2	1,2	
A	Aldrin, cast solid	ORM-A	None	173.505	173.510	No limit	No limit			
	Aldrin mixture, dry (with more than 65% aldrin)	Poison B	Poison	173.364	173.376	50 pounds	200 pounds	1,2	1,2	
A	Aldrin mixture, dry, with 65% or less aldrin	ORM-A	None	173.505	173.510	No limit	No limit			

RULES AND REGULATIONS

§172.101 Hazardous Materials Table (cont'd)

(1) W/ A	(2) Hazardous materials descriptions and proper shipping names	(3) Hazard class	(4) Label(s) required (if not excepted)	(5) Packaging		(6) Maximum net quantity in one package		(7) Water shipments		
				(a) Exceptions	(b) Specific require- ments	(a) Passenger carrying aircraft or railcar	(b) Cargo only aircraft	(a) Cargo vessel	(b) Pas- enger vessel	(c) Other requirements
	Aldrin mixture, liquid (with more than 60% aldrin)	Poison B	Poison	173.345	173.361	1 quart	55 gallons	1,2	1,2	If flash point less than 141 DEG F., segregation same as for flammable liquids
A	Aldrin mixture, liquid, with 60% or less aldrin	ORM-A	None	173.505	173.510	No limit	No limit			
	Alkaline corrosive battery fluid	Corrosive material	Corrosive	173.244	173.249 173.257	1 quart	5 gallons	1,2	1,2	
	Alkaline corrosive battery fluid with empty storage battery	Corrosive material	Corrosive	None	173.258	Forbid- den / 1 quart	5 pints	1,2	1,2	
	Alkaline corrosive liquid, n.o.s.	Corrosive material	Corrosive	173.244	173.249	1 quart	5 gallons	1,2	1,2

	Butyl formate	Flammable Liquid	Flammable Liquid	173.118	173.119	1 quart	10 gallons	1,2	1		
	n-Butyl isocyanate	Flammable Liquid	Flammable Liquid and Poison	173.118	173.119	1 quart	10 gallons	1,2	1		
	Butyl mercaptan	Flammable Liquid	Flammable Liquid	None	173.141	Forbidden	10 gallons	1,2	1,2		
	Butyl phosphoric acid. See Acid-butyl phosphate										
	Butyl trichloroethane	Corrosive material	Corrosive	None	173.280	Forbidden	10 gallons	1	1	Keep dry	
	Butyraldehyde	Flammable Liquid	Flammable Liquid	173.118	173.119	1 quart	10 gallons	1,2	1		
	Butyric acid	Corrosive material	Corrosive	173.244	173.245	1 quart	10 gallons	1,2	1,2		
	Calcium arsenite, solid	Poison B	Poison	173.364	173.367 173.368	50 pounds	200 pounds	1,2	1,2		
	Calcium arsenite, solid	Poison B	Poison	173.364	173.369	50 pounds	200 pounds	1,2	1,2		
	Calcium bisulfite solution. See "Calcium hydrogen sulfite solution"										
	Calcium carbide	Flammable solid	Flammable solid and dangerous when wet	None	173.178	Forbidden	25 pounds	1,2	1,2	Keep dry. Store away from copper, its alloys, and salts	
	Calcium chlorate	Oxidizer	Oxidizer	173.153	173.163	25 pounds	100 pounds	1,2	1,2	Separate from ammonium compounds. Store away from powdered metals and cyanide	
	Calcium chlorite	Oxidizer	Oxidizer	None	173.160	Forbidden	100... 25 pounds	1,2	1,2	Separate from ammonium compounds powdered materials, and cyanide.	
AW	Calcium cyanamide, not hydrated, containing more than 0.1% calcium carbide	ORM-C	None	None	173.945	25 pounds	200 pounds	1,2	1,2	Separation same as for flammable solids labeled Dangerous When Wet	
	Calcium cyanide, solid or Calcium cyanide mixture, solid	Poison B	Poison	173.370		25 pounds	200 pounds	1,2	1,2	Store away from corrosive liquids. Keep dry	
	Calcium hydrogen sulfite solution	Corrosive material	Corrosive	173.244	173.245	1 quart	3 gallons	1,2	1,2		
	Calcium hypochlorite mixture, dry, (containing more than 30% available chlorine)	Oxidizer	Oxidizer	173.153	173.217	50 pounds	100 pounds	1,2	1,2	Keep cool and dry	
	Calcium, metal	Flammable solid	Flammable solid and dangerous when wet	173.153	173.154	25 pounds	100 pounds	1,2	1,2	Keep cool and dry. Segregation same as for flammable solids labeled Dangerous When Wet	
	Calcium, metal, crystalline	Flammable solid	Flammable solid and dangerous when wet	None	173.231	Forbidden	25 pounds	1,2	1,2	Keep cool and dry. Segregation same as for flammable solids labeled Dangerous When Wet	
	Calcium nitrate (See Sec. 173.142-Note)	Oxidizer	Oxidizer	173.153	173.182	25 pounds	100 pounds	1,2	1,2		
AW	Calcium oxide	ORM-B	None	173.505	173.850	25 pounds	100 pounds	1,2	1,2	Keep dry. Store away from explosives, acid, combustible materials, and am- monium salts	
	Calcium permanganate	Oxidizer	Oxidizer	173.153	173.154	25 pounds	100 pounds	1,2	1,2	Separate from ammonium compounds and hydrogen peroxide	
	Calcium peroxide	Oxidizer	Oxidizer	173.153	173.156	25 pounds	100 pounds	1,2	1,2	Keep dry	
	Calcium phosphide	Flammable solid	Flammable solid and dangerous when wet	None	173.161	Forbidden	25 pounds	1	1,2	Keep cool and dry. Segregation same as for flammable solids labeled Dangerous When Wet	
	Calcium resinate	Flammable solid	Flammable solid	None	173.166	Forbidden	125 pounds	1	1,2		
	Calcium resinate, fused	Flammable solid	Flammable solid	None	173.166	Forbidden	125 pounds	1	1,2		
AW	Camphene	ORM-A	None	173.505	173.610	No limit	No limit	1,2	1,2	Keep dry. Store away from foodstuffs and living quarters	
	Camphor oil	Combustible liquid	None	173.118a	None	No limit	No limit	1,2	1,2		

§172.101 Hazardous Materials Table (cont'd)

(1) W/ A	(2) Hazardous materials descriptions and proper shipping names	(3) Hazard class	(4) Label(s) required (if not excepted)	(5) Packaging		(6) Maximum net quantity in one package		(7) Water shipments			
				(a) Exceptions	(b) Specific requirements	(a) Passenger carrying aircraft or railcar	(b) Cargo only aircraft	(a) Cargo vessel	(b) Passenger vessel	(c) Other requirements	
	Cannon primers	Class C explosive	Explosive C	None	173.107	50 pounds	150 pounds	1,3	5		
	Capryl peroxide solution	Organic peroxide	Organic peroxide	173.153	173.221	1 quart	1 quart	1,2	4	Keep cool. Stow separate from com- bustible materials, explosives, or acids	
	Caps, blasting. See Blasting caps										
	Caps, toy. See Toy caps										
A	Carbaryl	ORM-A Poison B	Nope Poison	173.505	173.510	No limit	No limit	1,2	1,2		
	Carbolic acid, liquid or Phenol, liquid (liquid tar acid containing over 50% benzene)	Poison B	Poison	173.345	173.349	1 quart	55 gallons	1,2	1,2		
	Carbolic acid, or Phenol										
	Carbon bisulfide, or Carbon disulfide	Flammable Liquid	Flammable, Liquid	None	173.121	50 pounds	250 pounds	1,2	5	Keep cool. Not permitted on any vessel transporting explosives	
	Carbon dioxide, liquefied	Nonflamma- ble gas	Nonflamma- ble gas	173.306	173.304	150 pounds	300 pounds	1,2	1,2		
	Carbon dioxide-nitrous oxide mixture	Nonflamma- ble gas	Nonflamma- ble gas	173.306	173.304	150 pounds	300 pounds	1,2	1,2		
	Carbon dioxide-oxygen mixture	Nonflamma- ble gas	Nonflamma- ble gas	173.306	173.304	150 pounds	300 pounds	1,2	1,2		
AW	Carbon dioxide, solid, or Dry ice, or Carbonic	ORM-A	Nope	None	173.613	440 pounds	440 pounds	1	1	Stow away from open ventilators. Stow away from cyanides or cyanide mix- tures, liquid or dry	
	Carbon monoxide	Flammable gas	Flammable gas	173.306	173.302	Forbid- den	150 pounds	1	4		
	Carbon remover, liquid	Flammable liquid	Flammable Liquid	173.118	173.119	1 quart	10 gallons	1,2	1		
AW	Carbon tetrachloride.	ORM-A	None	173.505	173.620	1 quart	55 gallons	1,2	1,2	Stow away from living quarters	
	Carbonyl chloride. See Phosgene										
	Carbonyl, empty, must be classed for the hazardous material previously contained in carbonyl. See 173.29										
	Cartridge bags, empty, with black powder igniter	Class C explosive	Explosive C	None	173.106	50 pounds	150 pounds	1,3	1,3		
	Cartridge cases, empty, primed	Class C explosive	Explosive C	None	173.106	50 pounds	150 pounds	1,3	1,3		
	Cartridge, practice ammunition	Class C explosive	Explosive C	None	173.107a	50 pounds	150 pounds	1,2	1,2		
	Cast oil. See Gasoline or Naphtha										
	Casinghead gasoline. See Gasoline										
W	Castor beans										
	Castor pomace. See Castor beans										
	Caustic potash, dry, solid, flake, bead, or granular. See Potassium hydroxide, dry, etc.										
	Caustic potash, liquid or solution. See Potassium hydroxide solution										
	Caustic soda, dry, solid, flake, bead, or granular. See Sodium hydroxide, dry, etc.										
	Caustic soda, liquid or solution. See Sodium hydroxide solution										
W	Celloacrylic. See Ethylene glycol monoethyl ether										
W	Celloacrylic acetate. See Ethylene glycol monoethyl ether acetate										
	Cement, adhesive, n.o.s.; See Cement, liquid, n.o.s.										
	Cement, container, linoleum, tile, or wallboard, liquid	Flammable liquid	Flammable Liquid	173.118	173.132	1 quart	15 gallons	1,2	1		
	Cement, leather	Flammable liquid	Flammable Liquid	173.118	173.119	1 quart	10 gallons	1,2	1		
	Cement, liquid, n.o.s.	Combustible liquid	None	173.118a	None	No limit	No limit	1,2	1,2		
	Cement, liquid, n.o.s.	Flammable liquid	Flammable Liquid	173.118	173.132	1 quart	10 gallons	1,2	1		
	Cement, pyroxylin	Flammable liquid	Flammable Liquid	173.118	173.132	1 quart	15 gallons	1,2	1		
	Cement, roofing, liquid	Flammable liquid	Flammable Liquid	173.118	173.119	1 quart	10 gallons	1,2	1		
	Cement, rubber	Flammable liquid	Flammable Liquid	173.618	173.132	1 quart	15 gallons	1,2	1		
	Cesium metal	Flammable solid	Flammable solid	None	173.206	Forbidden	25 pounds	1,2	5	Segregation same as for flammable solids labeled Dangerous When Wet	

RULES AND REGULATIONS

§172.101 Hazardous Materials Table (cont'd)

(1) W/ A	(2) Hazardous materials descriptions and proper shipping names	(3) Hazard class	(4) Label(s) required (if not excepted)	(5) Packaging		(6) Maximum net quantity in one package		(7) Water shipments			
				(a) Exceptions	(b) Specific require- ments	(a) Passenger carrying aircraft or railcar	(b) Cargo only aircraft	(a) Cargo vessel	(b) Pas- senger vessel	(c) Other requirements	
	Charcoal, activated	Flammable solid	Flammable solid	173.162	173.162	25 pounds	200 pounds	1.3	1.3		
	Charcoal briquettes or briquets	Flammable solid	Flammable solid	173.162	173.162	50 pounds	50 pounds	1.2	1.2		
	Charcoal screenings, made from "pinon" wood	Flammable solid	Flammable solid	173.162	173.162	25 pounds	200 pounds	1.2	1.2		
	Charcoal screenings, wet	Forbidden	Flammable solid	173.162	173.162	25 pounds	200 pounds	1.2	1.2		
	Charcoal, shell	Flammable solid	Flammable solid	173.162	173.162	25 pounds	200 pounds	1.2	1.2		
	Charcoal, wet	Forbidden	Flammable solid	173.162	173.162	25 pounds	200 pounds	1.2	1.2		
	Charcoal, wood, ground, crushed, granulated, or pulverized	Flammable solid	Flammable solid	173.162	173.162	50 pounds	50 pounds	1.2	1.2		
	Charcoal, wood, lump	Flammable solid	Flammable solid	None	173.162	Forbid- den	Forbid- den	1	1		
	Charcoal wood screenings, other than "pinon" wood screening	Class A explosive	Explosive A	None	173.53 173.80	Forbid- den	Forbid- den			Forbidden	
	Charged oil well jet perforating gun (total explosive contents in guns 20 pounds or more per metric vehicle)	Class C explosive	Explosive C	None	173.53 173.110	Forbid- den	Forbid- den			Forbidden	
	Charged oil well jet perforating gun (total explosive contents in guns not exceeding 20 pounds per metric vehicle)										
	Chemical ammunition explosive. See Ammunition, chemical, explosive										
	Chemical ammunition, nonexplosive (containing a Poison B material)	Poison B	Poison	173.345	173.350	Forbid- den	55 gallons				
	Chemical ammunition, nonexplosive (containing an irritating material)	Irritating material	Irritant	None	173.383	Forbid- den	20 pounds			See correct shipping name of applicable Poison B material for stowage, special handling, and special segregation requirements	
	Chemical ammunition, nonexplosive (containing a poison A material)	Poison A	Poison gas	None	173.330	Forbid- den	Forbid- den			See correct shipping name of applicable irritant material for stowage, special handling, and special segregation requirements	
	Chemical kit	Corrosive material	Corrosive	173.286		1 quart	1 quart	1.3	1.3		
	Chlorate and borate mixture (containing more than 28% chlorate)	Oxidizer	Oxidizer	173.153	173.229	25 pounds	100 pounds	1.2	4		
	Chlorate and magnesium chloride mixture (containing more than 28% chlorate)	Oxidizer	Oxidizer	173.153	173.229	25 pounds	100 pounds	1.2	4		
	Chlorate explosive, dry. See High explosive										
	Chlorate, n.o.s.	Oxidizer	Oxidizer	173.153	173.163	25 pounds	100 pounds	1.2	4		
	Chlorate, n.o.s., wet	Oxidizer	Oxidizer	173.153	173.163	25 pounds	200 pounds	1.2	4		
	Chlorate of potash. See Potassium chlorate										
	Chlorate of soda. See Sodium chlorate										
	Chlorate powder. See High explosive										
	Chlordane, liquid	Combustible liquid	None	173.113a	None	No limit	No limit	1.2	1.2		
	Chloric acid. (see chlorine dioxide hydrate)										
	Chloride of phosphorus. See Phosphorus trichloride										
	Chloride of sulfur. See Sulfur chloride										
	Chlorinated lime (chloride of lime.) See bleaching powder										
	Chlorine	Nonflammable gas	Nonflammable gas and Poison	None	173.304 173.314 173.315	Forbid- den	Forbid- den	1.2	5	Stow in a well-ventilated space. Stow away from organic materials	
	Chlorine dioxide hydrate, frozen	Oxidizer	Oxidizer and Poison	None	173.237	Forbid- den	Forbid- den			Forbidden	
	Chlorine trifluoride	Oxidizer	Oxidizer and Poison	None	173.246	Forbid- den	100 pounds	1.3	5		
	Chloroacetic acid, solid	Corrosive material	Corrosive	173.244	173.245b	25 pounds	100 pounds	1.2	1.2	Stow in well ventilated area away from organic material Keep dry	
	Chloroacetic acid, liquid or solution. See Monochloroacetic acid, liquid or solution										
	Chloracetophenone, gas, liquid, or solid (CN)	Irritating material	Irritant	None	173.382	Forbid- den	75 pounds	1	5		
	Chloroacetyl chloride	Corrosive material	Corrosive	None	173.253	Forbid- den	1 quart	1	5	Keep dry	
	Chlorobenzene. See Chlorobenzol	Flammable liquid	Flammable liquid	173.418	173.119	1 quart	10 gallons	1.2	1.2		

§172.101 Hazardous Materials Table (cont'd)

				(a) Exceptions	(b) Specific require- ments	(a) Passenger aircraft or railcar	(b) Cargo only aircraft	(a) Cargo vessel	(b) Passenger vessel	(c) Other requirements	
	p-Chlorobenzoyl peroxide	Organic peroxide	Organic peroxide	None	173.157 (173.158)	Forbidden	25 pounds	1	1		
	Chlorodinitrobenzene. See Dinitrochlorobenzene										
	Chlorodinitrobenzyl. See Dinitrochlorobenzyl, solid										
AW	Chloroform	ORM-A	None	173.505	173.630	10 gallons	55 gallons	1,2	1,2	Stow away from living quarters and foodstuffs	
	4-Chloro-a-toluidine hydrochloride	Poison B	Poison	None	173.362	Forbidden	1 quart	1,2	1,2		
	Chlorophenyltrichloroethane	Corrosive material	Corrosive	None	173.280	Forbidden	10 gallons	1	1	Keep dry	
	Chloropicrin, absorbed	Poison B	Poison	None	173.357	Forbidden	Forbidden	1	5	Keep cool	
	Chloropicrin and methyl chloride mixture	Poison A	Flammable gas and Poison gas	None	173.329	Forbidden	Forbidden	1	5	Keep cool	
	Chloropicrin and nonflammable, nonliquefied compressed gas mixture	Poison A	Nonflamma- ble gas and Poison gas	None	173.329	Forbidden	Forbidden	1	5	Keep cool	
	Chloropicrin, liquid	Poison B	Poison	None	173.357	Forbidden	Forbidden	1	5	Keep cool	
	Chloropicrin mixture (containing no compressed gas or poison A liquid)	Poison B	Poison	None	173.357	Forbidden	Forbidden	1	5	Keep cool	
A	Chloroplastic acid, solid	ORM-B	None	173.505	173.510 (173.800)	25 pounds	100 pounds	1,2	5		
	2-Chloropropane	Flammable liquid	Flammable liquid	None	173.119	Forbidden	10 gallons	1,2	5		
	Chlorosulfonic acid	Corrosive material	Corrosive	173.244	173.254	1 quart	1 quart	1	1	Keep dry. Glass carboys not permitted on passenger vessel	
	Chlorosulfonic acid-sulfur trioxide mixture	Corrosive material	Corrosive	173.244	173.254	1 quart	1 quart	1	1	Keep dry. Glass carboys not permitted on passenger vessel	
	Chromic acid mixture, dry	Oxidizer	Oxidizer	173.153	173.164	25 pounds	100 pounds	1,2	1,2	Stow away from foodstuffs	
	Chromic acid, solid	Oxidizer	Oxidizer	173.153	173.164	25 pounds	100 pounds	1,2	1,2	Stow away from foodstuffs. Stow separate from flammable liquids and solids	
	Chromic acid solution	Corrosive material	Corrosive	173.244	173.287	1 quart	1 gallon	1	1		
	Chromic anhydride. See Chromic acid, solid										
	Chromic fluoride, solid	Corrosive material	Corrosive	173.244	173.245b	25 pounds	100 pounds	1,2	1,2		
	Chromic fluoride solution	Corrosive material	Corrosive	173.244	173.245	1 quart	1 gallon	1,2	1,2		
	Chromic trioxide. See Chromic acid, solid										
	Chromium oxychloride or Chromyl chloride	Corrosive material	Corrosive	None	173.247	Forbidden	1 gallon	1	1	Keep dry. Glass carboys not permitted on passenger vessel	
	Cigar and cigarette lighter fluid. See Lighter fluid										
	Cigarette lighter (or other similar ignition device)	Flammable gas	Flammable gas	173.21	173.308	21 ounces	25 pounds	1	1	Not permitted in nonventilated container	
	Cigarette lighter (or other similar ignition device)	Flammable liquid	Flammable liquid	173.21	173.118	Forbidden	150 pounds	1	1	Not permitted in nonventilated container	
	Cigarette load	Class C explosive	Explosive C	None	173.111	50 pounds	1,2	1,2			
	Cloud gas cylinder. See Chemical ammunition										
	Coal briquettes, hot	Forbidden									
	Coal facing, See Coal ground bituminous, etc.										
	Coal gas. See Hydrocarbon gas, nonliquefied										
	Coal, ground bituminous, sea coal; coal facing, etc.	Flammable solid	Flammable solid	173.165		Forbidden	Forbidden	1	1	Separate from flammable gases or liquids, oxidizing materials, or organic peroxides	
	Coal oil (export shipment only). See Kerosene										
	Coal tar distillate	Combustible liquid	None	173.118a	None	No limit	No limit	1,2	1,2		
	Coal tar distillate	Flammable liquid	Flammable liquid	173.118	173.119	1 quart	10 gallons	1,2	1		
	Coal tar dye, liquid (not otherwise specifically named in Sec. 172.101)	Corrosive material	Corrosive	173.244	173.245 (173.249a)	1 quart	10 gallons	1,2	1,2		
	Coal tar light oil	Combustible liquid	None	173.118a	None	1 quart	10 gallons	1,2	1,2		
	Coal tar light oil	Flammable liquid	Flammable liquid	173.118	173.119	1 quart	10 gallons	1,2	1		
	Coal tar naphtha	Combustible liquid	None	173.118a	None	No limit	No limit	1,2	1,2

	Zinc nitrate. See Nitrates, n.o.s.									

RULES AND REGULATIONS

§172.101 Hazardous Materials Table (cont'd)

(1) W/ A	(2) Hazardous materials descriptions and proper shipping names	(3) Hazard class	(4) Label(s) required (if not excepted)	(5) Packaging		(6) Maximum net quantity in one package		(7) Water shipments			
				(a) Exceptions	(b) Specific require- ments	(a) Passenger carrying aircraft or glider	(b) Cargo only aircraft	(a) Cargo vessel	(b) Passenger vessel	(c) Other requirements	
	Zinc permanganate	Oxidizer	Oxidizer	173.153	173.154	25 pounds	100 pounds	1.2	1.2	Separate from ammonium compounds and hydrogen peroxide	
	Zinc peroxide	Oxidizer	Oxidizer	173.153	173.154	25 pounds	100 pounds	1.2	1.2	Keep dry	
	Zirconium hydride	Flammable solid	Flammable solid and Dangerous when wet	None	173.206	Forbidden	150 pounds	1.2	5	S segregation same as for flammable solids labeled Dangerous When Wet	
	Zirconium metal, dry, chemically produced, finer than 20 mesh particle size	Flammable solid	Flammable solid	None	173.214	Forbidden	75 pounds	1	5	Separate from flammable gases or liquids, oxidizing materials or organic peroxides	
	Zirconium metal, dry, mechanically produced, finer than 270 mesh particle size	Flammable solid	Flammable solid	None	173.214	Forbidden	75 pounds	1	5	Separate from flammable gases or liquids, oxidizing materials or organic peroxides	
	Zirconium, metal, liquid suspensions	Flammable liquid	Flammable liquid	None	173.140	Forbidden	5 gallons	1	5		
	Zirconium metal, wet, chemically produced, finer than 20 mesh particle size	Flammable solid	Flammable solid	None	173.214	Forbidden	150 pounds	1.2	5		
	Zirconium metal, wet mechanically produced, finer than 270 mesh particle size	Flammable solid	Flammable solid	None	173.214	Forbidden	150 pounds	1.2	5		
	Zirconium picramate, wet with at least 20% of water	Flammable solid	Flammable solid	None	173.216	Forbidden	25 pounds	1	1	Stow away from heavy metals and their salts	
	Zirconium scrap (barings, clippings, shavings, sheets, or turnings)	Flammable solid	Flammable solid	173.153	173.220	Forbidden	Forbidden	1	4	Separate from flammable gases or liquids, oxidizing materials, or organic peroxides	
	Zirconium tetrachloride, solid	Corrosive material	Corrosive	173.244	173.245b	25 pounds	100 pounds	1.2	1.2		

RULES AND REGULATIONS

5. In § 172.201 the introduction to paragraph (a) (1) and paragraph (a) (2) (ii) are revised to read as follows:

§ 172.201 General entries.

(a)

(1) When a hazardous material and a material not subject to the requirements of this subchapter are described on the same shipping paper, the hazardous material description entries required by § 172.202 and those additional entries that may be required by § 172.203:

(ii) Must be entered in a color that clearly contrasts with any description of a material not subject to the requirements of this subchapter on the shipping paper except that a description on a reproduction of a shipping paper may be highlighted, rather than printed, in a contrasting color. (The provisions of this paragraph apply only to the basic description required by § 172.202(a), (1) and (2), or

6. In § 172.203 paragraphs (e) and (g) (1) are revised; paragraph (g) (2) is deleted; paragraph (g) (3) is redesignated (g) (2) as follows:

§ 172.203 Additional description requirements.

(e)

Empty packagings. For other than a tank car, the description on the shipping paper for an empty packaging containing the residue of a hazardous material may contain the word(s) "EMPTY"; or "EMPTY: Last contained ***" followed by the name of the hazardous material last contained in the packaging. This entry may be before or after the basic description. For empty tank cars, see § 174.25(c) of this subchapter.

(g)

(1) The shipping paper for a rail car containing a hazardous material must contain the notation "Placarded" followed by the name of the placard required for the rail car.

(2) The shipping paper for each specification DOT 112A or 114A tank car (without head shields) containing a flammable compressed gas must contain the notation, "DOT 112A" or "DOT 114A," as appropriate, and either "Must be handled in accordance with FRA E.O. No. 5" or "Shove to rest per E.O. No. 5."

7. In § 172.204 the introductory text of paragraph (a) is revised to read as follows:

§ 172.204 Shipper's certification.

(a)

General. Except as provided in paragraphs (b) and (c) of this section, each person who offers a hazardous material for transportation shall certify that the material offered for transportation is in accordance with this subchap-

ter by printing (manually or mechanically) the following statement on the shipping paper containing the required shipping description:

8. In § 172.304 the heading is revised to read as follows:

§ 172.304 Marking requirements.

9. In § 172.306 the heading and paragraph (a) (1) are revised as follows:

§ 172.306 Consignee's or consigner's name and address.

(a)

(1) Transported by highway and will not be transferred from one motor carrier to another, or

10. In § 172.312 the introductory text of paragraph (a) is revised to read as follows:

§ 172.312 Liquid hazardous materials.

(a) Except as provided in this section and for limited quantities of flammable liquids packed in inside packagings of one quart or less, each package having an inside packaging containing liquid hazardous materials must be—

11. § 172.328 is revised to read as follows:

§ 172.328 Cargo tanks.

(a) *Size of marking.* When required to be marked, each cargo tank containing a hazardous material must be legibly marked in lettering two inches (50.8 mm.) or more in height.

(b) *Required markings: Hazardous materials other than gases.* When transporting a hazardous material other than a compressed gas in a cargo tank required by Part 173 of this subchapter to be marked with the proper shipping name of the contents, it must be marked as specified in this Part on each end and each side.

(c) *Required markings: Gases.* Each cargo tank transporting flammable or nonflammable compressed gas subject to this subchapter must be marked as specified in this Part on each end and each side with—

(1) The proper shipping name of the gas, or

(2) An appropriate common name for the material such as "Refrigerant Gas."

(d) *QT/NQT marking for MC 330 and MC 331 cargo tanks.* Each specification MC 330 and MC 331 cargo tank must be appropriately marked "QT" or "NQT" to indicate it is constructed of quenched and tempered steel (QT) or other than quenched and tempered steel (NQT). These markings must be placed near the specification identification plate.

(e) A cargo tank marked with the name of a specific hazardous material may not be used to transport any other material unless the marking is removed.

or changed to identify the hazardous material the cargo tank contains, whichever is appropriate.

12. In § 172.330 the introductory text of paragraph (a) and paragraphs (c) (1) and (2) and (d) are revised; and paragraph (e) is added to read as follows:

§ 172.330 Tank cars.

(a) Except as provided in paragraph (e) of this section, when required to be marked by Parts 173 or 179 of this subchapter, each tank car and tank car tank used to transport a hazardous material must be marked as specified in this subpart, with the—

(c)

(1) Affixed to both sides of the tank car tank, and

(2) Except for tank cars transporting DOT 106 and 110 multi-unit tank car tanks, readily visible when viewed from each side of the tank car.

(d) A tank car tank marked with the name of a specific hazardous material may not be used to transport any other material unless the marking is removed, or changed to identify the hazardous material the tank car tank contains, whichever is appropriate.

(e) For a DOT 106 or 110 tank car tank, marking is not required when the CHLORINE label is used as provided in § 172.405(b).

13. § 172.406 paragraph (b) (6) is revised to read as follows:

§ 172.406 General labeling requirements.

(b)

(6) Portable tank which is placarded in accordance with § 172.514.

§ 172.406 [Amended]

14. In § 172.406 paragraph (a) is amended by changing the word "market" in the fifth line to read "marked."

15. In § 172.504 paragraph (a) is revised; Table 1 is amended by revising the heading, by revising and adding additional reference to footnotes 3 and 4; and by adding a new footnote 8; Table 2 is amended, by revising the heading and footnote 8; and paragraph (c) (1) is revised to read as follows:

§ 172.504 General placarding requirements.

(a) Except as otherwise provided in this subchapter, each motor vehicle, rail car, and freight container containing any quantity of a hazardous material must be placarded on each end and each side with the type of placards specified in the following tables and other placarding requirements of this subpart, including the specifications for the placards named in the tables and described in detail in §§ 172.519 through 172.558.

RULES AND REGULATIONS

TABLE 1

If the motor vehicle, rail car, or freight container contains a material classed (described) as

RADIOACTIVE⁺
and CORROSIVE⁺
RADIOACTIVE⁺
and CORROSIVE⁺

*FLAMMABLE SOLID "W" placard is required only when the DANGEROUS WHEN WET label is specified in § 172.101 for a material classed as a Flammable solid.

*Applies only to any quantity of packages bearing the RADIOACTIVE YELLOW III label. (See § 172.403.)

*CORROSIVE placard not required for shipments of less than 1000 pounds gross weight.

TABLE 2

If the motor vehicle, rail car, or freight container contains a material classed (described) as

*See § 173.245(b) of this subchapter for authorized exemptions.

(c) * * *

(1) Motor vehicle, or a freight container if transported by highway only, containing less than 1,000 pounds (aggregate gross weight) of one or more materials covered by Table 2, or

16. In § 172.508, paragraph (a) is revised to read as follows:

§ 172.508 Placarding and affixing placards: rail.

(a) Each person offering a hazardous material for transportation by rail shall affix to the rail car containing the material, the placards specified by this subpart for the material unless the placards already displayed on motor vehicles, transport containers, or portable tanks that are on a rail car comply with §§ 172.503 and 172.504 as these sections pertain to placarding the rail car.

17. In § 172.512 the freight container placarding table is deleted; paragraph (b) is amended by changing reference "§ 172.405" to read "§ 172.406(a)(3)" in the eighth line; paragraph (a) is revised as follows:

§ 172.512 Freight container.

(a) Capacity of 640 cubic feet or more. Each person who offers for transportation a hazardous material in a freight container having a capacity of 640 cubic feet or more shall affix to the freight container the placards specified for the material in accordance with § 172.504. However,

(1) The placarding exception provided in § 172.504 (c)(1) applies, and

(2) The placarding exception provided by subparagraphs (c)(1) and (c)(2) of § 172.504 applies to each freight container being transported for delivery to a consignee immediately following an air or water shipment.

§ 172.514 [Amended]

18. § 172.514 paragraph (a) is amended by changing the section reference in the first sentence to read "§ 172.504(a)."

Appendix B—Part 172 [Amended]

19. In Appendix B To Part 172, paragraph 1.(c)(10) is amended by removing the word "COMBUSTIBLE" from the 7th line and adding the words "FLAMMABLE SOLID" and "FLAMMABLE SOLID W" in place thereof.

PART 173—SHIPPERS—GENERAL REQUIREMENTS FOR SHIPMENTS AND PACKAGINGS

19a. In the Table of Sections, § 173.338 is revised as follows:

Sec. 173.338 [Reserved].

20. § 173.6 paragraph (b)(3) is revised to read as follows:

§ 173.6 Shipments by air.

(b) * * *

(3) For any packaging with a capacity of 110 gallons or less containing liquids, sufficient outage (ullage) must be provided to prevent liquid contents from completely filling the packaging at 130°F. The primary packaging (which may include composite packaging), for which retention of the liquid is the basic function, must be capable of withstanding without leakage an internal absolute pressure of no less than 25 lbs./sq. inch or no less than the sum of the absolute vapor pressure of the contents at 130°F. (55°C.) and the atmospheric pressure at sea level, whichever is greater.

§ 173.8 [Amended].

21. In § 173.8 paragraph (b) is amended by changing "RTC" in the last sentence to read "CTC."

22. § 173.29 is revised to read as follows:

§ 173.29 Empty packagings, portable tanks, cargo tanks, and tank cars.

(a) Empty cylinders, barrels, kegs, drums, or other containers, except carboys (see paragraph (b) of this section) previously used for the shipment of any hazardous materials, as defined in this Part, if authorized for reuse must have all openings including removable heads, and filling and vent holes, tightly closed before being offered for transportation. Small quantities of the material with which containers were loaded may remain in "empty" containers. When the vapors remaining therein are unstable, it is permissible to add sufficient inert gas to render the vapors stable. They may be

loaded in open or stock cars when desired. Cars should not be placarded but lighted open-flame lanterns or other open-flame lights should be kept away.

(b) Carboys previously used for the shipment of corrosive liquids, when offered to carriers for transportation as "empty" carboys, must have been thoroughly (completely) drained.

(c) Empty bottles, other than carboys previously used for the shipment of corrosive liquids, must be securely stoppered.

(d) Any packaging or accessory which has been used for a shipment of radioactive materials and which contains residual internal radioactive contamination, when shipped as empty, must be securely closed. The external surface must be free of significant removable radioactive contamination as provided in § 173.397(a). The radiation at the external surface of the packaging must not exceed 0.5 millrem per hour. The "Empty" label, described in § 172.450 of this subchapter, must be affixed to the packaging.

(e) Unless otherwise specifically provided, any empty packaging offered for transportation (see paragraph (a) of this section) bearing labels described in § 172.411 through 172.446 (except § 172.450 of this subchapter) must have these labels removed, obliterated, or completely covered. The label described in § 172.450 of this subchapter is authorized for the latter purpose. Each packaging which last contained explosives and on which the word "EXPLOSIVES" or the shipping name is printed, stenciled, or otherwise marked or applied, when shipped as empty, must have this marking completely covered or obliterated if shipped in less-than-carload or less-than-truckload lots, or on open-top or flat cars, or on open-top or flat bed motor vehicles or trailers. Covering or obliteration of these labels and markings is not required for carload or truckload shipments made in closed cars or van-type motor vehicles when loaded by the shipper and unloaded by the consignee, or their authorized agents.

(f) An empty portable tank, cargo tank, tank car or multi-unit tank car tank may not be offered for transportation unless—

(1) Each opening is tightly closed except heater coil inlet and outlet pipes of empty tank cars; and

(2) Except as otherwise specified in this subchapter it is offered for transportation in the same manner as when it previously contained a greater quantity of a hazardous material. This requirement, as well as other provisions in this subchapter, does not apply to any tank that has been cleaned or purged of all hazardous materials residue or when it is reloaded with a material not subject to this subchapter.

§ 173.33 [Amended].

23. In § 173.33 paragraph (c) is deleted; paragraphs (d) through (l) are redesignated (e) through (k) respectively.

24. In § 173.116 paragraph (c) is deleted as follows:

RULES AND REGULATIONS

57080

§ 173.116 Outage.

(c) Deleted.

25. In § 173.119 the introductory text of paragraph (a) and paragraph (d) are revised; and paragraphs (m) (10), (11), (12), (13), and (15) are amended by adding the sentence "Not authorized for flammable liquids which are also organic peroxides" at the end of each paragraph as follows:

§ 173.119 Flammable liquids not specifically provided for.

(a) *Flammable liquids with flash point 20° F. or below.* Flammable liquids with flash point 20° F. or below and having vapor pressure (Reid test) not over 16 pounds per square inch, absolute, at 100° F., other than those for which special requirements are prescribed in this Part, must be prepared for shipment in specification containers of a design and constructed of materials that will not react dangerously with or be decomposed by the chemical packed therein as required in the following paragraphs (see paragraphs (c) to (l) of this section for high pressure liquids, paragraphs (j) to (l) of this section for viscous liquids, and paragraph (m) of this section for flammable liquids which are also oxidizers, corrosive liquids, poison B liquids, or organic peroxides and § 173.134 for flammable liquids that are also pyrophoric liquids):

(d) *When the vapor pressure does not exceed 16 pounds per square inch, absolute, at 100° F.* When the vapor pressure does not exceed 16 pounds per square inch, absolute, at 100° F., flammable liquids must be packed as prescribed in paragraphs (a) and (b) of this section.

§ 173.124 [Amended].

26. § 173.124 paragraph (a)(5) is amended by deleting the third sentence which begins with the word "Each" and ends with the word "number."

27. In § 173.217 paragraph (a)(5) is revised; paragraph (a)(6) is amended by changing the section reference in the next to the last line of the paragraph to "§ 174.63";

§ 173.217 Calcium hydrochlorite mixture, dry; lithium hypochlorite mixture, dry; mono-(trichloro)-tetra-(monopotassium dichloro)-penta-s-triazinetrione, dry; potassium dichloro-s-triazinetrione, dry; sodium dichloro-s-triazinetrione, dry; trichloro-s-triazinetrione, dry.

(a) * * *

(5) Specification 21C (§ 178.224 of this subchapter). Fiber drum must be made with integral inner body-ply having 0.010-inch minimum aluminum facing and bottom interior with 0.001-inch minimum aluminum facing. Cover of drum must be gasketed. Authorized net weight not over 400 pounds. Authorized only for calcium hypochlorite mixtures, dry.

28. In § 173.232 paragraph (c)(6) is revised to read as follows:

§ 173.232 Aluminum metallic powder.

(c) * * *

(6) Portable tanks, not over 6,500 pounds gross weight.

29. In § 173.244 paragraph (c) is deleted as follows:

§ 173.244 Limited quantities of corrosive materials.

(c) Deleted.

§ 173.249 [Amended].

30. In § 173.249 the introductory text of paragraph (b) is amended by deleting the words "cargo only" in the 5th line.

31. In § 173.263 a new paragraph (e) is added to read as follows:

§ 173.263 Hydrochloric (muriatic) acid; hydrochloric (muriatic) acid mixtures; hydrochloric (muriatic) acid solution, inhibited; sodium chloride solution (not exceeding 42 percent sodium chloride); and cleaning compounds, liquids, containing hydrochloric (muriatic) acid.

(e) Special exceptions for the shipment of certain dilute hydrochloric acid solutions in the ORM-D class are provided in Subpart N of this part.

32. In § 173.276 the introductory text of paragraph (a) is revised to read as follows:

§ 173.276 Anhydrous hydrazine and hydrazine solution.

(a) Anhydrous hydrazine and hydrazine solution must be packed in specification containers as follows:

33. In § 173.288 the introductory text of paragraph (a) is revised to read as follows:

§ 173.288 Chloroformates.

(a) Allyl chloroformate, benzyl chloroformate, ethyl chloroformate, and methyl chloroformate must be packaged as follows:

34. In § 173.294 the Heading and the introductory text of paragraph (a) are revised to read as follows:

§ 173.294 Monochloroacetic acid, liquid or solution.

(a) Monochloroacetic acid, liquid or solution, must be packed in specification containers as follows:

35. In § 173.300 the introductory text of paragraph (b) is revised to read as follows:

§ 173.300 Definitions.

(b) *Flammable compressed gas.* Any compressed gas as defined in paragraph (a) of this section shall be classed as

"flammable gas" if any one of the following occurs:

36. In § 173.301 paragraph (i) is revised to read as follows:

§ 173.301 General requirements for shipment of compressed gases in cylinders.

(i) *Foreign cylinders in domestic use.* Except as provided in paragraph (j) of this section, a charged cylinder manufactured outside the United States may not be offered for transportation to, from, or within the United States unless it has been manufactured, inspected, and tested in accordance with the applicable DOT specification set forth in Part 178 of this subchapter.

§ 173.306 [Amended]

37. In § 173.306 paragraph (d)(2) is amended by changing the reference "§ 176.328" to read "§ 176.905"; paragraph (f)(3)(1) is amended by changing the reference "(a)" to read "(f)."

38. In § 173.315 paragraph (a)(1) is amended by changing the references "§ 173.401(a)(1) and 177.823(d)" to read "§ 172.326 and 172.328"; Notes 14 and 15 are revised to read as follows:

§ 173.315 Compressed gases in cargo tanks and portable tank containers.

(a) * * *

(1) * * *

Note 14: Specifications MC 330 and MC 331 cargo tanks constructed of other than quenched and tempered steel "(NQT)" are authorized for all grades of anhydrous ammonia. Specifications MC 330 and MC 331 cargo tanks constructed of quenched and tempered steel "(QT)" (see marking requirements of § 172.328(c) of this subchapter) are authorized for anhydrous ammonia, having a minimum water content of 0.2 percent by weight. Any tank being placed in anhydrous ammonia service or a tank which has been in other service or has been opened for inspection, test, or repair, must be cleaned of the previous product and must be purged of air before loading. See § 172.203(h) of this subchapter for special shipping paper requirements.

Note 15: Specifications MC 330 and MC 331 cargo tanks constructed of other than quenched and tempered steel (NQT), are authorized for all grades of liquefied petroleum gases. Only grades of liquefied petroleum gases determined to be "noncorrosive" are authorized in Specification MC 330 and MC 331 cargo tanks constructed of quenched and tempered steel (QT). "Noncorrosive" means the corrosiveness of the gas does not exceed the limitations for classification 1 of the ASTM Copper Strip Classifications when tested in accordance with ASTM D1838-64, "Copper Strip Corrosion by Liquefied Petroleum (LP) Gases." (For (QT) and (NQT) marking requirements see § 172.328(c) of this subchapter. For special shipping paper requirements, see § 172.203(h) of this subchapter.)

39. In § 173.332 paragraph (d) is revised to read as follows:

RULES AND REGULATIONS

§ 173.332 Hydrocyanic acid, liquid (prussic acid) and hydrocyanic acid liquefied.

(d) Spec. 105A500-W or 105A600-W (§§ 179.100 and 179.101 of this subchapter). **Tank cars.** Tank must be resealed 105A300-W and be equipped with safety valves of the type and size used on spec. 105A300-W (§§ 179.100 and 179.101 of this subchapter) tank car. Tank car tank must be equipped with approved dome fittings and safety devices, and with cork insulation at least 4 inches in thickness. Each tank car must be marked "HYDROCYANIC ACID" in accordance with the requirements of § 172.330 of this subchapter. Written procedure covering details of tank car appurtenances, dome fittings and safety devices, and marking, loading, handling, inspection, and testing practices shall be filed with and approved by the Bureau of Explosives before any tank car is offered for transportation of hydrocyanic acid. The maximum permitted filling density is 63 percent of the water capacity of the tank.

40. Section 173.338 is reserved.

§ 173.338 [Reserved].

41. In § 173.343 the introductory text of paragraph (a) is revised to read as follows:

§ 173.343 Poison B.

(a) For the purposes of Parts 170-189 of this subchapter and except as otherwise provided in this Part, class B poisons are those substances, liquid or solid (including pastes and semisolids), other than Class A poisons or Irritating materials, which are known to be so toxic to man as to afford a hazard to health during transportation; or which, in the absence of adequate data on human toxicity, are presumed to be toxic to man because they fall within any one of the following categories when tested on laboratory animals:

42. In § 173.345 the introductory text of paragraph (a) and paragraph (b) are revised to read as follows:

§ 173.345 Limited quantities of Poison B liquids.

(a) Limited quantities of Poison B liquids for which exceptions are permitted as noted by reference to this section in § 172.101 of this subchapter or as provided in § 173.359(c), in tightly closed inside packagings, securely cushioned when necessary to prevent breakage, are excepted from the specification packaging requirements when packed according to the following paragraphs. In addition, shipments are not subject to Subpart F of Part 172 of this subchapter, to Part 174 of this subchapter except §§ 174.24 and 174.680 and to Part 177 of this subchapter except §§ 177.817 and 177.841(e).

(b) Special exceptions for shipment of certain drugs and medicines in the ORM-

D class are prescribed in Subpart N of this Part.

43. In § 173.354, paragraph (a)(4), is revised to read as follows:

§ 173.354 Motor fuel antiknock compound or tetraethyl lead.

(a) *

(4) Specification 105A300-W (§§ 179.100 and 179.101 of this subchapter). **Tank car.** Each tank car must be marked "MOTOR FUEL ANTIKNOCK COMPOUND" in accordance with the requirements of § 172.330 of this subchapter. Tank car not authorized for tetraethyl lead. Openings in tank heads to facilitate application of nickel lining are authorized on tank cars constructed before January 1, 1975. These openings must be closed in an approved (§ 179.3 of this subchapter) manner.

44. In § 173.364 paragraph (a)(1) is amended by adding the word "jars" following the word bags in the 7th line; paragraph (b) is revised to read as follows:

§ 173.364 Limited quantities of Poison B solids.

(b) Special exceptions for shipment of certain drugs and medicines in the ORM-D class are prescribed in Subpart N of this Part.

45. In § 173.384 a new section is added to read as follows:

§ 173.384 Monochloracetone, stabilized.

(a) Monochloracetone, stabilized, must be packed in specification containers as follows:

(1) Specification 5, 5A, or 17C (single-trip) (§§ 178.80, 178.81, 178.115 of this subchapter). Metal barrels or drums.

(2) Specification 15A, 15B, 15C, or 15A (§§ 178.168, 178.169, 178.170, 178.188 of this subchapter). Wooden boxes with inside glass bottles or tubes in metal cans hermetically sealed or with covers securely taped. The metal cans must be in corrugated fiberboard cartons; specification 2C (§ 173.22 of this subchapter). Bottles must not contain more than 1 pound of liquid each, must not be filled to more than 95 percent capacity, must be tightly and securely closed, and must be cushioned in cans with at least one-half inch of absorbent material. Cans must be made of metal at least 32-gauge U.S. Standard. The total amount of liquid per package must not exceed 24 pounds.

§ 173.386 [Amended].

46. In § 173.386 the introductory text of paragraph (d) is amended by changing the first word to read "Exceptions."

§ 173.392 [Amended].

47. In § 173.392 paragraph (a) is amended by changing the references "§§ 173.401 and 173.402" in the eighth and ninth lines to read "§§ 172.300 and 172.400 of this subchapter"; in paragraph (c)(7); the references to "§ 174.451(b)" or "§ 177.823" in the fifth line are changed to read "§ 172.500"; in paragraph (d)(5)

the references to "§ 174.451(b)" or "§ 177.823" in the fifth line are changed to read "§ 172.500."

Appendix A Part 173 [Deleted].

48. The table shown as Appendix A to Part 173, and following § 173.432 is deleted.

§ 173.800 [Amended].

49. In § 173.800 the words "Ammonium hydrogen fluoride" are deleted and the word "Ammonium" is capitalized in the entry "ammonium hydrogen sulfate" in the Heading and introductory text of paragraph (a).

50. § 173.1025 is revised as follows:

§ 173.1025 Metal borings, shavings, turnings or cuttings.

Metal borings, shavings, turnings or cuttings, when offered for transportation by water, must be prepared for shipment in compliance with § 173.510 and must be packaged in a metal barrel or drum, or, for non-ferrous material only, in compressed bales wrapped in burlap provided the burlap shows no sign of oil.

51. In § 173.1200 the introductory text of paragraph (a), paragraph (a)(2)(iii), and paragraph (a)(8)(ii) are revised to read as follows:

§ 173.1200 Consumer Commodity.

(a) In order to be transported under the proper shipping name of "Consumer commodity," a material must meet that definition. It may be reclassified and offered for shipment as ORM-D material (see § 173.500) provided that an ORM-D exception is authorized in specific sections applicable to the material, and that it is prepared in accordance with the following paragraphs. (The gross weight of each package must not exceed 55 pounds and each package offered for transportation aboard aircraft must meet the requirements of § 173.6.)

(2) *

(iii) In metal or plastic inside containers, each having a rated capacity of not over 1 quart, packed in strong outside packaging provided the liquid mixture contains 15 percent or less corrosive material and the remainder of the mixture does not meet the definition of a hazardous material as defined in this subchapter. Not authorized for transportation by air.

(8) *

(ii) In inside metal container charged with a solution of materials and compressed gas or gases which is nonpoisonous, meeting all of the following:

52. Appendix A to Part 173 is amended by adding "not less than" following the word measuring in paragraph 2; paragraphs 6 and 7 are renumbered 7 and 8, and a new paragraph 6 is added to read "6. Following this initial reading, all test sites are washed with an appropriate solvent to prevent further exposure."

PART 174—CARRIAGE BY MAIL

53. In the Table of Sections, § 174.83 is revised to read as follows:
 "(See. 174.63 Freight containers and portable tanks.)"

54. § 174.5 is revised to read as follows:
 § 174.5 Carrier's materials and supplies.

This subchapter applies to the transportation of a carrier's materials and supplies moving by rail, except that the shipper's certification is not required when these materials and supplies are being transported by the carrier who owns them. The requirements of this subchapter do not apply to railway torpedoes or fuses when carried in engines or rail cars. Railway torpedoes must be in closed metal boxes when not in use.

§ 174.8 [Amended].

55. In § 174.8 paragraph (b) is amended by adding the word "loaded" in the second line between the words "each" and "placarded."

56. In § 174.10 paragraph (a) is amended by deleting the words "including the roof" and the period in the sixth line and placing a period after the word "line" in the fifth line; paragraph (c) is revised to read as follows:

§ 174.10 Inspection of cars at interchange.

(c) A shipment of hazardous materials offered by a connecting carrier must comply with this subchapter, and the revenue waybill, freight bill, manifest of lading, card waybill, switching order, transfer slip ticket, or other billing, must bear the placard notation and endorsement prescribed by § 174.25 of this subpart.

§ 174.12 [Amended].

57. In § 174.12 paragraph (a) is amended by deleting the word "intermediate" and adding the word "origin" in place thereof in the first line.

58. In § 174.24 paragraph (b) is deleted; paragraph (c) is redesignated paragraph (b) and revised to read as follows:

§ 174.24 Shipping papers.

(b) This subpart does not apply to materials classed as ORM-A, B, C, or D.

59. In § 174.25 paragraph (a)(2)(ii), the introductory text of paragraph (b), paragraph (b)(4) and (c) are revised; paragraph (b)(6) is deleted as follows:

§ 174.25 Additional information on waybills, switching orders, and other billings.

(a) * * *

(2) * * *

(ii) In bold, upper case letters not less than $\frac{1}{2}$ of an inch high inside a rectangle made with asterisks (*) or the symbol for number (#).

(b) When the initial movement of a loaded rail car required to be placarded is a switching operation, the switching

order, switching receipt, or switching ticket, and all copies thereof, prepared by the shipper, or by the carrier under the shipper's written authority, must contain the following:

(4) Except when a certified bill of lading is tendered to the carrier, the shipper's certification and signature specified in § 172.204 of this subchapter.

(6) Deleted.

(c) For empty tank cars which previously contained a hazardous material, other than a combustible liquid, or unless the tank car has been reloaded with a material not subject to this subchapter, or has been sufficiently cleaned of residue and purged of vapor to remove any potential hazard, the billing must show the word(s) "EMPTY" or "EMPTY: Last Contained," followed by the name of the hazardous material last contained in the tank car, the hazard class of the material and the word "PLACARDED." For example, EMPTY: SULFURIC ACID, Corrosive Material Placarded; or EMPTY: Last Contained SULFURIC ACID, Corrosive Material Placarded.

60. In § 174.26 paragraph (b) is amended by deleting the words "on a separate document" in the last sentence of the paragraph; a new paragraph (c) is added to read as follows:

§ 174.26 Notice to train crews of placarded cars.

(c) A member of the train crew of a train transporting hazardous materials must have in his possession a copy of the shipping papers for the shipment of hazardous materials being transported showing the information required by §§ 172.202 and 172.203 of this subchapter.

§ 174.63 [Amended].

61. In § 174.63 Heading, and paragraph (a) are amended by deleting the word "portable" whenever it appears preceding the word "container" and adding the word "freight" in place thereof.

62. In § 174.69 is revised to read as follows:

§ 174.69 Removal of placards and car certificates after unloading.

When lading requiring placards or car certificates is removed from rail cars other than tank cars, placards and car certificates must be removed by the party unloading the car. For empty tank cars, the placards must be removed, replaced or reversed in accordance with the provisions of § 172.510(c) of this subchapter.

§ 174.84 [Amended].

63. § 174.84 is amended by adding the word "freight" preceding the word "container" each time it appears in the section.

§ 174.88 [Amended].

64. § 174.88 is amended by adding the words "an occupied" preceding the word "caboose" in the fourth line.

§ 174.89 [Amended].

65. § 174.89 is amended by adding the word "loaded" preceding the word "placarded" in the third line.

§ 174.101 [Amended].

66. In § 174.101 paragraphs (n), (o) (1) and (n)(2) are amended by deleting the word "portable" each time it appears in these paragraphs and adding the word "freight" in place thereof; paragraph (n)(3) is amended by adding the word "freight" preceding the word "container" in the second line.

67. In § 174.104 paragraph (f) is revised as follows:

§ 174.104 Class A explosives; car selection, preparation, inspection, and certification.

(f) Each car certificate for use in connection with the inspection of rail cars for the carriage of Class A explosives shall be printed on strong tag board measuring 7 by 7 inches, or 6 by 8 inches. It must be duly executed in triplicate by the carrier, and by the shipper if he loads the shipments. The original must be filed by the carrier at the forwarding station in a separate file and the other two must be attached to the car, one to each outer side on a fixed placard board or as otherwise provided.

Railroad

CAR CERTIFICATE

No. 1 Station

I hereby certify that I have this day personally examined Car Number _____ and that the car is in condition for service and complies with the FRA Freight Car Safety Standards (49 CFR Part 218) and with the requirements for foreign cars used to transport explosives prescribed by the DOT Hazardous Materials Regulation (49 CFR Part 174).

Qualified Person Designated Under

49 CFR 215.15

No. 2 Station

I have this day personally examined the above car and hereby certify that the explosives in or on this car, or in or on vehicles or in containers have been loaded and stored; that placards have been applied according to the regulations prescribed by the Department of Transportation; and that the doors of cars so equipped fit or have been stripped so that sparks cannot enter.

Shipper or his authorized agent

Qualified Person Designated Under

49 CFR 215.15

No. 3 Station

I hereby certify that I have this day personally supervised the loading of the vehicles or containers on and their securing to the above car.

Shipper or railway employee inspecting loading and securing

Note 1: A shipper must decline to use a car not in proper condition.

Note 2: All certificates, where applicable, must be signed.

Note 3: Car certificates remaining on hand as of the effective date of these regulations may be used until stocks are exhausted but not after July 1, 1977.

RULES AND REGULATIONS

§ 174.112 [Amended].

68. In § 174.112 paragraph (b) is amended by adding reference to "(n)" or "(o)," in the second line following (b).

§ 174.480 [Amended].

69. § 174.480 is amended by deleting the word "oxidizer" in the second line and adding the words "flammable solid" in place thereof.

70. § 174.810 paragraph (c) is revised as follows:

§ 174.810 Special handling requirements for wet electric storage batteries.

(c) Wet electric storage batteries are not authorized in refrigerator or "plug-door" type cars unless the cars are provided with vents which will prevent an accumulation of gas within the car.

PART 175—CARRIAGE BY AIRCRAFT**§ 175.10 [Amended].**

71. In § 175.10 paragraph (a) is amended by changing the word "part" in paragraph (a) to read "subchapter."

§ 175.30 [Amended].

72. In § 175.30 paragraph (b) is amended by deleting the word "dents," in the tenth line.

PART 176—CARRIAGE BY VESSEL**§ 176.11 [Amended].**

73. In § 176.11 paragraph (a) is amended by adding the following sentence at the end of the paragraph: "However, a material which is a hazardous material under this subchapter, but which is not a hazardous material under the provisions of the IMCO Code, may be offered and accepted for transportation only if it is classed, described, packaged, marked, labeled and in the condition for shipment required by subchapter."

74. In § 176.30 paragraph (a) is revised to read as follows:

§ 176.30 Dangerous cargo manifest.

(a) The master of a vessel transporting hazardous materials or his authorized representative shall prepare a dangerous cargo manifest, list, or stowage plan. This document may not include a material which is not subject to the requirements of 49 CFR or the IMCO Code. This document must be kept in a designated holder on or near the vessel's bridge. It must contain the following information:

§ 176.45 [Amended].

75. In § 176.45 paragraph (a) is amended by deleting the words "District

Commander" and substituting therefor the words "Captain of the Port."

§ 176.48 [Amended].

76. In § 176.48 paragraphs (a) and (c) are amended by deleting the words "District Commander" and substituting therefor the words "Captain of the Port."

§ 176.52 [Amended].

77. In § 176.52 paragraph (b) is amended by deleting the words "District Commander" and substituting therefor the words "Captain of the Port."

§ 176.63 [Amended].

78. In § 176.63 paragraph (b) is amended by deleting the period at the end of the paragraph and adding the following "except that such protection is not required for shipment in portable tanks."

§ 176.74 [Amended].

79. In § 176.74 paragraph (c) is amended by changing the word "may" in the second line to "should."

§ 176.83 [Amended].

80. In § 176.83 paragraph (d)(3)(i)(B) is amended by deleting the period at the end of the first sentence and adding in place thereof the words "or a"; paragraph(d)(3)(ii)(A) is amended by deleting the period at the end of the first sentence and the word "a" at the beginning of the second sentence and adding in place thereof the words "or a"; paragraph(d)(3)(ii)(B) is amended by deleting the word "and" in the fourth line and adding in place thereof the word "or"; paragraph (d)(3)(iii)(A) is amended by deleting the word "and" in the fifth line and adding in place thereof the word "or."

81. In § 176.905 paragraph (c) is amended by deleting the period at the end of the paragraph and the following parenthetical expression and adding in place thereof the following "as the phrase 'specially suited for vehicle' is defined in 46 CFR 70.10-44 or 46 CFR 90.10-38 as is appropriate"; paragraph (i) is revised; paragraph (D)(2) is deleted and paragraph (D)(3), (4), and (5) are renumbered (D)(2), (3), and (4), respectively; a new paragraph (L) is added to read as follows:

§ 176.905 Motor vehicles or mechanical equipment powered by internal combustion engines.

(D) Except when being transported in a space specially suited for vehicles, the following additional requirements apply to the stowage of any vehicles containing a flammable liquid:

(1) No hazardous materials other than motor vehicles or mechanized equipment and their equipment may be stowed in the same hold or compartment with any vehicle having a flammable liquid or flammable compressed gas in its tank.

GRANDFATHER CLAUSE

The effective date provision in Docket HM-103/112 (41 FR 15972-16131, April 15, 1976), appearing at 41 FR 16131, as amended at 41 FR 26014 (June 24, 1976), and at 41 FR 40691 (September 20, 1976), is further amended by revising the third numbered paragraph to read as follows:

Effective date: * * *

(1) * * *

(2) * * *

(3) A package filled, marked, or labeled before January 1, 1977, in accordance with regulations in effect on June 30, 1976, may be offered for transportation and transported, even though it does not comply with the package, marking, and labeling provisions of this amendment, if it (i) is offered for transportation before July 1, 1977, and (ii) complies with the package, marking, and labeling regulations in effect on June 30, 1976.

(18 U.S.C. 884, 46 U.S.C. 170(7), 49 U.S.C. 1471, 1472(h)(1), 1807, 49 CFR 1.53(e)-(h). Under a final rule making (41 FR 38176), on January 3, 1977, the authority citation for this amendment is changed to read: (46 U.S.C. 1803, 1804, 1808; 49 CFR 1.53(e)).

Effective Date: The changes effected by this publication consist of corrections, clarifications, and relaxations of previously published requirements. As these changes are not expected to impose significant burdens on anyone, and because of the need for expedited publication in order to avoid disruption of the staged implementation adopted for amendments in this docket, further public notice and opportunity for comment are being dispensed with, and the amendments contained herein are effective on December 30, 1976, subject to the applicable effective date provision at 41 FR 16131, as amended at 41 FR 26014 and 41 FR 40691, and as amended herein.

The Materials Transportation Bureau has determined that this document does not contain a major proposal requiring preparation of an "Inflation Impact Statement" under Executive Order 11821 and OMB Circular A-107.

Issued in Washington, D.C. on December 22, 1976.
