INSTRUCTIONS:

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2012 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less than the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual progress report attachments provide the basis for determining the state's pipeline safety grant allocation.

Field Inspection (PART G):

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART G, the PHMSA representative should include a written summary which thoroughly documents the inspection.

Evaluator Notes:

On September 23, 2013, I observed this team of five pipeline safety inspectors conducting a standard inspection of the operation and maintenance records. Prior to the inspection, the areas of inspection was divided so each inspector would inspect an assigned set of records. The inspectors had arrived at the inspection place at the scheduled time. Each inspector had the portion of the inspection for that recorded the results. All inspectors were knowledgeable in the area of their inspection. During the inspections, questions were asked to clarify the records. All the inspectors were courteous and conducted the inspection in a professional manner.
