2010 Natural Gas State Program Evaluation -- CY 2010  
Natural Gas

**State Agency:** Nebraska

**Agency Status:**

**Date of Visit:** 05/16/2011 - 05/20/2011

**Agency Representative:** Clark Conklin

**PHMSA Representative:** Leonard Steiner

**Commission Chairman to whom follow up letter is to be sent:**

**Name/Title:** John Faligone, State Fire Marshal

**Agency:** Nebraska State Fire Marshal's Office

**Address:** 246 South 14th Street

**City/State/Zip:** Lincoln, Nebraska 68508-1804

**Rating:**

**60105(a):** Yes **60106(a):** No **Interstate Agent:** No

---

**INSTRUCTIONS:**

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2010 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less than the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual certification/agreement attachments provide the basis for determining the state's pipeline safety grant allocation.

---

**Field Inspection (PART F):**

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART F, the PHMSA representative should include a written summary which thoroughly documents the inspection.

### SLR Notes:

Nebraska needs to improve the records of types of pipeline facilities under their jurisdiction. They have erroneously recorded the number of units in several operators. The certification erroneously shows Nebraska has agreement authority of interstate pipeline operators. Nebraska needs to record the incidents on the certification. The CY 2011 certification showed no incidents in Nebraska in CY 2010. Four incident report forms were submitted to PHMSA for CY2010.

SLR Notes:

On May 17, 2011, I observed Stephen Lucas conduct one day of a multi-day inspection of the pipeline operator, Black Hills Energy. Mr. Lucas met the operator's representative at the appointed place and time. They had a schedule, route and identified sites that were to be inspected. At each site Mr. Lucas inspected in a logical manner, and he recorded the condition on an inspection form. Mr. Lucas was thorough and documented all findings. He conducted the inspection in a professional and courteous manner.
