INSTRUCTIONS:

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2012 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less than the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual progress report attachments provide the basis for determining the state's pipeline safety grant allocation.

Field Inspection (PART G):

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART G, the PHMSA representative should include a written summary which thoroughly documents the inspection.

Evaluator Notes:

On August 21, 2013, I observed Micke Stromitis, a state pipeline inspector, conducting one day of a standard inspection. The operator was Source Gas located in Kearney, Nebraska. Mr. Stromitis had prepared for the inspection and arrived at the correct time. He inspected compliance records for half a day and then inspected the physical facilities for half a day. The pipeline facilities were located in the Kearney, Nebraska area. During the exit interview, he identified several probable violations, with a followup to check further during the next days. Mr. Stromitis was knowledgeable of the regulations, and conducted the inspection in a courteous and professional manner.
