Date of Visit: 07/19/2010 - 07/23/2010

Agency Representative: Peter Chace

PHMSA Representative: Leonard Steiner

Commission Chairman to whom follow up letter is to be sent:

Name/Title: Alan R. Schriber, Chairman

Rating:

60105(a): Yes **60106(a):** No **Interstate Agent:** Yes

INSTRUCTIONS:

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2009 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less than the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual certification/agreement attachments provide the basis for determining the state's pipeline safety grant allocation.

Field Inspection (PART F):

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART F, the PHMSA representative should include a written summary which thoroughly documents the inspection.

SLR Notes:

On July 22, 2010, I, accompanied by Peter Chace, Program Manager, observed Paul Hollinger conducting a standard inspection. Mr. Hollinger inspected field records, selected O&M procedures, and selected pipeline facilities. Mr. Hollinger arrived at the inspection site at the time selected for the start of the inspection. He had all the forms and references he needed for the inspection. During the records inspection, he selected random records to inspect. If an inconsistency was noticed, Mr. Hollinger asked questions to determine the compliance with safety regulations. Mr. Hollinger selected several pipeline facilities to inspect. During the inspection, Mr. Hollinger was courteous and knowledgeable. The inspection was completed in a professional manner.
