

2015 Hazardous Liquid State Program Evaluation

for

VIRGINIA STATE CORPORATION COMMISSION

Document Legend PART:

O -- Representative Date and Title Information

A -- Progress Report and Program Documentation Review

B -- Program Inspection Procedures

C -- Program Performance

D -- Compliance Activities

E -- Accident Investigations

F -- Damage Prevention

G -- Field Inspections

H -- Interstate Agent State (if applicable)

I -- 60106 Agreement State (if applicable)

2015 Hazardous Liquid State Program Evaluation -- CY 2015 Hazardous Liquid

State Agency: Virginia Rating:

Agency Status: 60105(a): Yes 60106(a): Yes Interstate Agent: Yes

Date of Visit: 07/26/2016 - 07/28/2016

Agency Representative: Massoud Tahamtani, Director, Division of Utility and Railroad Safety

PHMSA Representative: Jim Anderson, Transportation Specialist Commission Chairman to whom follow up letter is to be sent:

Name/Title: James C. Dimitri, Chairman

Agency: Virginia State Corporation Commission

Address: PO Box 1197

City/State/Zip: Richmond, Virginia 23218

INSTRUCTIONS:

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2015 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less then the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual progress report attachments provide the basis for determining the state's pipeline safety grant allocation.

Field Inspection (PART G):

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART G, the PHMSA representative should include a written summary which thoroughly documents the inspection.

Scoring Summary

_ PARTS		Possible Points	Points Scored
A	Progress Report and Program Documentation Review	10	10
