2015 Gas State Program Evaluation -- CY 2015 Gas

State Agency: District of Columbia Rating:

Agency Status: 60105(a): Yes 60106(a): No Interstate Agent: No

Date of Visit: 10/17/2016 - 10/21/2016 **Agency Representative:** Udeozo Ogbue **PHMSA Representative:** Leonard Steiner

Commission Chairman to whom follow up letter is to be sent:

Name/Title: Betty Ann Kane, Chairman

Agency: Public Service Commission of the District of Columbia

Address: 1325 G Street, NW Suite 800 City/State/Zip: Washington, DC 20005

INSTRUCTIONS:

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2015 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less then the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual progress report attachments provide the basis for determining the state's pipeline safety grant allocation.

Field Inspection (PART G):

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART G, the PHMSA representative should include a written summary which thoroughly documents the inspection.

The PSC has access to the One-Call database and uses the data in real time of locates and verifies the Washington Gas Light response. Monitors WGL compliance with damage prevention, marking and response.

Did the state encourage and promote practices for reducing damages to all underground facilities to its regulated companies? (i.e. such as promoting/adopting the CGA Best Practices encouraging adoption of the 9 Elements, etc.)

Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

The PSC initiated and organized in April the recognition of Safe Digging Month. The PSC contributed to the efforts of utilities, excavators and locators in the District's One Call Rewrite Committee for the purpose of revising the District's One-Call Law. To conform to the Federal Excavation Damage Prevention final rule.

Has the agency or another organization within the state collected data and evaluated 2 trends on the number of pipeline damages per 1,000 locate requests? (This can include DIRT and other data shared and reviewed by the pipeline safety program)

Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

The PSC collects this data and analyzes it. A report of the damage prevention efforts of Washington Gas Light compares the three states of operation. This analysis has resulted in part of an NOPV settlement agreement directed to WGL. WGL is required to reduce the number of excavation damage per 1000 locates to the same lower level achieved in Maryland and Virginia.
