2014 Gas State Program Evaluation -- CY 2014 Gas

State Agency: North Carolina Rating:

Agency Status: 60105(a): Yes 60106(a): No Interstate Agent: No

Date of Visit: 06/15/2015 - 06/19/2015 **Agency Representative:** John Hall **PHMSA Representative:** Leonard Steiner

Commission Chairman to whom follow up letter is to be sent:

Name/Title: Edward S. Finley, Chairman

Agency: North Carolina Utilities Commission

Address: 430 North Salisbury Street. Dobbs Building

City/State/Zip: Raleigh, North Carolina 27603-5918

INSTRUCTIONS:

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2014 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less then the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual progress report attachments provide the basis for determining the state's pipeline safety grant allocation.

Field Inspection (PART G):

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART G, the PHMSA representative should include a written summary which thoroughly documents the inspection.

Scoring Summary

		Possible Points	Points Scored
Α	Progress Report and Program Documentation Review	10	10

PART B - Program	Inspection	Procedures

1 Evaluato	Standard Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities. Yes = 2 No = 0 Needs Improvement = 1 Notes:	2	2
2 Evaluato	IMP and DIMP Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities. Yes = $1 \text{ No} = 0 \text{ Needs Improvement} = .5$ r Notes:	1	1
3 Evaluato	OQ Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities. Yes = 1 No = 0 Needs Improvement = .5 T Notes:	1	1
4 Evaluato	Damage Prevention Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities. Yes = 1 No = 0 Needs Improvement = .5 r Notes:	1	1
5 Evaluato	Any operator training conducted should be outlined and appropriately documented as needed. Yes = 1 No = 0 Needs Improvement = .5 r Notes:	1	1

6 Construction Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities.

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

7 Does inspection plan address inspection priorities of each operator, and if necessary each unit, based on the following elements?

Yes = 6 No = 0 Needs Improvement = 1-5

- Length of time since last inspection (Within five year interval) a.
- b. Operating history of operator/unit and/or location (includes leakage, incident and compliance activities)

Needs No 🔘 Improvement Needs No 🔾

Total points scored for this section: 13 Total possible points for this section: 13

1	Was ratio of Total Inspection person-days to total person days acceptable? (Director of State Programs may modify with just cause) Chapter 4.3 $Yes = 5 No = 0$	5	5
	A. Total Inspection Person Days (Attachment 2): 533.00		
	B. Total Inspection Person Days Charged to the Program (220 X Inspection Person Years) (Attachment 7): 220 X 3.95 = 869.00		
	Ratio: A / B 533.00 / 869.00 = 0.61		
	If Ratio >= 0.38 Then Points = 5, If Ratio < 0.38 Then Points = 0 Points = 5		
Evaluator Ratio	notes: on is .61		
2	Has each inspector and program manager fulfilled the T Q Training Requirements? (See Guidelines Appendix C for requirements) Chapter 4.4 Yes = 5 No = 0 Needs Improvement = 1-4	5	5
	a. Completion of Required OQ Training before conducting inspection as lead?	Yes	No Needs Improvement
	b. Completion of Required DIMP*/IMP Training before conducting inspection as lead? *Effective Evaluation CY2013	Yes	No Needs Improvement
	c. Root Cause Training by at least one inspector/program manager	Yes 💿	No Needs Improvement
	d. Note any outside training completed	Yes 💿	No Needs Improvement
Evaluator	e. Verify inspector has obtained minimum qualifications to lead any applicable standard inspection as the lead inspector.	Yes •	No O Needs Improvement
	utside training received.		
3	Did state records and discussions with state pipeline safety program manager indicate adequate knowledge of PHMSA program and regulations? Chapter 4.1,8.1 Yes = 2 No = 0 Needs Improvement = 1	2	2
Evaluator			
4	Did state respond to Chairman's letter on previous evaluation within 60 days and correct or address any noted deficiencies? (If necessary) Chapter 8.1 Yes = 2 No = 0 Needs Improvement = 1	2	2
Evaluator			
Yes,	Commission addressed all issues.		
5	Did State hold PHMSA TQ Seminar in Past 3 Years? Chapter 8.5 Yes = 2 No = 0	2	2
Evaluator			
In C	Y 2013.		
6	Did state inspect all types of operators and inspection units in accordance with time intervals established in written procedures? Chapter 5.1 Yes = 5 No = 0 Needs Improvement = 1-4	5	5
Evaluator			

Yes

7	Did inspection form(s) cover all applicable code requirements addressed on Federal Inspection form(s)? Did State complete all applicable portions of inspection forms? Chapter 5.1	2	2	
	Yes = 2 No = 0 Needs Improvement = 1			
	or Notes: th Carolina uses a modified PHMSA inspection form.			
	th Caronna uses a modified i invisa hispection form.			
8	Did the state review operator procedures for determining if exposed cast iron pipe was examined for evidence of graphitization and if necessary remedial action was taken? (NTSB) Chapter 5.1 $Y_{es} = 1 N_0 = 0$	1	NA	
Evaluato	or Notes:			
No	known cast iron in North Carolina.			
9	Did the state review operator procedures for surveillance of cast iron pipelines, including appropriate action resulting from tracking circumferential cracking failures, study of leakage history, or other unusual operating maintenance condition? (Note: See GPTC Appendix G-18 for guidance) (NTSB) Chapter 5.1 Yes = 1 No = 0	1	NA	
	or Notes:			
No	known cast iron in North Carolina.			
10	Did the state review operator emergency response procedures for leaks caused by excavation damage near buildings and determine whether the procedures adequately address the possibility of multiple leaks and underground migration of gas into nearby buildings Refer to 4/12/01 letter from PHMSA in response to NTSB recommendation P-00-20 and P-00-21? (NTSB) Chapter 5.1 Yes = 1 No = 0	1	1	
	or Notes:			
Has	a question on their inspection form.			
11	Did the state review operator records of previous accidents and failures including reported third party damage and leak response to ensure appropriate operator response as required by 192.617? Chapter 5.1 $Yes = 1 No = 0$	1	1	
	or Notes:			
they	have a question on their inspection form.			
12	Has the state reviewed Operator Annual reports, along with Incident/Accident reports, for accuracy and analyzed data for trends and operator issues? Yes = 2 No = 0 Needs Improvement = 1	2	2	
Evaluato	or Notes:			
All	Annual Reports are inspected and data collected and analyzed by Mr. Hall.			
13	Did state input all applicable OQ, IMP inspection results into federal database in a timely manner? This includes replies to Operator notifications into IMDB database. Chapter 5.1	2	2	
	Yes = 2 No = 0 Needs Improvement = 1 or Notes: s verified they were entered.			
	vermed they were entered.			
14	Has state confirmed intrastate transmission operators have submitted information into	1	1	

NPMS database along with changes made after original submission?

Yes, and compares the mileage vs NPMS mileage.

Is the state verifying operators are conducting drug and alcohol tests as required by regulations? This should include verifying positive tests are responded to in accordance with program. 49 CFR 199

2

2

2

2

2

2

1

Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

North Carolina did not conduct any D&A inspections in CY2014, verified that random testing was conducted.

Is state verifying operators OQ programs are up to date? This should include verification of any plan updates and that persons performing covered tasks (including contractors) are properly qualified and requalified at intervals determined in the operators plan. 49 CFR 192 Part N

2

Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

they focus on conducting Protocol 9 inspections.

Is state verifying operator's gas transmission integrity management programs (IMP) are up to date? This should include a previous review of IMP plan, along with monitoring progress on operator tests and remedial actions. In addition, the review should take in to account program review and updates of operators plan(s). 49 CFR 192 Subpart 0

Yes = 2 No = 0 Needs Improvement = 1

2

Evaluator Notes:

The inspectors monitor the progress of assessments.

Is state verifying operator's gas distribution integrity management Programs (DIMP)? This should include a review of DIMP plans, along with monitoring progress. In addition, the review should take in to account program review and updates of operators plan(s). 49 CFR 192 Subpart P DIMP? First round of program inspections should be complete by December 2014

2

Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

North Carolina has completed all initial DIMP inspections.

19 Is state verifying operators Public Awareness programs are up to date and being followed. State should also verify operators have evaluated Public Awareness programs for effectiveness as described in RP1162. 49 CFR 192.616 (I13-16) PAPEI Effectiveness Inspections should have been completed by December 2013

2

Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

Have completed all initial PAPEE inspections, and have scheduled the next inspections.

20 Does the state have a mechanism for communicating with stakeholders - other than state pipeline safety seminar? (This should include making enforcement cases available to public). 1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

North Carolina has a commission website and they post violations discovered during inspections.

21 Did state execute appropriate follow-up actions to Safety Related Condition (SRC) 1
Reports? Chapter 6.3

Yes = 1 No = 0 Needs Improvement = .5

The SRCs have been corrected but have not been closed by PHMSA.

22 Did the State ask Operators to identify any plastic pipe and components that has shown a 1 1 record of defects/leaks and what those operators are doing to mitigate the safety concerns?

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

They have a question on their inspection form to determine if operators are look for pipe and components that are prone to failure.

23 Did the state participate in/respond to surveys or information requests from NAPSR or PHMSA?

1

0

0

Yes = 1 No = 0 Needs Improvement = .5**Evaluator Notes:**

24 If the State has issued any waivers/special permits for any operator, has the state verified conditions of those waivers/special permits are being met? This should include having the operator amend procedures where appropriate. (New Question for CY2013, no points until CY2015 evaluation conducted in CY2016) Info Only = No Points

0

Evaluator Notes:

No waivers were issued in CY2014.

25 Did the state attend the National NAPSR Board of Directors Meeting in CY being evaluated? (New Question for CY2014, no points first year) Info Only = No Points

0

Evaluator Notes:

Yes the Program Manager attended the National meeting.

0 0 26 Discussion on State Program Performance Metrics found on Stakeholder Communication site. (question will be rolled up and included as part of Question C12 on future evaluations) http://primis.phmsa.dot.gov/comm/states.htm Info Only = No Points

Evaluator Notes:

Yes discussed the website and he is familiar with the data provided.

Notes:		

Evaluator Notes:

On June 17, 2015, I, accompanied by John Hall, Program Manager, observed Harry Bryant, a North Carolina pipeline safety inspector conduct one day of a standard inspection. This inspection focused on records that required a follow-up in the maintenance and operations. Mr. Bryant has prepared a list of nine items that he wanted to inspect to ensure the records accurately documented the actions on the facilities. During the inspection, one leak was discovered that was hazardous as defined by the operator's O&M. The operator initiated an immediate action. Mr. Bryant was well prepared and was knowledgeable of the safety regulations and the application of the regulations. Mr. Bryant conducted the inspection in a professional and courteous manner.
