2015 Gas State Program Evaluation -- CY 2015 Gas

State Agency: Pennsylvania Rating:

Agency Status: 60105(a): Yes 60106(a): No Interstate Agent: No

Date of Visit: 06/06/2016 - 06/16/2016

Agency Representative: Paul J. Metro, Chief Engineer Gas Safety Division

PHMSA Representative: Jim Anderson

Commission Chairman to whom follow up letter is to be sent:

Name/Title: Gladys M. Brown, Chairman

Agency: Pennsylvania Public Utility Commission

Address: PO Box 3265

City/State/Zip: Harrisburg, Pennsylvania 17105-3265

INSTRUCTIONS:

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2015 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less then the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual progress report attachments provide the basis for determining the state's pipeline safety grant allocation.

Field Inspection (PART G):

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART G, the PHMSA representative should include a written summary which thoroughly documents the inspection.

1

1	Standard Inspection procedures should give guidance to state inspectors that insure	2
	consistency in all inspections conducted by the state? The following elements should be	
	addressed at a minimum - pre-inspection activities, inspection activities, post-inspection	
	activities.	

Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

Standard inspection procedures were located in the Pennsylvania Public Utility Commission Gas Safety Inspector Handbook. Inspection protocols are listed along with Pre and Post inspection instructions that outline the steps for all inspections completed by the Division.

23 forms make up a Standard Inspection.

2 IMP and DIMP Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities.

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

No issues. IMP and DIMP inspection procedures are located in PA PUC Gas Safety Inspector Handbook. Inspection Protocols found on Page 17 and 19.

Pre-Inspection, Inspection and Post Inspection Activities are found on pages 12 and 13 Gas Safety Inspector Handbook.

3 OQ Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities.

1 1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

No issues. OQ inspection procedures are located in PA PUC Gas Safety Inspector Handbook updated February 2016. Inspection Protocols are on Page 25, OQ Inspections.

Damage Prevention Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities.

1

1

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

No issues. Damage Prevention Inspection procedures are located in PA PUC Gas Safety Inspector Handbook updated February 2016. One Call Verification is on page 24 and Third Party Damage is on page 14.

5 Any operator training conducted should be outlined and appropriately documented as needed.

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

No issues. On-Site Operator Training can be conducted under OQ Inspections on page 32 and Welding and Pipe Certification inspections.

6 Construction Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities.

1 1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

No issues. Construction inspections procedures are located in PA PUC Gas Safety Inspector Handbook updated February 2016. This item is covered under inspection protocols for Plastic Pipeline Construction on page 26, Steel Pipeline Construction on Page 29, and Compressor Station Construction on Page 16.

7	unit	es inspection plan address inspection priorities of each operator, and if necessary each , based on the following elements? = 6 No = 0 Needs Improvement = 1-5	6		6
	a.	Length of time since last inspection (Within five year interval)	Yes •	No 🔾	Needs Improvement
	b. comp	Operating history of operator/unit and/or location (includes leakage, incident and bliance activities)	Yes •	No 🔾	Needs Improvement
	c.	Type of activity being undertaken by operators (i.e. construction)	Yes •	No 🔘	Needs Improvement

		ection as lead. es, inspectors have completed the root cause course.			
	D. In	spectors attended the AGMSC in Robert Morris in August 2015.			
		es. A review of files found inspectors who performed standard inspections were qualified to them.	for the typ	e of ins	pection
	3	Did state records and discussions with state pipeline safety program manager indicate adequate knowledge of PHMSA program and regulations? Chapter 4.1,8.1 Yes = 2 No = 0 Needs Improvement = 1	2		2
Eva		Notes:			
	Yes.	Paul Metro has over 14 years of experience in Pipeline Safety and has SR/PHMSA comm	ittees and	as NAP	'SR Chair.
	4	Did state respond to Chairman's letter on previous evaluation within 60 days and correct or address any noted deficiencies? (If necessary) Chapter 8.1 Yes = 2 No = 0 Needs Improvement = 1	2		2
Eva		Notes: onse - within 60 days			
		ections made			
	5	Did State hold PHMSA TO Seminar in Past 3 Years? Chanter 8.5	2		2

Yes = 2 No = 0

Evaluator Notes:

6	Did state inspect all types of operators and inspection units in accordance with time	5	5
	intervals established in written procedures? Chapter 5.1		
	Yes = 5 No = 0 Needs Improvement = 1-4		

Evaluator Notes:

Yes, the PA PUC use a combination of procedures and risk ranking to inspect the operators and inspection units.

Did inspection form(s) cover all applicable code requirements addressed on Federal Inspection form(s)? Did State complete all applicable portions of inspection forms? Chapter 5.1

Yes = 2 No = 0 Needs Improvement = 1

2

2

1

Evaluator Notes:

Yes. The PA PUC uses modified Federal Inspection Forms. The review of files confirmed all sections of the federal inspection forms were completed with a U, S, or N/A

8 Did the state review operator procedures for determining if exposed cast iron pipe was examined for evidence of graphitization and if necessary remedial action was taken?
(NTSB) Chapter 5.1
Yes = 1 No = 0

1

Evaluator Notes:

Yes. This was accomplished by a letter to all operators in the first quarter of each year. The Formal Letter (FL 1-16) lists this question. A review of FL 1-16 dated February 4, 2016 confirmed this item was listed. PA PUC reviews and tabulates data from the letters on cast iron and uses this in their risk ranking.

Did the state review operator procedures for surveillance of cast iron pipelines, including appropriate action resulting from tracking circumferential cracking failures, study of leakage history, or other unusual operating maintenance condition? (Note: See GPTC Appendix G-18 for guidance) (NTSB) Chapter 5.1

Yes = 1 No = 0

1

Evaluator Notes:

Yes. This was accomplished by a letter to all operators in the first quarter of each year. The Formal Letter(FL 1-16) lists this question. A review of FL 1-16 dated February 4, 2016 confirmed this item was listed. PA PUC reviews and tabulates data from the letters on cast iron and uses this in their risk ranking.

Did the state review operator emergency response procedures for leaks caused by excavation damage near buildings and determine whether the procedures adequately address the possibility of multiple leaks and underground migration of gas into nearby buildings Refer to 4/12/01 letter from PHMSA in response to NTSB recommendation P-00-20 and P-00-21? (NTSB) Chapter 5.1 Yes = 1 No = 0

1

1

Evaluator Notes:

Yes. This was accomplished by a letter to all operators in the first quarter of each year. The Formal Letter(FL 1-16) lists this question. A review of FL 1-16 dated February 4, 2016 confirmed this item was listed. PA PUC reviews and tabulates data from the letters under item number 6.

Did the state review operator records of previous accidents and failures including
1 reported third party damage and leak response to ensure appropriate operator response as required by 192.617? Chapter 5.1

Yes = 1 No = 0

Evaluator Notes:

Yes. This item is described in PA PUC Gas Safety Handbook. Leak response is tracked on 3rd party damage Inspection, Leak verification, and Leak survey forms. All incident response times are captured in the Leak Investigation/Complaint forms.

	accuracy and analyzed data for trends and operator issues? Yes = 2 No = 0 Needs Improvement = 1		
Dur	or Notes: PA PUC staff members review the operators annual reports and record results into a risk as ing field inspections, the inspector will review the annual report with the operator. iewed spreadsheet of data.	sessment	spreadsheet.
13	Did state input all applicable OQ, DIMP/IMP inspection results into federal database in a timely manner? This includes replies to Operator notifications into IMDB database. Chapter 5.1	2	2
Evaluato	Yes = 2 No = 0 Needs Improvement = 1 or Notes:		
All	OQ and IMP inspections have been entered into the database for 2015.		
14	Has state confirmed intrastate transmission operators have submitted information into NPMS database along with changes made after original submission? Yes = 1 No = 0 Needs Improvement = .5	1	1
		of each ye	ear. This is
15	Is the state verifying operators are conducting drug and alcohol tests as required by regulations? This should include verifying positive tests are responded to in accordance with program. 49 CFR 199 Yes = 2 No = 0 Needs Improvement = 1	2	2
cove	. This item is accomplished by Formal Letter FL 1-16 to all operators under the first quarter ered under item 12. This item is also reviewed with the operator during drug and alcohol insp	•	
16	Is state verifying operators OQ programs are up to date? This should include verification of any plan updates and that persons performing covered tasks (including contractors) are properly qualified and requalified at intervals determined in the operators plan. 49 CFR 192 Part N Yes = 2 No = 0 Needs Improvement = 1	2	2
	· ·	or Qualific	cation) Inspections,
17	Is state verifying operator's gas transmission integrity management programs (IMP) are up to date? This should include a previous review of IMP plan, along with monitoring progress on operator tests and remedial actions. In addition, the review should take in to account program review and updates of operators plan(s). 49 CFR 192 Subpart 0 Yes = 2 No = 0 Needs Improvement = 1	2	2
Insp			
18	Is state verifying operator's gas distribution integrity management Programs (DIMP)? This should include a review of DIMP plans, along with monitoring progress. In addition, the review should take in to account program review and updates of operators plan(s). 49 CFR 192 Subpart P DIMP? First round of program inspections should have been complete by December 2014	2	2

Has the state reviewed Operator Annual reports, along with Incident/Accident reports, for

2

2

Yes = 2 No = 0 Needs Improvement = 1

12

No issues. This is performed on the DIMP Federal Form.

Is state verifying operators Public Awareness programs are up to date and being followed. State should also verify operators have evaluated Public Awareness programs for effectiveness as described in RP1162. 49 CFR 192.616 (I13-16) PAPEI Effectiveness Inspections should be conducted every four years per RP1162

Yes = 2 No = 0 Needs Improvement = 1

2

2

Evaluator Notes:

Yes. This item is accomplished by the FL 1-16 letter to all operators in the first quarter of each year. This is covered by a question under item 9.

Does the state have a mechanism for communicating with stakeholders - other than state pipeline safety seminar? (This should include making enforcement cases available to public).

1

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Yes. The PA PUC continues to hold monthly meeting with company officials about safety related items and general discussions on improvements with the safe transportation of natural gas.

21 Did state execute appropriate follow-up actions to Safety Related Condition (SRC) Reports? Chapter 6.3

1

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

There was one Safety Related Condition Report for 10/28/15 in UGI PNG South Point. Information was reviewed and follow-up by PA PUC Inspectors.

Did the State ask Operators to identify any plastic pipe and components that has shown a record of defects/leaks and what those operators are doing to mitigate the safety concerns?

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Yes. This item is accomplished by form letter FL 1-16 to all operators in the first quarter of each year. This is covered under item 7.

23 Did the state participate in/respond to surveys or information requests from NAPSR or PHMSA?

1

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Yes.

If the State has issued any waivers/special permits for any operator, has the state verified conditions of those waivers/special permits are being met? This should include having the operator amend procedures where appropriate.

1

1

1

 $N_0 = 0$ Needs Improvement = .5 Yes = 1

Evaluator Notes:

Yes. There is currently one special permit waviers that is active dated 3/20/15 for Johnstown Regional Energy use of Fiberspar pipe.

25 Did the state attend the National NAPSR Board of Directors Meeting in CY being evaluated?

1

No = 0 Needs Improvement = .5 Yes = 1

Evaluator Notes:

Yes.
