2014 Gas State Program Evaluation -- CY 2014 Gas

State Agency: Wisconsin Rating:

Agency Status: 60105(a): Yes 60106(a): No Interstate Agent: No

Date of Visit: 09/21/2015 - 09/25/2015 **Agency Representative:** Thomas Stemrich **PHMSA Representative:** Leonard Steiner

Commission Chairman to whom follow up letter is to be sent:

Name/Title: Ellen Nowak, Chair

Agency: Wisconsin Public Service Commission

Address: 620 North Whitney Way, Post Office Box 7854

City/State/Zip: Madison, Wisconsin 53707-7854

INSTRUCTIONS:

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2014 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less then the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual progress report attachments provide the basis for determining the state's pipeline safety grant allocation.

Field Inspection (PART G):

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART G, the PHMSA representative should include a written summary which thoroughly documents the inspection.

On September 21, 2015, I observed Tom Stemrich and Dagmar Vanek conducting one day of a standard inspection of Superior Water, Light and Power Company, Superior, Wisconsin. The scheduling of the inspection was completed and adequate notification to the Operator was adequate. The inspectors arrived at the scheduled time and location. The inspector were prepared to conduct the inspection. During the inspection, each inspector looked a maintenance and operations task. At the conclusion of the inspection, they inspected two previously inspected regulator stations. The inspectors were knowledgeable and efficient in their conduct, and were professional and courteous.
