# 2016 Gas State Program Evaluation -- CY 2016 Gas

State Agency: Montana Rating:

Agency Status: 60105(a): Yes 60106(a): No Interstate Agent: No

**Date of Visit:** 08/21/2017 - 09/01/2017 **Agency Representative:** G. Joel Tierney **PHMSA Representative:** Leonard Steiner

Commission Chairman to whom follow up letter is to be sent:

Name/Title: Brad Johnson, Chairman

**Agency:** Montana Public Service Commission

**Address:** 1901 Prospect Avenue

City/State/Zip: Helena, Montana 59620-2601

#### **INSTRUCTIONS:**

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2016 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less then the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual progress report attachments provide the basis for determining the state's pipeline safety grant allocation.

### Field Inspection (PART G):

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART G, the PHMSA representative should include a written summary which thoroughly documents the inspection.

### **Evaluator Notes**:

On August 28 through August 31, I observed John Torske and Elizabeth Torske conduct a standard inspection, records and facilities, of Northwestern Energy at their Kalispell office. Joel Tierney, Program Manager accompanied this inspection. The inspection notification was timely and accurate. We arrived at the operator's office at the agreed time. Both inspectors were prepared and had notified the operator the items to be inspected. John Torske was the lead inspector. The inspection was recorded in IA and the items to be inspected were in the logical order of the IA inspection form. No probable violations were discovered. The inspectors were competent and knowledgeable. They conducted the inspection in a professional and courteous manner.
