2016 Gas State Program Evaluation -- CY 2016 Gas

State Agency: South Carolina Rating:

Agency Status: 60105(a): Yes 60106(a): No Interstate Agent: No

Date of Visit: 04/18/2017 - 04/20/2017

Agency Representative: Vernon Gainey, Program Manager

PHMSA Representative: Rex Evans

Commission Chairman to whom follow up letter is to be sent:

Name/Title:

Mr. C. Dukes Scott, Executive Director

Agency: Office of Regulatory Staff
Address: 1401 Main Street, Suite 900
City/State/Zip: Columbia, SC 29201

INSTRUCTIONS:

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2016 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less then the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual progress report attachments provide the basis for determining the state's pipeline safety grant allocation.

Field Inspection (PART G):

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART G, the PHMSA representative should include a written summary which thoroughly documents the inspection.

Scoring Summary

Total points scored for this section: 10 Total possible points for this section: 10

- Standard Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum pre-inspection activities, inspection activities, post-inspection activities.
- 2 2

Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

General procedures outline Standard Inspection requirements with pre-inspection, inspection and post-inspection notations. An overall general improvement could be made on entire procedures document. Recommended again that review take place of State Guidelines Appendix S and incorporate more specificity where applicable.

IMP and DIMP Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities.

[

1

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

DIMP and IMP generally covered. Same overall comment to question B.1 as enhancement could be used.

3 OQ Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities.

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

OQ generally covered. Recommend again more specificity as noted above.

Damage Prevention Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities.

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Generally noted, but also recommend more specificity about examination of operators damage prevention activity.

5 Any operator training conducted should be outlined and appropriately documented as needed.

1

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Generally covered, recommend enhancement.

6 Construction Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities.

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Generally covered, also recommend enhancement

7 Does inspection plan address inspection priorities of each operator, and if necessary each unit, based on the following elements?

6

Yes = 6 No = 0 Needs Improvement = 1-5

a. Length of time since last inspection (Within five year interval)

Yes

No

Needs

Improvement

6

| b c | Operating history of operator/unit and/or location (includes leakage, incident and ompliance activities) | Yes • | No 🔾 | Needs Improvement |
|-----------------------|---|------------|-----------|----------------------|
| c | Type of activity being undertaken by operators (i.e. construction) | Yes 💿 | No 🔾 | Needs Improvement |
| d a | reas, Population Density, etc) | Yes • | No 🔾 | Needs Improvement |

| | or Notes: rough staff loss during calendar year, all requirements appear met. Sr. Inspector should coming this year. Will be needed for IMP inspections. | plete ren | nainder of | IMP |
| 3 | Did state records and discussions with state pipeline safety program manager indicate adequate knowledge of PHMSA program and regulations? Chapter 4.1,8.1 Yes = 2 No = 0 Needs Improvement = 1 | 2 | 2 | |
| Evaluato | or Notes: | | | |
| No | issues | | | |
| 4 | Did state respond to Chairman's letter on previous evaluation within 60 days and correct or address any noted deficiencies? (If necessary) Chapter 8.1 Yes = 2 No = 0 Needs Improvement = 1 | 2 | 2 | |
| Evaluato | or Notes: | | | |
| Eva | luation letter send 11/1/16, response received 11/22/16. Issues were addressed appropriately | / | | |
| 5 | Did State conduct or participate in pipeline safety training session or seminar in Past 3 Years? Chapter 8.5 Yes = 1 No = 0 | 1 | 1 | |
| Evaluato | | | | |
| Last | seminar August 2015, next seminar August 2017 | | | |
| 6 | Did state inspect all types of operators and inspection units in accordance with time intervals established in written procedures? Chapter 5.1 Yes = 5 No = 0 Needs Improvement = 1-4 | 5 | 5 | |

Evaluator Notes:

| 14 | NPMS database along with changes made after original submission? Yes = 1 No = 0 Needs Improvement = .5 | 1 | 1 |
|----------|---|-------------|--------------------|
| Evaluato | | | |
| Yes | this is confirmed on inspection form(s) | | |
| 15 | Is the state verifying operators are conducting drug and alcohol tests as required by regulations? This should include verifying positive tests are responded to in accordance with program. 49 CFR 199 Yes = 2 No = 0 Needs Improvement = 1 | 2 | 2 |
| Evaluato | | | |
| Yes | DA inspections have been addressed and confirmed in record review. | | |
| 16 | Is state verifying operators OQ programs are up to date? This should include verification of any plan updates and that persons performing covered tasks (including contractors) are properly qualified and requalified at intervals determined in the operators plan. 49 CFR 192 Part N Yes = 2 No = 0 Needs Improvement = 1 | 2 | 2 |
| Evaluato | * | | |
| Foci | used OQ plans in CY16. No issues. | | |
| 17 | Is state verifying operator's gas transmission integrity management programs (IMP) are up to date? This should include a previous review of IMP plan, along with monitoring progress on operator tests and remedial actions. In addition, the review should take in to account program review and updates of operators plan(s). (Are the State's largest operators programs being contacted or reviewed annually?). 49 CFR 192 Subpart 0 Yes = 2 No = 0 Needs Improvement = 1 | 2 | 2 |
| Evaluato | | un thia wa | |
| | le plans still appear on target, the training of personnel still in progress and should be caught | up this yea | ar. |
| 18 | Is state verifying operator's gas distribution integrity management Programs (DIMP)? This should include a review of DIMP plans, along with monitoring progress. In addition, the review should take in to account program review and updates of operators plan(s). (Are the State's largest operators programs being contacted or reviewed annually?). 49 CFR 192 Subpart P DIMP? First round of program inspections should have been complete by December 2014 Yes = 2 No = 0 Needs Improvement = 1 | 2 | 2 |
| Evaluato | | | |
| Aga | in, recommend annual update on largest operators. Staff should be trained now and ready to | inspect. | |
| 19 | Is state verifying operators Public Awareness programs are up to date and being followed. State should also verify operators have evaluated Public Awareness programs for effectiveness as described in RP1162. PAPEI Effectiveness Inspections should have been completed by December 2013. PAPEI Effectiveness Inspections should be conducted every four years by operators. 49 CFR 192.616 Yes = 2 No = 0 Needs Improvement = 1 | 2 | 2 |
| Evaluato | | | |
| | ast done in CY13. Previously recommended 4 year review per RP1162, although still within | 5 year ins | spection interval. |
| 20 | Does the state have a mechanism for communicating with stakeholders - other than state pipeline safety seminar? (This should include making enforcement cases available to public). | 1 | 1 |
