# 2012 Natural Gas State Program Evaluation -- CY 2012 Natural Gas

State Agency: Colorado Rating:

Agency Status: 60105(a): Yes 60106(a): No Interstate Agent: No

**Date of Visit:** 04/15/2013 - 04/19/2013

**Agency Representative:** Steve Pott, Chief Gas Pipeline Safety

PHMSA Representative: Glynn Blanton, DOT/PHMSA State Programs

Commission Chairman to whom follow up letter is to be sent:

Name/Title: Joshua B. Epel, Chairman

**Agency:** Colorado Public Utilities Commission

Address: 1560 Broadway Suite 250 City/State/Zip: Denver, Colorado 80202

## **INSTRUCTIONS:**

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2012 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less then the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual progress report attachments provide the basis for determining the state's pipeline safety grant allocation.

# Field Inspection (PART G):

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART G, the PHMSA representative should include a written summary which thoroughly documents the inspection.

## **Scoring Summary**

_ PARTS		Possible Points	<b>Points Scored</b>
<b>A</b>	Progress Report and Program Documentation Review	10	9
В	Program Inspection Procedures	15	14
C	Program Performance	46	43
D	Compliance Activities	15	15
E	Incident Investigations	9	9
F	Damage Prevention	8	8
G	Field Inspections	12	12
Н	Interstate Agent State (If Applicable)	0	0
I	60106 Agreement State (If Applicable)	0	0
<b>TOTAL</b>	$\mathbf{S}$	115	110
State Ra	ating		95.7

# PART A - Progress Report and Program Documentation Review

Points(MAX) Score

0.5

1 Accuracy of Jurisdictional Authority and Operator/Inspection Units Data - Progress 1
Report Attachment 1 (A1a)
Yes = 1 No = 0 Needs Improvement = .5

**Evaluator Notes:** 

Information entered into Attachment 1 was incorrect. A review found the "Other" category for Distribution showed X/60105P. The information should be classified as "A" None in state and does not have jurisdiction. Needs improvement and half a point were deducted.

2 Review of Inspection Days for accuracy - Progress Report Attachment 2 (A1b)

Yes = 1 No = 0 Needs Improvement = .5

**Evaluator Notes:** 

A review of attachment 2 pertaining to Drug & Alcohol inspections was discussed with State Program Manager. It was suggested the number of inspections need to be entered on the form since the engineer is reviewing the information during the standard inspection.

3 Accuracy verification of Operators and Operators Inspection Units in State - Progress 1
Report Attachment 3 (A1c)
Yes = 1 No = 0 Needs Improvement = .5

**Evaluator Notes:** 

The number of operators and inspection units on Attachment 3 match the records maintained by CO PUC.

Were all federally reportable incident reports listed and information correct? - Progress 1

Report Attachment 4 (A1d)

Yes = 1 No = 0 Needs Improvement = .5

**Evaluator Notes:** 

Yes, a review of PHMSA's ODES database indicated incidents were reported as shown on Attachment 4 correctly. The investigation into the incident that occurred on 12/11/2012 on Public Service of Colorado facilities near Williams FK compressor has been completed by CO PUC. The cause of the incident was due to corrosion.

5 Accuracy verification of Compliance Activities - Progress Report Attachment 5 (A1e) 1 0.5 Yes = 1 No = 0 Needs Improvement = .5

**Evaluator Notes:** 

A review found the number of violations to be corrected at end of Calendar Year 2012 was 13 not 9. Needs improvement. Half a point was deducted.

Were pipeline program files well-organized and accessible? - Progress Report 2 2
Attachment 6 (A1f, A4)

Yes = 2 No = 0 Needs Improvement = 1

**Evaluator Notes:** 

A review of program files found the information is being maintained in the State Program Manager's office. Inspection reports contain a cover sheet that provides information on the type of inspection performed and violations cited. No areas of concerns.

Was employee listing and completed training accurate and complete? - Progress Report 1 1 Attachment 7 (A1g)

Yes = 1 No = 0 Needs Improvement = .5

**Evaluator Notes:** 

A detailed review of employees listed on attachment 7 was conducted posting the date each individual completed the TQ courses. The Gas IM Lead inspector has not completed the PL31C course. However, information on the attachment 7 was found correct.

8 Verification of Part 192,193,198,199 Rules and Amendments - Progress Report Attachment 8 (A1h)

1

Yes = 1 No = 0 Needs Improvement = .5

#### Evaluator Notes:

A review of PHMSA State Program rules and regulations in SharePoint for CO PUC indicate civil penalty amounts for pipeline safety regulations match the federal amounts. All federal regulations pertaining to Part 192, 193, 198 and 199 have been adopted except for 198 (h) and amendments 115, 116 & 117. It is anticipated these regulations will be adopted in CY2013.

List of Planned Performance - Did state describe accomplishments on Progress Report in 1
 detail - Progress Report Attachment 10 (H1-3)
 Yes = 1 No = 0 Needs Improvement = .5

#### **Evaluator Notes:**

Yes, CO PUC provided a description of their planned annual and long term goals for the pipeline safety program in attachment 10.

10 General Comments: Info Only = No Points Info OnlyInfo Only

## **Evaluator Notes:**

A.1 Information entered into Attachment 1 was incorrect. A review found the "Other" category for Distribution showed X/60105P. The information should be classified as "A" None in state and does not have jurisdiction. Needs improvement and half a point were deducted.

A.5 A review found the number of violations to be corrected at end of Calendar Year 2012 was 13 not 9. Needs improvement and half a point was deducted.

Total points scored for this section: 9 Total possible points for this section: 10

	d. Note any outside training completed	Yes	No ()	Improvement Needs
	•		Ü	Improvement e has not
3	Did state records and discussions with state pipeline safety program manager indicate adequate knowledge of PHMSA program and regulations? Chapter 4.1,8.1 (A5) $Yes = 2 No = 0 Needs Improvement = 1$	2	2	2
Evaluato Yes,	or Notes:  , Program Manager demonstrated a good working knowledge about the pipeline safety prog	ram.		
4	Did state respond to Chairman's letter on previous evaluation within 60 days and correct or address any noted deficiencies? (If necessary) Chapter 8.1 (A6-7) Yes = 2 No = 0 Needs Improvement = 1	2	2	2
Evaluato	r Notes:			
Yes,	, Chairman Epel response letter was received on December 17, 2012 and within the 60 day t	time requ	irement.	
5	Did State hold PHMSA TQ Seminar in Past 3 Years? Chapter 8.5 (A3) Yes = 2 No = 0	2	2	2
Evaluato				
Yes,	, the pipeline safety seminar was held on March 13-14, 2012 in Colorado Springs, CO.			
6	Did state inspect all types of operators and inspection units in accordance with time intervals established in written procedures? Chapter 5.1 (B3)	5	:	5

Yes = 5 No = 0 Needs Improvement = 1-4

Yes,	in	accordance	to	their	procedures.

7	Did inspection form(s) cover all applicable code requirements addressed on Federal
	Inspection form(s)? Did State complete all applicable portions of inspection forms?
	Chapter 5.1 (B4-5)

2

1

Yes = 2 No = 0 Needs Improvement = 1

**Evaluator Notes:** 

CPUC uses the Federal inspection form. No issues.

B Did the state review operator procedures for determining if exposed cast iron pipe was examined for evidence of graphitization and if necessary remedial action was taken? (NTSB) Chapter 5.1 (B7)  $Y_{es} = 1 N_0 = 0$ 

1

1

1

1

Evaluator Notes:

Yes, this is reviewed during the inspection visit and contained in the federal inspection form.

Did the state review operator procedures for surveillance of cast iron pipelines, including appropriate action resulting from tracking circumferential cracking failures, study of leakage history, or other unusual operating maintenance condition? (Note: See GPTC Appendix G-18 for guidance) (NTSB) Chapter 5.1 (B8)

Yes = 1 No = 0

1

1

1

2

0

**Evaluator Notes:** 

Yes, this is reviewed during the standard inspection.

Did the state review operator emergency response procedures for leaks caused by excavation damage near buildings and determine whether the procedures adequately address the possibility of multiple leaks and underground migration of gas into nearby buildings Refer to 4/12/01 letter from PHMSA in response to NTSB recommendation P-00-20 and P-00-21? (NTSB) Chapter 5.1 (B9) Yes = 1 No = 0

Evaluator Notes:

Yes, this is reviewed during each inspection.

Did the state review operator records of previous accidents and failures including reported third party damage and leak response to ensure appropriate operator response as required by 192.617? Chapter 5.1 (B10,E5)

Yes = 1 No = 0

Yes.

**Evaluator Notes:** 

Has the state reviewed Operator Annual reports, along with Incident/Accident reports, for accuracy and analyzed data for trends and operator issues? Data Initiative (G6-9,G16)

Yes = 2 No = 0 Needs Improvement = 1

**Evaluator Notes:** 

Yes, this item is annually reviewed by one of the staff members.

Did state input all applicable OQ, IMP inspection results into federal database in a timely manner? This includes replies to Operator notifications into IMDB database. Chapter 5.1 (G10-12)

.

Yes = 2 No = 0 Needs Improvement = 1

**Evaluator Notes:** 

No. This item was previously reviewed with Program Manager and no action was taken to upload OQ & IM data into the federal database. Two points were deducted.

14	NPMS database along with changes made after original submission? (G14)	1	1

	, performed during the standard inspection review. They are using the rederal inspection form	•	
19	followed. State should also verify operators have evaluated Public Awareness programs for effectiveness as described in RP1162. 49 CFR 192.616 (I13-16)	2	2
	r Notes:	into the f	adarol dotobosc
r es.	Croc is using the rederal raily of rothin 21 to inspect the operator. Information is uploaded	into the I	euciai uatabase.

Does the state have a mechanism for communicating with stakeholders - other than state

pipeline safety seminar? (This should include making enforcement cases available to

1

1

**20** 

public). (G20-21)

Yes = 1 No = 0 Needs Improvement = .5

14

### **Evaluator Notes:**

CPUC uses email notification to operators about changes in the pipeline safety regulations, bulletin notices and incidents that could affect the operator's facilities.

21 Did state execute appropriate follow-up actions to Safety Related Condition (SRC) Reports? Chapter 6.3 (B6)

1

1

1

1

1

Yes = 1 No = 0 Needs Improvement = .5

**Evaluator Notes:** 

Yes, several SRC's were reviewed with Jerry Kenerson, PHMSA Western Region office. No issues or concerns were found.

22 Did the State ask Operators to identify any plastic pipe and components that has shown a record of defects/leaks and what those operators are doing to mitigate the safety

concerns? (G13)

Yes = 1 No = 0 Needs Improvement = .5

**Evaluator Notes:** 

No issues. This item is mentioned on the federal inspection form.

23 Did the state participate in/respond to surveys or information requests from NAPSR or PHMSA? (H4)

Yes = 1 No = 0 Needs Improvement = .5

**Evaluator Notes:** 

Yes, no issues.

24 General Comments: Info OnlyInfo Only

Info Only = No Points

**Evaluator Notes:** 

C.2 Lead inspector for DIMP/IMP has not completed required training course. A review of training records found one course has not been completed. Therefore, one point was deducted.

C.13 No. This item was previously reviewed with Program Manager and no action was taken to upload OQ & IM data into the federal database. Two points were deducted.

Total points scored for this section: 43

Total possible points for this section: 46

1	Does the state have written procedures to identify steps to be taken from the discovery to resolution of a probable violation? Chapter 5.1 (B12-14, B16, B1h)	4		4
	Yes = 4 No = 0 Needs Improvement = 1-3 a. Procedures to notify an operator (company officer) when a noncompliance is identified	Yes •	No 🔾	Needs Improvement
-	b. Procedures to routinely review progress of compliance actions to prevent delays or breakdowns	Yes 🔘	No 🔾	Needs Improvement •
	r Notes: this is listed on page 35 of CO PUC Guidelines. However, additional examples of probable to be added to the document.	violatio	ns or wa	rning letters
2	Did the state follow compliance procedures (from discovery to resolution) and adequately document all probable violations, including what resolution or further course of action is needed to gain compliance? Chapter 5.1 (B11,B18,B19)  Yes = 4 No = 0 Needs Improvement = 1-3	4		4
	a. Were compliance actions sent to company officer or manager/board member if municipal/government system?	Yes •	No 🔾	Needs Improvement
	b. Were probable violations documented?	Yes 💿	No 🔾	Needs Improvement
	c. Were probable violations resolved?	Yes 💿	No 🔾	Needs Improvement
	d. Was the progress of probable violations routinely reviewed?	Yes 💿	No 🔾	Needs Improvement
	r Notes: a review of office files and reports located in the program manager's office showed probabled. An example, the letter to the City Manager of Aguilar, CO	e violati	ons are is	
3	Did the state issue compliance actions for all probable violations discovered? (B15) $Yes = 2 No = 0$ Needs Improvement = 1	2		2
Evaluato				
Yes.	Action was taken when the operator failed to correct the probable violations.			
4	Did compliance actions give reasonable due process to all parties? Including "show cause" hearing if necessary. (B17, B20) $Yes = 2 No = 0$	2	;	2
Evaluato				
Yes.	No areas of concern.			
5	Is the program manager familiar with state process for imposing civil penalties? Were civil penalties considered for repeat violations (with severity consideration) or violations resulting in incidents/accidents? (describe any actions taken) (B27)  Yes = 2 No = 0 Needs Improvement = 1	2	;	2
Evaluato	*			
Yes.				
6	Can the State demonstrate it is using their enforcement fining authority for pipeline safety violations?  Yes = 1 No = 0 Needs Improvement = .5	1		1
Evaluato				

Yes, CY2011 CPUC assessed and collected a civil fine of \$150,000 against Excel Energy for non-compliance with safety regulations pertaining to the steel pipeline crossing at Platte River East of the Intersection of 88th Avenue and Colorado Blvd.

Did the state encourage and promote practices for reducing damages to all underground 2 facilities to its regulated companies? (i.e. such as promoting/adopting the CGA Best Practices encouraging adoption of the 9 Elements, etc.) (E3) Yes = 2 No = 0 Needs Improvement = 1

## **Evaluator Notes:**

CPUC working with CO One Call organization has attended several public awareness meetings with contractors and utility representatives promoting damage prevention. An example, February 15, 2012 CPUC attend the Greeley, CO meeting presenting information to over 400 people in attendance.

4 Has the agency or another organization within the state collected data and evaluated trends on the number of pipeline damages per 1,000 locate requests? (This can include DIRT and other data shared and reviewed by the pipeline safety program) (E4,G5) Yes = 2 No = 0 Needs Improvement = 1

2

## **Evaluator Notes:**

Yes, CPUC has created a new Gas Pipeline Safety Database via rulemaking which requires all natural gas distribution operators to report damages occurring on their facilities. This information is being used to establish a risk ranking in performing gas pipeline safety inspections.
