2018 Gas State Program Evaluation

for

S. D. PUBLIC UTILITIES COMMISSION

Document Legend PART:

- O -- Representative Date and Title Information
- A -- Progress Report and Program Documentation Review
- B -- Program Inspection Procedures
- C -- Program Performance
- D -- Compliance Activities
- E -- Incident Investigations
- -- Damage Prevention
- G -- Field Inspections
- H -- Interstate Agent State (If Applicable)
- I -- 60106 Agreement State (If Applicable)

2018 Gas State Program Evaluation -- CY 2018 Gas

State Agency: South Dakota Rating:

Agency Status: 60105(a): Yes 60106(a): No Interstate Agent: No

Date of Visit:

Agency Representative: PHMSA Representative:

Commission Chairman to whom follow up letter is to be sent:

Name/Title: Agency: Address: City/State/Zip:

INSTRUCTIONS:

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2018 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less then the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual progress report attachments provide the basis for determining the state's pipeline safety grant allocation.

Scoring Summary

PARTS		Possible Points	Points Scored
A	Progress Report and Program Documentation Review	10	10
В	Program Inspection Procedures	13	13
C	Program Performance	44	44
D	Compliance Activities	15	15
E	Incident Investigations	10	10
F	Damage Prevention	8	8
G	Field Inspections	12	12
Н	Interstate Agent State (If Applicable)	0	0
I	60106 Agreement State (If Applicable)	0	0
TOTA	LS	112	112
State F	Rating		100.0

PART A - Progress Report and Program Documentation Points(MAX) Score Review 1 Accuracy of Jurisdictional Authority and Operator/Inspection Units Data - Progress 1 1 Report Attachment 1 Yes = 1 No = 0 Needs Improvement = .5**Evaluator Notes:** Attachment 1 is correct and is consistent with attachment 3 and attachment 8. 2 1 1 Review of Inspection Days for accuracy - Progress Report Attachment 2 Yes = 1 No = 0 Needs Improvement = .5**Evaluator Notes:** Conducted a review of the 2018 SDPUC Progress Report and found the number of inspection days entered matched the office files. No issues were found. 128.5 inspection days. 3 Accuracy verification of Operators and Operators Inspection Units in State - Progress 1 Report Attachment 3 Yes = 1 No = 0 Needs Improvement = .5Yes. Verified the number of operators and inspection units on Attachment 3 matched the office records maintained by South Dakota Public Utilities Commission (SDPUC) by reviewing office files. 4 Were all federally reportable incident reports listed and information correct? - Progress 1 Report Attachment 4 Yes = 1 No = 0 Needs Improvement = .5**Evaluator Notes:** Yes. Verified that there were two reportable incidents in 2018. 5 1 1 Accuracy verification of Compliance Activities - Progress Report Attachment 5

Yes = 1 No = 0 Needs Improvement = .5 Evaluator Notes:

Yes. Reviewed Attachment 5, No issues found. Had conversation about using civil penalties, Most recent civil penalty was for \$500 in 2013, paid in 2016, an OQ violation, an unqualified person doing a covered task. Many of the violations have corrective directives.

6 Were pipeline program files well-organized and accessible? - Progress Report 2 2
Attachment 6

Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

Yes. Pipeline Safety has a secured folder within a designated Drive within the SDPUC. Both personnel can access it from anywhere there is internet. All records are maintained within sub-folders of this folder. With only 12 Operators and 21 Units nothing more complicated than a spreadsheet is needed to access the risk ranking and track the inspections of these operators and units. SD does not see the advantage of using PHMSA's IA.

Was employee listing and completed training accurate and complete? - Progress Report 1 1 Attachment 7

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Yes, Training agrees with state records and inspector time is correct with state records. Had 2.01 Inspector Years and 0.5 Supervision years.

8 Verification of Part 192,193,198,199 Rules and Amendments - Progress Report 1 1 Attachment 8

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Yes. Attachment 8 is consistent with internal records, the main SD law is 69-3-207, MCA; also, SD PSC Authority 38.5.2202 ARM.

The three rules that were pending adoption have been adopted.

List of Planned Performance - Did state describe accomplishments on Progress Report in detail - Progress Report Attachment 10

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Yes. Attachment 10 was properly completed.

10 General Comments:

Info OnlyInfo Only

1

Info Only = No Points

Evaluator Notes:

SDPUC's procedure manual called for 136 inspection days. Staff will amend procedures to align with actual performance.

Total points scored for this section: 10

Total possible points for this section: 10

2 2

Evaluator Notes:

Yes. see Section 3, 'Operator Inspection', pages 2-6; and Section 5, 'Inspection Types' for Standard Inspections including pre and post inspection information.

2 IMP and DIMP Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities.

1

1

1

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Yes. see Section 3, 'Operator Inspection', pages 2-6; and Section 5, 'Inspection Types' for IM Inspections including pre and post inspection information

3 OQ Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities.

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Yes. see Section 3, 'Operator Inspection', pages 2-6; and Section 5, 'Inspection Types' for OQ Inspections including pre and post inspection information.

Damage Prevention Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities.

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Yes. see Section 3, 'Operator Inspection', pages 2-6; and Section 5, 'Inspection Types' for Damage Prevention Inspections including pre and post inspection information.

5 Any operator training conducted should be outlined and appropriately documented as needed.

1

Yes = 1 No = 0 Needs Improvement = .5

Evaluator Notes:

Yes. see Section 3, 'Operator Inspection', pages 2-6; and Section 5, 'Inspection Types' for Operator Training including pre and post inspection information.

6 Construction Inspection procedures should give guidance to state inspectors that insure consistency in all inspections conducted by the state? The following elements should be addressed at a minimum - pre-inspection activities, inspection activities, post-inspection activities.

1

Yes = 1 No = 0 Needs Improvement = .5

Yes = 6 No = 0 Needs Improvement = 1-5

Evaluator Notes

Yes. see Section 3, 'Operator Inspection', pages 2-6; and Section 5, 'Inspection Types' for Construction Inspections including pre and post inspection information.

7 Does inspection plan address inspection priorities of each operator, and if necessary each unit, based on the following elements?

6

6

DUNS: 604570572 2018 Gas State Program Evaluation

	a.	Length of time since last inspection (Within five year interval)	Yes 💿	No 🔾	Improvement
	b.	Operating history of operator/unit and/or location (includes leakage, incident and bliance activities)	Yes •	No 🔘	Needs Improvement
	c.	Type of activity being undertaken by operators (i.e. construction)	Yes 💿	No 🔘	Needs Improvement
	d. areas	Locations of operators inspection units being inspected - (HCA's, Geographic s, Population Density, etc)	Yes •	No 🔾	Needs Improvement
		Process to identify high-risk inspection units that includes all threats - (Excavation age, Corrosion, Natural Forces, Outside Forces, Material and Welds, Equipment, ators and any Other Factors)	Yes •	No 🔘	Needs Improvement

Total points scored for this section: 13 Total possible points for this section: 13

1	Was ratio of Total Inspection person-days to total person days acceptable? (Director of State Programs may modify with just cause) Chapter 4.3 $Yes = 5 No = 0$	5	5
	A. Total Inspection Person Days (Attachment 2): 128.50		
	B. Total Inspection Person Days Charged to the Program (220 X Inspection Person Years) (Attachment 7): 220 X 1.50 = 330.00		
	Ratio: A / B 128.50 / 330.00 = 0.39		
	If Ratio >= 0.38 Then Points = 5, If Ratio < 0.38 Then Points = 0 Points = 5		
	or Notes:		
Kat	ion at .39, full credit issued.		
2	Has each inspector and program manager fulfilled the T Q Training Requirements? (See Guidelines Appendix C for requirements) Chapter 4.4 Yes = 5 No = 0 Needs Improvement = 1-4	5	5
	a. Completion of Required OQ Training before conducting inspection as lead?	Yes 💿	No O Needs Improvement
	b. Completion of Required DIMP*/IMP Training before conducting inspection as lead? *Effective Evaluation CY2013	Yes •	No O Needs Improvement
	c. Root Cause Training by at least one inspector/program manager	Yes •	No O Needs Improvement
	d. Note any outside training completed	Yes •	No O Needs Improvement
Evaluate	e. Verify inspector has obtained minimum qualifications to lead any applicable standard inspection as the lead inspector. or Notes:	Yes •	No O Needs Improvement
Eac	h SDPUC inspector and program manager fulfilled the T Q Training Requirements. Outside ciples and practices for handling propane.	training	includes basic
3	Did state records and discussions with state pipeline safety program manager indicate adequate knowledge of PHMSA program and regulations? Chapter 4.1,8.1 Yes = 2 No = 0 Needs Improvement = 1	2	2
	or Notes:	. 1 TO	
	, Mary Zanter has been the Program Manager for several years and has completed all requirerience and knows the PHMSA program regulations.	ea 1Q co	iurses, has field
4	Did state respond to Chairman's letter on previous evaluation within 60 days and correct or address any noted deficiencies? (If necessary) Chapter 8.1 Yes = 2 No = 0 Needs Improvement = 1	2	NA
	or Notes:		
Pro	gram had no need to respond.		
5	Did State conduct or participate in pipeline safety training session or seminar in Past 3 Years? Chapter 8.5 $Yes = 1 No = 0$	1	1
Yes The	or Notes: , the SDPUC co-hosts an annual operator seminar with the state on North Dakota by alterna last seminar was in Rapid City, SD on 3/29-30/2017 for SD, ND, & WY. For the first time ninar missed for 2018. North Dakota hosted in 2019.		

Did state inspect all types of operators and inspection units in accordance with time

intervals established in written procedures? Chapter 5.1

5

5

6

Evaluator Notes:

Yes, the records for 2018 inspections were reviewed and the SDPUC did inspect all types of operators and inspection units in accordance with time intervals established in their written procedures. The program Manager also maintains a spread sheet to track all types of inspections completed and planned. 5 yr max interval, with efforts to conduct every three years.

7 Did inspection form(s) cover all applicable code requirements addressed on Federal Inspection form(s)? Did State complete all applicable portions of inspection forms? Chapter 5.1

2

2

Yes = 2 No = 0 Needs Improvement = 1

Evaluator Notes:

Yes. The SDPUC uses their own form for Standard, Construction and Damage Prevention inspections. The federal forms are used for all other types of inspections. The Federal Forms are incorporated into SDPUC State Forms.

B Did the state review operator procedures for determining if exposed cast iron pipe was examined for evidence of graphitization and if necessary remedial action was taken? (NTSB) Chapter 5.1

NA

1

1

Yes = 1 No = 0

Evaluator Notes:

No cast iron in South Dakota.

9 Did the state review operator procedures for surveillance of cast iron pipelines, including appropriate action resulting from tracking circumferential cracking failures, study of leakage history, or other unusual operating maintenance condition? (Note: See GPTC Appendix G-18 for guidance) (NTSB) Chapter 5.1

Yes = 1 No = 0

NA

Evaluator Notes:

No cast iron in South Dakota.

Did the state review operator emergency response procedures for leaks caused by excavation damage near buildings and determine whether the procedures adequately address the possibility of multiple leaks and underground migration of gas into nearby buildings Refer to 4/12/01 letter from PHMSA in response to NTSB recommendation P-00-20 and P-00-21? (NTSB) Chapter 5.1 Yes = 1 No = 0

Evaluator Notes:

Yes. The SDPUC has a question on their O&M manual inspection form. Question #192.615(a)(3)

Did the state review operator records of previous accidents and failures including reported third party damage and leak response to ensure appropriate operator response as required by 192.617? Chapter 5.1 $_{\text{Yes}} = 1 \text{ No} = 0$

1

1

Evaluator Notes:

Yes, this in the Damage Prevention section of their inspection form. It is an even year question and was asked this year.

PHMSA encouraged SDPUC to remind operators of their burden to comply with 192.617 when excavation damage occurs.

Has the state reviewed Operator Annual reports, along with Incident/Accident reports, for 2 accuracy and analyzed data for trends and operator issues?

Yes = 2 No = 0 Needs Improvement = 1

Yes, the SDPUC uses a set of spread sheets and graphs to verify the accuracy and track and analyze the data provided in the operators annual reports.

PHMSA recommended SDPUC review how they asses annual reports and related questions of those operators.

Yes, the SDPUC sends all notices of activities on the federal register to operators along with other important information.

Has state confirmed intrastate transmission operators have submitted information into

NPMS database along with changes made after original submission?

Yes, their records inspection form question coving reporting requirements covers this.

Yes = 1 No = 0 Needs Improvement = .5

2018 Gas State Program Evaluation

13

Safe DU Sou and	y have web site that shares all the dockets concerning commission meetings and enforcement sty Seminars and held almost every year. SDPUC sends out a quarterly 'Inspection status reports: 604570572 2018 Gas State Program Evaluation th Dakota S. D. PUBLIC UTILITIES COMMISSION, Page: 10 for improved communication. It is a recap of inspections performed, inspections pending, apperator has.	oort' as a	courtesy	
20	Did state execute appropriate follow-up actions to Safety Related Condition (SRC) Reports? Chapter 6.3 Yes = 1 No = 0 Needs Improvement = .5	1		1
Evaluato				
	SRC's in 2018 and none lingering from years past.			
21	Did the State ask Operators to identify any plastic pipe and components that has shown a record of defects/leaks and what those operators are doing to mitigate the safety concerns?	1		1
Evaluato Yes	Yes = 1 No = 0 Needs Improvement = .5 or Notes: , same as last year's answer. In 2019, SDPUC sent additional communication inquiring about	ut Perma!	Lock me	chanical
The disc repa	SDPUC has sent a questionnaire in 2015 to all operators requesting this information. They ussion concerning how some liquid hydrocarbons can soften medium density pipe and caus ir of that pipe (causes bubbling at the fusion site) in the 2017 Safety Seminar. Also had a protice Pipe Database in the 2017 Safety Seminar.	e probler	ns with a	fusion
22	Did the state participate in/respond to surveys or information requests from NAPSR or PHMSA? Yes = $1 \text{ No} = 0 \text{ Needs Improvement} = .5$	1		1
Evaluato Yes	or Notes: . NAPSR & PHMSA requests are responded to.			
23	If the State has issued any waivers/special permits for any operator, has the state verified conditions of those waivers/special permits are being met? This should include having the operator amend procedures where appropriate. No = 0 Needs Improvement = .5 Yes = 1			1
Evaluato SDI	1			
24	Did the state attend the NAPSR National Meeting in CY being evaluated? No = 0 Needs Improvement = .5 Yes = 1	1		1
Evaluato				
Yes	, the Program Manager attended the National meeting in New Mexico			
25	Discussion on State Program Performance Metrics found on Stakeholder Communication site - http://primis.phmsa.dot.gov/comm/states.htm No = 0 Needs Improvement = 1 Yes = 2	n 2		2
	a. Discussion of Potential Accelerated Actions (AA's) based on any negative trends	Yes	No 🔾	Needs Improvement
	b. NTSB P-11-20 Meaningful Metrics	Yes •	No 🔾	Needs Improvement
	or Notes: cussed the Program performance metrics with program manager, Mary Zanter, and discusse		_	he data site

is mostly current through 2017, but two items are only current through 2015. 2016, 2017 and 2018 information is available through State records. Excavation Damages per 1000 locate tickets show a downward trend. Inspection days per 1000 miles of gas pipe started at an abnormal high in 2012 & 2013 due to inspector training and 'team inspections', and the trend since then has been flat and per annual work plans. Inspector qualification is 100% for core training. Gas Distribution system leaks outstanding per 1000 miles is of small use and of small concern because of State wide efforts to improve pipeline systems.

DUNS: 604570572 2017 Gas State Program Evaluation South Dakota S. D. PUBLIC UTILITIES COMMISSION, Page: 11

Incident investigation program is being handled appropriately. Mary is reviewing the metrics on an annual basis.

Enforcement Program Evaluation is steady at 100%.

Discussion with State on accuracy of inspection day information submitted into State Inspection Day Calculation Tool (SICT) Has the State updated SICT data?

No = 0 Yes = 1

1

1

Evaluator Notes:

Yes. SD is okay with their SCIT results for them. The SCIT for SD projects about the same level of work as the old staffing formula. SD is not concerned in meeting the work requirements of SCIT.

Did the State verify Operators took appropriate action regarding Pipeline Flow Reversals,
 Product Changes and Conversions to Service? See ADP-2014-04
 Needs Improvement = .5 No = 0 Yes = 1

Evaluator Notes:

No known flow reversals in SD.

28 General Comments:

Info OnlyInfo Only

Info Only = No Points

Evaluator Notes:

No loss of points occurred in this section. SDPUC is adequately staffed. SDPUC expects to stay current in its inspection duties.

Total points scored for this section: 44 Total possible points for this section: 44

1	Does the state have written procedures to identify steps to be taken from the discovery to resolution of a probable violation? Chapter 5.1	4	4
	Yes = 4 No = 0 Needs Improvement = 1-3 a. Procedures to notify an operator (company officer) when a noncompliance is identified	Yes •	No Needs Improvement
	b. Procedures to routinely review progress of compliance actions to prevent delays or breakdowns	Yes •	No O Needs Improvement
	c. Procedures regarding closing outstanding probable violations	Yes 💿	No Needs Improvement
PHI	or Notes: MSA recommended SDPUC enhance language in procedures to better articulate the need to a appliance actions. Enhancement of their procedure was made at the time of discussion.	outinely	review progress of
2	Did the state follow compliance procedures (from discovery to resolution) and adequately document all probable violations, including what resolution or further course of action is needed to gain compliance? (Incident Investigations do not need to meet 30/90 day requirement) Chapter 5.1 Yes = 4 No = 0 Needs Improvement = 1-3	4	4
	a. Were compliance actions sent to company officer or manager/board member if municipal/government system?	Yes •	No Needs Improvement
	b. Document probable violations	Yes •	No Needs Improvement
	c. Resolve probable violations	Yes 💿	No Needs Improvement
	d. Routinely review progress of probable violations	Yes 💿	No Needs Improvement
	e. Within 30 days, conduct a post-inspection briefing with the owner or operator of the gas or hazardous liquid pipeline facility inspected outlining any concerns; and f. Within 90 days, to the extent practicable, provide the owner or operator with written	Yes •	No Needs Needs
SDI	preliminary findings of the inspection. or Notes: PUC followed the SD Administrative Rules and their Pipeline Safety Program procedures for rnings, Concerns, etc.	Yes ● all Prol	No O Improvement
3	Did the state issue compliance actions for all probable violations discovered? Yes = 2 No = 0 Needs Improvement = 1	2	2
	or Notes: a, all discovered probable violations were issued a compliance action.		
4	Did compliance actions give reasonable due process to all parties? Including "show cause" hearing if necessary. Yes = $2 \text{ No} = 0$	2	2
	or Notes: a, appropriate procedures and due process were followed.		
5	Is the program manager familiar with state process for imposing civil penalties? Were civil penalties considered for repeat violations (with severity consideration) or violations resulting in incidents/accidents? (describe any actions taken) Yes = 2 No = 0 Needs Improvement = 1	2	2
Yes	or Notes: t, the program manager is familiar with the state process and they consider penalties using a prescribed developed earlier.	pipeline	penalty calculation
6	Can the State demonstrate it is using their enforcement fining authority for pipeline safety violations?	1	1

Yes = 1 No = 0 Needs Improvement = .5 Evaluator Notes:

The SDPUC's last civil penalty was from a violation found in 2012, and collected in 2015. PHMSA reviewed the benefits for the using civil penalties in changing behavior and achieving compliance with some operators.

7 General Comments: Info Only = No Points Info OnlyInfo Only
