# 2012 Natural Gas State Program Evaluation -- CY 2012 Natural Gas

State Agency: Idaho Rating:

Agency Status: 60105(a): Yes 60106(a): No Interstate Agent: No

**Date of Visit:** 04/29/2013 - 05/03/2013 **Agency Representative:** Ellis Hire **PHMSA Representative:** Leonard Steiner

Commission Chairman to whom follow up letter is to be sent:

Name/Title: Paul Kjellander, President

**Agency:** Idaho Public Utilities Commission

**Address:** 472 West Washington Street, PO Box 83720

City/State/Zip: Boise, Idaho 83720-0074

#### **INSTRUCTIONS:**

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2012 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less then the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual progress report attachments provide the basis for determining the state's pipeline safety grant allocation.

### Field Inspection (PART G):

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART G, the PHMSA representative should include a written summary which thoroughly documents the inspection.

On May 1, 2013, I observed Ellis Hire, Idaho Program Manager and pipeine safety inspector, conduct a standard inspection of the facilities of Interstate Gas Company. Interstate Gas Company is a privately owned operator of distribution pipelines. I accompanied Mr. Hire to the site to meet representatives of the operator. Mr. Hire had coordinated the place to meet, time to meet and the needed personnel and equipment. The inspection was of the facilities south of Mountain Home, ID and in Owyhee County, ID. Mr. Hire had previously determine the facilities he needed to inspected and we were lead my operator personnel to those locations. Mr. Hire thoroughly inspected the pipeline facilities. During the exit interview, he noted that he had found no probable violations, but did note one area of concern. Mr. Hire was knowledgable and compentent and conducted the inspection is a courteous and professional manner.
