2011 Natural Gas State Program Evaluation -- CY 2011 Natural Gas

State Agency: Maryland Rating:

Agency Status: 60105(a): Yes 60106(a): No Interstate Agent: No

Date of Visit: 04/17/2012 - 04/30/2012 **Agency Representative:** John Clementson

PHMSA Representative: Dinubhai (Dino) Rathod

Commission Chairman to whom follow up letter is to be sent:

Name/Title: Douglas Nazarian, Chairman

Agency: Maryland Public Service Commission

Address: 6 St. Paul Street

City/State/Zip: Baltimore, Maryland 21022-6806

INSTRUCTIONS:

Complete this evaluation in accordance with the Procedures for Evaluating State Pipeline Safety Program. The evaluation should generally reflect state program performance during CY 2011 (not the status of performance at the time of the evaluation). All items for which criteria have not been established should be answered based on the PHMSA representative's judgment. A deficiency in any one part of a multiple part question should be scored as needs improvement. Determine the answer to the question then select the appropriate point value. If a state receives less then the maximum points, include a brief explanation in the space provided for general comments/regional observations. If a question is not applicable to a state, select NA. Please ensure all responses are COMPLETE and ACCURATE, and OBJECTIVELY reflect state program performance. Increasing emphasis is being placed on performance. This evaluation together with selected factors reported in the state's annual progress report attachments provide the basis for determining the state's pipeline safety grant allocation.

Field Inspection (PART G):

The field inspection form used will allow different areas of emphasis to be considered for each question. Question 13 is provided for scoring field observation areas. In completing PART G, the PHMSA representative should include a written summary which thoroughly documents the inspection.
