Railroad Maintenance of Way Employee Background Survey.....	4
Maintenance of Way Employee's Daily Log.....	11

Description of the Survey Data

The Federal Railroad Administration (FRA) sponsored a study of the work schedules and sleep patterns of railroad maintenance of way (MOW) workers. The purpose of this document is to describe the study's data files that are available at www.fra.dot.gov. A separate technical report describes the study methods and findings in detail (see reference below). The Office of Management and Budget approved this collection of information under OMB control number 2130-0561 on May 14, 2004. Data collection for this study occurred in July 2004.

Survey Methodology

The study collected data from a random sample of actively working U.S. railroad MOW workers. The study used two survey instruments, a background survey and a daily log. Copies of both instruments are a part of this document. The background survey gathered demographic information, descriptive data for the MOW worker's job type and work schedule, and a self-assessment of overall health. Study participants used the daily log to record sleep and work periods on both regular workdays and planned days off for a 2-week period.

The response rate for the survey was 31 percent. The accompanying files contain data for the 254 usable responses.

Data Files

Data from each participant's background survey and daily log are available in two files. The background survey data is in one file and the daily log data is in a separate file. A unique participant identification number appears in both files. Each of these data sets is provided in a separate Excel file.

Adjustments to the Data

Protecting the identity of the survey participants necessitated some modifications to the original dataset. A few categories of data are reported as ranges rather than as the raw reported data. For example, this is the case with the age data. For others, such as years of experience, top coding was employed to prevent identification of respondents with over 35 years of experience. Comparison of the survey instruments with the data file will reveal where these adjustments were made. The sex of the respondent does not appear in the data because of the extremely small number of women in the sample.

Description of the data items in each file

Each Excel file contains two tabs, one with the data and one with a description of each of the data items in that file.

Use of the Data

These data files are the property of the FRA. The data is being made available for researchers and others who are interested in the safety and health of the study population and in the relationship between work schedules and fatigue. Use of the data in books, journal articles, dissertations, theses, and other publications (print or electronic) is

authorized provided that the data is cited as “Federal Railroad Administration. (2008). *Data Files: Work schedules and sleep patterns of railroad maintenance of way workers*. Washington, DC: U.S. Department of Transportation.” and that FRA is notified of the publication (ATTN: Thomas G. Raslear, Federal Railroad Administration, Mail Stop 20, 1200 New Jersey Avenue, SE, Washington, DC 20590).

Railroad Maintenance of Way Employee Background Survey

Confidential

This collection of information is voluntary, and will be used for research purposes only, specifically to study work-related fatigue among railroad employees. Public reporting burden is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Please note that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this collection is 2130-0561.

Form FRA F6180.114 (12/03)

About Yourself

1. Age: ____ years
2. Sex: ____ male ____ female
3. How long have you been a maintenance of way employee?
____ years and ____ months
4. How long have you been a maintenance of way employee at your current railroad?
____ years and ____ months
5. What type of maintenance of way employee job do you currently work?
____ construction/production crew
____ track maintenance (non-production)
____ bridge and building (non-production)
____ bridge and building (production)
____ other (please explain) _____

6. What is your marital status?
____ single ____ divorced ____ other
____ married ____ widowed
7. How many children or other dependents do you have (not including your spouse)? _____
8. How many of your dependents are under the age of 2 years? _____
9. a) Do you drink caffeinated beverages?
____ yes ____ no
b) On average, how many cups and cans of these beverages do you drink per day? _____

Your Health

1. How many times have you called in sick in the last 6 months? ____ days
2. In general, how would you rate your health? Circle One:
Excellent Good Fair Poor
3. Some people feel younger or older than their biological age. How old do you feel? ____ years
4. Have you been diagnosed as having a sleep disorder?
____ Yes ____ No (skip question 5)
5. Are you receiving medical treatment for this condition?
____ Yes ____ No

Your Work Schedule

1. Please describe your job characteristics.
 - a) Circle the days you are scheduled to work over a two-week period:
S M T W Th F S S M T W Th F S
 - b) Start time ____
 - c) End time ____
 - d) Length of meal break ____ minutes
2. On average, how many hours do you work per week?

3. How often do you feel well rested and alert over the course of your work period? Circle one:
Never Occasionally Frequently Always
4. How often do you feel physically drained at the end of your work period? Circle one:
Never Occasionally Frequently Always

Stress at Work

Use the following scale to rate how much each factor below contributes to your stress at work:

No Stress	A Little Stress	Stressful	Very Stressful
1	2	3	4

Please assign a rating to *each* of the following items:

- ☐ On call schedule
- ☐ Responding to emergencies
- ☐ Lack of control over work schedule
- ☐ Loss of sleep
- ☐ Coordination with other departments
- ☐ Pressure to finish a job
- ☐ Ambiguous operating rules or procedures
- ☐ Management policies and decisions
- ☐ Travel to work site
- ☐ Job security
- ☐ Work rules
- ☐ Inadequate staffing
- ☐ Responsibility for safety of others
- ☐ Lodging at work site
- ☐ Equipment quality
- ☐ Equipment availability
- ☐ Uncertainty of next job location and/or project duration
- ☐ Other (please specify) _____

Sleeping Arrangements

Please complete this section only if your job requires you to travel.

1. When held away from home on company business, most times:

☐ I share a hotel room or camp car with one or more other workers.

☐ I sleep in an individual room, not shared with anyone.

☐ I sleep in my vehicle, camper, or tent.

2. When held away from home on company business, the company:

☐ Provides me with sleeping accommodations.

☐ Provides a daily per diem and I must find my own overnight accommodations.

☐ Does not provide either sleeping accommodations or daily per diem.

Life Events

Please indicate with a ✓ whether any of the events listed below has occurred to you in the last 6 months:

- ☐ Personal illness or injury
- ☐ Marital difficulties
- ☐ Birth of a child
- ☐ Death of a spouse
- ☐ Change in sleeping habits
- ☐ Difficulty with the law
- ☐ Illness/injury of family member or friend
- ☐ Financial difficulties
- ☐ Change in living conditions
- ☐ Change in social activities
- ☐ Death of a close family member

FRA F6180.115 (12/03)

Welcome...

and thank you for participating in this project. The purpose of this study is to assemble data on both work and sleep patterns of maintenance of way employees. The data that you record will serve as a history of your work and sleep patterns and how you feel throughout the day.

The study will examine the relationship between maintenance of way employees' work schedules and their level of alertness / fatigue.

Your participation is appreciated. Please contact us if you have any questions or comments.

Instructions

This log is divided into 14 sections, one for each day that you will be recording data. Each section contains both a Sleep and Nap Log and a Work Log.

Start a new section for each new day. On the section divider page, write the date and indicate whether or not this is a regular workday or a planned day off. Please start with Day 1. It is important that you provide data for 14 *consecutive* days.

When recording time, use the 2400 clock system. For example, 4:30 p.m. is 1630.

Complete the Sleep and Nap Log for every day of the study. Complete the Work Log for those days that you work.

If for any reason you do not record data at the appointed time, fill out your log as soon as possible to the best of your ability.

Sleep and Nap Log

Make entries on this log *upon awakening* and *at bedtime every day*. In addition, if you took any naps, enter this information in the log.

Work Log

Make entries on the work log at the *start of your workday* when you arrive at your workplace, *during your lunch break* and at the *end of the workday* when you arrive home.

You should use the *unscheduled work period* section of the log *only* if you were called back to work on a weekend or other day that is a planned day off, or on a regular workday after you left your workplace. If you did not work an unscheduled work period, then leave this section blank.

Study Compensation

Complete the last page of this log book to indicate your preference for the study compensation.

Day 1

Date ____/____/2004

Today is: ☐ regular workday
☐ planned day off

Sleep and Nap Log

Upon Awakening
Sleep Location

Home ☐ Away from home ☐

Time you went to bed	
Time you fell asleep	
Time you woke up	
Time you got up	
Number of awakenings during the night	

Rate your sleep

Ease of falling asleep

1	2	3	4	5
Very difficult			Very easy	

Ease of getting up

1	2	3	4	5
Very difficult			Very easy	

Length of sleep

1	2	3	4	5
Wholly insufficient			More than sufficient	

Quality of sleep

1	2	3	4	5
Very poor			Very good	

Indicate how you feel now

1	2	3	4	5
Very sleepy			Very alert	

Complete if you took any naps, or had subsequent sleep after unscheduled work period or other nighttime interruption

Nap 1

Time fell asleep	
Time awoke	

Nap 2

Time fell asleep	
Time awoke	

At Bedtime

Indicate how you feel now

1	2	3	4	5
Very sleepy			Very alert	

Comments on today's sleep experience: _____

Work Log

Start of workday

Construction/production jobs only if applicable

Time you began travel to lodging/rally point	
Time you arrived at lodging/rally point	

All maintenance of way employees

Time you began commute to worksite	
Time you reported to worksite	

Indicate how you feel now

1	2	3	4	5
Very sleepy				Very alert

During lunch break

Time at start of lunch break _____

Indicate how you feel now

1	2	3	4	5
Very sleepy				Very alert

End of workday when you arrive home or at lodging

Longest time period you worked today without a break (A break is considered a minimum of 15 minutes of rest from work)	hr	min
Time you completed today's work period (include unscheduled hours if there was no break between regular and extra work)		
Time you arrived home or at lodging		

Indicate how you feel now

1	2	3	4	5
Very sleepy				Very alert

After unscheduled work period(s), if any

Period 1

Time you were called to report back to work	
Time you reported back to work	
Time you completed unscheduled work period	
Time you arrived home or at lodging	

Indicate how you feel now

1	2	3	4	5
Very sleepy				Very alert

Period 2

Time you were called to report back to work	
Time you reported back to work	
Time you completed unscheduled work period	
Time you arrived home or at lodging	

Indicate how you feel now

1	2	3	4	5
Very sleepy				Very alert

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. On the right side, there is a vertical margin line, creating a narrow right margin. The paper appears to be from a notebook or a standard ruled document.
