

FOR FURTHER INFORMATION CONTACT:

Peggy Reitzel, Policy Division,
International Bureau, (202) 418-1449.

SUPPLEMENTARY INFORMATION:

On December 7, 2001 (66 FR 63512), the **Federal Register** published a summary of the final rule in the above captioned proceeding. Instruction 5 of the rules amended § 25.208 by revising paragraph (c), removing paragraph (d), and redesignating paragraph (e) as paragraph (d) and paragraph (f) as paragraph (e). In redesignating paragraph (e) as paragraph (d), the instructions neglected to revise paragraph (d) of § 25.208(d). This document corrects § 25.208(d).

On page 63515, in the third column, instruction 5 is corrected to read as follows:

5. Section 25.208 is amended by removing paragraph (d), redesignating paragraphs (e) and (f) as paragraphs (d) and (e) and by revising paragraph (c) and newly designated paragraph (d) to read as follows:

§ 25.208 Power flux-density limits.

* * * * *

(c) In the 18.3–18.8 GHz, 19.3–19.7 GHz, 22.55–23.00 GHz, 23.00–23.55 GHz, and 24.45–24.75 GHz frequency bands, the power flux-density at the Earth's surface produced by emissions from a space station for all conditions for all methods of modulation shall not exceed the following values:

(1) – 115 dB (W/m²) in any 1 MHz band for angles of arrival between 0 and 5 degrees above the horizontal plane.

(2) – 115 + 0.5 (d–5) dB (W/m²) in any 1 MHz band for angles of arrival d (in degrees) between 5 and 25 degrees above the horizontal plane.

(3) – 105 dB (W/m²) in any 1 MHz band for angles of arrival between 25

and 90 degrees above the horizontal plane.

(d) In addition to the limits specified in paragraph (c) of this section, the power flux-density across the 200 MHz band 18.6–18.8 GHz produced at the Earth's surface by emissions from a space station under assumed free-space propagation conditions shall not exceed – 95 dB (W/m²) for all angles of arrival. This limit may be exceeded by up to 3 dB for no more than 5% of the time.

[Docket No. RSPA–97–2762; Amdt. 195–76]

RIN 2137–AD24

Pipeline Safety: Pipeline Integrity Management in High Consequence Areas (Hazardous Liquid Operators With Less Than 500 Miles of Pipelines)

AGENCY: Research and Special Programs Administration (RSPA), U.S. Department of Transportation (DOT).

ACTION: Final rule; correction.

SUMMARY: In the **Federal Register** of January 16, 2002, (67 FR 2136) we published a Final Rule extending the regulations on managing the integrity of

hazardous liquid and carbon dioxide pipelines that affect high consequence areas to operators with less than 500 miles of regulated pipelines. Inadvertently, the date after which prior integrity assessments may qualify for use was incorrectly stated. This document corrects that error.

DATES: This correction takes effect February 15, 2002.

FOR FURTHER INFORMATION CONTACT: L. M. Furrow by phone at 202–366–4559, by fax at 202–366–4566, by mail at U.S. Department of Transportation, 400 Seventh Street, SW., Washington, DC 20590, or by E-mail at buck.furrow@rspa.dot.gov.

SUPPLEMENTARY INFORMATION: We published a Final Rule document in the **Federal Register** of January 16, 2002, (67 FR 2136), extending the regulations on managing the integrity of hazardous liquid and carbon dioxide pipelines that affect high consequence areas to operators with less than 500 miles of regulated pipelines. In § 195.452(d)(2), the date after which prior assessments may qualify for use was incorrectly published as December 18, 2006. The correct date is February 15, 1997.

In FR Doc. 01–31655, published January 16, 2002, (67 FR 2136), make the following correction: On page 2144, correct the table in the second column by removing the date “December 18, 2006” and adding “February 15, 1997”, in its place.

Issued in Washington, D.C. on July 12, 2002.

Ellen G. Engleman,

Administrator.
