Ref. No. 03-0216

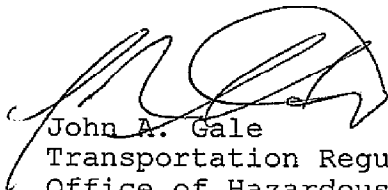

Dear Ms. Yount:

This is in response to your letter dated August 26, 2003, requesting information pertaining to the recent security plan requirements under the hazardous materials regulations (HMR; 49 CFR Parts 171-180); Docket HM-232; "Security Requirements for Offerors and Transporters of Hazardous Materials, Final Rule" (68 FR 14510; March 25, 2003). Specifically you ask if the security plan applies to propane shipped in a 2,400 gallon capacity cargo tank motor vehicle.

Yes. The requirements for a security plan apply to those persons who meet the applicability criteria specified in § 172.800. Also, note the additional security awareness and in-depth security training requirements specified in § 172.704. A copy of the HM-232 final rule, the security awareness CD-ROM, and the Hazardous Materials Safety Pack (including a security guidelines brochure) are enclosed.

I hope this satisfies your request.

Sincerely,

John A. Gale
Transportation Regulations Specialist
Office of Hazardous Materials Standards

I seen in the LPGA's mag-
where RSPA has released the
paperwork requirements for the new
Hazardous Materials Security Plan.
Could you please send us a copy
& any info. you may have on it!!

I am unsure if we are even
to have one in writing. - It's
just my husband as the driver &
myself in the office. We have
no employees - A 18,000gal. storage
tank & two bob-tail trucks (2,400
& 2,600 gallon.) We have about
600 customers & their all in Missouri

Any info you could send us would
really be appreciated! Thanks
Toni Yount
